# ANNUAL REPORT

OF THE

## COMMISSIONER OF THE GENERAL LAND OFFICE

FOR THE

FISCAL YEAR ENDING JUNE 30, 1892:

Dated JULY 1, 1892.

WASHINGTON:  
GOVERNMENT PRINTING OFFICE.  
1892.

Bureau of Land Management  
Library  
Denver Service Center

REPORT  
OF THE  
COMMISSIONER OF THE GENERAL LAND OFFICE.

---

DEPARTMENT OF THE INTERIOR,  
GENERAL LAND OFFICE,  
Washington, D. C., July 1, 1892.

SIR: I have the honor to submit the following as my annual report of the business transacted by the General Land Office during the fiscal year ending June 30, 1892, a careful reading of which will demonstrate that the liberal and just policy toward the settlers upon our public domain, adopted by you at the beginning of this administration, has been productive of very satisfactory and beneficent results.

I felt justified in predicting in my annual report of last year, that with the force then at command, the business of this Bureau would be brought up abreast with current work by the end of the fiscal year just closed. It is gratifying to me to now be able to report to you that a literal fulfillment of that prediction has been fully consummated.

In order that the magnitude of the work done during the last fiscal year may be readily comprehended, and the results accomplished fully appreciated, I feel warranted in referring to and discussing briefly the policy that governed and controlled the business of this office under the last administration from 1885 to 1889.

Commissioner Sparks, on page 48 of his annual report for the fiscal year ending June 30, 1885, said:

At the outset of my administration I was confronted with overwhelming evidences that the public domain was being made a prey of unscrupulous speculation and the worst forms of land monopoly through systematic fraud carried on and consummated under the public land laws.

He further stated in the same report, in discussing the subject of commuted homesteads, that the proportion of *fraudulent* entries of this kind could be more nearly estimated at the *whole number* of such entries than in any other manner; that the average proportion of *fraudulent homestead entries*, made for five years settlement, was estimated at about 40 per cent.; that the proportion of *fraudulent preëmption filings* to the total number of filings made and relinquished should be

estimated in round numbers at exactly *100 per cent.*, and that *90 per cent.* of all timber-culture entries were *fraudulent*.

Having become wrongfully imbued with the idea that nearly all, or, at least, a very large proportion of the entries made upon the public domain were fraudulent and that the great body of well disposed settlers were unscrupulous speculators, it is not surprising that Commissioner Sparks, on April 3, 1885, issued an order suspending action on all entries (except on certain scrip locations and on private cash entries), in the whole of Colorado, except the Ute reservation, and in all of Dakota, Idaho, Utah, Washington, New Mexico, Montana, Wyoming, and portions of Kansas, Nebraska, and Minnesota.

The detrimental effect of this and other similar sweeping orders and of the mistaken impression and policy which prompted them, upon the business of this office, can best be understood by referring to my report to you last year wherein it was stated—

While this order was modified at a later date the spirit which prompted it controlled the administration of the land laws for many years. The great body of honest settlers were erroneously tainted with suspicion created by the acts of a very small percentage of evil-disposed persons.

On vague and indefinite charges large numbers of public land entries were suspended pending investigations conducted at the expense of the Government to discover supposed frauds. Suspected settlers were required to travel to local land offices in every public land State and Territory to furnish proof of the good faith on their part, which the law presumes in every man's favor until the want of it is in some way affirmatively shown.

The energies of the working force of the Bureau were diverted from customary duty and employed in an apparent effort to discover how to avoid transacting public business. In consequence of this policy thousands of well-meaning settlers were burdened with heavy expense they were ill able to bear, and all business in the public land States and in the Territories was very injuriously affected. Titles became unsettled, and the pioneer, engaged in clearing the way for advancing civilization, for the first time in a quarter of a century was made to feel that the power of the Government was arrayed against him. Efforts made to establish the wholesale charge preferred against settlers practically failed, as the records of the Bureau show. Nevertheless, land patents were very slowly and reluctantly issued between the close of the fiscal years ending June 30, 1885, and June 30, 1889.

As a consequence, this administration on assuming the reins of government in 1889, was "confronted" by a land system greatly demoralized in all its ramifications. Injustice, or a denial of justice, under the machinery of the law was its dominant feature. The settler, who had honestly and laboriously, and at much hazard and heavy expense complied in good faith with all the requirements of the laws, outraged and indignant at the multiplied injuries inflicted on him by maladministration, demanded a patent, *a title*, to the land he had by settlement, cultivation, and compliance with the law fully earned.

Thus, by reason of this erroneous and mistaken policy, the legitimate channels of business in this office had become clogged, and by reason of wrongful delays a vast amount of work had accumulated, there being at the close of the fiscal year ending June 30, 1888, 350,953 entries of

all kinds pending or awaiting consideration. Under these circumstances a change of policy was deemed necessary. Hence, shortly after March 4, 1889, a new administrative policy, based on a liberal and enlightened interpretation of the public land laws, was adopted by you, and has been continued during the intervening fiscal years. Under this new policy settlers are presumed to be honest and well disposed towards the Government and the laws, and public land business has been expedited with marked beneficent results.

On March 3, 1891, a law was passed entitled "An act to repeal the timber-culture law, and for other purposes," in which Congress manifested its approval of the new policy. Under and by virtue of section 7 of that law, large numbers of cases, long suspended on the merest suspicion of fraud or under harsh technical rulings, have been and are being passed to patent in a manner which, while greatly facilitating business, also supplies ample safeguards against all possible fraud.

In virtue of this marked and beneficial change of policy, and under the favorable legislation mentioned, the large number of accumulated entries above stated, together with an addition of 318,036 entries received since the present policy was inaugurated, had, on June 30, 1892, been carefully considered and proper action taken thereon.

Inasmuch as the accomplishment of this vast amount of work is attributed largely to a change of policy adopted by the present administration, comparative tables covering the respective periods mentioned are herewith submitted, and a careful inspection thereof invited.

*Agricultural patents issued.*

During fiscal year ending June 30—	No.	Area.	During fiscal year ending June 30—	No.	Area.
		<i>Acres.</i>			<i>Acres.</i>
1885.....	71,131	11,380,960	1889.....	70,141	11,222,560
1886.....	19,885	3,181,600	1890.....	117,247	18,759,520
1887.....	24,558	3,929,280	1891.....	114,360	18,297,600
1888.....	47,180	7,548,800	1892.....	96,380	15,420,800
Total .....	162,754	26,040,640	Total .....	398,128	63,700,480

RECAPITULATION.

	No.	Acreage.
Total agricultural patents issued from—		
1885 to 1888.....	162,754	26,040,640
1888 to 1892.....	398,128	63,700,480
Excess.....	235,374	37,659,840

Or an excess, during the four fiscal years ending June 30, 1892, over the four years ending June 30, 1888, in the number and acreage of agricultural patents issued, of nearly 145 per cent., substantially clearing the docket and leaving the office on July 1, 1892, virtually free to attend to current business as it arises.

*Mineral and coal patents issued.*

During fiscal year ending June 30—	Mineral.	Coal.	During fiscal year ending June 30—	Mineral.	Coal.
1885 .....	510	29	1889 .....	913	155
1886 .....	675	15	1890 .....	1,407	224
1887 .....	1,489	53	1891 .....	1,792	226
1888 .....	1,034	114	1892 .....	3,242	80
Total .....	3,708	211	Total .....	7,354	685

## RECAPITULATION.

	Mineral.	Coal.
Total patents issued from—		
1885 to 1888 .....	3,708	211
1888 to 1892 .....	7,354	685
Excess in 1892 .....	3,646	474

Or an excess, during the four fiscal years ending June 30, 1892, over the four years ending June 30, 1888, in the number of mineral patents issued, of 98 per cent., and in the number of coal patents issued of 224 per cent., clearing the mineral and coal dockets, and passing to the people and the States and nation millions of permanent wealth.

*Educational and internal improvement selections.*

During fiscal year ending June 30—	Acres.	During fiscal year ending June 30—	Acres.
1885 .....	140,023.59	1889 .....	132,350.61
1886 .....	69,365.89	1890 .....	539,779.84
1887 .....	25,992.36	1891 .....	756,172.91
1888 .....	99,205.42	1892 .....	598,660.33
Total .....	334,587.26	Total .....	2,026,963.69

## RECAPITULATION.

	Acres.
Total selections made from—	
1885 to 1888 .....	334,587.26
1889 to 1892 .....	2,026,963.69
Excess in 1892 .....	1,692,376.43

Or an excess of educational and internal improvement selections made during the four fiscal years ending June 30, 1892, over the four years ending June 30, 1888, of over 500 per cent.

## SURVEYS AND RESURVEYS.

In the matter of surveys and resurveys during the same periods, like beneficent results were maintained. In the first period the average area annually surveyed was 2,715,302.08 acres, and in the last period, 8,425,396.15 acres, or an area nearly four times greater surveyed in the last period ending June 30, 1892, than in the first ending June 30, 1888.

## DISPOSAL OF PUBLIC LANDS.

The following is a statement of the acreage of public lands disposed of during the fiscal year ending June 30, 1892.

## CASH SALES.

	Acres.
Private entries.....	15, 071. 65
Public auction, sales at .....	3, 211. 26
Preëmption entries .....	913, 782. 94
Timber and stone land entries.....	137, 539. 90
Mineral-land entries .....	36, 540. 92
Desert-land entries .....	441, 473. 46
Excesses on homestead and other.....	13, 591. 23
Coal-land entries.....	5, 935. 43
Lassen County desert-land entries.....	2, 079. 75
Town-site entries .....	1, 637. 56
Supplemental payments.....	293. 73
Substitute for warrant.....	160. 00
Abandoned military reservation (Fort Jessup).....	160. 28
Total .....	1, 571, 478. 11

## MISCELLANEOUS.

Homestead entries (original).....	7, 716, 062. 33
Timber-culture entries (original).....	41, 374. 96
Entries with—	
Military bounty land warrants .....	13, 253. 90
Agricultural college scrip .....	29, 653. 44
Private land scrip .....	3, 397. 95
Valentine scrip .....	617. 88
Sioux half-breed scrip .....	160. 00
Railroad selections .....	2, 765, 443. 14
State selections, school, swamp, etc .....	1, 262, 339. 82
Wagon-road selections .....	8, 159. 71
Indian allotments.....	122, 776. 39
Donation claims .....	480. 00
Original swamp selections .....	29, 954. 92
Arrelanos scrip locations.....	1, 400. 00
	11, 995, 074. 44
Total area of public land entries and selections.....	13, 566, 552. 55

## INDIAN LANDS.

Umatilla.....	
Cherokee school lands .....	360. 89
Ute.....	81, 893. 21
Sioux .....	5, 009. 64
Osage trust and diminished reserve.....	4, 640. 20
New York .....	2, 830. 61
Absentee Shawnee .....	80. 00
Flathead .....	1, 666. 45
Omaha .....	680. 00
Ponca .....	305. 88
	97, 466. 88
Grand total.....	13, 664, 019. 43

## 8 REPORT OF COMMISSIONER OF THE GENERAL LAND OFFICE.

## RECAPITULATION.

Area sold for cash.....	1, 571, 478. 11
Miscellaneous entries.....	11, 995, 074. 44
Indian lands .....	97, 466. 88
Aggregate .....	13, 664, 019. 43

The foregoing does not include the following entries, the areas of which have been previously reported in the "original entries" of the respective classes:

Commutated homesteads (sec. 2301, R. S.) .....	383, 699. 82
Commutated homesteads (act June 15, 1880).....	1, 001. 22
Commutated timber-culture entries (act March 3, 1891).....	379, 344. 51
Final homestead entries.....	3, 259, 897. 07
Final timber-culture entries.....	567, 715. 26
Final desert-land entries .....	202, 022. 53

Total area previously reported..... 4, 793, 680. 41

The filings made and the fees therefrom are stated in the annexed table:

Kind of filings.	Number of filings.	Fees.
Preëmption.....	1, 883	\$5, 300
Homestead.....	2, 688	5, 455
Coal.....	1, 040	3, 104
Indian .....	28	56
Valentine scrip .....	3	3
Lassen County desert.....	203	609
Town site.....	7	14
Mineral applications.....	1, 378	13, 780
Timber and stone applications .....	1, 001	10, 010
Mineral adverse claims.....	8, 231	33, 331
	218	2, 180
Total.....	8, 449	40, 511

## CASH RECEIPTS.

The following is a statement of the cash receipts of the office from various sources during the fiscal year ending June 30, 1892:

Sales of land subject to private entry .....	\$18, 779. 61
Sales of land at public auction.....	7, 535. 08
Sales of land subject to preëmption entry .....	1, 238, 551. 63
Sales of timber and stone lands .....	343, 826. 40
Sales of mineral lands .....	144, 181. 76
Sales of desert lands (original).....	116, 287. 05
Sales of desert lands (final).....	210, 929. 93
Commutated homesteads under section 2301, Revised Statutes .....	535, 333. 72
Commutated homesteads under act June 15, 1880 .....	1, 311. 50
Commutated timber-culture entries (act March 3, 1891) .....	474, 917. 85
Excesses on homestead and other entries .....	19, 449. 63
Sales of coal lands.....	114, 708. 60
Sales of town lots .....	85, 320. 00
Sales of town sites.....	3, 996. 40
Supplemental payments .....	4, 325. 82

Competitive bids .....	\$10.00	
Substitute for warrant .....	200.00	
Cash substitution .....	400.00	
Sales of Lassen County desert lands .....	2,599.68	
Sales of abandoned military reservation (Fort Jessup) .....	200.35	
		<hr/>
Total cash sales .....	3,322,865.01	
Homestead fees and commissions .....	\$887,299.90	
Timber-culture fees and commissions .....	19,212.65	
Fees on military bounty land warrant locations .....	451.00	
Fees on scrip locations .....	24.00	
Fees on donation claims .....	15.00	
Fees on State selections .....	15,431.71	
Fees on railroad selections .....	34,643.37	
Fees on wagon-road selections .....	102.00	
Fees on preëmption and other filings .....	40,511.00	
Fees for reducing testimony to writing, etc .....	67,114.63	
		<hr/>
	1,064,805.26

20,211	2,610,583.94		171,974.46			689,061.93	

Net decrease in final entries 5,184; in acres, 1,181,087.60. Net increase in original entries, 11,755; in acres, 1,789,078.16.

## ISSUE OF PATENTS FOR LANDS DISPOSED OF.

## AGRICULTURAL PATENTS ISSUED.

The class of patents embraced under this subhead includes all patents issued on final and commuted homestead entries; on prëemption, timber-culture, desert, private cash, town-site, and other entries embracing land of an agricultural, nonmineral character. The number of such agricultural patents issued during the fiscal year ending June 30, 1892, was 96,380, which, allowing 160 acres to each patent, would embrace an aggregate of 15,420,800 acres as against 114,360 patents and 18,297,600 acres during the previous fiscal year, showing a decrease of 17,980 in number of patents, and of 2,876,800 in estimated aggregate acreage, as compared with the fiscal year ending June 30, 1891.

## MINERAL PATENTS.

Of mineral and mill-site patents, 3,242 were issued, as against 1,792 during the previous fiscal year, an increase of 1,450 patents. Of coal patents, 80 were issued, as against 226 patents during the previous year, a decrease of 146, and including an area of 10,976.74 acres, as against an area during the previous year of 31,728.65 acres, or a decrease in area of 20,751.91 acres.

In the following exhibit are shown the States and Territories in which mineral and mill-site and coal-land patents were issued:

States and Territories.	Coal land.		Mineral and mill-site.
	No.	Area.	
		<i>Acres.</i>	
Alaska.....			10
Arkansas.....			4
Arizona.....			70
California.....	1	40.00	314
Colorado.....	25	3,948.6775	1,341
Idaho.....	1	80.00	126
Montana.....	9	1,240.00	611

Wyoming.....	15	1,704.24	33
Total.....	80	10,976.74	3,242

## RAILROAD LANDS PATENTED.

There were patented (or certified with the effect of patenting) for the benefit of railroad companies under Congressional grants during the fiscal year ending June 30, 1892, 2,018,553.64 acres, as shown in the following table:

Union Pacific Railway Company:	Acres.
Colorado.....	53,017.82
Kansas.....	543,346.21
	<hr/> 596,364.03

	Acres.
Atlantic and Pacific Railroad Company, Arizona.....	373, 099. 38
Southern Pacific, California.....	804, 401. 16
Northern Pacific, North Dakota.....	214, 626. 12
Hastings and Dakota Railroad Company, Minnesota.....	28, 252. 09
Southern Minnesota Railway Company, Minnesota.....	1, 810. 86
Total.....	2, 018, 553. 64

As against an area patented to railroads during the last fiscal year of 3,088,679.23 acres, showing a decrease of 1,070,125.59 acres.

SWAMP LAND PATENTS.

The following statement shows the acreage, by States, of swamp lands patented during the year, also the acreage selected by the States and approved by this office, and the aggregate area of such lands patented to the States since the date of the grant:

Swamp lands selected, approved, and patented during the fiscal year ending June 30, 1892.

States.	Selected.	Approved.	Patented.	Total paten- ted since date of grants.
	Acres.	Acres.	Acres.	Acres.

Oregon.....		18, 033. 24	1, 308. 21	200, 426. 63
Wisconsin.....				3, 347, 828. 16
Total.....	29, 954. 92	147, 446. 52	176, 097. 98	57, 793, 549. 93

During the fiscal year ending June 30, 1891, an area of 408,127.55 acres was patented to the several States under the swamp-land grants; but during the period covered by this report only 176,097.98 acres were patented, making a decrease of 232,029.57 in the last fiscal year over the previous fiscal year. The principal cause of the decrease is explained by the fact that during the last fiscal year more labor was devoted to the adjustment of conflicts between homestead, preëmption, and cash entries and warrant locations and the claims of the States—as required by the regulations of September 19, 1891—than on claims for swamp lands in place.

SELECTIONS APPROVED FOR EDUCATIONAL AND OTHER PURPOSES.

The approvals during the year under the grants to the several States for educational and other purposes embraced an area of 598,660.33 acres,

# 14 REPORT OF COMMISSIONER OF THE GENERAL LAND OFFICE.

The following exhibit gives the detail by States:

State.	Grant.	Approved.
Alabama .....	University .....	<i>Acres.</i> 122. 23
California .....	School indemnity .....	18, 043. 13
Do .....	Internal improvement .....	40. 00
Colorado .....	School indemnity .....	289, 084. 72
Florida .....	do .....	692. 49
Louisiana .....	do .....	4, 229. 00
Montana .....	State Reform School .....	642. 32
Do .....	State normal schools .....	2, 564. 84
Do .....	School of Mines .....	1, 277. 26
Do .....	Militia camp ground .....	640. 00
Do .....	Public buildings .....	4, 486. 92
Do .....	Deaf and Dumb Asylum .....	640. 00
Nevada .....	School indemnity .....	276, 037. 42
Washington .....	University .....	160. 00
Total .....		598, 660. 33

With the exceptions below mentioned the above approvals have the effect of a patent. The selections for university purposes in Alabama under the act of April 23, 1884, aggregating 46,070.68 acres, inclusive of the selection in the above statement, were patented during the year, the act requiring issue of patents; and all of those for Montana approved during the year, except for a militia camp ground, being for land in the Fort Ellis military reservation, have been patented as required by the act of February 13, 1891.

The above-stated acreage of 598,660.33 acres, against an area during the previous fiscal year of 756,172.91 acres, shows a decrease of 157,512.58 acres. However, the actual work performed was fully equal to that of the previous year, because the proportion of school indemnity selections approved during the last year, requiring examinations of losses and deficiencies as well as of the selected tracts, was much greater than in the previous year.

## INDIAN AND MISCELLANEOUS PATENTS.

The exhibit following shows the area of the land patented, and the States and Territories where located, during the year, on private land claims, donations, and Indian allotments, or selections in severalty, and scrip locations finally approved:

*Indian and miscellaneous patents issued during year ending June 30, 1892.*

States and Territories.	Acres.	States and Territories.	Acres.
Alabama .....	7, 864. 92	Ohio .....	80. 00
Arizona .....	41, 608. 33	Oregon .....	1, 732. 11
California .....	30, 005. 58	Oklahoma Territory .....	849, 613. 11
Florida .....	5, 304. 43	Washington .....	639. 76
Indian Territory .....	37, 680. 03	Wisconsin .....	65, 402. 13
Louisiana .....	696. 06		
Michigan .....	5, 360. 00	Total .....	1, 046, 466. 46
Nebraska .....	480. 00		

Or an increase in area, as compared with the previous fiscal year, of 801,865.72 acres, the area patented during that year having been 244,600.74 acres.

*Recapitulation of patents issued as stated in the foregoing.*

Patents.	1891.	1892.	Increase.	Decrease.
	<i>Acres.</i>	<i>Acres.</i>	<i>Acres.</i>	<i>Acres.</i>
Agricultural.....	18,297,600.00	15,420,800.00	-----	2,876,800.00

<b>Total .....</b>	<b>22,826,909.08</b>	<b>19,271,555.15</b>	<b>801,865.72</b>	<b>4,357,219.65</b>

Total net decrease, 3,555,353.15.

## SURVEYS OF PUBLIC LANDS.

During the fiscal year ending June 30, 1892, surveys have been accepted, after an examination in the field and careful comparison with the examiners' reports and inspection of the plats and field notes in this office, as follows:

States and Territories.	Acres.	States and Territories.	Acres.
Arizona.....	189,854	Nevada.....	346,760
California.....	192,732	New Mexico.....	64,402
Colorado.....	511,576	Oregon.....	209,313
South Dakota.....	3,732,328	Utah.....	1,002,227
North Dakota*.....	572,819	Washington.....	166,032
Idaho.....	683,949	Wyoming.....	1,319,557
Louisiana.....	33,796	Oklahoma.....	1,434,884
Minnesota.....	1,096,049		
Montana.....	1,161,215	<b>Total.....</b>	<b>12,717,493</b>

\* 572,775 acres of this aggregate were contracted for before Dakota Territory was admitted as two States, and were reported by the United States surveyor-general of South Dakota, although lying in North Dakota. This return as given shows the proper amount surveyed in each State.

The appropriation by act approved March 3, 1891, for the survey and resurvey of the public lands for the fiscal year ending June 30, 1892, was \$400,000, of which sum \$40,000 was authorized to be applied to the examination of surveys, etc.

The said act provided also as follows, viz:

That in expending this appropriation preference shall be given in favor of surveying townships occupied, in whole or in part, by actual settlers, and of lands granted to the States by the act approved February 22, 1889, and the acts approved July 3 and July 10, 1890, and other surveys shall be confined to lands adapted to agriculture and lines of reservations.

With reference to rates of mileage, the act repeated the enactment of the previous year authorizing the allowance—

For the survey of lands heavily timbered, mountainous, or covered with dense undergrowth, rates not exceeding \$13 per linear mile for standard and meander lines, \$11 for township, and \$7 for section lines, or if, in cases of exceptional difficulties in

the surveys, the work can not be contracted for at these rates, compensation for surveys and resurveys may be made by the said Commissioner, with the approval of the Secretary of the Interior, at rates not exceeding \$18 per linear mile for standard and meander lines, \$15 for township, and \$12 for section lines: *Provided further*, That in the States of Washington and Oregon there may be allowed, with the approval of the Secretary of the Interior, for the survey of lands heavily timbered, mountainous, or covered with dense undergrowth, rates not exceeding \$25 per linear mile for standard and meander lines, \$23 for township, and \$20 for section lines; and said rates in contracts hereafter made shall apply to the unexpended balances assigned to said States of the appropriation for the current fiscal year.

After deducting \$40,000 for examination of surveys in the field, the amount of the appropriation actually available for public surveys and resurveys and applicable to all surveying districts was \$360,000, which was apportioned as follows:

Districts.	Amount.	Districts.	Amount.
Arizona.....	\$5,000	Oregon.....	\$20,000
California.....	10,000	Utah.....	5,000
Colorado.....	12,000	Washington.....	64,000
South Dakota.....	25,000	Wyoming.....	30,000
North Dakota.....	25,000	Public land strip.....	35,000
Idaho.....	35,000	Boundary Yellowstone Park.....	8,000
Minnesota.....	10,000	Reserve fund for contingencies.....	20,000
Montana.....	50,000		
New Mexico.....	6,000	Total.....	360,000

The annual surveying instructions for the fiscal year ending June 30, 1892, read as follows:

By the act of Congress approved March 3, 1891, making appropriations for sundry civil expenses of the Government for the fiscal year ending June 30, 1892, and for other purposes, there was appropriated:

“For surveys and resurveys of public lands, four hundred thousand dollars, at rates not exceeding nine dollars per linear mile for standard and meander lines, seven dollars for township, and five dollars for section lines: *Provided*, That in expending this appropriation preference shall be given in favor of surveying townships occupied, in whole or in part, by actual settlers, and of lands granted to the States by the act approved February twenty-second, eighteen hundred and eighty-nine, and the acts approved July third and July tenth, eighteen hundred and ninety; and other surveys shall be confined to lands adapted to agriculture and lines of reservations, except that the Commissioner of the General Land Office may allow, for the survey of lands heavily timbered, mountainous, or covered with dense undergrowth, rates not exceeding thirteen dollars per linear mile for standard and meander lines, eleven dollars for township, and seven dollars for section lines, and if in cases of exceptional difficulties in the surveys, the work cannot be contracted for at these rates, compensation for surveys and resurveys may be made by the said Commissioner, with the approval of the Secretary of the Interior, at rates not exceeding eighteen dollars per linear mile for standard and meander lines, fifteen dollars for township, and twelve dollars for section lines: *Provided further*, That in the States of Washington and Oregon there may be allowed, with the approval of the Secretary of the Interior, for the survey of lands heavily timbered, mountainous, or covered with dense undergrowth, rates not exceeding twenty-five dollars per linear mile for standard and meander lines, twenty-three dollars for township, and twenty dollars for section lines; and said rates, in contracts hereafter made, shall apply to the unexpended balances assigned to said States of the appropriation for the current fiscal

year. And of the sum hereby appropriated, not exceeding forty thousand dollars may be expended for the examination of public surveys in the several surveying districts in order to test the accuracy of work in the field, and to prevent payment for fraudulent and imperfect surveys returned by deputy surveyors and for examinations of surveys heretofore made and reported to be defective or fraudulent; and inspecting mineral deposits, coal fields, and timber districts, and for making such other surveys or examinations as may be required for identification of lands for purposes of evidence in any suit or proceeding in behalf of the United States; and out of the sum herein appropriated for surveying the public lands the Commissioner of the General Land Office, with the approval of the Secretary of the Interior, may assign a sum sufficient to complete the survey of the public land strip, otherwise known as No Man's Land."

From the \$360,000 available for apportionment among the several surveying districts there is hereby apportioned to the district of ——— the sum of \$———.

The fund provided for examinations will be retained under the direct control of this office, and expended in the main for the maintenance of a corps of competent examiners, who will be detailed according to the exigencies of the service in the several surveying districts. A few cases may arise when it will be found more convenient and less expensive to have examinations made under the immediate supervision of the surveyor-general, and in such cases the question of the assignment of sums sufficient to enable the surveyor-general to have the examination made, will be considered.

The law requires that in expending this appropriation preference shall be given in favor of surveying townships occupied in whole, or in part, by actual settlers, and of lands granted to the States by the act approved February 22, 1889, and the acts approved July 3 and July 10, 1890; hence, in taking measures for the letting of contracts it will be your first duty to ascertain the localities in which there are bona fide settlers, and the funds should be so applied as to benefit the greatest possible number of settlers.

All contracts for subdivisional surveys, when transmitted to the office, should be accompanied by *evidences of settlement* on the lands in the townships embraced in said contract. Said evidences are usually applications or petitions for survey signed by the *actual settlers on the lands*, together with the affidavits of the settlers, setting forth length of residence on their claims, and the nature, extent, and value of the improvements made thereon.

It has been brought to my attention that in certain surveying districts great difficulty has been, and is, experienced by surveyors-general in obtaining from the *settlers on the lands* the requisite papers to comply with existing surveying instructions, they being unable or unwilling, from various causes, to respond to repeated requests therefor from the surveyor-general.

In view of existing law, stated requirements, and said difficulties, and to the end that the manifest intent of Congress to have surveys extended over the agricultural portions of the public domain with promptness may be carried out, you are instructed, in cases where the known actual settlers in a township neglect to forward applications or petitions for surveys, together with their affidavits, to obtain from other reliable sources information relative to said settlements and the class and character of the lands, and to submit the same to this office for examination and further instructions.

It is further suggested that townships, contiguous to those for which evidences of settlement have been submitted to your office, should also receive attention in the manner stated, more particularly when said townships are situate within the range and progress of settlement, embrace agricultural lands, and therefore liable to be occupied by *actual settlers* in the near future.

Where applications are made to you *in writing by the proper State authorities* for surveys of described localities or counties, for the purpose of enabling the respective

States to select after survey lands granted thereto for educational and other purposes, under the provisions of the enabling acts approved February 22, 1889, and July 3 and 10, 1890, you will not in such cases require any *evidences of settlement* on the lands, the stated applications being deemed sufficient compliance with existing law and surveying instructions.

The annual instructions issued for the fiscal year ended June 30, 1891, stated that for several years prior it had been the policy of this office to prohibit the survey of forests or heavily timbered lands, and that it became necessary, under the requirements of the annual appropriation act, to make some modification of said restriction.

The instructions issued last year are embodied herein, as follows: There are in some localities fine agricultural lands, which although heavily timbered are occupied in part by bona fide settlers, who, at great labor and expense, have improved the lands and made for themselves permanent homes to which they desire to obtain title. Whenever such cases arise, all the facts as to the character of the lands, the kinds and qualities of the timber, the number of settlers, and the character and approximate value of their improvements, should be presented for the consideration of this office before contracting for the survey. Contracts will be allowed for the survey of timber lands only when their value for agricultural purposes is well established and satisfactory proof given of their occupation by bona fide settlers who have made permanent improvements.

By the terms of the appropriation act the surveys (except of such lands as may be selected by the State under act of February 22, 1889) must be confined to lands *adapted to agriculture and lines of reservations*. With regard to the survey of public lands this restriction is construed as pertaining to *subdivisional surveys*, and it will be necessary in some instances to extend standard and township lines over inarable lands in order to reach lands which are adapted to agriculture and occupied by actual settlers. In order, however, that the greatest possible benefit may be derived from the appropriation for surveys, the apportionment for your district should be applied, as far as practicable, to the survey of such townships containing arable lands and embracing settlements as are contiguous to existing lines, thus avoiding the expenditure of an undue portion of the available funds for the survey of standard lines.

Instructions heretofore issued require that where a contract embraces the subdivision of a township, the survey of such township must be completed in its entirety, unless natural obstacles render such completion absolutely impossible. The object of this requirement (embraced in the annual instructions of April 6, 1886) was to prevent the practice of surveying the easier portions of a township and omitting the more difficult portions.

The carrying out of this requirement might in many cases necessitate the survey of portions of townships unfit for agricultural purposes, and such lands are not surveyable under the appropriation for the current fiscal year. Cases may arise, especially in mountainous regions, where a considerable portion of the lands are not adapted to agricultural purposes, while the arable portion is occupied by actual settlers, and as preference to be given, under the law, to occupied lands, the regulations as heretofore modified and issued, which permitted the survey of the cultivable portions of townships in which settlements have been made, leaving the uncultivable portions unsurveyed, are reissued and herein embodied. In contracting for surveys in mountainous regions or in a tract of country where you know, or have reason to believe, that a portion of the lands are unfit for agricultural purposes, you will specially instruct your deputies as to the legal requirement to confine the surveys to lands adapted to agriculture, and direct them, in surveying townships containing both classes of land, to extend the subdivisional lines over *all* the lands in the township that can *properly be classed as agricultural*.

Contracts must state specific rates. Whenever practicable, contracts will be let under existing regulations at not exceeding the minimum rates (\$9, \$7, \$5), but you may, when necessary, allow a compensation not exceeding the intermediate rates

(\$13, \$11, \$7) named in the appropriation act for the survey of the class of lands for which said rates are provided, and in letters transmitting contracts you will state fully, for the information of this office, your reasons for allowing such rates.

In case of a demand for surveys for which, owing to exceptional difficulties to be encountered by the surveyor, a compensation exceeding the intermediate rates must be paid, you will, before taking any steps towards letting a contract, forward a statement showing the reason why the survey is required, and specifically why augmented rates should be allowed, setting forth the lowest rates at which you can obtain the service of a competent surveyor, character of the land, and all particulars necessary to the formation of a judgment (by the Department), upon the question of authorizing such a contract.

You may proceed with the letting of contracts without the formality of advertising for proposals, but will use your best endeavors to secure the services of competent and reliable surveyors, at as much less than the rates allowed by law, as possible. Select as your deputies, as far as practicable, men of known skill and integrity, and when not heretofore known to the United States surveying service, you will require satisfactory evidence of their competency, honesty, and ability to carry their contracts to completion. In letters transmitting contracts with persons not heretofore employed, you will present a statement of the evidence of qualification furnished by them.

No contracts for resurveys will be entered into until express authority therefor shall have been granted by this office.

It is believed that the pursuance of a liberal policy in reference to surveys of public lands in all the States and Territories where such lands remain unsurveyed, is dictated, not only by a due respect for the interests of the United States, but by the unwritten obligation which rests upon the Government towards those who have been induced by the terms of the homestead and preëmption laws to become pioneer settlers upon the public domain. The evils which attached to the system of surveys in former years, by which the Government suffered greatly from the fraud and deception practiced by contractors, have been mainly eliminated from the service, and with the checks and guards now established, especially the examination in the field of all important surveys, the work is required to be done honestly and well, and the chance for fraud is reduced to a minimum.

This office is in constant receipt of letters from settlers who complain bitterly of the burden they are forced to bear because of the nonsurvey of their lands and the consequent uncertainty of their locations, to say nothing of various other difficulties and annoyances which necessarily follow.

In addition to these complaints of settlers the surveyors-general of many of the States call attention to the same matter. The following brief extracts from the annual reports of several surveyors-general will be sufficient to show the deep interest in the subject which exists:

*Arizona.*—In my report last year I gave several reasons why the surveys in Arizona should be made where settlers have homes and desired titles to them. \* \* \* When the amount of unsurveyed land in Arizona is taken into consideration, in connection with the apportionment to States and Territories with less land to survey than we have here, \$20,000 would seem little enough.

*Florida.*—The great attention attracted to the mineral lands of this State, and the

increasing value of lands in the southern portion for agricultural purposes, as well as for horticultural, would seem to point to the desirability of early surveys of quite a number of townships still unsurveyed.

*Nevada.*—There is a constant call for surveys from different parts of the State, and I would respectfully ask a liberal apportionment for surveys. There has been very little money expended for public surveys in this State for a number of years, and there is an urgent call for their extension.

*New Mexico.*—The throwing open of large areas heretofore included in private land claims, notably the Las Vegas grant, lying in thirty-two townships, and the Scully grant in nine townships, every township of which contains settlers who wish to get title, makes the appropriation asked for the survey of public lands absolutely necessary.

*North Dakota.*—I desire to call your attention to the growing necessity for surveys in this district. North Dakota has at the present time more strictly agricultural land now unsurveyed than any other State, and the settlement of those lands is retarded for want of surveys.

*Washington.*—In justice to the State itself, and to the settlers upon the public lands within the State, all the public lands should be surveyed as rapidly as possible.  
\* \* \* I would recommend that the attention of Congress be called to the advisability of excepting the State of Washington from the proviso that has been placed in the law, restricting the survey of the public domain to lands agricultural in character. Confining the surveys in this manner limits the enterprise, progress, and development of the State, and fosters coal and lumber monopolies.

*Wyoming.*—The surveys made in this district during the last three fiscal years have been of great benefit to settlers occupying unsurveyed land and to others seeking homes. There still remain many localities in which there are large numbers of people living upon unsurveyed land. A liberal appropriation for surveys will be necessary in this district for several years, and will prove mutually profitable to both the Government and the people.

## TRANSACTIONS IN THE SURVEYING DISTRICTS.

### ARIZONA.

Of the fund appropriated for survey of public lands the sum of \$5,000 was apportioned to Arizona, and contracts were awarded to that amount during the last fiscal year.

The surveyor-general reiterates and emphasizes the recommendations made in his annual report for 1891, and states the following:

I want to vigorously protest against the insertion of the word "agricultural" in the act appropriating money for surveys in Arizona. In my report last year I gave several reasons why the surveys in Arizona should be made where settlers have homes and desire titles to them, irrespective of whether they are agricultural in the Eastern sense of the word, where constant rainfalls are counted on to raise agricultural crops. It is difficult to define agricultural land under the conditions of water and soil in this Territory. What may be termed desert land to-day, or grazing land, becomes agricultural land the moment water is brought upon it for the purposes of cultivation, as the soil is preëminently "agricultural" and as well adapted to crops as the soil of New York, Ohio, or Illinois. Still, as long as it is desert it is not agricultural, and no effort will be made to redeem it by damming canyons or diverting water from streams, if the parties willing to invest their money are told right in the outset that the land can not be surveyed, so that settlers can go in under the land laws and be protected in their titles before the land becomes agricultural and productive. By pursuing such a policy all the school lands in the neighborhood

of canals in course of construction will be lost, as far as the intent of the law goes, by being squatted on by people willing to speculate on the outcome of the canal and the value of the adjacent lands.

Many people occupy the high mesa lands as homes, such lands as can not be reached by water in the way of artificial irrigation, and the lands can not be made "agricultural" even if the soil would permit. Still on this land homes are erected, the owners thereof engaging in mining in mountains adjacent or in stock-raising, and the occupants of these homes want surveys that will enable them to get patents. I think the persons occupying the last referred to places ought to have the privilege of buying the land they occupy, as it is certainly to the interest of the Government to sell this undesirable land at the same prices the best class of land brings the Government. By so doing the country will be more rapidly settled and the raids of the hostile Apaches stopped. The homes on the arid land often present a very inviting appearance through the medium of windmills and deep wells, which will furnish enough water to beautify a small yard, but not sufficient to make any considerable part of the 80 or 160 acres "agricultural" land. In letting surveys in Arizona, I have interpreted the word agricultural as liberally as possible. There are millions of acres of land to-day in Arizona where the soil is beyond question as fine as any soil in the world, but which would not raise a cornstalk without artificial irrigation. All this land may be redeemed soon by water from canals taken from rivers, or from dams in mountain canyons, or from wells by strong pumps. And I regard this land as "agricultural," that is, where its locus makes irrigation reasonably certain in the near future, though to-day it is as dry as the Sahara Desert. We will take as an example the land lying north, south, and west from Gila Bend Station, on the Southern Pacific Railroad. To-day a more barren, parched-up body of land can not be imagined, but by February, 1893, the immense dam and 40 miles of canal of the Gila River Reservoir and Irrigation Company will be distributing water on tens of thousands of acres of this land, which I know to be the equal of any land on this continent for semitropical fruits and cereal crops, such land, in fact, as is selling at Riverside from \$500 to \$1,000 per acre.

Oranges have already been successfully grown at Gila Bend, irrigated by water secured from the railroad pump. Still, to-day, this land has to be denominated "desert." The same may be said of the land adjacent to the proposed Verde canals, the Santa Cruz Canal, and other places in the Territory where vines and cereals and small fruits can be raised. I trust the act appropriating for surveys in Arizona may be an exception from the general rule if the word "agricultural" is to be inserted as a limitation of surveys. We have a country with peculiar features and we should not be classified with other sections where a reasonable rainfall occurs, neither should our people who desire to get titles to their homes be compelled to take up those homes on farming lands if they don't want to. I have endeavored faithfully, since 1883, to represent matters as they existed here in order that our case might be individualized if necessary, but that we might get relief from a general classification by some means. Thus far my success has not been flattering as far as Congressional action is concerned. The present law operates very disastrously in Arizona.

Another point I want to make is, that desirable lands should be surveyed whether settled or not, as the possibility of getting an early title is an incentive to settlement and the redeeming of the lands from their present sterility. If surveys are laid over land along water courses or where dams are practicable, they will be settled upon, and experiments for irrigation will commence soon thereafter.

Surveys should be extended over the abandoned military reservations. Some of the most desirable land in Arizona is at present kept away from the people on account of these reservations. When the military posts were established careful steps were taken to secure the best land in the Territory, and in every instance many times the actual number of acres required were taken for these reservations, to the detriment of our people. Now that several of the reservations have been turned over to the Department of the Interior, Congressional action ought to be had to restore them

to the public domain, and early surveys ordered, as they would be taken up to a very considerable extent immediately. Since they were abandoned most of the beautiful trees have died, the irrigating ditches having gone dry for want of care. Fort Lowell particularly has suffered, and the people of the city of Tucson would like to see the land restored to the public domain.

#### CALIFORNIA.

The sum of \$10,000 was apportioned to California from the amount appropriated for the survey of public lands.

The surveyor-general reports as follows:

In my report for the last fiscal year, I related in detail the difficulties under which this office labored in giving directions for the adjustment of present lines of surveys to those of a comparatively remote period, as also my views regarding a preliminary examination of the country under contemplation for survey as affording a basis in the preparation of estimates. To my views, as then expressed, I have nothing to add or take away.

Such examination would not only exhibit the present condition of monuments of former surveys, but would show conclusively the adaptability of the land for agricultural or other purposes, thus relieving the Government of needless expenditures in explorations amid "impassable cañons, rocky peaks, and rough, mountain land, unfit for cultivation."

The problem involving resurveys and retracements seems difficult of elucidation. It is, I believe, generally thought that no engineer or surveyor of practical experience would undertake to retrace or resurvey a line, replacing former corner monuments with the expectation of deriving any pecuniary advantage at less prices than are allowed for new original surveys. The experience of this office has shown to its satisfaction that in many instances little or no reliance can be placed upon sworn statements regarding some former official surveys to the effect that monuments were duly placed at the required points. Half the time and labor required in hunting up old lines, detecting errors in closings, etc., would suffice to run and mark properly a new line of the same length. For this single reason as an example, I am fully of the opinion that whenever the surveyor brings forward reliable evidence that little or nothing remains of old surveys with which he is required to connect, he should be paid for such resurveys or retracements the same rates as those mentioned in his contract for new surveys. By a preliminary examination, as before suggested, the verification of the returns of the deputy holding the contract would be complete, and give this office assurance that its estimate for further work could be based upon something tangible. Certainly, in the ordinary, business of life, one does not enter upon the completion of a half-finished undertaking without a careful inspection of what has already been done.

\* \* \* \* \*

*Swamp and overflowed land.*—At date of my last annual report there were 50 cases remaining upon the records of this office for hearing, since which time there have been 14 additional suspensions made by request of the honorable State surveyor-general, making a total of 64 cases, of which 8 cases have been heard and decided, involving 3,500 acres, and 1 case heard, but not yet decided, involving about 4,460 acres. This case is one of great importance, having been before this office in various forms for the past eight years. The testimony is very voluminous, the taking of which has already consumed two weeks, and will require many days more before all the evidence essential to a proper decision will be in. At the request of this office, there were 9 cases dismissed by consent of the honorable State surveyor-general for want of prosecution on the part of State claimants, involving about 41,247 acres; 7 cases abandoned by the State and claimants thereunder, involving about 3,846 acres, leaving 39 cases on record to be tried, covering about 18,500 acres of land. On account

of long standing all of the remaining cases, covering about 3,600 acres, will be dismissed, if some action is not taken by the State or claimants to cause a hearing to be held within a reasonable time; official notice to this effect has been given to the parties in interest.

#### COLORADO.

An apportionment of \$12,000 from the fund appropriated for public surveys for the fiscal year was made to the district of Colorado.

During the year 2,304 miles of lines and 382,418 acres of land have been surveyed.

#### FLORIDA.

In addition to the ordinary work conducted under the surveyor-general of this district, his annual report states:

The mound marking the initial point from which the surveys of Florida were originally made was found to have been obliterated. This initial point has been re-established and a substantial stone has been placed upon the spot. The work of reestablishing this point was considerable, as original markings of corners and lines were in many instances lost which would have been of assistance in the work. The point has been satisfactorily settled, and the setting and marking of the stone having been carefully executed, the whole work is at once creditable and advantageous.

\* \* \* \* \*

The great attention attracted to the mineral lands of this State and the increasing value of lands in the southern portion for agricultural purposes as well as for horticultural, would seem to point to the desirability of early surveys of quite a number of townships still unsurveyed.

#### IDAHO.

An apportionment of \$35,000 from the annual appropriation for surveys for the fiscal year ending June 30, 1892, was made for the district of Idaho, to which was added \$4,050 from the reserve fund, making a total of \$39,050 apportioned to the district, contracts for all of which have been awarded.

#### LOUISIANA.

The work of the surveyor-general's office for the district of Louisiana is largely the bringing up of transcripts of the records, referring principally to private claims. Upwards of 5,000 private claims which should pass to patent are practically suspended for the present because of insufficient force in the office to prepare the plats of survey and at the same time keep up the current business of the office.

#### MINNESOTA.

The amount apportioned to this district for surveys of public lands for the fiscal year was \$10,000, which was increased later by adding \$2,500, and still later by adding \$1,420 from the reserve fund, making a total amount apportioned to the district of Minnesota from the general surveying fund of \$13,920.

Contracts were also entered into by the surveyor-general during the year for surveys in the Indian reservations and payable from the appropriation for the survey of the Chippewa Indian reservations, amounting to \$44,962.50 estimated liability.

The surveyor-general states:

It will be seen from this report that there has been a very large increase in the amount of surveying done in this district during the year over that of the previous year and a corresponding increase in the office work required to be done.

Besides the surveys of Indian reservations there has been a large increase in the amount of public-land surveys. There have been returned to this office the field notes of eight townships of public lands the plats and field notes of which have not been prepared. Contracts are now let for seventeen townships, the surveys of which are now being made and the field notes will soon be returned.

Nine other townships are now authorized to be surveyed and settlers are known to be located in at least twelve other townships, who are intending soon to make application for surveys.

#### MONTANA.

An apportionment of \$50,000 was made from the appropriation for the survey of public lands for the fiscal year for the district of Montana, to which was added the sum of \$4,000 from the reserve fund, making a total of \$54,000, and contracts covering the entire amount were awarded.

During the year 5,107 miles of lines have been surveyed and reported to this surveyor-general, and returns have been received of the surveys of ninety-one townships. This, however, will be increased, as much of the work done during the spring months has not yet been returned.

#### NEVADA.

No apportionment of the general surveying fund was made to the district of Nevada for the fiscal year. The duties of the surveyor-general's office have been confined to bringing the arrears of work of former years up to date, and keeping up with the current business in relation to mineral surveys. Referring to the public-land surveys, the surveyor-general reports:

The policy of keeping the surveys behind settlement and requiring the settler to go upon unsurveyed land and make his improvements before the surveys will be made entails upon him great inconvenience and often great loss. He must make his improvements, such as fences, ditches, etc., without knowing where the lines of public survey will run, and when the survey is made he must enter his land by legal subdivisions which he can not enter, and the labor and money he has expended upon them is a loss to him which he can ill afford. In justice to the pioneer the surveys should be made in advance of settlement, so that the settler may know what land he settles, place his fences upon his own lines, and make his irrigating ditches so as to cover his own land.

The conditions of the appropriation for surveys, confining it to agricultural lands, and especially lands already settled upon, the instructions of the General Land Office, narrowly defining the term "agricultural," and requiring a certain number of settlers in each township to join at the same time in an application for survey and the low rates

allowed for surveys, render it almost impossible to extend the surveys in this State. However well these conditions and instructions may apply to other parts of the country, they do not fit the natural conditions here. If the surveys are to be confined to fractions of townships here and there, the rates allowed for surveys ought to be largely increased. The rates allowed are so low as to leave little, if any, margin for profit even in contracts embracing several contiguous townships. Where the survey is confined to a portion of one township or portions of townships widely scattered, the rates are simply prohibitive. If the work is done at all it is done with no expectation of even decent wages to the deputy surveyor, but simply on the urgent appeal of the settlers and to accommodate them.

Meanwhile there are numerous settlers all over the State, who have been upon their land ten, fifteen, or twenty years, who want surveys and can not get them. Even when they can find a deputy surveyor who without hope of profit will agree to make the survey if it is authorized, and they send their applications for survey, with affidavits of improvements, etc., as required by the instructions of the General Land Office, they are required to get affidavits from outside parties that they are not swearing falsely. The Department seems to consider that any man who has the hardihood to go out into the mountains of Nevada and try to make a home for himself and his family by cultivating the soil is a just object of suspicion, and that there must necessarily be something wrong about him.

The Government invites settlement upon the public lands, and in behalf of the settlers of this State, I would urge that where there are even only one or two settlers in a township who have been living on their lands for several years, they are in justice entitled to have it surveyed, so that they may perfect their titles. Contracts for survey should be authorized embracing sufficient contiguous territory to make the survey practicable under existing rates, or the rates should be increased so as to enable the smaller and scattered tracts to be surveyed.

#### NEW MEXICO.

The district of New Mexico was allotted \$6,000 from the appropriation for survey of public lands for the fiscal year.

Referring to the operation of the law establishing the land court, the surveyor-general reports as follows:

New Mexico contains over 90 per cent of the Spanish and Mexican grants in regard to which the law of March 3, 1891, was enacted. A multitude of small holders, with whom this office has to do particularly under the provisions of sections 16, 17, and 18, seemed likely, through ignorance, to lose their rights at the expiration of two years from the date of that law. To give them a chance 3,000 circulars in Spanish, giving a correct translation of the law and calling attention to it, as many in English, and a great number of letters in Spanish were sent out, early in the year, throughout the Territory. A great many letters in Spanish and as many in English have been received in return, to which I have replied explaining the application of the law to particular cases. Forty filings under section 18 have been received which have been recorded in a book prepared for that purpose, and they are coming in daily. A blank which I have sent out facilitates their preparation.

Spanish title papers in my charge are being constantly called for for examination by attorneys and others. Attending the land court to testify to the genuineness of documents on file in my office has taken much of my time, and holding hearings in grant boundary cases promises to absorb more, but this labor on the grant business is cheerfully undertaken in view of the fair prospect that New Mexico will soon be in a great measure freed from that which has been the greatest obstacle to her progress, the uncertainty of her land titles. Among the benefits in this regard that have been secured by the rulings of the present Secretary of the Department, I may mention that the owners of the Scully grant will soon report to me their selection

of 5 leagues of land out of the 25 leagues that have been held for thirty-two years for them to select from, thus releasing to the public domain 87,000 acres of land.

#### NORTH DAKOTA.

To the district of North Dakota, an apportionment of \$25,000 was made from the appropriation for the survey of public lands during the fiscal year, and contracts amounting to \$24,979.34 were entered into.

A contract involving \$2,313 (estimated cost) was entered into for the survey of the outboundaries of the diminished Fort Berthold Indian Reservation, payable from the fund provided for in the agreement of December 14, 1886, with the Indians.

Returns have been received of 3,838 miles of surveys executed.

The surveyor-general states:

North Dakota has at the present time more strictly agricultural land now unsurveyed than any other State, and settlements of those lands are retarded for the want of surveys. During the past season an unusually large amount of grain was raised in this State, and at the present time the prospect is that the crop this season will equal and perhaps exceed that of last season; and this fact has so increased immigration that settlers are moving in this direction in larger numbers than for several years.

The enabling act of February 22, 1889, admitting North Dakota as a State, donates some 700,000 acres of land to the State for the benefit of its public institutions, and in order to make good selections the State authorities are compelled to seek the western and northwestern parts of the State to find unoccupied land.

The sales of State lands the past year have averaged about \$30 per acre, and as a consequence the poorer class of settlers are compelled to locate in the western part of the State and largely on unsurveyed land, being unable to pay the high prices asked for land in older settled portions of the State.

#### OREGON.

The total amount apportioned to the district of Oregon for surveys for the fiscal year was \$24,700.

Returns of surveys aggregating 1,438 miles have been received.

#### SOUTH DAKOTA.

The apportionment to the district of South Dakota for the fiscal year for public-land surveys was \$25,000.

The surveyor-general's office completed the office work on 13,504 miles of survey during the year.

The report states:

The experience of the year now closed, as also of former years, reveals the propriety of inviting attention of yourself and, through yourself, of Congress to the necessity for legislative provision, where none already exists, for certain matters requisite for a sufficient and convenient administration in regard to mineral surveys; these matters are as follows:

(1) *Field examination of surveys.*—As the field notes of mineral surveys furnish descriptions for patents, their accuracy should be well assured. The competition among deputy mineral surveyors, the so-called errors of prior surveys reported, the discrepancies between recent deputies, each and all of these call for a scrutiny far

more searching than a mere critical examination of field notes can accord. In addition may be mentioned the increase of office work and increased difficulty of maintaining proper official control of the conduct of deputies when inspection is omitted. In fact, whatever argument exists for inspection of agricultural surveys in which comparatively liberal limits for closing are allowed, the same argument applies with added force to inspection of mineral surveys in which "closed" surveys only are accepted.

#### UTAH.

The amount apportioned for public surveys to the district of Utah during the fiscal year was \$5,000, and contracts covering this sum were awarded.

The surveys of public lands returned and approved aggregated for the year 1,142 miles of line, and included 282,310 acres of land.

#### WASHINGTON.

The sum of \$64,000 was apportioned to the district of Washington for public land surveys for the fiscal year.

The surveyor-general makes the following recommendations:

I would respectfully suggest, for reasons that have been heretofore presented, that the survey of the public lands in this State may be greatly and advantageously expedited by authorizing the surveyor-general to forward with each approved petition an application for survey, a contract made with a competent deputy for the survey of the same. That an application filed by the State for the survey of any lands from which it is proposed to make selections under the several grants, be accepted without any of the conditions and circumlocation that are required in applications of settlers upon the public lands.

I would further recommend, in view of the unusual difficulties of the survey of the public lands in this State, the small compensation, measured by the character and difficulties of the work and the very high value of money, that examiners of surveys be assigned to this district, or an adequate apportionment of funds for the examination of surveys be made to this district, to the end that examinations may be made as soon as practicable after the completion of the surveys in the field. The capital used by the deputies is not secured by them for a less interest than 10 per cent., and in many instances 18 per cent. is paid. The deputies have been in some instances compelled to wait one, two, and three years for the payment of moneys due them. This, it seems, must be a very great hardship to hard-working, deserving men.

I would, in closing this report, recommend that the attention of Congress be called to the advisability of excepting the State of Washington from the proviso that has been placed in the law restricting the survey of the public domain to lands agricultural in character. Confining the surveys in this manner limits the enterprise, progress, and development of the State and fosters coal and lumber monopolies.

The timber and coal lands should be surveyed under necessary restrictions as to their sale and disposal. The opening up of these lands to the enterprise of private capital would aid in the development, growth, and prosperity of the State, and would not in any way injure the general public or the Government.

#### WYOMING.

The district of Wyoming was allotted \$30,000 from the appropriation for the survey of public lands for the fiscal year.

The number of miles surveyed under contracts approved during the year was 4,725, of which 4,289 were upon public land surveys and 436 miles of Indian surveys. The total area of land embraced in surveys approved during the year was 1,421,090 acres.

The surveyor-general reports:

The surveys made in this district during the last three fiscal years have been of great benefit to many settlers occupying unsurveyed land and to others seeking homes. The filing of the triplicate plats with the local land offices has been followed in every instance by a large increase in the business of the offices. There still remain many localities in which there are large numbers of people living upon unsurveyed land. A liberal appropriation for surveys will be necessary in this district for several years, and will prove mutually profitable to both the Government and the people. So many suggestions, statements, and estimates in regard to the insufficiency of appropriations for clerk hire have been made by the different surveyors-general, only to be entirely ignored by Congress, that it seems like a waste of time to allude to the subject again.

#### EXAMINATIONS OF SURVEYS IN THE FIELD.

By the act of Congress approved March 3, 1891, making appropriations for sundry civil expenses of the Government for the fiscal year ended June 30, 1892, there was appropriated for surveys and resurveys of public lands the sum of \$400,000. Of this amount there was made available the sum of \$40,000 for field examinations in order to test the accuracy of surveys executed by the United States deputy surveyors, and for the examination of surveys heretofore made and reported to be defective or fraudulent.

Under this appropriation there have been employed throughout the year three special agents for the examination of surveys, and during a portion of the year four special agents were in the service. These special agents were assigned to duty in the several surveying districts according to the exigencies of the service. They also inspected the public land surveys in that part of the Territory of Oklahoma, heretofore known as the "Public Land Strip," executed under contracts let by this office.

The force of examiners acting under the immediate direction of this office, was not sufficient to inspect the extensive surveys made under contracts chargeable to the surveying appropriation for the fiscal year ending June 30, 1891, and not returned during that year, as well as those under the appropriation for the fiscal year ending June 30, 1892, as rapidly as the returns were made by the deputy surveyors, hence a considerable number of surveys were inspected by examiners appointed by surveyors-general under instructions from this office. The cost of such special instructions was defrayed from assignments made to the surveyors-general out of the examination fund of \$40,000, mentioned above.

During the fiscal year surveys executed under contracts were accepted after examination in the field either by the special agents of this

office or by special examiners whose appointment by the surveyors-general was authorized by this office, as follows:

Surveying districts.	Contracts.	Surveying districts.	Contracts.
Arizona .....	1	New Mexico .....	3
California .....	11	North Dakota .....	1
Colorado .....	9	Oregon .....	9
Idaho .....	4	South Dakota .....	21
Louisiana .....	1	Utah .....	2
Minnesota .....	8	Washington .....	8
Montana .....	12	Wyoming .....	8
Nevada .....	2		

Surveys executed under contracts let or special instructions issued by surveyors-general were accepted without examination in the field, as follows:

Surveying districts.	Con- tracts.	Special instruc- tions.	Surveying districts.	Con- tracts.	Special instruc- tions.
Arizona .....	1	1	Montana .....	5	2
California .....		6	Nevada .....		1
Colorado .....	2	3	North Dakota .....		1
Florida .....		2	Oregon .....	2	2
Idaho .....		1	South Dakota .....	1	
Minnesota .....	1		Utah .....	1	

In those cases where surveys were accepted without field examinations, the liabilities were so small that the cost of examinations would have been disproportionate to the amounts involved, or the surveys were executed by deputy surveyors who were known to be competent and trustworthy, and whose work the surveyors-general recommended for acceptance without inspection in the field.

Included in the accepted surveys above mentioned are those of the subdivision of the abandoned military reservations of Fort Crawford and Fort Lyon in Colorado, and of Fort Laramie and Fort Bridger in Wyoming, also the following Indian reservation surveys, viz:

Standard, exterior, and subdivision lines within the Moqui Indian Reservation in Arizona; subdivisions within the Hoopa Valley Indian Reservation in California; survey of the fractional east boundary and south boundary of the Fort Belknap Indian Reservation, and the west boundary of the Crow Indian Reservation in Montana; the south and west boundaries of the Yakima Indian Reservation in the State of Washington, and the subdivision of a portion of the Shoshone Indian Reservation in Wyoming.

#### REJECTED SURVEYS.

Upon examination in the field of the survey of township 15 south, range 97 west, and townships 14 and 15 south, range 98 west of the sixth principal meridian, Colorado, made under contract No. 769, the special agent of this office reported that the work was not done in ac-

cordance with law and instructions so far as pertained to the establishment of corners and marking of bearing trees, the blazing of lines through timber; and further, that the claim of the deputy surveyor for augmented rates upon a portion of the work on account of *dense sagebrush* was unfounded and should not be allowed. The report of the special agent was corroborated by the affidavits of parties who assisted the deputy surveyor in the execution of the surveys. As the deputy surveyor failed in many important particulars to comply with the terms of his contract and instructions, the said surveys were rejected by this office.

The surveys executed in New Mexico under contract No. 256 were found upon examination in the field to be defective, in that the deputy surveyor had failed to mark bearing trees for the corners established by him where such trees were within the limits prescribed in the Manual of Surveying Instructions. He failed wholly to blaze the lines where they ran through timber. The positions in which the corners were found on east and west lines indicated that he did not find his closings on random lines as stated in his field notes, and that he did not correct the location of his temporary quarter-section corners. The examiner stated that all lines examined by him were found to be defective, and that he had no reason to believe that the remainder of the work was in any better condition. The surveys were rejected by this office.

The surveys in Utah executed under contracts Nos. 164 and 165 were inspected in the field by a special examiner appointed by the surveyor-general under authority from this office. Upon the lines examined a considerable proportion of the corners alleged to have been established could not be found; the markings upon corner stones, as a rule, were found to differ from the requirements of the Manual of Surveying Instructions, and the topography noted by the deputy along the lines run was found to be erroneous. It was evident from the report submitted by the examiner that the deputy had not executed his work in a satisfactory manner, nor in compliance with the terms of his contract, the manual and special instructions of the surveyor-general, and the surveys under said contracts Nos. 164 and 165 were therefore rejected.

#### SUSPENDED SURVEYS.

The examination of the surveys in California executed under contract No. 64 developed certain discrepancies in measurement, and acceptance was withheld until the apparent errors were either satisfactorily explained or corrected in the field. The explanations submitted by the deputy surveyor were not satisfactory to this office, there being a direct issue between the deputy and the examiner. In view of the differences between the deputy and the examiner, and in order to determine the exact condition of the surveys under said contract No. 64, the surveyor-general was directed to send a thoroughly competent surveyor to make a reëxamination of the work.

Action upon the surveys in Minnesota, executed under contract No. 22, was suspended on account of a number of important errors in measurements and in the bearing of lines far beyond the limit permitted by the Manual of Surveying Instructions, reported by a special examiner appointed by the surveyor-general. The deputy surveyor was accorded the privilege of going into the field and correcting his work, the same to be subject to another examination in the field.

In the examination of surveys under Minnesota contract No. 24, made by a special examiner, so many discrepancies were found that the surveyor-general did not feel justified in approving the work; but the deputy having long been known as a reliable surveyor, the surveyor-general suggested that he be allowed to return to the field and correct the reported errors. The suggestion was approved by this office, and the work will be reëxamined when the corrections shall have been made.

The surveys of township 23 north, range 5 west, and township 11 north, range 9 west (Willamette meridian), in the State of Washington, were inspected by special examiners, and such a material difference found between the chaining reported by the examiners and that of the deputy surveyor that the surveyor-general could not approve the surveys, but he recommended that the deputy be allowed to resurvey the townships, remeasure the lines and establish the necessary corners in their proper places. The surveyor-general was authorized to direct the deputy to make a resurvey of all his work in said townships.

The survey of township 32 north, range 12 west, in Washington, executed under contract No. 351, were found upon inspection by a special examiner, to show short measurements upon several of the lines, corners were not marked in accordance with the Manual of Surveying Instructions, and the corners and distances of bearing trees were not as stated in the field notes. It was also reported that the deputy employed a compassman in contravention of existing instructions. In accordance with the recommendation of the surveyor-general the deputy was allowed to return to the field to make a resurvey of the township, in his own proper person, and in strict accordance with the terms of his contract and the special instructions issued thereunder.

The returns of the survey of township 13 north, range 3 east, Willamette meridian, Washington, were forwarded to this office by the surveyor general, *unapproved*, a field examination by a special examiner having shown several discrepancies in the work that should be corrected. The surveyor-general recommended that the deputy surveyor be permitted to correct his work in such a manner as to meet the requirements of the manual and special instructions, and the recommendation was approved by this office.

SURVEYS EXECUTED UNDER INSTRUCTIONS ISSUED OR CONTRACTS ENTERED INTO BY THE COMMISSIONER OF THE GENERAL LAND OFFICE.

During the past year surveys under contracts entered into or instructions issued by the Commissioner of the General Land Office have been accepted as follows:

OKLAHOMA.

As stated in my last annual report, contracts were let for the completion of the survey of that part of the Territory of Oklahoma heretofore known as the "Public Land Strip."

The surveys under three of these contracts have been duly accepted after a thorough examination in the field. The accepted surveys consist of the exterior township lines of a portion of the "strip," and the subdivision of the following townships, viz: Townships 1 and 2 north, ranges 7, 8, 9, 10, 11, 12, 13, and 14 east; townships 3 and 4 north, ranges 8, 9, 10, 11, 12, 13, and 14 east; township 5 and fractional township 6 north, ranges 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, and 27 east, all of the Cimarron base and meridan.

The returns under one contract embracing 18 full townships and 4 fractional townships were received during the year, but final action thereon was not taken owing to certain corrections which were necessary before the returns could be accepted.

The surveys executed under one of the Oklahoma contracts were found, upon examination in the field, to fall so far short of the requirements of contract and instructions as to be unacceptable, but the surveyor was accorded the privilege of returning to the field for the purpose of making such corrections as would render his work finally acceptable.

WISCONSIN.

In October, 1890, a contract was let for the survey and subdivision into 40-acre tracts of townships 28 and 29 north, range 15 east, fourth principal meridian, Wisconsin, within the Menominee Indian Reservation. These surveys were found, upon examination in the field, to have been properly executed, and they were duly accepted.

ISLAND SURVEYS.

During the year three surveys of islands were made upon application from individuals desirous of obtaining title to the same. In each case the instructions for the survey were issued by authority of the Department. There was one survey each in the States of Illinois, Kansas, and Michigan.

The surveys above referred to were embraced in 194 separate sets of returns, and the office work thereon involved the critical examination of 700 plats of exterior and subdivisional surveys and the comparison

of the same with the corresponding field notes and with the reports on the examinations in the field.

#### DAKOTA BOUNDARY.

Mr. Charles H. Bates, United States surveyor, has made return of the survey of that portion of the boundary between the States of North and South Dakota, extending from the eastern end of the line to the Missouri River, but the same had not been inspected in the field up to the close of the fiscal year. The survey of the remainder of the line, extending from the Missouri River to the twenty-seventh degree of longitude west from Washington, is now in progress, and will probably be completed by the close of this surveying season. This boundary line is being marked in the most conspicuous and substantial manner by monuments of quartzite 7 feet long and 10 inches square, set one-half their length in the ground and at half-mile intervals.

#### BOUNDARY BETWEEN NEBRASKA AND SOUTH DAKOTA.

Senate bill No. 695, introduced January 14, 1891, provides for the survey of that portion of the boundary line between the States of Nebraska and South Dakota which lies west of the Missouri River.

Said bill was submitted to this office, through the Department, for a report upon the subject-matter thereof, and in my report thereon the passage of the bill was recommended. It is deemed proper, however, in this place, to invite special attention to the importance of having said boundary marked in a conspicuous and permanent manner. The boundary forms not only the line of demarkation between the States of Nebraska and South Dakota, but through a portion of its extent marks the southern limit of the Rosebud and Pine Ridge Indian Reservations, which, it is essential, should be clearly defined.

That portion of the boundary lying between the Missouri and Keya Paha rivers has never been surveyed, and on this account this office has been unable to complete the survey of that portion of the Sioux ceded lands in Nebraska. From the Keya Paha to its western terminus (longitude  $27^{\circ}$  west from Washington), the boundary was surveyed in 1874, and while the eastern and western termini were marked by stone monuments, the intervening mile monuments were wooden posts 7 feet long and 6 inches square. These posts were of cedar, willow, pine, cottonwood, and ash, and although the same were extant upon the eastern part of the line three or four years subsequent to the survey, it was found, a few years later, when attempting to close the public land surveys upon the boundary that many of the posts had been burned, the mounds partially destroyed, and pits filled up; and toward the western end of the line many of the boundary corners having been obliterated, the United States deputy surveyors found it necessary to reestablish the same before their work could be closed upon the State line.

It is more than probable that many of the boundary corners, which were found intact a few years after their establishment, have since been obliterated by time, accident, or design. The appropriation (\$20,000) proposed by Senate bill No. 695 would enable the Department to have the said boundary established in the same conspicuous and durable manner in which the boundary line between the States of North and South Dakota is now being marked, and I would again earnestly recommend the passage of the bill.

BOUNTY LAND BUSINESS.

The following is a statement of the number of acres represented by military bounty land-warrants located in the several land States and Territories for the year ending June 30, 1892, or not heretofore reported, which warrants were issued under the acts of 1847, 1850, 1852, and 1855. The aggregate number of acres is computed at the rate of \$1.25 per acre. It does not show the exact area of the lands located with the warrants:

States and Territories.	Acres.	States and Territories.	Acres.
Alabama.....	40	Nebraska.....	162
Arizona.....	160	North Dakota.....	280
California.....	7,520	Oregon.....	320
Colorado.....	880	South Dakota.....	80
Florida.....	400	Utah.....	160
Kansas.....	880	Washington.....	800
Michigan.....	4,240	Wisconsin.....	160
Minnesota.....	840		
Missouri.....	960	Total.....	18,200
Montana.....	320		

SUMMARY.

Denomination of warrants.	40 acres.	80 acres.	120 acres.	160 acres.	Total.
Act of 1847.....	1			6	1,000
Act of 1850.....	6	6			720
Act of 1852.....				1	160
Act of 1855.....		16	20	79	16,320
Total.....					18,200

MAPS FOR PUBLICATION.

The original drawing of the map of the United States was revised and corrected up to date, and an edition of 13,149 copies printed for publication by Messrs. J. Bien & Co., of New York, of which the following disposition was made:

	Copies.
United States Senate.....	4,100
House of Representatives.....	8,200
Retained in the General Land Office.....	849

Editions of the maps of Oklahoma and Indian Territories, Kansas, Missouri, California, Washington, Idaho, Colorado, Montana, and Ari-

zona were published from the compilations and tracings prepared the year previous. Maps of North and South Dakota, Wyoming, Utah, and Minnesota have been compiled or revised for reproduction, and tracings for publication forwarded to Forbes Lithograph Manufacturing Company, of Boston. The map of Florida is in process of compilation.

In the preparation and publication of the land State and Territorial maps during the year a great departure was taken from former methods, resulting in the production of finer and better maps. One feature, the most noticeable, consists in the representation of the mountain ranges, peaks, and spurs in a distinctive color, printed from a stone on which the topography had been delineated with crayon, producing an agreeable and desirable effect, and at the same time a more accurate representation of this feature of the map.

### MINERAL LANDS.

Mineral, mill-site, and coal entries examined during the year .....	3,428
Mineral and mill-site applications (final proof not made) examined during the year (estimated) .....	60
Mineral and mill-site patents issued during the year .....	3,242
Coal patents issued during the year .....	80
Contests considered during the year .....	119
Quasi-contests and agricultural cases considered during the year .....	381

It is gratifying to be able to report all work in the mineral division up to date. The contest cases, which are reported as being two months in arrears, are in fact taken up for examination as soon as is practicable, owing to the time required by resident attorneys for examination and the filing of briefs after the record is received.

In bringing up the work no preference has been given any locality or any claim or class of claims.

The cases, both *ex parte* and contest, were taken up for examination in the order in which they were received.

More has been accomplished by the division during the past year than in any other year since the division was organized. More mineral patents were issued than ever before in any one year. The number of mining claims patented during the year, 4,670, is about one-fourth of the total number patented since the first mining act in 1866.

During the year a revision of circular, "United States Mining Laws and Regulations Thereunder," was prepared in the division, approved by the honorable Secretary, and issued under date of December 10, 1891. While no radical changes were made in the revision, some modifications were made in the regulations, tending to simplify the requirements made by the Department, and all in the interest of the claimant. Under these new regulations and a proper liberal construction of the former existing rules there has been an impartial examination in every case, but divested of the technical rulings which have heretofore filled the suspended files. The result has been that the great increase in the

number of current cases examined has been without the usual corresponding increase of suspended cases.

The work in the division is steadily increasing, both in the number of entries received and in contests docketed.

### PRIVATE LAND CLAIMS.

During the fiscal year ending June 30, 1892, the principal work performed in the division was as follows:

Oregon and Washington donation patents .....	40
Alabama, California, Florida, and Louisiana private land claims patented....	12
Indian claims patented.....	8, 297
Entries with certificates of location finally approved.....	326
Claims in Louisiana satisfied with scrip, act of June 2, 1858 .....	18

The indemnity scrip issued in lieu of the above eighteen Louisiana private land claims amounted to 8,788.99 acres.

The total number of letters received in this division of the office during the fiscal year was 1,677, and the total number written was 1,549.

Of cases examined some have been passed for patenting, while others have been suspended and are now subjects of correspondence.

Of the cases decided, some are now on appeal, or awaiting the expiration of the time within which appeal may be taken or motion for review made.

The following statement will show the condition of the work in this division, generally, at the close of the fiscal year ending June 30, 1892:

California cases docketed and not finally adjudicated .....	13
Confirmed New Mexico and Arizona private land claims not finally adjudicated	27
Oregon, Washington, New Mexico, and Arizona donations reported and not finally adjudicated.....	103
Scrip cases, act of June 2, 1858, reported and awaiting action .....	63
Imperfect claims reported under act of June 22, 1860, and supplemental legislation to be reported to Congress by this office.....	2
Florida, Louisiana, Illinois, Michigan, etc., cases awaiting action.....	3, 003
Claims within limits of Las Animas grant in Colorado in which awards were made by the register and receiver at Pueblo under act of February 25, 1869, not adjudicated.....	1
Claims within limits of Las Animas grant in Colorado rejected by the register and receiver under act of February 25, 1869, on file, exclusive of one disposed of in 1874 and one withdrawn .....	24
Scrip locations pending .....	856
Indian allotments not patented .....	1, 777
Docketed Indian allotment contests .....	156

There is also a considerable amount of correspondence and unclassified cases referred from other divisions of the office for examination, etc., awaiting appropriate action.

### CONTEST DIVISION.

This division was organized June 1, 1887, and is the outgrowth of the "Board of Contests" formed April 1, 1887, for the purpose of disposing of all contest cases pending at that date in this office, together with

those cases thereafter to be instituted before the several local offices, except in railroad, mineral, surveying, and private land cases, which are governed by special rules and regulations and disposed of in the several divisions having charge of matters of that kind. Thus it will be seen that this division was organized expressly to take charge of all cases relating to contests involving claims set up between individuals to portions of the public domain under the various laws in force in reference to agricultural lands.

This state of affairs existed until November 28, 1891, when a slight change was made in the work of the division by the removal of all cases which were affected in any manner by a preëmption claim to Division G (preëmption division), and, all told, this division was relieved by such transfer of 325 undecided docket appeal cases.

The work performed in this division ever since its organization has been of the highest character, involving the settlement of the titles to millions of acres of the public domain, and dealing in many instances with the entire accumulations of the settler's lifetime, and in other cases with money values reaching far into the thousands. As a result of these contests the attention of this division is chiefly occupied in taking appropriate action in the following class of cases: (1) Cases on appeal from the decision of the local officers in docket cases; (2) cases involving miscellaneous appeals from the decision of the local officers in other than docket cases; (3) cases without appeal from the decision of the local officers; besides passing on motions to review, etc., applications for hearings, answering numerous correspondence relative to pending cases, calling for reports, etc., keeping the necessary records and files, and performing other material labor incident to the care and preservation of the same, forwarding appeals from the decisions of this office affecting cases in the division to the Department, and promulgating departmental decisions.

Of this class of work, the most intricate, as well as the most important, are the docket appeal cases, otherwise known in this office as docket cases. In the trial of these cases before the local officers the practice adopted is similar to that which obtains in the trial of litigated cases before courts of justice without juries, and, as a rule, when the record reaches this division it is voluminous and contains much conflicting testimony, demanding a decision both as to the law and facts, and therefore requires, on the part of the examiner, a clear and certain knowledge, not only of the rules and regulations of the Department, but also of law and evidence. That these requirements are possessed by the examiners is shown by the fact that 95 per cent of the cases decided in this division are affirmed by the honorable Secretary on appeal.

Next in importance to the docket cases come the miscellaneous appeals. This work likewise requires clerks of legal training, as the questions involved are purely questions of law and practice, and arise in many instances upon contests which have been regularly initiated,

but generally for some good reason have either been dismissed prior to the trial or rejected by the local officers immediately upon filing the same.

The third class of cases, namely, those wherein a trial has been had and no appeal taken from the decision of the local officers, contain but a small record, and, being more or less stereotyped in character and involving generally no intricate questions, can very readily, and without much effort, be disposed of on blank forms printed for that purpose, inasmuch as the decisions of the local officers in these cases are considered final as to the facts and will be disturbed, under rule 48 of practice, by the Commissioner only as follows:

- (1) Where fraud or gross irregularity is suggested on the face of the papers.
- (2) Where the decision is contrary to existing laws or regulations.
- (3) In event of disagreeing decisions by local officers.
- (4) Where it is not shown that the party against whom the decision was rendered was duly notified of the decision and of his right of appeal.

There is considerable other important business transacted in this division besides that already mentioned, being of a routine nature, however, and in some respects similar to that performed in the office of the clerk of an appellate court.

For the purpose of showing the volume of work performed in this division since its organization in disposing of the docket appeal cases, and for comparison, the following carefully prepared statement, made from the several annual reports of this office, is herewith submitted:

Number of docket cases received and decided since the organization of the division, June 1, 1887, which includes all cases received and disposed of since the formation of the Board of Contests, April 1, 1887:

Cases transferred from other divisions to Board of Contests April 1, 1887 .....	813
Cases received between April 1 and June 30, 1887 .....	1, 104
Cases received during last three months of year ending June 30, 1887 .....	1, 917
Cases received during fiscal year ending June 30—	
1888 .....	1, 668
1889 .....	1, 197
1890 .....	1, 032
1891 .....	1, 083
1892 .....	959
Total number of cases received .....	7, 856
Cases examined and decided between April 1 and June 30, 1887 .....	0
Cases examined and decided during fiscal year ending June 30—	
1888 .....	754
1889 .....	1, 531
1890 .....	1, 375
1891 .....	1, 199
1892 .....	2, 302
Total number of cases decided .....	7, 161

Cases pending at end of fiscal year ending June 30—

1887 .....	1, 917
1888 .....	2, 745
1889 .....	3, 224
1890 .....	3, 160
1891 .....	2, 839
1892 .....	184

RECAPITULATION.

Cases received since April 1, 1887, to June 30, 1892.....	7, 856
Cases decided since April 1, 1887, to June 30, 1892.....	7, 161
	<hr/> 695
Referred to other divisions .....	511
	<hr/> 184
Total number on hand undecided on June 30, 1892.....	184

From the foregoing table it will be seen that the number of docket cases decided since the formation of the “Board of Contests,” which was merged into this division, to the end of the fiscal year June 30, 1889 (two years and three months), was 2,285, or 17 less than was decided during the present year, and for the two years following, ending June 30, 1891, the total number of docket cases examined and decided was 2,574, or only 272 more than was decided during the present fiscal year.

ADJUSTMENT OF RAILROAD LAND GRANTS.

The adjustments of the grants for the following railroad companies have been submitted to the Secretary of the Interior, viz:

Name of road.	Submitted.	Name of road.	Submitted.
St. Louis, Iron Mountain and Southern.	Aug. 8, 1888	Vicksburg, Shreveport and Pacific.	Feb. 26, 1890
Cedar Rapids and Missouri River ..	Nov. 13, 1888	St. Paul and Duluth .....	do .....
Dubuque and Pacific .....	Sept. 23, 1889	Southern Minnesota Extension.....	do .....
Little Rock and Fort Smith .....	Nov. 12, 1889	Chicago and Northwestern (Wisconsin).	do .....
Atchison, Topeka and Santa Fé ....	Dec. 20, 1889	Wills Valley Railroad and Northeast and Southwest, known as Alabama and Chattanooga.	Feb. 27, 1890
Main line St. Paul and Pacific and St. Vincent Extension, known as St. Paul, Minnesota, and Manitoba.	Jan. 25, 1890	Chicago, Milwaukee and St. Paul (Iowa).	May 19, 1890
Alabama and Florida.....	Feb. 26, 1890	Hastings and Dakota .....	July 22, 1890
Florida and Alabama.....	do .....	Gulf and Ship Island .....	Feb. 11, 1892

An adjustment of the grant to the Coos Bay Military Wagon Road Company was submitted January 13, 1888. On February 1, 1892, the Secretary of the Interior returned the papers in the case, and directed that a demand be made upon the company for the reconveyance to the United States of 10,359.20 acres of land which appeared, from the adjustment, to have been erroneously patented to it. The demand was duly made, and no response has been received, but the time allowed for answer did not expire until July 2, 1892. The case will be reported to the Department, for such action as may be deemed proper by the Secretary.

The adjustment of the grant to the Mobile and Girard Railroad Company, of Alabama, was completed prior to July 1, 1892, but was not submitted until subsequent to that date, and was not, therefore, included in the above list.

The submission of the adjustment of the grant to the St. Paul, Minneapolis and Manitoba Railway Company has been delayed by the failure of the beneficiaries to respond to a call for a designation of losses for indemnity lands heretofore conveyed thereunder, and for a statement of lands sold.

All railroad companies, which have received indemnity lands for which no loss as a basis therefor has been designated, have been called upon to designate the losses, tract by tract, for all indemnity heretofore received, with the understanding that no further indemnity lands will be approved or patented until the requirement shall have been complied with.

The adjustments of the following grants have been approved, viz:

Name of road.	Approved	Name of road.	Approved.
Sioux City and St. Paul.....	June 22, 1887	Grand Rapids and Indiana.....	July 20, 1890
Chicago, St. Paul, Minnesota and Omaha.	Feb. 12, 1890	Missouri, Kansas and Texas .....	Aug. 2, 1890
Hannibal and St. Joseph.....	May 29, 1890	Coos Bay Military Wagon Road ...	Feb. 1, 1892

In a number of cases, particularly the Pacific roads, the grants can not be adjusted, for the reasons that large quantities of the lands within their limits have not been surveyed and the acreage can not be determined. A bill has, however, been introduced in Congress, and has been favorably reported on by this office, to appropriate \$500,000 for the survey of these lands. If this bill should become a law the adjustments of the grants will be greatly facilitated.

On September 29, 1890, Congress declared forfeited to the United States all lands theretofore granted to aid in the construction of any railroad, which were opposite to and coterminous with the portion of such road not then constructed and in operation, but made an exception of that portion of the Gulf and Ship Island road south of Hattiesburg for one year. The Gulf and Ship Island Company did not build any road during the year allowed, and as no other road could have been built under the grants to aid in their construction—the same having been declared forfeited—the number of miles of railroad actually constructed under land grants remains as given in the last annual report, 18,070.71.

The number of acres of land embraced in lists of selections under railroad grants awaiting examination at the close of the year is 28,846,961.60; the pending selection for wagon roads aggregate 313,406.37 acres, making 29,160,367.97 acres embraced in pending selections under railroad and wagon-road grants.

## RIGHT OF WAY TO RAILROADS, CANALS, DITCHES, AND RESERVOIRS.

There are 392 railroad companies claiming the right of way over the public lands under the general right of way act of March 3, 1875, or special acts, the articles of incorporation of 18 of which were approved during the past year.

Under the act of March 3, 1891 (sections 18 to 21, which granted the right of way over the public lands for the construction of canals, ditches, and reservoirs), 133 applications have been received, 60 of which were made by individuals and firms and 73 by corporations. They cover 152 reservoir sites and 1,555.10 miles of canals.

Twelve of these applications have been approved during the past year.

*Statement of work performed.*

Maps pending July 1, 1891.....	43	
Maps received during year .....	709	
	<hr/>	752
Maps approved during year .....	386	
Maps returned for correction .....	345	
	<hr/>	731
Maps pending July 1, 1892 .....		21

While the above shows a considerable increase in this branch of the work of this division and of the work performed, the actual increase of business and work is not shown, for the reason that a large number of maps showing the location of railroads, canals, etc., over unsurveyed lands have not been accepted and have not been reported in the above statement, although their examination and the correspondence made necessary consumed considerable time and involved considerable work.

The refusal to accept these maps was in pursuance of the ruling of the Department in the case of the Santa Cruz Water Storage Company (13 L. D., 669), wherein the previous ruling, which allowed the filing of such maps, was changed.

## LEGISLATION AFFECTING RAILROAD LAND GRANTS.

There has been no new legislation during the year affecting land-grant railroads.

Numerous bills have been introduced in Congress containing provisions relating to railroad grants, most of them providing for the forfeiture of grants for roads not constructed within the time prescribed by law, some of which have passed the House of Representatives, but none have become laws.

On September 29, 1890, the general land-grant forfeiture bill was passed, and pursuant to the provisions thereof the forfeited lands were restored to entry during the fiscal year last past, with a few exceptions, wherein questions were pending affecting the quantity of land to be restored.

The questions involved in the case of the Southern Pacific grant

have been determined and the forfeited lands restored to entry. A suit has been introduced in the courts for the recovery of title to lands certified under the grant to the Tennessee and Coosa Railroad Company and is still pending.

Prior to the decision of the Supreme Court in the case of the St. Paul, Minneapolis and Manitoba Railroad Company *vs.* Phelps (137 U. S., 528), it was held by this office and Department that the grant to the company did not extend beyond the boundaries of the State of Minnesota, but said decision declared that the grant was not confined to said State, but extended into the Dakotas, and upon the extension of the limits thereof it was found that large quantities of lands falling therein, both upon the main line and St. Vincent extension, had been disposed of to settlers, and in numerous cases patents had been issued.

Under a resolution of the Senate, dated February 28, 1891, a negotiation with the company, with a view to secure the release of the lands settled upon within the limits as extended, has been conducted, and has resulted in a bill now before Congress which has been favorably reported on by this office, wherein provisions for a conveyance of the lands to the United States and the selection of other lands in lieu thereof by the company, are made; and it is understood that the company is cognizant of the provisions of the bill and is willing to accept them.

By the seventh section of the forfeiture act of September 29, 1890, the portion of the grant for the Gulf and Ship Island Railroad, lying south of Hattiesburg, which had not been constructed, was saved from the forfeiture for one year from the date thereof; but no additional road was built by the company during the year allowed, and a report has been submitted to the Department in the matter, with a recommendation that the lands opposite to and coterminous with such unconstructed portion of the road be restored to entry.

An investigation has been made of the records of certain counties in Florida within the limits of the grant to the company, known as the Florida Central and Peninsular Railroad Company, with a view to determine what lands are claimed under the acts known as the "armed occupation acts," and numerous claims were discovered. The parties have been notified of the adverse claim of the railroad company, and called upon to advise this office of the facts connected with their claims. A number of responses have been made, but the cases have not yet been considered, because of the pressure of other and more urgent business. The investigation has enabled the office to prepare clear lists of the company's lands, and such lists, aggregating some 280,000 acres of land, have been prepared and submitted to the Department for approval.

The restoration in the Ashland land district, Wisconsin, of the excess lands reserved under the grant to the Chicago, St. Paul, Minneapolis and Omaha Railway Company, which, pursuant to the adjustment of

said grant, was ordered for April 17, 1891, but suspended for reasons stated on page 38 of the last annual report, was carried into effect on November 2, 1891.

During the past year lands have been patented and certified under the several railroad grants, aggregating 2,018,553.64 acres, and clear lists have been prepared for the approval of the Secretary of the Interior, and are awaiting his action, containing 1,117,591.88 acres.

Certain persons having been erroneously permitted, between August 15, 1887, and January 1, 1889, to make entry for lands within the second indemnity limits of the grant to the Northern Pacific Railroad Company in Minnesota, etc., Congress, on October 1, 1890, passed an act allowing them to transfer their claims to other public lands subject to settlement and entry. Proper notice thereof was given, and it is believed that all, or nearly all of those who had made entries, about two hundred, and some who had made filings, have availed themselves of the privilege.

In making the restoration of the lands of the Northern Pacific Railroad Company in Oregon, declared forfeited by the act of September 29, 1890, this office held, and the Department concurred in the action, that the lands lying within the overlapping limits of the Northern Pacific and Oregon and California grants were included within the forfeiture, for the reason that the Northern Pacific being the earlier grant, said lands were not affected by that to the Oregon and California Company.

The Oregon and California Company, however, having definitely located its road opposite the lands, and the Northern Pacific Company not having done so, the Department had ruled that the former, by reason of its prior location, acquired a superior right, and, under that decision 102,944.20 acres of said lands were patented to it.

A demand was made for the reconveyance of these lands to the United States, and the company having declined to do so, the matter was reported to the Department, and the Attorney-General has been requested to institute suit for the recovery of the title, and furnished with all necessary data from the files and records of this office to enable him to prepare his case.

#### VACANT PUBLIC LANDS.

In compliance with the directions of this office the officials of each local land office have furnished information relative to the public lands remaining vacant at the close of the fiscal year ending June 30, 1892. On the basis of this information a tabulated statement has been prepared, which is so arranged as to show the estimated acreage remaining vacant in each county as well as in each land district and each State and Territory, and to show through recapitulation an approximation to the number of acres of public land, both surveyed and unsurveyed, now vacant and unclaimed.

In one or two instances it has been found impracticable to furnish the area by counties, and in a few other instances where the unsurveyed public domain lies within the limits of grants to railroads it has been impossible to obtain more than an estimate of the number of acres not covered by entries or filings, but while not presented as an accurate statement the result is as nearly correct as is possible to make it in view of all the circumstances.

The records of this office are kept in accordance with the rectangular system of survey, by section, township, and range, without regard to county lines, and for this reason the location of the land by counties has been a laborious undertaking. It is a matter of no small moment that this office is now prepared, in answer to numerous inquiries relative thereto, to inform correspondents and the general public as to whether there is much, little, or any vacant public land in the several public-land States and Territories, and the land districts therein, and even in particular counties or localities.

*Recapitulation of vacant lands in the public land States and Territories.*

\* No vacant land.

This aggregate is exclusive of Ohio, Indiana, and Illinois, in which, if any public land remains, it consists of a few small isolated tracts. It is exclusive of Alaska, containing 577,390 square miles or 369,529,600 acres. It is also exclusive of military and Indian reservations and lands subject to sale for the benefit of certain Indian tribes, and exclusive of reservoir sites, and timber reservations and tracts covered by selections, filings, railroad grants and claims as yet unadjudicated, a part of which may in future be added to the public domain.

PROTECTION OF PUBLIC LANDS.

During the year 95 agents were employed in the investigation of fraudulent land entries and otherwise protecting public lands from illegal appropriation, unlawful inclosures, timber trespass, applications for permits to cut timber on public lands under the act of Congress approved March 3, 1891 (26 Stat., 1093), and forest reserves under the act of March 3, 1891 (26 Stat., 1095-1103), the aggregate length of service being 854 months and 25 days, equivalent to the employment of 71 agents for the entire year and one agent for 2 months and 25 days.

The number of reports received from special agents and acted upon during the year is as follows:

Pending June 30, 1891.....	455
Received during the year.....	2, 188
Total .....	2, 643
Acted upon during the year .....	2, 191
Pending June 30, 1892.....	452

Two thousand two hundred and nineteen cases were referred to the special agents for investigation, hearings were ordered in 207 cases, 611 cases were held for cancellation, 687 canceled, and 2,571 examined and passed.

Final action was taken in 4,429 cases, and there are now pending in the division (June 30, 1892) 4,015 cases.

There are 195 records of hearings pending action and 286 registers' and receivers' reports and miscellaneous letters awaiting answer.

No reports of unlawful inclosures of public land were received during the year, the practice of this office now being to advise parties to make their complaints direct to the United States attorneys, whose duty it is, under the act of February 25, 1885, to take proper steps, upon such complaints, tending to the removal of unlawful fences.

The following table shows the cases pending in the special service division (P) June 30, 1892:

## TIMBER TRESPASS.

Three hundred and twenty-nine timber-trespass cases have been reported by special agents during the year, involving public timber and the products therefrom, to the value of \$471,610.24 recoverable to the Government.

The amount accepted under propositions of settlement is \$4,539.48; the amount paid in during the year on propositions of settlement accepted during previous years is \$22,585.18; and the amount recovered through legal proceedings so far of record (the United States attorneys' reports for the majority of the districts not having been received up to the date of preparing this report) is \$35,010.93, making a total amount recovered during the year on account of depredations upon the public timber of \$107,135.59, being \$7,135.59 in excess of the appropriation for this branch of the public service.

On the 1st of July, 1892, so far as reported by the United States attorneys, there were pending in the United States courts 132 civil suits for the recovery of a total amount of \$1,401,578.74 for the value of timber alleged to have been unlawfully cut from public lands, and 282 criminal prosecutions for the act of cutting or removing timber in violation of law.

## THE PUBLIC FORESTS.

The work in connection with administering the laws relating to the timber on the public domain has undergone a material change during the past year owing to recent legislation on the subject.

Heretofore the force of special timber agents has been mainly engaged in investigating and reporting upon cases of unlawful appropriation of public timber. While efforts in this direction have been continued during the past twelve months, the work of this branch of the service has been largely directed toward taking action under section

24 of the act of Congress of March 3, 1891 (26 Stat., 1095), providing for the creation of forest reservations, and in putting into practical operation the amendatory act passed March 3, 1891 (26 Stat., 1093), in which provision is made for the issuing by the Department of permits to cut timber on nonmineral public lands in certain portions of the country.

The work under these recent enactments has resulted as follows:

Six forest reservations have been created by Presidential proclamation, embracing an estimated area of 3,252,260 acres.

These reservations are as follows: White River timber land reserve, lying in Routt, Rio Blanco, Garfield, and Eagle counties, Colo., embracing 1,198,080 acres; Pike's Peak timber land reserve, situated in El Paso County, Colo., embracing 184,320 acres; Plum Creek timber land reserve, lying in Douglas County, Colo., embracing 177,700 acres; Pecos River forest reserve, situated in Santa Fe, San Miguel, Rio Arriba, and Taos counties, N. Mex., embracing 311,040 acres; Bull Run timber land reserve, lying in Multnomah, Wasco, and Clackamas counties, Oregon, embracing 142,080 acres; and Yellowstone National Park timber land reserve, lying on the north and east of the Yellowstone National Park in Wyoming, embracing 1,239,040 acres.

Prior to the 30th of June, 1892, 425 applications for permits to cut timber on public lands were received. Twenty-five of these applications were subsequently withdrawn, and 143 have been rejected. Many of the applications were rejected as not coming within the purview of the act of March 3, 1891 (26 Stat., 1093), in consequence of the lands embraced therein being reported to be mineral in character, which fact would bring them within the scope of the act of June 3, 1878 (20 Stat., 88).

Thirty-four permits to cut public timber have been issued under the approval of the Department, embracing an estimated area of 77,024 acres. In issuing the same the condition has been attached that no permit shall exist longer than a year, and that not to exceed 50 per cent of the merchantable timber on the area embraced therein shall be cut within the year.

To determine the scope of permits under this act, in shaping the same to meet the needs of those engaged in developing the resources of the country, while at the same time endeavoring to effectually close the door against all speculative use of public timber, has involved the consideration of numerous questions arising in connection with the matter in various localities. In consequence of this fact and for the added reason that the majority of the applications submitted have been found so irregular as to necessitate considerable correspondence in connection with amending the same, comparatively few permits have, as yet, been submitted to the Department for approval.

I am of the opinion, however, that the practical operation, thus far,

of the act of March 3, 1891 (26 Stats., 1093), authorizing the Secretary of the Interior to permit the cutting of timber from nonmineral public lands in certain States and the Territory of Utah and district of Alaska, for use within the State, Territory, or district where cut, under rules and regulations prescribed by him, justifies the conclusion that a law of this nature is in a line with the needs of the public and must result in great benefit when put into full operation. As stated in my last annual report, however, it requires to be amended to apply to all the public land States and Territories. And I am further of the opinion that there should be no distinction made therein between mineral and nonmineral public lands.

The rules and regulations prescribed by the Secretary of the Interior, May 5, 1891, under the act in question, are not as yet thoroughly understood and appreciated by the people and those engaged in the lumbering interests; and therefore the effects thereof have not been felt to an extent which will enable them to realize the full benefits therefrom. This is owing in some measure to the difficulties encountered in arriving at and establishing a definite line of policy in the issuance of permits, which would apply with equal force to all applicants, provide for the judicious and economic use of such timber as may be required to supply public necessities, and at the same time protect the timber from unnecessary waste, and preserve such as may be essential for the conservation of the water supply and the necessities of the future.

The greatest drawback, however, to the early and full operation of the law, and the rules and regulations prescribed thereunder, has resulted from the lack of machinery to carry it into effect. Congress has, in fact, enacted a law which should, and doubtless will be, eventually, of great public benefit, but it has made no provision whatever for carrying said law into effect; and the strenuous efforts made by this office, through the limited force of special agents at its command, who, prior to the passage of the act of March 3, 1891, had already more work on hand than they could properly attend to, has had rather a depressing effect than otherwise. The law is a new departure altogether from anything that has been attempted heretofore, and its intents and purposes are greatly misunderstood. This office has been deluged with letters on the subject from all quarters, showing how great and widespread is the misconception of the extent and purposes of the act.

To attempt to educate the people in the matter through correspondence is a laborious and tedious mode of proceeding, and at the best will give but little satisfaction. What is imperatively needed is a permanent force of not less than twenty special agents to devote their entire time and attention to the work, to the exclusion of all other business; first, in promulgating and explaining the intents and effects of the law and the rules and regulations prescribed thereunder, and advising the people as to the necessary steps to be taken to secure permits; and next, in examining and reporting upon the applications for permits filed in

this office. After permits are granted, the services of the agents will be required to visit the lands covered thereby, from time to time, and ascertain whether or not the conditions, restrictions and limitations prescribed in the permits are strictly complied with; as upon this, the results of the granted privileges, whether for good or evil, will largely depend.

The settlement, growth, and prosperity of the great Western States depends in a large measure upon the question as to whether or not the people who are now there, and whose number is daily, I may say hourly, being augmented by the arrival of home-seekers from the overcrowded Eastern States, can procure the requisite timber and timber products for the erection of houses to live in, barns and other buildings for their stock and farm products, fences for their fields, fuel for their firesides, and such other timber products as are essential to enable them to perfect their homes and live upon and develop the resources of the public lands selected by them for settlement purposes. Timber, lumber, and other timber products are an absolute necessity for these purposes, and for the development of the mineral and other natural resources of the Western States, and to deny the people in any locality such use of the public timber, simply means to dwarf and retard the growth of that section until such necessities can be obtained.

The issuance of permits to cut such timber under the act of March 3, 1891 (26 Stats., 1093), and the rules and regulations prescribed thereunder May 5, 1891, by the Secretary of the Interior, must of necessity greatly encourage and promote healthy settlements in the States and Territory named in the act; and the conditions, restrictions, and limitations prescribed in the form of permit issued, should provide ample safeguards against wanton waste, or the use of the public timber for any other purpose than to supply the actual necessities of the people, and also against any encroachment by parties holding permits, upon the rights and privileges of bona fide settlers.

An unfortunate circumstance connected with the permit system, in so far as the States of Idaho and Montana are concerned, is the fact that the greater portion of the available public timber land in said States is unsurveyed, and within the granted limits of the Northern Pacific Railroad, which company has filed protests against the issuance of permits by the Government to cut timber from any of said lands until the same are surveyed and the odd sections set apart to the railroad. After full consideration, the Department decided that the protests are well taken, and the Government can not lawfully authorize the removal of any timber from said lands. By this action of the Northern Pacific Railroad, and the decision of the supreme court of Montana, in case of *United States vs. Northern Pacific Railroad*, the Government is virtually prohibited from exercising any jurisdiction or control over about two-thirds of the public timber lands in said States (unsurveyed public lands within the limits of grant to the Northern

Pacific Railroad), as it can neither issue permits to cut timber therefrom, nor can it prevent the railroad company from cutting timber on said lands, or maintain a suit for trespass against any person or corporation for cutting such timber. The Government and the people, so far as concerns any rights and privileges or jurisdiction over the lands referred to, are absolutely at the mercy of the Northern Pacific Railroad Company, and there appears to be no redress therefor, or relief therefrom, unless Congress will appropriate sufficient money and provide for the official survey of said lands.

In conclusion I desire to draw attention to the fact that the operation as a whole of all the laws at present in force respecting timber on public lands is far from satisfactory.

As shown, the present and pressing necessities of those engaged in developing the resources of the country, make it a matter of unquestioned necessity to place an immediate and adequate supply of public timber within proper reach; while, on the other hand, a provisional care for the wants of future generations renders equally obligatory effective measures towards the reservation of great portions of the public forests in the interest of proper conservation of the water supply and for other climatic and economic reasons. Neither of these leading interests is fully met by existing legislation, which is apparent when it is borne in mind that the statutes which have been for years in force are many of them, as shown in my last annual report, objectionable, if not practically inoperative; while, as regards more recent legislation, the benefits conferred by the act of March 3, 1891 (26 Stats., 1093), are, as indicated above, not sufficiently general and far reaching in their operation, and the enactment in the interest of forest reservations falls short of providing for the administration of such specific reserves as may be from time to time created thereunder.

A general law on the subject of public forests is unquestionably demanded which shall make adequate provision in respect to both forest reservation and the cutting and removal of timber to supply the public necessities, and shall also repeal all existing acts or parts of acts inconsistent with the provisions thereof.

As regards the leading features of such an act, I am of the opinion that the same should be in a line with the following general suggestions:

Provision should be made for the immediate reservation of all public lands bearing forests or timber, except for entry under the homestead and mining laws.

Individual settlers, farmers, locators of mines, etc., should be authorized to procure from the public timber lands such timber as may be imperatively needed to supply their actual personal necessities for fuel, buildings, fences, and the improvements of their claims.

The cutting or removing of public timber should be prohibited for purposes of transportation or exportation, or for sale or disposal, or for any other use or purpose whatever, except as above stated, or under

laws enacted and rules and regulations prescribed by the local legislature of the State or Territory in which the timber is located, or unless a permit to cut timber has first been procured from the Secretary of the Interior.

A penalty should be provided for wasting or destroying timber growing or being on public lands, whether by fire, felling, or otherwise, with the provision attached that, of all sums collected as fines, penalties, or damages under the act, one-half shall be paid to the informer, if any, and the other half to the school fund of the county or counties in which the offense was committed.

In my opinion, the passage of a general act of this nature will effectually dispose of all material questions relating to forest reservations and the cutting and removing of timber from public lands, and render further legislation on the subject unnecessary.

## STATE AND TERRITORIAL GRANTS.

### I. SWAMP LANDS.

In the adjustment of claims for swamp lands in place and swamp-land indemnity twelve special agents were employed in the field during a portion of the year, examining lands and holding hearings to determine the true character of the tracts alleged to be swamp lands.

During the past year claims for land in place were reported to this office under the acts of September 28, 1850, and March 12, 1860, to the amount of 29,954.92 acres, which increases the aggregate selections since the passage of the swamp-land grants to 80,271,541.13 acres.

Lists of swamp lands embracing 147,446.52 acres have been approved by the Secretary of the Interior, to the several States, during the year. Of this amount 1,629.26 acres were approved and certified under the act of March 2, 1849, which grant applies only to the State of Louisiana, and which approval and certification have the force and effect of a patent. The total quantity approved since the dates of the grants is 59,520,313.49 acres.

Patents embracing 176,097.98 acres were issued, making the total acreage of swamp lands patented under the acts of September 28, 1850, and March 12, 1860, and approved and certified under the act of March 2, 1849, 57,168,362.36 acres.

Claims of the States to swamp lands in place have been rejected during the year to the extent of 280,799.37 acres, the largest quantity in any one year since the dates of the grants.

Owing to the lapse of time since the passage of the grant, and the disposal of the greater portion of the claims, as well as of the numerous conflicting entries and resulting contests the work of adjusting the swamp-land claims has been more difficult and laborious and a smaller showing must be expected from year to year. The only States in which large claims are now pending are Arkansas, California, Florida, and

Minnesota, and special efforts are being made with a view to their speedy adjustment.

During the year claims for swamp-land indemnity under the acts of March 2, 1855, and March 3, 1857, were acted upon in a large number of cases, but only \$17,513.16 were allowed on 19,895.02 acres, as cash indemnity, making a total of \$1,599,365.26 paid to the several States since the passage of the indemnity acts. There was also patented to two States, 1,220 acres as land indemnity for swamp lands located with warrants or scrip. Claims for swamp-land indemnity were held for rejection during the year on about 250,000 acres; of this quantity the rejections had become final at the close of the year as to 63,249.60 acres.

Under the regulations of September 19, 1891 (13 L. D. 301), certificates and waivers evidencing the fact that the claims of the following-named counties have been completed, have been received and accepted, viz: *Illinois*, counties of Menard, McLean, Champaign. *Iowa*, counties of Webster, Grundy, Dallas, Marshall, Bremer, Howard, and Linn.

The adjustment of the claims of the above-named counties is progressing with all possible dispatch.

## II.—SCHOOL AND EDUCATIONAL GRANTS.

The selections pending on June 30, 1892, aggregate 1,093,168.52 acres. This indicates an increase of selections in the quantity of 190,310.79 acres over those pending a year previous, but it does not indicate that the work is farther in arrears. On the contrary, much progress has been made in the disposal of selections of old standing by approval or cancellation. The work pending is mostly of current character, and its increase in volume is attributable to the recent admission of six new States having grants to adjust, and the consequent increase of new selections.

### SCHOOL LANDS IN OKLAHOMA.

Congress, by the thirty-sixth section of the act of March 3, 1891 (26 U. S. Stat., 1053), provided:

That the school lands reserved in the Territory of Oklahoma by this and former acts of Congress may be leased for a period not exceeding three years for the benefit of the school fund of said Territory by the governor thereof, under regulations to be prescribed by the Secretary of the Interior.

Agreeably with your instructions of March 13, 1891, this office, on March 19, 1891, submitted regulations for carrying the above-quoted statute into effect, which were adopted by the Department and communicated to the governor of Oklahoma on March 20, 1891. These regulations provided that the leasing should be restricted to 160 acres in any one lease, and limited as to time to periods not exceeding three years; and it was prescribed that—

Any moneys received by the governor on account of rents of such lands shall be accounted for and deposited as public moneys according to law. (Title XL, Revised Statutes.)

In submitting these regulations attention was called to the lack of an appropriation for necessary clerk hire and other expenses, exclusive of the appropriation for contingent expenses of the Territory, no part of which, perhaps, could be spared. However, the governor proceeded with the leasing of the school lands in the country opened to entry in 1889, and on advertising for bids, gave notice to the county clerks generally in transmitting his advertisements for publication that the advertisements would have to be published as "news"—that there was no fund out of which such advertisement could be paid.

Up to May 5, 1891, correspondence with the governor relative to the leasing was conducted with the head of the Department. On that date a large amount of correspondence, requiring action, having accumulated, and nearly five hundred leases being on file for approval by you in accordance with the regulations above-mentioned, you placed the leasing under the charge of this office in the following language:

It will be necessary for you to take these Oklahoma lands within your jurisdiction, and among the rest these school lands; and hereafter correspondence in regard thereto will be referred to you directly.

The correspondence theretofore had with the governor developed the fact that the regulation requiring that the moneys derived from the leasing be deposited as public moneys in the Treasury of the United States did not, upon reflection, meet with your views as to the true intent of the law, and on June 9, 1891, upon giving further instructions to the governor I directed that the moneys be placed to the credit of the school fund in the custody of the Territorial treasurer, who, if necessary, should give additional bond to protect the fund.

In accordance with the instructions of the Assistant Secretary, dated July 17, 1891, based on a recommendation from this office, additional instructions to the governor were given under date of August 3, 1891, approved by the Acting Secretary on August 21, 1891, the principal regulations embodied therein being that—

(1) The money, after deduction of the necessary expenses incurred in the leasing, must be treated as a part of the Territorial school fund, and be placed to the credit of said fund in the custody of the Territorial treasurer to be appropriated as the legislature may enact.

(2) All necessary expenses of purchasing records and stationery, and for clerk hire and advertising, will be paid out of the fund obtained from the leasing. After deposits shall have been made with the treasurer, they must be allowed to remain with him as indicated under the first head hereof.

As a result of these regulations, the leasing has been put upon a working basis. An office room has been rented by the governor, a clerk employed, and a suitable record of the leases obtained, and the purchase of necessary stationery, blanks, and office furniture, including a typewriter, has been authorized. The regulations required that a full report of all moneys received, expended, and deposited, be made at the end of each calendar year, and I am unadvised at the present time of the total amount of money received from the lessees, but on January

29, 1892, the acting governor reported that (omitting the figures as to a few items of expense to be paid, not involving large amounts) out of \$12,482.31 received, \$11,093.90 had been deposited with the treasurer, and \$738.66 remained on hand. Since then the school lands in the former Sac and Fox, Iowa, and Pottawatomie and Absentee Shawnee Reservations, have been exposed to leasing, and a large portion of them have been leased at rentals ranging from \$25 to over \$100 per year.

Some deferred payments of the yearly rental became due July 18, 1892; other notes will come due in December of this year, and on January 1, 1893, and so on. Besides, on May 28, 1892, the governor, agreeably with his earnest recommendation that the school lands in the Arapaho and Cheyenne country, opened to settlement in April last, be leased at an early day, was authorized to proceed in accordance with his recommendation. Thus it will be seen that a large increase of the Territorial school fund from cash payments, and payments of notes by the lessees, may be expected in the near future, and when the Cherokee Strip shall have been opened to settlement the work, which is now continuous in character, will be of great magnitude. This leads me to the recommendation I am about to make:

Upon careful consideration of the whole subject of the leasing of these lands, I have come to the conclusion that the Land Department of the General Government should not be charged with the supervision of the work. As the statute of 1891, above quoted, has been construed, it has become the duty of this office, not only to supervise the leasing in a general way under your instructions, but to pass upon the correctness and completeness of each lease preparatory to approval by you, conduct a large amount of correspondence with the governor and individuals respecting the leasing, and pass upon estimates of expenses.

The duty is a new one, and the work is not of the same character as that imposed upon this office by general law, to wit, the exercise of the duties pertaining to the survey and disposal of the public lands and the adjudication of private land claims. Heretofore, the officers under the direction of this office, besides inspectors and special agents, were the surveyors-general and registers and receivers of district land offices, who exercise functions exclusively national in character; but by this law and the regulations adopted thereunder, an officer clothed with gubernatorial powers is placed under my direction as to certain of his duties, and notwithstanding my endeavors to place the work on a proper footing and conduct it with due liberality, I have found that, unacquainted, as such officers usually are, with the business methods of such a bureau as this and embarrassed by a vast increase of business as the result of the legislation in question, the executive officers of the Territory have not always understood necessary regulations, and in some instances have seemed disposed to regard the decisions of this office as unwarranted and oppressive. The situation is an anomaly in the history of the land administration of the Government, and should not, in my opinion, continue.

Other considerations, also, have convinced me that it would be better that the leasing of these lands be taken from the jurisdiction of this office and placed exclusively under Territorial control; and to illustrate my position, I will mention certain questions which have arisen. On the 21st of last February, the governor presented for consideration the difficulties in the way of obtaining possession of the premises in cases of forfeiture of such leases under their terms, and of making available the clause in the leases providing for sale, by the party of the first part, of the improvements and growing crops on the lands, in the event of such forfeiture. It appears that the sureties in the leases first granted authorized the attorney-general of the Territory to confess judgment in case of such forfeiture, but failed to file a certain affidavit required in such cases by general section 4617 of the compiled laws of Oklahoma, but recently such affidavits have been required of the sureties. In my letter of April 29, 1892, in reply, it was stated, relative to the leases granted in 1891, that there being no Congressional or Territorial legislation to meet the difficulty, the Territory would appear to be without adequate authority for regular legal procedure, and in conclusion, I said—

This is a matter that directly involves the interests of the Territory, into the treasury of which the funds derived from the leasing are deposited to be expended as its legislature may direct, and it is for the legislature to see that ample statutory authority is conferred to enforce the terms of the contracts with the lessees.

So far as the new leases are concerned, it is apprehended that judgment may be confessed by the attorney-general, as the makers of the notes are now required not only to authorize him so to do, but to file the affidavit referred to above; but the legislature, in its discretion, might provide a more simple and direct method of procedure, and certainly the whole subject, including the matter of defraying necessary expenses, would as above stated, appear to be one calling for the action of that body.

Cases have arisen where the lessees, having bid a large yearly rental to save their homes already established on the lands, have found it impossible to make payment when due. Some of these cases present equities and involve great hardship, yet under the law as it exists, I have concluded that I am without legal authority to authorize the governor to release the lessees in part from their obligations; that the notes are the property of the Territory and not of the General Government, and that lessees seeking relief must apply to the Territorial legislature.

In view of the foregoing, I most earnestly recommend the enactment by Congress of supplemental or amendatory legislation placing the leasing and the office property acquired out of the funds derived therefrom exclusively under the control of the Territorial legislature, with a proviso that for a reasonable time, for said legislature to provide by law for the leasing, it shall remain under the supervision of the Secretary of the Interior; and should you concur in this recommendation I would request that it be brought to the attention of Congress in such manner as you may deem proper.

## PERSONNEL OF THE GENERAL LAND OFFICE.

In connection with existing conditions as affecting the General Land Office, it may be interesting to note the various changes that have taken place in the personnel of the office from its creation in 1812 down to the present time. From 1812 to March 3, 1849, the General Land Office was under the supervision of the Secretary of the Treasury. On the latter date it was transferred, by act of Congress creating a "Home Department," to the control of the Secretary of the Interior. By an act approved April 25, 1812, the sum of \$2,250 was appropriated as compensation to the Commissioner for the current year, and the further sum of \$7,000 was appropriated for compensation of such clerks as were deemed necessary—a total appropriation of \$9,250 for the Department for the year 1812.

Edward Tiffin, of Ohio, was the first Commissioner, his commission bearing date of May 7, 1812. In 1814, under the administration of Hon. Josiah Meigs, of Georgia, we find the number of employés of the Department to be 13, and the total appropriation for this year to be \$12,410. September 11, 1822, the Hon. John McLean, of Ohio, was appointed to succeed Mr. Meigs, who had served as Commissioner eight years, the longest term any one Commissioner has as yet served. During Mr. McLean's administration there were employed 25 clerks in the office, with an appropriation for the year 1822 of \$26,250. The Hon. George Graham, of the District of Columbia, succeeded Mr. McLean June 26, 1823, and continued in office till September 30, 1830, when the Hon. Elijah Hayward, of Ohio, was appointed, when we find the office force to consist of 20 clerks and the appropriation for this year to be \$23,500. July 24, 1835, the Hon. Ethan A. Brown, of Ohio, succeeded Mr. Hayward, and was in turn succeeded by the Hon. James Whitcomb, of Indiana, on the 21st of October, 1836. July 3, 1841, the Hon. Elisha M. Huntington, of Indiana, entered upon the duties of Commissioner and was succeeded in regular order by the Hon. Thomas H. Blake, of Indiana, May 19, 1842; the Hon. James Shields, of Illinois, April 16, 1845; the Hon. Richard M. Young, of Illinois, January 6, 1847, and the Hon. Justin Butterfield, of Illinois, July 1, 1849. It was during Mr. Butterfield's term of office that the change was effected transferring the General Land Office from the Secretary of the Treasury to the "Home Department," or the Department of the Interior, at which time there were employed in the office 77 clerks, and the appropriation of this year amounted to \$100,115.75.

It was in this year, 1849, that Abraham Lincoln became an applicant, for the first and only time in his life, for an appointment to office. Having closed his term in Congress and declining a reelection, he was urged by a large number of his friends in the West, particularly in Illinois, to apply to President Taylor for the appointment of Commissioner of the General Land Office, it being thought that this position should

be filled by one acquainted with the land law of the West, and who was alive to the growing needs of that section. Mr. Lincoln accordingly applied for the office, but was unsuccessful, Mr. Justin Butterfield, a prominent member of the Chicago bar, being the candidate selected and appointed. Mr. Butterfield was succeeded September 16, 1852, by the Hon. John Wilson, of the District of Columbia, who was succeeded by the Hon. Thomas A. Hendricks, of Indiana, August 8, 1855, who, thirty years later, was elected Vice-President of the United States.

Mr. Hendricks was succeeded, October 13, 1859, by the Hon. Samuel A. Smith, of Tennessee, who in turn was succeeded by the Hon. Joseph S. Wilson, of the District of Columbia, February 23, 1860. This Mr. Wilson was a brother of the Hon. John Wilson, who was Commissioner in 1852, and who entered public life as a messenger to the Commissioner of the General Land Office in 1816. He was also chief clerk of the office under the Hon. Samuel A. Smith in 1859, and upon his retirement from the Commissionership in 1861 he was again appointed chief clerk, a position he held till 1866, when he was reappointed Commissioner. March 19, 1861, the Hon. James M. Edmunds, of Michigan, was appointed Commissioner, and he was succeeded September 1, 1866, by the Hon. Joseph S. Wilson, as recited above. Mr. J. S. Wilson remained in office till February 4, 1871, when the Hon. Willis Drummond, of Iowa, was appointed. Mr. Drummond was succeeded by the Hon. Samuel S. Burdett, of Missouri, July 1, 1874, who in turn was succeeded by the Hon. James A. Williamson, of Iowa, June 24, 1876; by the Hon. N. C. McFarland, of Kansas, June 17, 1881; by the Hon. W. A. J. Sparks, of Illinois, March 26, 1885; by the Hon. S. M. Stockslager, of Indiana, March 27, 1888; by the Hon. Lewis A. Groff, of Nebraska, September 16, 1889, and on the 31st of March, 1891, the present Commissioner took charge of the office, which employed on above date 418 clerks, and for which was appropriated for the year ending June 30, 1892, the sum of \$546,250.

The personnel of the General Land Office so far as regards the large number of subordinates is now within the classified service under existing laws.

#### PROMOTIONS BY COMPETITIVE EXAMINATIONS.

On the 4th of December, 1891, the President directed that your Department devise and put in operation a plan for keeping an efficiency record of all persons within the classified service with a view to placing promotions wholly upon the basis of merit.

Under said direction you caused to be prepared a book for the respective bureaus of your Department, in which a form was prescribed for keeping a daily journal of all those elements that are covered by the terms "faithfulness and efficiency" of the employés thereof, and assigning to each element a relative weight according to its value.

Each of the divisions of this Bureau was furnished with one of these books, and, considering the unavoidable complications arising from the

intricacies of the system, its wide departure from long established usages, and the varying and often conflicting judgments of the several heads of divisions as to their duties and obligations in the premises, I am fully convinced that honest and intelligent care and discretion have been exercised in rewarding the clerks who have faithfully and properly performed their duties, and thereby contrasting the record of those who have endeavored to shirk them, or who from lack of endeavor or ability have been unable to successfully compete.

On the 2d of February, 1892, you appointed a general board of promotions for the Department, with an auxiliary member from each of the bureaus thereof. This board proceeded to formulate a system of rules and regulations governing the promotions of employes in the classified service of the Department, which were approved by you February 18, 1892.

The system provided for voluntary competitive written examinations to be held by the Board of Promotions, based upon the efficiency of such clerks as might apply for examination as shown by the record aforesaid, and also to a limited extent on their length of service and experience in the Department, in military, or naval service. It was wisely provided that the examinations for promotions should be practical in character and relate principally to the work assigned by law and custom and performed in the bureau of the Department in which the competitor might be employed, or in which a vacancy might exist.

An examination of such applicants for promotion as were upon the eligible list of this office was held in May last, and I take great pleasure in reporting that the results thereof were such as to commend the general scope of the system as adopted, and to secure its continuance in the future, with such amendments as experience and actual contact with its practical operations may suggest.

I am persuaded that the tendency of the system is towards a higher development of self-reliance and self-esteem among the clerks. It effectually debars them from dependence upon outside influence for promotion, and places it, as aptly suggested by the President, "wholly upon the basis of merit."

Moreover, as the examinations under the the present system are necessarily general in their nature, comprehending important features of work assignable to the different divisions and subdivisions, of a given bureau, the tendency will be towards a more general knowledge by the clerks of the work of the entire Bureau, and thus avoid the annoyances and delays which have hitherto attended the transfer of employes, under the exigencies of the service, to other and equally important duties.

THE INADEQUATE ACCOMMODATIONS OF THE GENERAL  
LAND OFFICE.

I desire in this report again to call attention to the inadequacy of the accommodations now afforded to the General Land Office for its great and extending business, and for the care and preservation of its important records.

This matter was fully treated of in my annual report of September 23, 1891, page 61 *et seq.*

I respectfully recommend that the attention of Congress be called to this subject, and that the views therein given with regard to the need of a suitable building to be erected for the accommodation of this office and its records in a safe and suitable manner may be presented in the proper quarter in such way as to bring about, if practicable, a speedy realization of the object sought.

Respectfully submitted.

THOS. H. CARTER,  
*Commissioner.*

Hon. JOHN W. NOBLE,  
*Secretary of the Interior.*

DETAILED STATEMENT

OF THE

BUSINESS OF THE GENERAL LAND OFFICE,

BY DIVISIONS AND IN SURVEYING DISTRICTS,

FOR THE

FISCAL YEAR ENDING JUNE 30, 1892.

---

## DETAILED STATEMENT.

---

A detailed statement of the work performed in the General Land Office and surveying districts during the year is given under the following heads:

1. B. Recorder's division.
2. C. Public lands division.
3. D. Private land claims division.
4. E. Surveying division.
5. F. Railroad division.
6. G. Preëmption division.
7. H. Contest division.
8. K. Swamp-land division.
9. L. Drafting division.
10. M. Accounts division.
11. N. Mineral division.
12. P. Special service division.
13. Report of surveyor-general of Arizona.
14. Report of surveyor-general of California.
15. Report of surveyor-general of Colorado.
16. Report of surveyor-general of Florida.
17. Report of surveyor-general of Idaho.
18. Report of surveyor-general of Louisiana.
19. Report of surveyor-general of Minnesota.
20. Report of surveyor-general of Montana.
21. Report of surveyor-general of North Dakota.
22. Report of surveyor-general of Nevada.
23. Report of surveyor-general of New Mexico.
24. Report of surveyor-general of Oregon.
25. Report of surveyor-general of South Dakota.
26. Report of surveyor-general of Utah.
27. Report of surveyor-general of Washington.
28. Report of surveyor-general of Wyoming.

## B.—RECORDER.

*Work performed in Division B during the fiscal year ending June 30, 1892.*

## C.—PUBLIC LANDS DIVISION.

In this division are posted in tract books, wherein space is allowed for each smallest surveyed legal subdivision which has heretofore been or is now a part of the public domain, notations showing descriptions of all the entries, filings, selections, grants, reservations, and restorations of public lands, as well as cancellations thereof, either by relinquishment or by the action of this office. This division has, therefore, charge of the permanent tract-book record of all claims to the public lands and must needs note on tract books all contests and conflicts or anything pertaining to or affecting the status of any described tracts to the end that the status of all lands patented, pending, or undisposed of may appear.

It devolves also upon this division to examine the greater portion of the entries made with regard to the regularity of the application papers and qualifications of applicants and to furnish the status, showing any apparent conflicts, at the date of posting of all entries, selections, filings, and applications that are referred to other divisions for final action. All homestead entries on which final proof is made, or such as are commuted to cash under the different laws, private cash, soldiers' additional, and various other classes of entries are finally adjudicated and passed to patent by this division.

And in all cases where any question of right to land is to be adjudicated by other divisions, the status of tracts involved must be obtained from the tract-book records. Such information is furnished by this division on status cards, showing any unexpired filings, entries, or claims that appear of record as against, or claims to tracts in question, which requires the most careful examination of tract books in each case. Some 46,000 status cards have thus been prepared during the fiscal year by this division as an aid for the completion of work of other divisions.

In addition there is a great deal of miscellaneous and important work done by this division which has recently been greatly augmented by the opening up to homestead entry of vast areas of ceded Indian lands, and lands restored to the public domain from a state of reservation imposed by railroad grants, reservoir sites, and military reservations, etc., causing various questions to arise as to legal rights accruing under the special laws governing the disposal of lands under the different acts, and instructions relative to such restorations, and involves decisions in the complicated questions arising under them covering the nicest points of law in cases where new rulings are requisite.

The following table shows the entries, locations, selections, and filings by classes received in this division during each of the three years preceding June 30, 1892.

*Entries, locations, selections, and filings, by classes, received in the Division of Public Lands for posting and examination during the three years subsequent to June 30, 1889.*

## STATUS OF POSTING.

On June 30, 1889, there were in this division 59,524 original and final entries, filings, excess receipts, and selections unposted, and since that date 487,102 have been received for posting, making in the aggregate 546,626 entries and filings of all classes. Of this entire number there remained unposted on June 30, 1892, but 9,711, of which only 1,964 were final entries. The total number of entries, filings, and selections posted since June 30, 1889, was 537,015, of which 154,995 were posted during the fiscal year ending June 30, 1892.

In addition to the foregoing, filings and selections of different kinds have been received to the number of 23,530, with an aggregate area of 2,882,400 acres.

## FINAL ENTRIES PENDING.

The following table shows the number of final entries pending by classes at the close of the fiscal year ending June 30, 1892:

Final homestead .....	5, 075
Coal, cash .....	8
Commuted cash .....	1, 515
Soldiers' additional homesteads .....	176
Timber culture .....	363
Commuted timber culture .....	152
Desert land .....	109

Indian homesteads .....	27
Timber and stone .....	360
Warrant and scrip locations .....	327
Private, cash .....	957
Public sale .....	12
Under act of March 3, 1887 .....	9
Under act of June 15, 1880 .....	99
Indian, cash .....	511
Indian allotments .....	141
Preëmption, cash .....	402
Under act of September 29, 1890 .....	477
Town sites .....	1
Under act of October 1, 1890 .....	7
Mineral entries .....	16
Miscellaneous .....	39
Total .....	10,783

At the close of the fiscal year ending June 30, 1889, there were pending in this division 4,107 letters; there were received during the year 1890 49,014 letters, during the year 1891 44,013, and during the fiscal year ending June 30, 1892, 41,990, a total of 139,124 letters, of which there remained undisposed of June 30, 1892, but 1,671, or a number representing the current receipts of two weeks.

Since June 30, 1889, 97,311 letters and decisions have been written by this division, exclusive of various reports for the honorable Secretary, which would increase the number to 98,000, which comprise in the aggregate 190,622 pages of official information, instructions, and decisions, as is shown by letterpress copy books in this division.

#### RULINGS.

The following are among the important rulings made during the past year:

[Commissioner Carter to register and receiver, Huron, S. Dak., August 22, 1891.]

In the case of commuted cash (proof having been rejected, and pending compliance with further requirements of this office), and although several years have elapsed and no protest nor contest appears of record,

It is held that: The encumbrance of such "title as entryman may thereby have through a sale of said land to meet taxes prior to March 1, 1888," is not thought to be such an encumbrance as is contemplated in the act of March 3, 1891. That act appears to afford relief only to those cases in which the entryman has voluntarily allowed his title to be encumbered for a valuable consideration.

Until patent for a tract of Government land has been issued, or the right to a patent has been fully acquired, the title to the same rests in the United States; it is not subject to local taxation and can not be encumbered by the local authorities by a tax sale. The purchaser of the tax certificate acquires no right except such as he may acquire through the entryman's title to the land, and if that fails he has no redress.

[Assistant Commissioner Stone to register and receiver, Rapid City, S. Dak., June 13, 1891.]

The register has no authority to designate any other officer to take a claimant's proof than the one selected by him.

[Assistant Commissioner Stone to register and receiver, Huron, S. Dak., May 22, 1891.]

A claimant can not purchase a portion of the tract entered as a timber culture under act of March 3, 1891, and make ordinary final proof on the remainder of the tract. Proof and payment must be made for the entry as an entirety.

[Assistant Commissioner Stone to register and receiver, Bismarck, N. Dak., December 5, 1890.]

Relinquishment of a tract upon which excess has been paid reinvests the United States with full and exclusive possession of the tract; and if the party should re-enter the land, he must again pay the excess. Decision affirmed by Secretary May 26, 1892.

[Assistant Commissioner Stone to register and receiver, Pierre, S. Dak., November 20, 1891.]

Sioux Indian lands, ceded. The three years mentioned in the first proviso to the act of March 2, 1889 (25 Stats., 888), will expire on February 10, 1893.

[Assistant Commissioner Stone to register and receive, Los Angeles, Cal., April 13, 1892.]

In case of the death of a homestead claimant, leaving a widow who never became a citizen of the United States, the devisees, if citizens of the United States, may perfect the entry and receive the title. The widow is disqualified to perfect the same, being an alien.

[Assistant Commissioner Stone to register and receiver, La Grande, Oregon, March 9, 1892.]

Publication of notice of intention to purchase, by claimants, under act of September 29, 1890, is not required.

The right of a trustee to perfect an entry for the benefit of the devisees of a deceased claimant is recognized, said devisees being infants.

[Assistant Commissioner Stone to register and receiver, San Francisco, Cal., September 16, 1891.]

An additional homestead entry under the act of March 2, 1889, may be allowed, although the combined area of the original and additional entries is largely in excess of 160 acres, the two entries together embracing a technical quarter section.

[Assistant Commissioner Stone to register and receiver, Alliance, Nebr., April 27, 1892.]

Soldier's minor heir can not make entry under R. S., 2307, except by guardian, where said minor is over 18 years of age and under 21, although the laws of the State recognize party 18 years of age as having attained legal majority.

[Assistant Commissioner Stone to register and receiver, North Platte, Nebr., June 11, 1892.]

In a case where a native of the United States went to Canada and took out citizenship papers there, it is held that upon his return to the United States to live he was qualified to make homestead entry.

[Assistant Commissioner Stone to register and receiver, Oberlin, Kans., July 31, 1891.]

There is no statute that requires the claimant in timber-culture cases (proof by guardian of insane claimant) to personally participate in making the proof, although official regulations require that he should do so. I think that the requirements thereof have reference to ordinary cases, and in a case of this kind, especially in view of the act of June 8, 1880 (21 Stats., 106), governing analogous cases under the preemption and homestead laws, they should not be insisted upon.

[Assistant Commissioner Stone to register and receiver, Beaver, Okla., April, 27, 1892.]

A widow may be permitted to make a homestead entry in the "Public Land Strip," O. T., as widow of a deceased settler, and another in her own name as head of a family, on the same day.

[Assistant Commissioner Stone to register and receiver, Garden City, Kans., September 16, 1892.]

An application to make an entry under timber-culture laws is approved, although the timber-culture affidavit was made before a notary public.

It is held that an affidavit executed before any officer named in either the act of June 14, 1878, or May 26, 1890, so far as the character of the officer is concerned, is good and sufficient in law.

[Assistant Commissioner Stone to register and receiver, Oberlin, Kans., September 15, 1891.]

Final homestead proof by the guardian of an insane preemption claimant, may be accepted should the guardian change said filing into a homestead, in name of insane party, under act of June 14, 1878 (20 Stats., 113).

[Assistant Commissioner Stone to register and receiver, Wakeeney, Kans., November 18, 1891.]

Inasmuch as one of the heirs of the deceased timber-culture entryman (the one making proof) is an actual bona fide resident of the State in which the land is located, commuted proof, on appeal, is sustained; and the purchase under the law (act of March 3, 1891) is not considered a personal privilege.

[Commissioner Carter to register and receiver, Seattle, Wash., March 8, 1892.]

You are advised that it is held by this office that a party having a right to a soldier's additional entry, under prior legislation, is not curtailed in that right by the act of August 30, 1890, but should be permitted to perfect the same without being required to make the affidavit referred to, as required of homestead applicants since that date. Therefore your rejection of the application is reversed. The affidavits heretofore required in soldier's additional entries are furnished with this application, but the affidavit which in homestead entries is required by the fifth section of the act of March 3, 1891 (26 Stats., 1095), is not furnished in this case, and in my judgment the requirement of this affidavit is not authorized by the law in cases of soldiers' additional homestead entries.

[Assistant Commissioner Stone to register and receiver, Lamar, Colo., July 14, 1891.]

Final certificate having issued and no adverse action having been taken in the case within two years thereafter—a soldier's additional entry—the same is approved under section 7, act March 3, 1891, although the original entry was abandoned, and residence and cultivation on the additional entry are not shown.

[Assistant Commissioner Stone to register and receiver, Lewiston, Idaho, July 31, 1891.]

A soldier's additional entry made by a party not entitled under section 2306, R. S., is allowed to stand, upon filing of proper affidavit, as having been made under act of March 2, 1889.

[Assistant Commissioner Stone to register and receiver, Kirwin, Kans., July 13, 1891.]

In case of an incumbrance placed upon an entry, where the mortgagee applies to be permitted to make final proof in the name of the entryman, the application is denied.

The party in interest is at liberty to attack the entry, on the ground of fraud or illegality, by pursuing the method prescribed by the rules of practice for the prosecution of contests.

[Assistant Commissioner Stone to register and receiver, Wakeeney, Kans., December 11, 1891.]

Application to transmute his filing to a homestead rejected for the reason that applicant has heretofore exhausted his right under the homestead law. He having on April 3, 1886, made homestead entry, which was commuted to cash February 27, 1888, and as his preëmption claim was not initiated until October 15, 1889, he is not entitled to transmute said filing under act March 2, 1889.

[Assistant Commissioner Stone to register and receiver, Oberlin, Kans., September 21, 1891.]

An entry of record may become subject to forfeiture for failure of compliance with legal requirements, but until such forfeiture is formally declared and the entry canceled from the records, it is an appropriation of the land, and is consequently a bar to another entry.

[Assistant Commissioner Stone to register and receiver, Pierre, S. Dak., September 1, 1891.]

In cases of entries suspended by this office, but in which confirmation is claimed under the proviso to the seventh section, act of March 3, 1891, in order to defeat the claim it must appear affirmatively that notice of the suspension was served on claimant within two years from date of final receipt. Otherwise the entry must proceed to patent.

[Commissioner Carter to register and receiver, Wausau, Wis., September 18, 1891.]

The relinquishment by an Indian of a homestead entry made on a tract of land reserved by the honorable Secretary, under act of January 18, 1881, for a certain designated Winnebago Indian, leaves the tract in *statu quo*, still reserved and not subject to other entry than as specified, pending the restoration of the same by the honorable Secretary of the Interior.

[Assistant Commissioner Stone to J. M. St. Cyr, Wittenberg, Wis., May 18, 1892.]

Homestead entries made under act of March 3, 1875, by Winnebago Indians of Wisconsin, were brought under the provisions of act of January 18, 1881.

You are therefore advised that relinquishments by the Indians of lands so selected

and reserved are not permitted except by the consent of the honorable Secretary, nor can the tracts (reserved by Secretary's decision of September 29, 1883) be restored nor be made subject to entry by other than the identical person for whom reserved except by the action of the Department.

[Commissioner Carter to T. M. Everett, Helena, Mont., March 21, 1892.]

Proof by one party for several under R. S., 2274, can not be made unless settlement was prior to act of March 3, 1891.

[Assistant Commissioner Stone to C. M. McCleary, Pratt, Wis., May 26, 1892.]

In case of an entry made by a guardian, under R. S., 2307, for minor orphan children of deceased soldier, if the land so entered is cultivated in good faith for a period of five years the law will be regarded as substantially complied with.

[Assistant Commissioner Stone to John Foster, Garth, Wis., December 14, 1891.]

A party who has made a homestead entry for 80 acres of land since March 2, 1889, can not make an additional entry of 80 acres. One homestead entry subsequent to said date exhausts a party's right under the general homestead law.

[Assistant Commissioner Stone to Mrs. Maggie J. Griffin, Great Falls, Mont., February 10, 1892.]

A party whose application to make homestead entry based on settlement on lands reserved for reservoir purposes was rejected by the local office may, upon the restoration of said lands to the public domain, again present the same application at the local office, and, if rejected, have the right of appeal, which would bring the matter properly before this office for a decision.

#### ABANDONED MILITARY RESERVATIONS.

Under the act of July 5, 1884, providing for the disposal of abandoned military reservations, or portions thereof, on the public domain, certain lands have at various times been relinquished by the War Department and placed under the Interior Department for disposal in accordance with said act (23 Stats., 103), or as provided for in acts of Congress subsequent thereto.

Lists of said abandoned military reservations which have been transferred to this office for disposal are herewith presented.

Statement A shows the date of relinquishment, area, improvements, if any, and value if appraised.

Statement B shows the facts relative to location, survey, appraisal, and sale, or status of each reservation on June 30, 1892, together with status of undisposed of reservations relinquished under act of February 24, 1871, and date of any special act governing the manner of disposal of same.

## STATEMENT A.

*List of military reservations or parts thereof relinquished by the War Department to the Interior Department under the provisions of the act of Congress approved July 5, 1884 (23 Stats., 103).*

Name.	Date of re- linquishment.	Area.	Improvements transferred.
		<i>Acres.</i>	
Camp Crittenden, Ariz .....	July 22, 1884	3,313.46	1 building, value \$150; 1 building, value unknown.
Camp Goodwin, Ariz .....	July 22, 1884	3,575.74	None.
Camp Grant, Ariz .....	July 22, 1884	2,010.72	Do.
Fort Lowell, Ariz.....	Feb. 24, 1891	*51,631.36	34 buildings, value not known.
Camp McDowell, Ariz.....	Feb. 14, 1891	25,628.00	30 buildings and other improvements, value \$7,423.
Whipple Barracks, Ariz. (timber reserve).	July 22, 1884	720.00	None.
Fort Verde, Ariz. (garden tract).....	July 22, 1884	2,995.82	Do.
Fort Verde, Ariz. (post).....	Oct. 2, 1890	*9,290.79	23 buildings, value \$1,655.
Little Rock Barracks, Ark .....	Oct. 3, 1890	36.01	32 buildings, fences, etc., value, \$60,081.
Block 94, Ark. (Hot Springs military reserve).	Aug. 15, 1890	6.76	None.
Fort Bidwell, Cal. (part) .....	Feb. 16, 1885	123.22	6 structures, valued at \$1,950 (presumed to be private property).
Fort Bidwell, Cal. (remainder).....	Oct. 2, 1890	*3,078.19	None.
Camp Cady, Cal .....	July 22, 1884	*1,562.00	It was reported in 1870 that there were 12 structures, quarters, etc.
Camp Independence, Cal. (post reserve)	July 22, 1884	120.20	None.
Camp Independence, Cal. (hay reserve)	July 22, 1884	2,530.18	Do.
Camp Independence, Cal. (wood reserve).	July 22, 1884	2,560.00	Do.
Fort Yuma, Cal.....	July 22, 1884	5,265.66	Tract reserved for Indian uses.
Camp on White River, Col.....	July 22, 1884	40,960.00	21 structures in all, quarters, etc., value, \$5,000 if sold with the land.
Cantonment on Uncompahgre, Colo. (part of).	July 22, 1884	2,797.22	None.
Fort Crawford (formerly cantonment on Uncompahgre), Colo.	Dec. 22, 1890	5,496.03	33 buildings, value, \$4,045; boards on board walk, \$15; wire fence, \$80; irrigating ditch, \$700.
Fort Lyon (old), Colo.....	July 22, 1884	38,000.00	None.
Fort Lyon (new), Colo.....	Nov. 25, 1889	5,918.90	46 buildings, value, \$46,480.
Pagosa Springs (formerly old Fort Lewis), Colo.	July 22, 1884	2,240.00	None.
Pike's Peak Signal Station, Colo.....	Jan. 12, 1889	8,192.00	Do.
Fort Sedgwick (part in State of Nebraska), Colo.	July 22, 1884	40,960.00	Do.
Dragoon Barracks, L. H., Fl.....	Nov. 18, 1886	1.15	Tract has been disposed of.
Old Powder House Lot, Fl.....	Mar. 18, 1886	10.29	Do.
Camp Three Forks, Owyhee, Idaho..	July 22, 1884	*4,800.00	None.
Fort Coeur D'Alene (winter pasturage), Idaho.	Apr. 27, 1886	640.00	None.
Fort Gibson, Ind. T.....	Feb. 17, 1891	*5,534.10	Unknown.
Fort Dodge, Kans. (remainder) .....	Jan. 12, 1885	14,661.00	41 structures in all. Value, \$20,000 if sold with ground.
Fort Hays, Kans.....	Oct. 22, 1889	7,600.00	40 structures in all, valued at \$10,050; one bridge valued at \$200.
Fort Wallace, Kans.....	July 22, 1884	8,926.00	Barracks, quarters, etc., for one company. Value, \$15,000 if sold with land.
Baton Rouge Barracks, L.....	Sept. 6, 1884	44.17	Disposed of.
Ten reservations on the gulf coast, Louisiana, as follows:			
Reservation near the eastern mouth of Bayou La Fourche.	Sept. 23, 1886	*720.00	None.
Reservation near the western mouth of Bayou La Fourche.	....do .....	*700.00	Do.
Reservation on Bayou Plat .....	....do .....	100.00	Do.
Reservation near the western entrance to Caminada Bay.	....do .....	437.93	Do.
Reservation near the Pass, at the eastern end of Grand Terre Island.	....do .....	324.00	Do.
Reservation near the mouth of Quatre Bayou Pass.	....do .....	347.46	Do.
Reservation at Bastian Bay.....	....do .....	392.46	Do.
Reservation near Bastian Bay, comprising part of secs. 22, 23, and 26, and all of secs. 27 and 35, T. 21 S., R. 28 E.	....do .....	1,217.35	Do.
Reservation near Bastian Bay, comprising part of secs. 4 and 5, and all of secs. 6, 7, and 8, T. 22 S., R. 29 E.	Sept. 23, 1886	1,601.82	None.

\*Estimated.

*List of military reservations or parts thereof relinquished by the War Department to the Interior Department, etc.—Continued.*

Name.	Date of relinquishment.	Area.	Improvements transferred.
Ten reservations on the gulf coast, Louisiana, as follows—Continued.		<i>Acres.</i>	
Reservation near Bastian Bay, comprising part of secs. 14 and 15, and all of secs. 22, 23, and 24, T. 21 S., R. 27 E.	Sept. 23, 1886	329.77	None.
Fort Sullivan, Me.	July 22, 1884	12.50	Do.
Bois Blanc Island, Mich.	do	9,727.18	Do.
Fort Wilkins, Mich.	do	148.35	19 structures; value not known.
Greenwood Island, Miss.	Dec. 18, 1890	100.00	None.
Island in Missouri River, in secs. 28 and 33, T. 50 N., R. 33 W., 5th P. M., Mo.	July 22, 1884	54.70	Do.
Fort Ellis, Mont.	July 26, 1886	33,234.66	24 structures in all. Value unknown.

Fort Hartsuff, Nebr.	July 22, 1884	3,251.41	None.
Fort McPherson, Nebr.	Jan. 5, 1887	*19,500.00	Do.
Camp Sheridan, Nebr.	July 22, 1884	18,225.00	Do.
Carlin, Nev.	Mar. 2, 1888	920.00	Do.
Fort Halleck, Nev. (post, hay, and timber reserves).	Oct. 11, 1886	10,829.72	20 structures in all. Value unknown.
Fort McDermit, Nev. (post reserve)	July 17, 1889	3,921.38	Last report (1879) shows 25 structures in all. Value unknown.
Fort McDermit, Nev. (hay reserve)	Dec. 1, 1886	6,400.00	None.
Fort Butler, N. Mex.	July 22, 1884	*11,520.00	Do.
Fort Craig, N. Mex.	Mar. 3, 1885	24,895.00	22 structures in all. Value unknown.
Fort Cummings, N. Mex.	Oct. 7, 1891	*23,040.00	1 old fort, 2 sets quarters. Condition ruinous. No value.
Fort Seldon, N. Mex.	Mar. 17, 1892	*9,613.74	Unknown.
Fort McRae, N. Mex.	July 22, 1884	2,560.00	Private land claim. Tract is disposed of.
Fort Rice, N. Dak.	do	112,362.87	None.
Fort Abraham Lincoln, N. Dak.	Sept. 10, 1891	*24,800.00	41 buildings. Value, \$3,585.
Fort Klamath, Oregon (post reserve)	May 4, 1886	1,200.00	25 structures in all. Value unknown.
Fort Harney, Oregon	Mar. 2, 1889	317.65	Unknown.
Fort Klamath, Oregon (hay reserve)	May 4, 1886	2,135.68	None.
Fort Randall, S. Dak. (part east of Missouri River).	July 22, 1884	24,502.21	Do.
Fort Sisseton, S. Dak. (formerly Fort Wadsworth).	Apr. 22, 1889	79,400.00	8 brick, 6 stone, 5 frame, and 3 log buildings, and board walks on sides of parade. Value unknown.
"Block 108" (located in the city of Houston), Tex.	Jan. 16, 1891	1.35	Tract to be disposed of by Secretary of the Treasury.
Fort Elliot, Tex.	Oct. 2, 1890	2,560.00	38 buildings. Value, \$32,320.
Fort Cameron, Utah	July 2, 1885	23,378.00	None.
Fort Crittenden (formerly Camp Floyd), Utah	July 22, 1884	173,664.68	Do.
Rush Lake Valley, Utah	do	5,131.47	Do.
Fort Thornburg, Utah	do	*21,851.00	9 structures in all; \$500 was offered and referred to Interior Department
Fort Colville, Wash.	Feb. 26, 1887	1,070.00	Quarters for 5 officers and 4 companies. 1 hospital and 2 storehouses. Value unknown.
Point Roberts, Wash.	June 28, 1889	2,170.50	None.
Steilacoom, Wash.	July 22, 1884	289.00	Improvements appear to have been donated to Washington Territory prior to transfer.
Fort Bridger, Wyo. (remainder)	Oct. 2, 1890	10,941.06	51 structures. Supposed value, \$27,735.
Fort Bridger, Wyo. (coal reserve)	July 22, 1884	99.17	None.
Fort Fetterman, Wyo. (hay reserve)	do	2,620.91	Do.
Fort Fetterman, Wyo. (post reserve)	do	36,495.65	A double set officers' quarters, with outhouses, stables, etc. Value unknown.
Fort Fetterman, Wyo. (new wood reserve).	do	1,262.76	None.
Fort Fetterman, Wyo. (old wood reserve).	do	4,685.39	Do.
Fort Fred Steele, Wyo. (post reserve)	Aug. 9, 1886	22,269.65	42 structures in all. Value unknown.
Fort Fred Steele, Wyo. (wood reserve)	do	†1,283.64	None.
Fort McKinney, Wyo. (portion)	Jan. 10, 1889	680.30	Do.
Fort Laramie, Wyo. (post)	May 28, 1890	33,415.00	1 set quarters, 2 wagon bridges, 1 foot bridge, flagstaff. Condition serviceable.
Fort Laramie, Wyo. (wood and timber)	do	*39,680.00	None.
Fort Sanders, Wyo.	Sept. 6, 1884	19,428.03	Do.

\*Estimated.

†Area of part surveyed.

*List of reservations, or parts thereof, relinquished by the War Department to the Interior Department, under the provisions of the act of August 18, 1856 (11 Stat., 87).*

[Said act was repealed by the act of July 5, 1884, and the reservations are, by departmental decision of May 10, 1887, 5 L. D., 632, to be disposed of under the provisions of the latter act.]

Name.	Date of relinquishment.	Area.	Improvements transferred.
		<i>Acres.</i>	
Fort Brooke, Fla. ....	Jan. 4, 1883	148. 11	None.
Fort Jupiter, Fla. ....	Mar. 16, 1880	9, 088. 38	None.
St. Augustine, Fla. (hospital lot) .....	Oct. 15, 1883	0. 1619	None.
St. Augustine, Fla. (blacksmith shop lot) .....	.....do .....	0. 12786	None.

There has been but one reservation, or part thereof, relinquished by the War Department to the Department of the Interior under any act subsequent to the act of July 5, 1884, viz:

Name.	Date of relinquishment.	Area.	Improvements transferred.
		<i>Acres.</i>	
Fort Douglas, Utah (portion) .....	Apr. 17, 1885	151. 81	None.

Said portion of this reservation was relinquished under the act of January 21, 1885 (23 Stats., 284), which allowed Charles Popper ninety days in which to make entry of the tract relinquished. Popper made entry for the tract June 17, 1885, which entry was patented January 20, 1886.

The tract referred to is described as the NW.  $\frac{1}{4}$  of the SE.  $\frac{1}{4}$ , and the NE.  $\frac{1}{4}$  of the SW.  $\frac{1}{4}$ , and the NW. fractional  $\frac{1}{4}$  of the SW. fractional  $\frac{1}{4}$ , and the N.  $\frac{1}{2}$  of the SE.  $\frac{1}{4}$  of the SW. fractional  $\frac{1}{4}$ , and the N. fractional  $\frac{1}{2}$  of the SW. fractional  $\frac{1}{4}$  of the SW. fractional  $\frac{1}{4}$  of Sec. 33, T. 1 N., R. 1 E., of the Salt Lake meridian.

#### STATEMENT B.

*Status of each of the reservations named in Statement A, and status of reservations undisposed of, relinquished under act of February 24, 1871 (16 Stats., 430), as stated.*

#### ARIZONA.

*Camp Crittenden*, situated in Pima County, in township 20 south, range 16 east. Established by Executive order of August 20, 1867. Relinquished July 22, 1884, with two buildings, one valued at \$150; value of the other not known. Surveyed. Area, 3,313.46 acres, ready for appraisal, and comprising lots 1, 2, 3, 4, & 5, sec. 26; lots 1, 2, 3, 4, SE.  $\frac{1}{4}$  and SW.  $\frac{1}{4}$  (the buildings being on said SW.  $\frac{1}{4}$ ), sec. 27; lots 1, 2, 3, 4, 5, & SE.  $\frac{1}{4}$ , sec. 28; lots 1, 2, 3, 4, & 5, sec. 32; lots 1, 2, 3, 4, NE., SE.  $\frac{1}{4}$  & SW.  $\frac{1}{4}$ , sec. 33; lots 1, 2, 3, 4, NW.  $\frac{1}{4}$  SE.  $\frac{1}{4}$  & SW.  $\frac{1}{4}$ , sec. 34, and lot 1, sec. 35, T. 20 S., R. 16 E. lots 1, 2, 3, & 4, sec. 3; lots 1, 2, 3, 4, 5, 6, 7, 8, NE.  $\frac{1}{4}$  & NW.  $\frac{1}{4}$ , sec. 4; lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, & 13, sec. 5 in T. 21 S., R. 16 E.

*Camp Goodwin*, situated in Graham County, in townships 4 and 5 south, ranges 22 and 23 east. Established by executive order of August 20, 1867. Relinquished July 22, 1884, without improvements. Surveyed. Area, 3,575.74 acres, ready for appraisal, and comprising all of sec. 1; lots 1, 2, 3, & 4, sec. 2; lots 1, 2, 3, & 4, sec. 11; lots 1, 2, 3, 4, 5, 6, 7, 8, 9, & NW.  $\frac{1}{4}$ , sec. 12; lot 1, sec. 13; lots 1 & 2, sec. 14, T. 5 S., 22 E.; lots 1, 2, 3, & 4, sec. 25; lots 1, 2, & 3 (house on lot 1), sec. 26; lots 1, 2, 3, & 4, sec. 35; lots 1, 2, 3, 4, S.  $\frac{1}{2}$  NE.  $\frac{1}{4}$ , S.  $\frac{1}{2}$  NW.  $\frac{1}{4}$ , SW.  $\frac{1}{4}$ , & SE.  $\frac{1}{4}$ , sec. 36, T. 4 S., R. 22 E.; lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, & 11, sec. 31; lots 1 & 2, sec. 32, T. 4 S., R. 23 E.; lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, & 13, sec. 6, & lot 1, sec. 7, in T. 5 S., R. 23 E.

*Old Camp Grant*, situated in Pinal County, in townships 6 and 7 south, range 16 east. Established by Executive order of March 30, 1870. Relinquished July 22, 1884, without improvements. Surveyed. Area 2,010.72 acres, of which 415.98 acres have been entered under the provisions of the act of July 5, 1884, and 204.04 acres are reserved for the use of schools, leaving 1,390.70 acres subject to appraisal and sale, for which it is ready.

*Fort Lowell*, situated in Pima County, in township 13 and 14 south, ranges 14, 15, and 16 east. Established by Executive order of October 26, 1875. Enlarged May 15, 1886, to embrace secs. 9 and 10 and those portions of secs. 15 and 16, T. 13 S., R., 15 E., not heretofore reserved. Relinquished February 24, 1891. Partly surveyed.

*Camp McDowell*, situated in Maricopa County, T. 3, 4 and 5 N., R. 6 and 7 E. Established by Executive order of April 12, 1887. Relinquished February 14, 1891. On September 16, 1890, the War Department reported that there were 30 buildings and other improvements on the reservation, valued at \$7,423. Not surveyed.

*Whipple Barracks* (timber reserve), situated in Yavapai County, in T. 13 N., R. 2 W. Established by Executive order of June 30, 1873. Relinquished July 22, 1884, without improvement. Surveyed. Area 720 acres. Ready for appraisal.

*Fort Verde* (garden tract) situated in Yavapai County, in T. 14 N., R. 5 E. Established by Executive order of October 24, 1871. Relinquished July 22, 1884, without improvements. Surveyed. Area, 2,995.82 acres. Ready for appraisal.

*Fort Verde* (post), situated in Yavapai County, in T. 13 and 14 N., R. 4, 5, and 6 east. Established by Executive orders of March 30, 1870, and August 17, 1876. Relinquished October 2, 1890. Not surveyed.

#### ARKANSAS.

*Fort Wayne*, relinquished March 25, 1871, under act of February 24, 1871. Area, 11,680 acres, surveyed and appraised at \$1.25 per acre. No improvements. This office has heretofore recommended legislation looking to its disposal under homestead laws.

*Little Rock Barracks or Arsenal*, situated in the city of Little Rock. Established April 11, 1839. Relinquished October 3, 1890, under act July 5, 1884, with thirty-two buildings, fences, etc., valued at \$60,081. Surveyed. Area, \$36.01 acres. Ready for appraisal.

*Hot Springs Military Reserve* (block 94), situated in the city of Hot Springs. Established November 17, 1880. Relinquished August 15, 1890, act July 5, 1884, without improvements. Surveyed. Area, 6.76 acres. Offered at public sale April 12, 1892, but not sold.

*Fort Smith*, situated in T. 8 N., R. 32 W. 306 acres. Relinquished March 25, 1871, under act of February 24, 1871. A portion was transferred to the War Department for national cemetery and for light house purposes; the remainder disposed of to city of Fort Smith (act of May 18, 1884).

#### CALIFORNIA.

*Fort Bidwell*, situated in Modoc County, in T. 46 N., Rs. 15 and 16 E., M. D. M. Portion (123.26 acres) relinquished February 13, 1885. The remainder, not surveyed, estimated area 3,078.19 acres, relinquished October 2, 1890.

*Camp Cady*, situated in San Bernardino County, in T. 10 N., R. 5 E., S. B. M. Established by Executive order of June 3, 1870. Relinquished July 22, 1884. The War Department reports that in 1870 it was reported that there were twelve structures, of little value, on the reservation. Survey authorized. Returns not yet received.

*Camp Independence* (post, hay, and wood reserves), situated in Inyo County. The Post reserve consists of lot 1, in NE.  $\frac{1}{4}$ , sec. 1, T. 13 S., R. 34 E., and W.  $\frac{1}{2}$  of lot 1, in NW.  $\frac{1}{4}$ , sec. 6, T. 13 S., R. 35 E. The hay reserve consists of secs. 3 and 4, T. 13 S., R. 35 E. The wood reserve consists of 2 miles square (5 miles west of the post reserve) in T. 13 N., R. 34 E. Established by Executive order of January 23, 1866. Relinquished July 22, 1884, without improvements. Partly surveyed. An entry was made for the post reserve, but canceled by this office. One entry of 160 acres made for lands on the hay reserve under the provisions of the act has been approved. Other entries for these lands, aggregating 1,818.61 acres, have been canceled. Surveyed portions ready for appraisal.

*Fort Yuma*, situated in San Diego County, in T. 16 S., Rs. 22 and 23 E., S. B. M. Portion in Yuma County, Ariz. Established by Executive order of January 22, 1867. Transferred by Executive order of January 9, 1884, to the Interior Department for Indian uses. This reservation was placed under the control of the Interior Department, for disposal under the act of July 5, 1884, but under date of March 5, 1892, the Interior Department held that under the order of January 9, 1884, the lands in this reservation became a part of the Yuma Indian Reservation.

#### COLORADO.

*Camp on White River*, situated in Garfield County, in Ts. 1 N. and 1 S., Rs. 93 and 94 W. Established by Executive order of April 26, 1881. Relinquished July 22, 1884, with 21 structures, reported by the War Department to be worth \$5,000 if sold with the land. Surveyed. Area, 40,960 acres. This track was originally within the Ute

Indian Reservation, and by departmental decision of January 3, 1885 (3 L. D., 296), is being disposed of as other Ute lands under the act of June 15, 1880. (21 Stats., 199.)

*Cantonment on Uncompahgre*, a portion of which was subsequently called Fort Crawford, situated in Montrose County, in Ts. 47 and 48 N., Rs. 8 and 9 W. Established by Executive order of March 12, 1884. A portion (2,797.22 acres), relinquished July 22, 1884; the residue, 5,496.03 acres, relinquished December 22, 1890. These tracts were originally within the Ute Reservation, and by departmental decision of January 3, 1885 (3 L. D., 296), are being disposed of as other Ute lands under the act of June 15, 1880 (21 Stats., 199). Surveyed.

The War Department has reported that there are 33 buildings on the said Fort Crawford military reservation, which, together with board walk, irrigating ditch, and wire fence, are valued at \$4,840. Steps are being taken looking to the appraisal and sale of said improvements under act of July 5, 1884.

*Old Fort Lyon*, situated in Bent County, in Ts. 22 and 23 S., Rs. 47, 48, and 49 W. Established by Executive order of August 8, 1863. Relinquished July 22, 1884; without improvements. Surveyed. Area, 38,000 acres. To be disposed of under the act of October 1, 1890 (26 Stats., 561). (See L. D. 13, p. 533.)

*Fort Lyon* (new), situated in Bent County, in Ts. 22 and 23 S., Rs. 51 and 52 W. Established by Executive order of September 1, 1868. Relinquished November 25, 1889, with forty-six buildings, valued at \$46,480. Surveyed. Area, 5,918.90 acres.

The lands in this reservation are to be disposed of under the act of October 1, 1890 (26 Stats., 561).

*Pagosa Springs* (formerly Old Fort Lewis), situated in Archuleta County, in T. 35 S., R. 2 W. Established by Executive order of January 28, 1879. Relinquished July 22, 1884, without improvements. Surveyed. Area, 2,240 acres. Disposed of under the act of October 1, 1890 (26 Stats., 561).

*Pike's Peak, Signal Station*, situated in El Paso County, in T. 14 S., Rs. 68 and 69 W. Established by Executive order of December 23, 1873. Relinquished January 12, 1889.

By the President's second proclamation, dated March 18, 1892, supplementary to that of February 11, 1892, this reservation was ordered to be included in the Pike's Peak timber-land reserve.

On May 25, 1892, this reservation was transferred to the Department of Agriculture for the weather bureau.

*Fort Sedgwick* (part in Nebraska), situated in Logan County (Ts. 11 and 12 N., Rs. 45 and 46 W.), and in Cheyenne County, Nebr. (T. 12 N., Rs. 44 and 45 W.). Established by Executive order of June 28, 1869. Relinquished July 22, 1884, without improvements. Surveyed. Area, 40,960 acres.

Said reservation is within the granted limits of the Union Pacific Railroad Company, and the said company's rights to the odd-numbered sections, having attached prior to the reservation for military purposes, were not impaired thereby, but merely placed in abeyance. The even-numbered sections are ready for appraisal.

#### FLORIDA.

*Dragoon Barracks* (L. H.), situated in the city of St. Augustine. Area, 1.15 acres. This reservation has been sold.

*Old Powder House Lot*, situated in the city of St. Augustine. Area, 10.29 acres. This reservation has been sold.

*Fort Brooke*, near Tampa, relinquished January 4, 1883, under act of August 18, 1856, and made subject to disposal under act of July 5, 1884 (5 L. D., page 632), area 148.11 acres. Improvements in charge of collector of customs at Tampa. This tract is claimed by several parties, and all the papers relating thereto were, on appeal from decision of this office, dated December 10, 1890, transmitted to the Department September 28, 1891.

*Fort Jupiter* comprises the following tracts: E.  $\frac{1}{2}$  sec. 21, secs. 22, 23, 24, 25, 26, 27, E.  $\frac{1}{2}$  sec. 28, E.  $\frac{1}{2}$  sec. 33, secs. 34, 35, and 36, T. 40 S., R. 42 E.; secs. 1, 2, 3, and E.  $\frac{1}{2}$  sec. 14, T. 41 S., R. 42 E.; fractional secs. 19, 30, 31, and 32, T. 40 S., R. 43 E., and fractional secs. 5 and 6, T. 41 S., R. 43 E., established by Executive order May 14, 1855. Relinquished March 16, 1880, under act of August 18, 1856, except as to lot 1, sec. 31, T. 40 S., R. 43 E., which was reserved October 22, 1854, for light-house purposes. The lands are held subject to disposal under act of July 5, 1884 (5 L. D., 632), area 9,088.60 acres, of which 87.25 acres were reserved for life-saving purposes by Executive order of April 1, 1885.

Private cash entries for 170.52 acres were inadvertently patented, 500.25 acres were patented to the State as swamp lands, 40 acres are covered by an illegal preemption filing which has been held for cancellation, and 2,600.90 acres have been selected by the State as swamp lands, but no examination in the field has been made to determine the character of the lands. There remains 5,680.68 acres free from adverse

claim. On December 5, 1890, this office reported to the Department that the lands were ready for appraisal. On July 15, 1892, this office made a report on Senate bill No. 3316, looking to the disposal of said lands under the homestead laws.

*St. Augustine (hospital lot), Fla.*—Surveyed and ready for appraisal. Act July 5, 1884.

*St. Augustine (blacksmith-shop lot), Fla.*—Surveyed and ready for appraisal. Act July 5, 1884.

*Fort Douglas (portion), Utah.*—Disposed of under the provisions of the act authorizing its relinquishment.

#### IDAHO.

*Camp Three Forks Owyhee*, situated in Owyhee County, probably in T. 8 S., R. 6 W. Established by Executive order April 6, 1869. Relinquished July 22, 1884, without improvements. Not surveyed.

*Fort Cœur D'Alene (winter pasturage)*, situated in Kootenai County, probably in T. 50 and 51 N., R. 4 W. Established by Executive order of August 25, 1879. Relinquished April 27, 1886, without improvements. Contract was given for the survey and definite location of this reservation, and subsequently canceled. The reservation, therefore, has not been definitely located.

#### INDIAN TERRITORY.

*Fort Gibson*, situated in the Cherokee Nation. It was established by Executive order of January 25, 1870. Relinquished by Executive order December 22, 1890, to this Department for disposal under the act of July 5, 1884, "or as may be otherwise provided by law." Executive order of February 9, 1891, excludes national cemetery at this post from the transfer.

The lands, being in the Indian Territory, will probably revert to the Indians.

#### KANSAS.

*Fort Dodge (remainder)*, situated in Ford County. Established by Executive order of June 22, 1868. Relinquished January 12, 1885, with 41 structures, valued at \$20,000 if sold with the ground. Surveyed. Area, 14,661 acres. All of this tract except 1,882.89 acres is within the limits of the Osage Indian trust lands, and under date of July 9, 1886, the district officers at Garden City, Kans., were directed to allow entries of said Osage Indian trust lands as provided by act of May 28, 1880 (21 Stats., 143), with the exception of tracts upon which buildings erected by the Government for military purposes are located, which latter tracts were found to be lots 3, 5, 6, and 7, sec. 3, T. 27 S., R. 24 W. By act of March 2, 1889 (25 Stats., 1012), authority was given to sell and convey to the State of Kansas the said lots, and on June 13, 1889, the same were purchased by the State. H. R. bill No. 5683, for the disposition of the said 1,882.89 acres, upon which this office made a report on April 9, 1892, is now pending in Congress.

*Fort Hays*, situated in Ellis County, in T. 13 and 14 S., R. 18 and 19 W. Established by Executive order of August 28, 1868. Surveyed. Area, 7,600 acres.

On February 14, 1887, the "Ellis County Agricultural Society of Kansas," in pursuance of the act of June 11, 1884 (23 Stats., 40), purchased 90.40 acres, situated in secs. 3, 9, and 10, T. 14 S., R. 18 W., and the remainder was turned over to this Department October 22, 1889, for disposal under the act of July 5, 1884. Forty buildings valued at \$10,050, and one bridge valued at \$200 were transferred with this reservation.

On request of Hon. E. J. Turner of October 9, 1889, the honorable Secretary of the Interior directed the suspension of action on this reservation to await the action of Congress in regard thereto.

Senate bill No. 2140 and H. R. bill No. 570, "to authorize the Secretary of the Interior to convey to the State of Kansas certain lands therein for homes for old soldiers and their families," said lands being embraced in this reservation, were introduced in Congress at the present session, and upon which this office made reports March 7, 1892.

*Fort Zarah*, in T. 19 S., R. 12 and 13 W. Area, 3,068 acres. Established Jan. 3, 1868. Relinquished March 25, 1871, under act of Feb. 24, 1871. Surveyed, and appraised at from 3 to 10 dollars per acre. Offered at public sale July 1, 1874, and only two lots disposed of, leaving the remainder open to private sale at appraised prices.

*Fort Wallace*, situated in Wallace County, Kans., in T. 13 S., Rs. 37, 38, and 39 W. Established by Executive order of August 28, 1868. Relinquished July 22, 1884, with improvements, consisting of barracks, quarters, etc., for one company. Value, \$15,000 if sold with land. Surveyed. Area, 8,926 acres.

By act of October 19, 1888 (35 Stats., 612), the following provisions were made for the disposition of this tract, viz:

Section 1 provides that a certain tract be reserved for the town site of Wallace. Entry thereof has been made and patented.

Section 2 authorizes the Union Pacific Railroad Company to purchase a certain tract for machine shops. Entry thereof has been made and patented.

Section 3 authorizes the Wallace Water Works to purchase a 40-acre tract for its use. This has not been done.

Section 4 grants 40 acres to the town for cemetery purposes.

Section 5 provides for the appraisal and sale of the tract covered by the old Fort Wallace and the buildings thereon. The appraisal has been made, and under date of October 19, 1888, the honorable Secretary of the Interior directed this office to issue instructions for the sale thereof.

Section 6 provides that the remainder of said reservation shall be disposed of under the homestead laws only. No entries have yet been allowed. Under departmental decisions of March 23 and 28, 1892, steps are about to be taken looking to the disposition of the remaining lands therein.

Under date of May 16, 1892, the register at Wakeeney reports that the Wallace Water Works Company, has taken no steps relative to said purchase, as provided for in section 3 of act of October 19, 1888, and he is credibly informed that said company has been disorganized. He further reports that all of the buildings, together with their foundations have been removed by settlers of Wallace and adjoining counties without any legal authority whatever and not a dollar's worth of material remains on the ground.

#### LOUISIANA.

*Baton Rouge Barracks*, situated in the city of Baton Rouge. The date of the reservation does not appear. It was relinquished August 22, 1884, and disposed of under the act of July 12, 1886 (24 Stats., 144), except a certain part, which may be used and occupied by the Louisville, New Orleans and Texas Railroad Company. Transfer made July 31, 1886.

*The ten reservations* on the Gulf Coast, situated at various points on the coast of Louisiana, appear to have been established by Executive order of March 5, 1844, as follows:

*Reservation* near the eastern mouth of Bayou La Fourche; area, 720 acres. It was relinquished September 23, 1886, without improvements.

*Reservation* near the western mouth of Bayou La Fourche, area, 700 acres, was relinquished September 23, 1886, without improvements.

*Reservation* on Bayou Plat, area, 100 acres, was relinquished September 23, 1886, without improvements.

*Reservation* near the western entrance to Caminada Bay, area, 437.93 acres, was relinquished September 23, 1886, without improvements.

*Reservation* near the pass at the eastern end of Grand Terre Island, area, 324 acres, was relinquished September 23, 1886, without improvements.

*Reservation* near the mouth of Quatre Bayou Pass, area, 347.46 acres, was relinquished September 23, 1886, without improvements.

*Reservation* at Bastian Bay, area, 392.46 acres, was relinquished September 23, 1886, without improvements.

*Reservation* near Bastian Bay; area, 1,217.35 acres, comprising parts of secs. 22, 23, and 26, and all of secs. 27 and 35, T. 21 S., R. 28 E.; relinquished September 23, 1886, without improvements.

*Reservation*, near Bastian Bay; area 1,601.82 acres, comprising S.  $\frac{1}{2}$  of secs. 4 and 5, and all of secs. 6, 7, and 8, T. 22 S., R. 29 E.; relinquished Sept. 23, 1886, without improvements.

*Reservation* near Bastian Bay; area 329.77 acres, comprising part of secs. 14 and 15, and all of secs. 22, 23, and 24, T. 21 S., R. 27 E.; relinquished Sept. 23, 1886, without improvements.

The foregoing ten Gulf coast reservations are but partly surveyed, and their general description locates them in T. 23 S., R. 22 E.; T. 24 S., 22 E.; T. 23 S., 23 E.; T. 22 S., R. 24 E.; T. 21 S., R. 25 E., including all of Grand Terre Island; T. 21 S., R. 26 E.; T. 21 S., R. 27 E.; T. 21 S., R. 28 E.; & T. 22 S., R. 29 E., all lying west of the Mississippi River.

On May 18, 1878, the honorable Secretary of War reported that none of these tracts were needed for military purposes except so much of Grand Terre Island as the piece of land at western end of said island, which was purchased by the United States, which is occupied by the site of Fort Livingston, and which is required for defensive purposes. Area of Ft. Livingston tract is 126.16 acres.

*Fort Jessup*, in townships 7 & 8 N., ranges 10 & 11 W., established June 3, 1833, Executive order. Relinquished Dec. 27, 1850. Area, 6,400 acres. A portion was sold by the War Dept., and the remainder to be disposed of under act of Feb. 24, 1871. Surveyed, appraised, and partly disposed of.

*Fort Sabine:* Tps. 14, 15, 16 S., R. 15 & 16 W. Area 20,575.77 acres; relinquished March 25, 1871, act of Feb. 24, 1871 (16 Stats., 430); 13,072.61 acres disposed of to State as swamp under departmental decision (8 L. D. 308). This reservation has not been appraised for the reason that the land being marshy has little value. This office has heretofore recommended its disposal under homestead laws.

## MAINE.

*Fort Sullivan*, situated in Eastport, Me. Established in 1808.

Relinquished July 22, 1884. The improvements which were on this reservation were sold at public sale August 31, 1883, by order of the honorable Secretary of War.

No survey of this reservation has been made by this office, but the War Department plat of survey shows that it embraces 12.50 acres. Ready for appraisal.

## MICHIGAN.

*Bois Blanc Island.*—By Executive order of November 8, 1827, sections 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 31, 32, 33, and 34 on said island were reserved for the purpose of supplying fuel for the garrison at Fort Mackinac, on the island of Mackinac, Michigan. It was relinquished July 22, 1884, without improvements. Surveyed. Area, 9,729.18 acres. Of this area the following disposition has been made:

885.84 acres patented as private claims; 4,760.10 acres patented to the State as swamp lands, under departmental decision of February 25, 1889 (8 L. D., 309); 674.26 acres patented to the State as school lands, under departmental decision of June 5, 1889 (8 L. D., 560); 405.55 acres have been disposed of by appraisal and sale under the provisions of the act; 378.31 acres patented as homestead entries which had been made under the provisions of the act. Lots 4, 5, & 6, sec. 13; lots 1 & 8, sec. 14; lots 1, 2, 3, 4, 5, 6, & frl. lot 7, sec. 15; lots 1 & 2, sec. 17; lots 5, 6, 7, & 8, sec. 18; lots 5, 6, 7, & 8, sec. 19; lot 5, sec. 20; lots 1, 2, & 3, sec. 21; lots 1, 2, 3, 4, 5, & 6, sec. 33; and lots 2 & 3, sec. 34, comprise the remainder, 2,625.12 acres. Said lots have been appraised, and on June 9 and 10, 1891, were reoffered, but not sold, and are, by the terms of the act of July 5, 1884, subject to reoffering.

*Fort Wilkins*, situated in Keweenaw County. Reservation declared by Executive order of August 19, 1835, embracing lots 2 and 3 of sec. 33, and lot 5 of sec. 34, T. 59 N., R. 28 W., containing 148.35 acres. It was relinquished July 22, 1884, with nineteen structures, the value of which is not known. Surveyed. Ready for appraisal.

*Detroit Arsenal Grounds*, Wayne County, Mich. Transferred to Interior Department under act of March 3, 1875, which provided for the sale and disposal thereof. By act of Sept. 26, 1890, further provisions were made for reappraisal and sale (26 Stats., 490), and on June 30, & July 1 & 2, 1891, the lots were all sold except two. On Oct. 8, 1891, lot 34 was sold, leaving lot 19 alone unsold, valued at \$3,250, with building appraised at \$250. Authority for removal of said b'ld'g was given by the Hon. Secretary on Nov. 12, 1891, for the reason that it obstructed a street. This reservation is also known as Fort Dearborn.

## MINNESOTA.

*Fort Ripley*, Minn., relinquished July 2, 1880, under act of April 1, 1880, and 465.54 acres disposed of in accordance therewith. There remain 174.47 acres on which are Government buildings. Instructions for reappraisal issued March 9, 1892. Report of appraisers transmitted to the honorable Secretary July 11, 1892.

*Fort Abercrombie*, in T. 134 and 135 N., R. 48 W., established by Executive order April 12, 1867. Relinquished March 25, 1871, under act of February 24, 1871; area 6,993 acres. Surveyed and appraised, but further proceedings suspended looking to further legislation. (See Annual Report of 1876.)

## MISSISSIPPI.

*Greenwood Island*, Pascagoula, situated in Jackson County, fractional sec. 19, T. 8 S., R. 5 W. Purchased by the Government August 2, 1848. Relinquished December 18, 1890, act July 5, 1884, without improvements. Area, 100 acres, more or less.

This tract was selected by the State as swamp lands June 20, 1860, but said selection has not been approved.

## MONTANA.

*Fort Ellis*, situated in Gallatin County, in Ts. 2 and 3 S., R. 6 and 7 E. Established by Executive order February 15, 1868. Enlarged March 1, 1870, and further enlarged, by the addition of 16,320 acres, November 25, 1873. Relinquished July 26,

1886, with twenty-four structures, the value of which is unknown. Surveyed. Area 33,234.66 acres. Under the provisions of the act of February 13, 1891 (26 Stats., 747), the State selected for a permanent camp ground the buildings and one section of land, 640 acres. Under the acts of February 22, 1889 (25 Stats., 676), and February 13, 1891, *supra*, the State selected 11,531.34 acres, all of which has been approved, except the selection of 1,920 acres for which certain parties attempted to make homestead entries. The matter is now being adjudicated. The remainder, 21,703.27 acres, is ready for disposal under the provisions of said act of February 13, 1891: The land added to the reservation November 25, 1873, is within the granted limits of the N. P. R. R. Co., and the rights of said company, having attached prior to the reservation, were not impaired thereby, but merely held in abeyance.

*Fort Maginnis*, situated in Fergus County, in Ts. 16 and 17 N., Rs. 20 and 21 E. Established by Executive order of April 8, 1881. Relinquished August 6, 1890, act July 5, 1884, with forty-eight buildings. Value unknown. Instructions to R. & R. June 18, 1892. Under contract for survey. Estimated area, 37,760 acres. Bldgs. on NW.  $\frac{1}{4}$  Sec. 1, T. 16, R. 20, E., and SW.  $\frac{1}{4}$  of SE.  $\frac{1}{4}$  Sec. 35, T. 17, R. 20 E.

*Fort Assiniboine*, post, hay, and coal reserves. These reservations are probably located as follows:

Post, in Ts. 28, 29, 30, 31, and 32 N., Rs. 15 and 16 E.

Hay, in T. 28 N., Rs. 13 and 14 E.

Coal, T. 33 N., Rs. 16 and 17 E.

The reservation was established by Executive order of March 4, 1880, and modified by Executive orders of May 2, 1888, and September 25, 1888. The hay, coal, and part of the post reserves were relinquished October 9, 1891.

The War Department, on April 9, 1892, reported that there were no improvements on the hay and coal reserve, but no report has been received as to whether there are any improvements on the post reserve. Not surveyed. Estimated total area, 704,000 acres, of which nearly 300,000 became a part of the public domain through Executive orders of 1888, and about 80,000 acres were relinquished Oct. 9, 1891, under act of July 5, 1884.

## NEBRASKA.

*Fort Hartsuff*, situated in Valley County. Established by Executive orders of August 17, 1874, and September 16, 1874. Relinquished July 22, 1884, without improvements. Surveyed. Area 3,251.41 acres. Ready for appraisal.

*Fort McPherson*, situated in Lincoln County, in Ts. 12 and 13 N., R. 28 W. Established by Executive order September 27, 1863, enlarged July 25, 1870, and further enlarged October 11, 1870. On October 13, 1873, a tract of the reserve containing 107 acres was set apart for a national cemetery. Relinquished January 5, 1887, (without improvements), except that portion set apart for the national cemetery. Partly surveyed. Returns not yet received. Estimated area, 19,500 acres.

*Camp Sheridan*, situated in Sioux County, in T. 33 N., Rs. 46 and 47 W. Established by Executive order of November 14, 1876, and enlarged by executive orders of April 28, 1879, and December 10, 1879. Relinquished July 22, 1884, without improvements. Surveyed. When relinquished the reservation contained 18,225 acres. By inadvertence of the local officers several filings and entries were allowed upon said reservation, aggregating 7,072.52 acres. These were confirmed by the act of October 12, 1888 (25 Stats., 1201.) The remainder is ready for appraisal.

## NEVADA.

*Carlin*, situated in Elk County, in T. 33 N., R. 52 E. Established by Executive order of November 9, 1874. Relinquished March 2, 1888, without improvements. Surveyed. Area, 920 acres. Disposed of under act of October 1, 1890 (26 Stats., 561).

*Fort Halleck* (post), hay and timber, situated in Elk County. The post and wood reserves are in Ts. 33 and 34 N., R. 59 E, the hay reserve in Ts. 35 and 36 N., R. 58 E. Established by Executive order of October 4, 1870. Relinquished October 11, 1886, with 26 structures, the value of which is unknown. Surveyed. Area, 10,829.72 acres. Disposed of under the act of October 1, 1890 (26 Stats., 561). The tracts upon which the buildings are situated are in a state of reservation, and the Interior Department was advised of this fact July 17, 1891.

*Fort McDermitt* (post), situated in Humboldt County, in T. 47 N., Rs. 38 and 39 E. Established by Executive order of September 3, 1867. Relinquished July 17, 1889. The War Department reports that in 1879 there were twenty-five structures in the reserve. Value unknown. Surveyed. Returns received, but not accepted up to date. Area, 3,921.38 acres.

*Fort McDermitt* (hay), situated part in Humboldt County, Nev., in Ts. 47 and 48 N., R. 38 E., and the remainder in Malheur County, Oregon, in T. 41 N., Rs. 42 and 43 E. It was established by Executive order of September 3, 1867. Relinquished December 1, 1886, without improvements. Surveyed. Area, 6,400 acres.

That portion of the reserve lying in Nevada was disposed of under the act of October 1, 1890 (26 Stats., 561). That portion in Oregon, about 1,511.73 acres, is ready for appraisal and sale under the act of July 5, 1884.

*Camp McGarry*, in Ts. 41, 42, and 43 N., Rs. 24, 25, 26, and 27 E., established September 9, 1867. Relinquished March 25, 1871, for disposal under act of February 24, 1871. Area, about 48,000 acres, of which 25,526 acres are surveyed and the remainder is noted on the plat as barren land. By act of October 1, 1890 (26 Stats., p. 561), the land was made subject to homestead entry only, and instructions relative thereto were issued to the register and receiver at Carson City, on December 20, 1890. Of this reservation 120 acres in a school section were sold and patented by the State prior to June 16, 1880, and 64.32 acres were selected by and approved to the State on October 16, 1882.

#### NEW MEXICO.

*Fort Sumner*, established by Executive order May 28, 1869; tps. 2 and 3 N., R. 26 E. Relinquished March 25, 1871, under act of February 24, 1871. Area 13,644.80 acres. Post cemetery transferred to War Department May 29, 1871. Surveyed and appraised. Further proceedings suspended looking to further legislation for disposal.

*Fort Butler*, situated in San Miguel County, in Ts. 12 and 13 N., Rs. 27, 28, and 29 E. Established March 22, 1861. Relinquished July 22, 1884, under act of July 5, 1884, without improvements. Area not known, but mostly within private grants. The portion outside of the said grants contains 3,043.48 acres, of which 32.70 acres are reserved for the use of the schools, leaving 3,010.78 acres subject to appraisal and sale.

*Fort Craig*, situated in Socorro County in Ts. 7 and 8 S., Rs. 2 and 3 W. Established by Executive order of September 23, 1869. As established, this reservation embraced an area of 24,895 acres, about half of which is within the private claim of Pedro Armendaris, No. 34, which was patented September 17, 1878, said patent containing a clause reserving to the United States title in the buildings of the late fort which were situated within the limits of said claim. On February 9, 1885, this office suggested to the Department of the Interior that when said reservation has been formally turned over to this Department the case should be presented to the Attorney-General for his examination and opinion as to the rights of the United States in the premises.

The reservation was relinquished March 3, 1885 act July 5, 1884, with twenty-two buildings, value unknown. The area of the portion of the reservation outside of the Armendaris claim is shown by the official plats of survey to be 12,114.91 acres, of which 479.60 acres are within a school section, and reserved under the school grant. The remainder, 11,635.31 acres, is ready for appraisal and sale. (See Asst. Commissioner Stone to the honorable Secretary of the Interior July 30, 1891.)

*Fort Cummings*, situated in Grant County, in T. 21 S., Rs. 7 and 8 W. Established by Executive order of April 29, 1870. Enlarged November 9, 1880. Relinquished October 7, 1891, act July 5, 1884, with one old fort, two sets of quarters, in a ruinous condition and of no value. Not surveyed.

*Fort McRae*, situated in Sierra County, in T. 13 S., R. 3 W. Established by Executive order of May 28, 1869. Relinquished July 22, 1884. Said reservation falls entirely within the patented private land grant of Armendaris, No. 33.

*Fort Seldon*, situated in Donna Ana County, in T. 21 S., ranges 1 east and 1 west. Established November 28, 1870. Relinquished March 17, 1892, act July 5, 1884. No report has been received from the War Department as to the improvements transferred with the reservation. Not surveyed. Estimated area 9,613.74 acres.

#### NORTH DAKOTA.

*Fort Rice*, situated in Burleigh, Morton, and Emmons counties, in townships 134, 135, 136, 137, 138 north, ranges 78, 79, and 80 west. Established by Executive order of September 2, 1864. Relinquished July 22, 1884, without improvements. Surveyed. Area 112,362.87 acres. About 203.76 acres were entered and patented under a former erroneous plat of survey; 13.84 acres embraced are in a pending timber-culture entry; 5,591.71 acres are reserved for the use of schools, and 1,884.96 acres have been entered under the provisions of the act of July 5, 1884. The remainder is ready for appraisal and sale.

*Fort Abraham Lincoln*, situated in Morton County, in T. 137 and 138 N., R. 80 and 81 W. Established by Executive order of February 11, 1873. Enlarged December 17, 1875. Relinquished September 10, 1891, for disposal under act of July 5, 1884, or as may be provided by law. The odd-numbered sections of that portion reserved subsequent to May 26, 1873, the date when the maps of the route of definite location of the Northern Pacific Railroad were filed, being within the limits of the lands

granted to said road, is subject to said grant. Senate bill No. 2829, entitled "A bill granting to the State of North Dakota certain portions of the abandoned Fort Abraham Lincoln military reservation, together with the buildings thereon" is now pending in Congress. Not surveyed. Estimated area, 24,800.

## OREGON.

*Fort Klamath*, post and hay reserves, situated in Klamath County, in T. 33 S., R. 7½ E. Established April 6, 1869. Relinquished May 4, 1886. The greater part of the post reserve is within the Klamath Indian reservation and reverts to said Indians. The buildings on said lands were by order of the Department of September 14, 1891, turned over to the Indian Bureau for disposal for the benefit of the Indians.

About 120 acres of the hay reserve are in the said Indian reservation, and revert to the Indians. The remainder of the two reservations, 2,225 acres, is ready for appraisal and sale under act of July 5, 1884.

*Fort Harney*, Oregon, relinquished March 2, 1889. Area 317.65 acres. Surveyed, Camp McDermott military hay reservation (portion in Oregon) situated in Malheur County. Established by Executive order of September 3, 1867. Relinquished without improvements December 1, 1886, for disposal under act of July 5, 1884. (By act of October 1, 1890 (26 Stats., 561), the agricultural lands in this reservation lying within the State of Nevada were made subject to disposal for homestead entries only). The area of said portion lying in Oregon is 1,511.75, of which 77.39 acres are covered by adverse homestead and timber culture entries improperly allowed by local officers, and which have been proceeded against. Reported for appraisal and sale July 16, 1891.

*Fort Lane*, comprising secs. 17, 18, 19, and 20 T. 36 S., R. 2 W., was established by Executive order October 13, 1855. Relinquished March 25, 1871, under act of February 24, 1871. Area 678.90 acres. Surveyed and appraised.

## SOUTH DAKOTA.

*Fort Randall*, part east of the Missouri River, situated in Charles Mix County, in T. 96 and 97 N., Rs. 66, 67, and 68 W. Established June 14, 1860. Relinquished July 22, 1884, without improvements. Disposed of under the act of October 1, 1890 (26 Stats., 646).

*Fort Sisseton*, formerly Fort Wadsworth, situated in Marshall County, in Ts. 124, 125, 126, and 127 N., Rs. 55 and 56 W. Established by Executive orders of October 14, 1867, and February 7, 1871. Relinquished April 22, 1889, with improvements. The reservation and buildings were granted to the State by the act of October 1, 1890 (26 Stats., 646). Being surveyed.

## TEXAS.

*Block 108*, located in the city of Houston, Tex. Area 1.35 acres. Relinquished January 16, 1891, for disposal under act of July 5, 1884. Act of March 1, 1889 (25 Stats., 781), provides, however, that said lot shall be disposed of by the Secretary of the Treasury.

*Fort Elliott*, situated in Wheeler County. Date of establishment does not appear. Relinquished October 2, 1890, with thirty-eight buildings, valued at \$32,320. Surveyed by the State of Texas. Area 2,560 acres. Surveyed. Ready for appraisal.

## UTAH.

*Fort Cameron*, formerly Beaver Cañon, in T. 29 S., R. 7 W. Established May 12, 1873. Enlarged by President's orders of April 13, 1877, and November 10, 1879. Relinquished July 2, 1885 under act of July 5, 1884. Surveyed. Area 23,378 acres. No improvements.

*Fort Douglas*. Established September 3, 1867. A portion of, comprising 151.81 acres disposed of under act of January 21, 1885, authorizing its relinquishment.

*Fort Crittenden*, formerly Camp Floyd, in Tps. 4, 5, 6, 7, and 8 S., R. 2 W. and Tps. 5, 6, 7, and 8 S., R. 3 W. Established July 14, 1859. Relinquished July 22, 1884, for disposal under act of July 5, 1884. Area 173,664.68 acres. No improvements. Surveyed.

*Rush Lake Valley*, in Tps. 4 and 5 S., R. 5 W. Established February 4, 1855. Relinquished July 22, 1884. Act of July 5, 1884. Area 5,131.47 acres. No improvements.

*Fort Thornburg*, post, wood, and timber, in Tp. 3 S., R. 20 E., and Tp. 4 S., R. 21 E. Established by Executive order May 12, 1883. Relinquished July 22, 1884. Act July 5, 1884. Area 21,850 acres. Surveyed. Offer of \$500 for improvements referred to Interior Department. Ready for appraisal.

## WASHINGTON.

*Fort Walla Walla*, in Tps. 7 and 8 N., R. 35 E., and T. 7 N., R. 36 E., was established by Executive order May 22, 1859, and originally consisted of three tracts, post, hay, and timber reserves, containing about 640 acres each. On October 7, 1869, the War Department relinquished the hay and wood reserve. The act of April 29, 1872, provided for disposal of the N.  $\frac{1}{2}$  Sec. 26, Tp. 8 N., R. 35 E., to John C. Smith. Act of June 8, 1872 (17 Stats., 336), provided for sale of Fort Walla Walla, and subdivision into 40-acre tracts, or town lots.

On July 16, 1872, the Secretary of War transferred the post reserve to Interior Department for disposal in accordance with the acts of Congress approved February 24, 1871, but on July 17, 1873, asked for suspension of steps looking to the disposal thereof. On August 2, 1873, the War Department resumed occupancy, and on August 7, 1873, the Secretary of the Interior consented to postponement of the sale. On October 26, 1875, all the timber, and part of the hay reserve, viz, the N.  $\frac{1}{2}$  Sec. 26, granted Smith by act of April 27, 1872, were again transferred by the War Department to the Interior. On May 3, 1880, the remainder of the hay reserve was relinquished by the War Department.

The act of March 22, 1876 (19 Stats., 417), granted the timber reserve to the widow and heirs of James Sinclair.

On June 13, 1881, an appraisal of the lots was made, but the same was not approved. A reappraisement was made October 10, 1888, and was transmitted to the Interior Department June 15, 1889. Area, 539.31 acres; value, \$8,550.78. On February 23, 1892, this office made a report on Senate bill No. 1140, for the relief of John C. Smith and others, which is now pending. On May 20, 1892, the register and receiver reported favorably on the appraisal, and on June 10, 1892, reported that the records of the local office do not show the compliance of John C. Smith with the requirements of act of April 29, 1872. Said reports of May 20 and June 10, 1892, were transmitted to the honorable Secretary of the Interior on July 9, 1892, with a recommendation that the sale of these lands be postponed pending action on the Senate bill above mentioned.

*Fort Colville*, situated in Stevens County, in Ts. 35 and 36 N., R. 39 E. Established by Executive order of January 27, 1871. Relinquished February 26, 1887, with quarters for five officers and four companies, one hospital and two storehouses. Value unknown. Partly surveyed. Estimated area, 1,070 acres.

*Point Roberts*, situated in Whatcom County, in T. 40 N., R. 3 W. Established by executive order of September 13, 1859. Relinquished June 28, 1890, without improvements. On November 18, 1890, the Department directed this office to take no steps looking to the disposal of the land. This latter order was revoked March 28, 1892. On May 6, 1890, sec. 9 and W.  $\frac{1}{2}$  sec. 10 (containing 264 acres) were reserved for light-house purposes. Surveyed. Area, 2,170.50 acres. Ready for appraisal.

*Fort Steilacoom*, situated in Pierce County, in Ts. 19 and 20 N., R. 2 E. Established April 18, 1861. Relinquished July 22, 1884, with improvements which appear to have been donated to "Washington Territory" prior to the transfer. Surveyed. Area, 289 acres. Seventy-one and ninety-three one-hundredths acres have been entered under the provisions of the act. The remainder, 217.07 acres, ready for appraisal.

## WYOMING.

*Fort Bridger*, remainder, situated in Uintah County, in Ts. 15 and 16 N., R. 115 W. Relocated by authority of the act of February 24, 1871 (16 Stats., 430). Relinquished October 2, 1890, with fifty-one buildings, valued at \$27,735. Surveyed. Area, 10,941.06 acres. The buildings and lands have been appraised, and will be offered at public sale Sept. 14, 1892. Senate bill No. 2093, "To provide for the disposal of certain abandoned military reservations in the State of Wyoming," among which this reservation is included, is now pending in Congress.

*Fort Bridger*, coal reserve, situated in Uintah County, in T. 14 N., R. 119 W. Established April 6, 1859. Relinquished July 22, 1884, without improvements. Surveyed. Area, 99.17 acres. Ready for appraisal.

*Fort Fetterman*, hay reserve, situated in Albany County, in Ts. 32, 33, and 34 N., Rs. 75, 76, and 77 W. Established by Executive order of August 29, 1872. Relinquished July 22, 1884, without improvements. Surveyed. Area, 2,620.91 acres, of which 12.59 acres have been disposed of under the coal-land laws; 182.84 acres have been entered under the provisions of the act of July 5, 1884, and 4.12 acres are reserved for the use of schools. The remainder is ready for appraisal. Senate bill No. 2093, for the disposition of this among other reservations in Wyoming, is now pending in Congress.

*Fort Fetterman*, post reserve, situated in Albany County, in Ts. 32 and 33 N., Rs. 71, 72, and 73 W. Established June 28, 1869. Relinquished July 22, 1884, with a double set of officers' quarters, with outhouses, stables, etc. Value unknown. Sur-

veyed. Area, 36,495.65 acres. Disposed of under the act of July 10, 1890 (26 Stats., 227). The buildings have not been disposed of, and the subdivision upon which they are situated has been reserved.

*Fort Fetterman*, new wood reserve, situated in Albany County, in Ts. 28 and 29 N., R. 71 W. Established February 9, 1877. Relinquished July 22, 1884, without improvements. Surveyed. Area, 1,262.76 acres. Ready for appraisal.

*Fort Fetterman*, old wood reserve, situated in Albany County, in T. 32 N., Rs. 74 and 75 W. Established August 29, 1872. Relinquished July 22, 1884, without improvements. Surveyed. Area, 4,685.39 acres. Ready for appraisal.

*Fort Fred Steele*, post reserve, situated in Carbon County, in Ts. 20 and 21 N., Rs. 84 and 85 W. Established June 28, 1869. Relinquished August 9, 1886, with 34 buildings. Surveyed. Area, 22,269.65 acres. The land, except the cemetery lot, is subject to disposal under the act of July 10, 1890 (26 Stats., 227). The buildings have been appraised and were sold June 7, 1892, except five, and the amount realized is \$1,316.50. The report of June 7, 1892, shows that the local officers at Cheyenne are of opinion that buildings unsold, described as numbers 14, 23, 30, 31, and 33 are appraised too high. Said report was transmitted to the Honorable Secretary June 28, 1892, with recommendations relative to reappraisement.

*Fort Fred Steele*, wood reserve, situated in Carbon County, in Ts. 16 and 17 N., Rs. 80 and 81 W. Established November 9, 1880. Relinquished August 9, 1886, without improvements. Partially surveyed. Surveyed portion, 1,283.64 acres, ready for appraisal.

*Fort McKinney*, portion, situated in Johnson County, in Ts. 50 and 51 N., R. 82 W. Established July 2, 1879; enlarged February 2, 1880. By Executive order of January 9, 1889, the eastern boundary of said reservation was withdrawn one-fourth mile westward. Surveyed. Area, 680.30 acres, of which 357.56 acres have been granted to the city of Buffalo, Wyo., by the act of June 17, 1890 (26 Stats., 158). The remainder is ready for appraisal.

*Fort Laramie*, post, situated in Laramie County, in Ts. 25 and 26 N., Rs. 64 and 65 W. Established June 28, 1869. Relinquished May 28, 1890, with one set quarters, two wagon-bridges, one foot-bridge, and flagstaff. Value unknown. Surveyed. Area, 33,415.24 acres. Lands to be disposed of under the act of July 10, 1890 (26 Stats., 227). The buildings have not been appraised.

*Fort Sanders*, situated in Albany County, in Ts. 14 and 15 N., Rs. 73 and 74 W. Established January 7, 1867. Relinquished September 6, 1884, without improvements. Act of May 28, 1888 (25 Stats., 158), grants 640 acres to the State for the establishment of a fish hatchery. Surveyed. Area, 19,428.03 acres. Disposed of by the act of July 10, 1890 (26 Stats., 227).

#### NEW LAND DISTRICTS, CHANGES IN BOUNDARIES, ETC.

*No. 949.—Notice of the enlargement of the boundaries of the Judith land district, in the State of Montana.*

Notice is hereby given that by an Executive order, dated July 13, 1891, the President of the United States has, pursuant to law, directed that the boundaries of the Judith land district, in the State of Montana, as originally created by the act of April 1, 1890, be enlarged by detaching from the Yellowstone district, office at Miles City, the following described lands, and adding the same to the Judith land district:

"Beginning at the southeast corner of township nine (9) north, range twenty-seven (27) east; thence east on the second standard parallel north to the southeast corner to township nine (9) north, range thirty-three (33) east; thence north on the eighth guide meridian east to its intersection with the south bank of the Missouri River; thence westerly along the south bank of the Missouri River to the line between ranges twenty-seven (27) and twenty-eight (28) east; thence south on line between ranges twenty-seven (27) and twenty-eight (28) east to the place of beginning."

And by detaching from the Helena land district the lands described as follows, and adding the same to the Judith land district:

"Beginning at the northwest corner of township eighteen (18) north, range thirteen (13) east; thence west on the line between townships eighteen (18) and nineteen (19) north to the northwest corner of township eighteen (18) north, range eleven (11) east; thence south on the line between ranges ten (10) and eleven (11) east, to the summit of the Little Belt Mountains; then following the summit line of said mountains south and east to the line between ranges twelve (12) and thirteen (13) east; thence north on line between ranges twelve (12) and thirteen (13) east to the place of beginning."

Further notice of the precise time when the register and receiver of the district will be in readiness to receive applications for the lands hereby transferred will be given by publication.

Given at the city of Washington, this 21st day of July, A. D. 1891.

By the President:

THOMAS H. CARTER,  
*Commissioner of the General Land Office.*

*No. 950.—Notice of the enlargement of the boundaries of the Eastern and Oklahoma land districts in the Territory of Oklahoma.*

Notice is hereby given that the President of the United States, by proclamation dated September 18, 1891, has, pursuant to law, opened for settlement under the laws of the United States, in the Territory of Oklahoma, certain lands ceded by the Sac and Fox, Iowa, Pottawatomie, and Absentee Shawnee Indians, and has also directed that the said lands be attached to and form a part of the Eastern and Oklahoma land districts in said Territory, severally as follows:

1. All that portion of the Territory of Oklahoma commencing at the southwest corner of township 14 north, of range 1 east; thence east on township line between townships 13 and 14 to the west boundary of the Creek country; thence north on said boundary line to the middle of main channel of the Cimarron River; thence up the Cimarron River, following the main channel thereof, to the Indian meridian; thence south on said meridian line to the place of beginning, be attached to the Eastern land district in Oklahoma Territory, the office of which is now located at Guthrie.

2. All that portion of said Territory commencing at the northwest corner of township 13 north, range 1 east; thence south on Indian meridian to the North Fork of the Canadian River; thence west, up said river to the west boundary of the Pottawatomie Indian Reservation, according to Morrill's survey; thence south, following the line as run by O. T. Morrill under his contract of September 3, 1872, to the middle of the main channel of the Canadian River; thence east, down the main channel of said river to the west boundary of the Seminole Indian Reservation; thence north with said west boundary to the North Fork of the Canadian River; thence east, down said North Fork to the west boundary of the Creek Nation; thence north with said west boundary to its intersection with the line between townships 13 and 14 north of the Indian base; thence west on town line between townships 13 and 14 north to the place of beginning, be attached to the Oklahoma land district in said Territory, the office of which is now located at Oklahoma City.

The registers and receivers of the districts named will receive applications for the land transferred.

Given under my hand at the City of Washington, D. C., this 18th day of September, A. D. 1891.

By the President:

THOS. H. CARTER,  
*Commissioner of the General Land Office.*

*No. 953.—Notice of the removal of the United States land office from Folsom to Clayton, in the Territory of New Mexico.*

Notice is hereby given that the President of the United States, by Executive order dated February 2, 1892, has, pursuant to law, directed that the office for the disposal of public lands now located at Folsom, in the Territory of New Mexico, be removed to and located at Clayton, in said Territory.

Further notice of the precise date when the land office at Folsom will be closed, preparatory to removal and reopening at Clayton, will be given by the register and receiver of the district, by publication.

Given under my hand at the city of Washington, this 5th day of February, A. D. 1892.

By the President:

THOS. H. CARTER,  
*Commissioner of the General Land Office.*

*No. 954.—Notice of the attachment of certain lands in the Territory of Oklahoma to the Western land district and to the Oklahoma land district.*

Notice is hereby given that by an Executive order dated April 5, 1892, the President of the United States has directed that the lands ceded by the Cheyenne and Arapahoe Indians to the United States under articles of agreement, as recited in the act of Congress approved March 3, 1891 (26 Stat., p. 1022), and herein described:

1. Commencing at a point where the Washita River crosses the ninety-eighth degree of west longitude, as surveyed in the years 1858 and 1871; thence north on a line

with said ninety-eighth degree to the point where it is crossed by the Red Fork of the Arkansas (sometimes called the Cimarron River); thence up said river, in the middle of the main channel thereof, to the north boundary of the country ceded to the United States by the treaty of July 19, 1866, with the Creek nation of Indians; thence west on said north boundary and the north boundary of the country ceded to the United States by the treaty of March 21, 1866, with the Seminole Indians, to the one hundredth degree of west longitude; thence south on the line of said one hundredth degree to the point where it strikes the North Fork of the Red River; thence down said North Fork of the Red River to a point where it strikes the north line of the Kiowa and Comanche Reservation; thence east along said boundary to a point where it strikes the Washita River; thence down said Washita River, in the middle of the main channel thereof, to the place of beginning,

Be attached to the Western land district and the Oklahoma land district, in the Territory of Oklahoma, as follows:

2. All that portion of the lands above described lying north of the township line between townships 13 and 14, north of the base line, shall be attached to and form a part of the Western land district, in said Territory, the office of which district is now located at Kingfisher.

3. All that portion of the lands above described lying south of the township line between townships 13 and 14, north of the base line shall be attached to and form a part of the Oklahoma land district, in said Territory, the office of which is now located at Oklahoma City.

The lands above referred to will be opened to entry and settlement by a proclamation by the President to be hereafter issued, and applications therefor will be made at the respective land offices of the districts.

Given under my hand at the city of Washington this 8th day of April, A. D. 1892.

By the President:

THOS. H. CARTER,  
*Commissioner of the General Land Office.*

*No. 955.—Notice of the change of boundaries of the Lincoln land district, in the Territory of New Mexico.*

Notice is hereby given that the President of the United States, by an Executive order dated April 2, 1892, and in accordance with the provisions of section 2253 of the Revised Statutes, has directed that the boundaries of the Lincoln land district, in the Territory of New Mexico, be changed and reestablished, as follows:

Beginning at a point on the line running north and south between the State of Texas and Territory of New Mexico where such line would be intersected by the township line between townships numbered 1 and 2 north of the base line and running thence west to the northwest corner of township 1 north, range 9 east; thence south along the line between ranges 8 and 9 east of the New Mexico principal meridian to the second standard parallel south; thence west to the northwest corner of township 11 south, range 9 east; thence south along the range line between ranges 8 and 9 east of the said principal meridian to the third standard parallel south; thence east along said standard parallel to the northwest corner of township 16 south, range 15 east of said principal meridian; thence south along said range line to the boundary line of the State of Texas; thence east along said line to the southeast corner of the Territory of New Mexico and thence north along the boundary line between the State of Texas and the Territory of New Mexico to the place of beginning.

And all that part of townships 2 north, ranges 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, and 19 east of the New Mexico principal meridian lying in Lincoln County, Territory of New Mexico, detached from the Lincoln land district by the change of boundary, as hereinbefore recited, is added to the Santa Fe land district, in said Territory, and will hereafter form a part of said district.

Further notice of the precise time when the foregoing changes will be carried into effect will be given by the register and receiver of the Santa Fe and Lincoln land districts, respectively.

Given under my hand at the city of Washington, this 8th day of April, A. D. 1892.

NOTE.—By act of July 31, 1876, the land offices in Ohio, Indiana, and Illinois were abolished; and by act of March 3, 1877, the vacant tracts of public land in Ohio, Indiana, and Illinois are made subject to entry and location at the General Land Office, Washington, D. C.

## RELATING TO CEDED INDIAN LANDS.

*Circular of instructions relative to the opening to homestead entry, September 22, 1891, of lands ceded by the Sac and Fox, Iowa, and Pottawatomie Indians in Oklahoma Territory, together with the President's proclamation and schedule or descriptive lists of said lands.*

DEPARTMENT OF THE INTERIOR, GENERAL LAND OFFICE,  
Washington, D. C., September 18, 1891.

*Registers and Receivers, Guthrie and Oklahoma, Okla.:*

GENTLEMEN: I have to call your attention to the proclamation of the President of the 18th instant, together with the schedule of lands, copies of which are hereto attached, by which the lands described in that schedule are laid open to settlement under the statutory provisions therein recited, at and after the hour of 12 o'clock, noon, central standard time, of Tuesday the 22d day of this, the present month of September.

You will consider said proclamation, the statutes therein referred to of March 2,

1889; May 2, 1890; February 13, 1891; and March 3, 1891, and the Departmental circular of July 21, 1890 (11 L. D., 79), in reference to the disposal of lands in Oklahoma.

You will observe with regard to such of the lands described in the schedule as were ceded by the Sac and Fox Nation and the Iowa tribe of Indians, that the act of February 13, 1891 (26 Stat., pp. 758, 759, sec. 7), provides that—

“They shall be disposed of to actual settlers only, under the provisions of the homestead laws, except section 2301, which shall not apply: *Provided, however,* That each settler, under and in accordance with the provisions of said homestead laws, shall, before receiving a patent for his homestead, pay to the United States for the land so taken by him, in addition to the fees provided by law, *the sum of \$1.25 for each acre thereof*, and such person, having complied with all the laws relating to such homestead settlement, may at his option receive a patent therefor at the expiration of twelve months from date of settlement upon said homestead, and any person otherwise qualified who has attempted to but for any cause failed to secure a title in fee to a homestead under existing law, or who made entry under what is known as the commuted provision of the homestead law, shall be qualified to make a homestead entry upon any of said lands.”

Applicants to enter these lands must have the qualifications required in the case of ordinary homestead entries under existing law, except that the rule stated on the seventeenth page of the general circular of January 1, 1889, under the title “Only one homestead privilege to the same person permitted,” is so modified as to admit of a homestead entry being made by anyone who, prior to the passage of said act of February 13, 1891, had made a homestead entry but failed, from any cause, to secure a title in fee to the land embraced therein, or who, having secured such title, did so by what is known as the commutation of his homestead entry. (See section 2301 United States Revised Statutes, page 88, and statement on page 19 of said circular, under the title, “Commutation of homestead entries.”)

A person desiring to make another entry under this provision will be required to make affidavit to the facts necessary to entitle him to do so under the laws and rules, designating in the affidavit his former entry by description of the land, number, and date of entry, with the name of the land office where made, or other sufficient data to admit of readily identifying it on the official records, which affidavit you will transmit with the other entry papers to this office.

With regard to persons making homestead entries and failing to acquire title thereunder, or commuting them, after the passage of said act of February 13, 1891, the rule stated on page 17 of said circular as to second homesteads is operative and will be enforced in relation to these lands as well as others.

The clause allowing entry of these lands by any person who made entry under “what is known as the commuted provision of the homestead law” is held to relate only to homestead entries commuted under section 2301, Revised Statutes, and has no reference to entries perfected under the special provision of section 21 of the act of May 2, 1890 (see circular of July 21, 1890, *supra*). You will, therefore, not allow entry by persons who have made homestead entry and perfected it under said special provision.

With regard to such of the lands described in the schedule as were ceded by the Citizen Band of Pottawatomie Indians and the Absentee Shawnee Indians, you will observe that the act of March 3, 1891 (26 Stat., pp. 989 to 1044, sec. 16), provides for the disposal thereof—

“to actual settlers only, under the provisions of the homestead and town-site laws (except section 2301 of the Revised Statutes of the United States, which shall not apply): *Provided, however,* That each settler on said lands shall, before making a final proof and receiving a certificate of entry, pay to the United States for the land so taken by him, in addition to the fees provided by law, and within five years from the date of the first original entry, the sum of \$1.50 per acre, one-half of which shall be paid within two years. But the rights of honorably discharged Union soldiers and sailors, as defined and described in sections 2304 and 2305 of the Revised Statutes of the United States, shall not be abridged except as to the sum to be paid as aforesaid, and all the lands in Oklahoma are hereby declared to be agricultural lands, and proof of their nonmineral character shall not be required as a condition precedent to final entry.”

Information has reached this office from various sources that speculators are preparing for the use of powers of attorneys from soldiers to file declaratory statements under section 2304, Revised Statutes, on lands opened to settlement by the said proclamation, without any bona fide intention on the part of the soldiers to become settlers. Any such proceedings would be fraudulent; you will endeavor to defeat them, if attempted, by any means properly in your power. You will advise bona fide settlers not to purchase relinquishments of such filings when it appears that they were made with the intent not to follow them up by settlement in good faith under the law.

You are referred to instructions heretofore given under the statutes with reference to homesteads in Oklahoma, as indicated in circular of July 21, 1890 (11 L. D., 79).

Very respectfully,

THOS. H. CARTER,  
Commissioner.

NOTE.—In the attached schedule, under the heading "Iowa Reservation, in township 14 north, range 1 east, I. M.," there occurs, through clerical error, the reading, "All of said township lying south of the Deep Fork of the Canadian River except section 36." The correct reading is as follows, viz: "All of said township lying north of the Deep Fork of the Canadian River, except section 16," and it will be so regarded in all proceedings for the disposal of the land.

THOS. H. CARTER,  
Commissioner.

---

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA:

A PROCLAMATION.

Whereas, by a written agreement made on the twelfth day of June, eighteen hundred and ninety, the Sac and Fox Nation of Indians, in the Territory of Oklahoma, ceded and conveyed to the United States of America all title or interest of said Indians in and to the lands particularly described in Article I of the agreement, except the quarter section of land on which the Sac and Fox Agency is located; and provided that the section of land now designated and set apart near the Sac and Fox Agency for a school and farm shall not be subject either to allotment or to homestead entry; that every citizen of said nation shall have an allotment of land, in quantity as therein stated, to be selected within the tract of country so ceded, except in sections sixteen (16) and thirty-six (36) in each Congressional township, and except the agency quarter section and section set apart for school and farm, as above mentioned, or other lands selected in lieu thereof; that when the allotments to the citizens of the Sac and Fox Nation are made, the Secretary of the Interior shall cause trust patents to issue therefor in the name of the allottees, and that as soon as such allotments are so made, and approved by the Department of the Interior, and the patents provided for issued, then the residue of said tract of country shall, as far as said Sac and Fox Nation is concerned, become public lands of the United States, and under such restrictions as may be imposed by law, be subject to white settlement; and

Whereas, by a certain other agreement with the *Iowa Tribe of Indians* residing on the Iowa Reservation, in said Territory, made on the twentieth day of May, eighteen hundred and ninety, said tribe surrendered and relinquished to the United States all their title and interest in and to the lands of said Indians in said Territory, and particularly described in Article I of said agreement; and provided that each and every member of said tribe shall have an allotment of eighty acres of land upon said reservation, and upon the approval of such allotments by the Secretary of the Interior, that trust patents shall be issued therefor, and that there shall be excepted from the operation of said agreement a tract of land, not exceeding ten acres in a square form, including the church and schoolhouse and graveyard at or near the Iowa village, which shall belong to said Iowa tribe of Indians in common, subject to the conditions and limitations in said agreement expressed; that the chief of the Iowas may select an additional ten acres in a square form for the use of said tribe in said reservation, conforming in boundaries to the legal subdivisions of land therein, which shall be held by said tribe in common, subject to the conditions and limitations as expressed in relation thereto; and

Whereas it is provided in the act of Congress approved February thirteenth, eighteen hundred and ninety-one (26 Stats., pp. 758, 759), section 7, accepting, ratifying, and confirming said agreements with the Sac and Fox Nation of Indians and the Iowa tribe of Indians, "That whenever any of the lands acquired by the agreements in this act ratified and confirmed, shall, by operation of law or proclamation of the President of the United States, be open to settlement, they shall be disposed of to actual settlers only, under the provisions of the homestead laws, except section twenty three hundred and one, which shall not apply: *Provided, however,* That each settler, under and in accordance with the provisions of said homestead laws, shall, before receiving a patent for his homestead, pay to the United States for the land so taken by him, in addition to the fees provided by law, the sum of *one dollar and twenty-five cents* for each acre thereof, and such person having complied with all the laws relating to such homestead settlement, may at his option receive a patent therefor at the expiration of twelve months from date of settlement upon said homestead, and any person otherwise qualified who has attempted to but for any cause failed to secure a title in fee to a homestead under existing law, or who made entry under what is known as the commuted provision of the homestead law, shall be qualified to make a homestead entry upon any of said lands;" and

Whereas, by a certain other agreement with the *Citizen Band of Pottawatomie Indians*, in said Territory, made on the twenty-fifth day of June, eighteen hundred and ninety, the said band of Indians ceded and absolutely surrendered to the United States all their title and interest in and to the lands in said Territory, and particularly described in Article I of said agreement, and provided that all allotments of land theretofore made, or then being made or to be made to members of said Citizen Band of Pottawatomie Indians under the provisions of the general allotment act approved February eighth, eighteen hundred and eighty-seven, shall be confirmed; that in all allotments to be thereafter made no person shall have the right to select his or her allotment in sections sixteen and thirty-six in any Congressional township; nor upon any land heretofore set apart in said tract of country for any use by the United States, or for schools, school farm, or religious purposes; nor shall said sections sixteen and thirty-six be subject to homestead entry, but shall be kept and used for school purposes; nor shall any lands set apart for any use of the United States, or for school, school farm, or religious purposes, be subject to homestead entry, but shall be held by the United States for such purposes so long as the United States shall see fit to use them; and further, that the south half of section seven, and the north half of section eighteen, in township six north, range five east, theretofore set apart by a written agreement between said band of Indians and certain Catholic fathers for religious, school, and farm purposes, shall not be subject to allotment or homestead entry, but shall be held by the United States for the Sacred Heart Mission, the name under which said association of fathers are conducting the church, school, and farm on said lands; and

Whereas, by a certain agreement with the *Absentee Shawnee Indians*, in said Territory, made on the twenty-sixth day of June, eighteen hundred and ninety, said last-named Indians ceded, relinquished, and surrendered to the United States all their title and interest in and to the lands in said Territory, and particularly described in Article I of said agreement, provided that all allotments of land theretofore made, or then being made, or to be made, to said Absentee Shawnees under the provisions of the general allotment act approved February eighth, eighteen hundred and eighty-seven, shall be confirmed; that in all allotments to be thereafter made, no person shall have the right to select his or her allotment in sections sixteen and thirty-six in any Congressional township; nor in any land heretofore set apart in said tract of country for any use by the United States, or for school, school-farm, or religious purposes; nor shall said sections sixteen and thirty-six be subject to homestead entry, but shall be held by the United States for such purposes so long as the United States shall see fit to use them; and

Whereas it is provided in the *act of Congress* accepting, ratifying, and confirming said agreement with the Citizen Band of Pottawatomie Indians, and the Absentee Shawnee Indians, approved March third, eighteen hundred and ninety-one (26 Stats., pp. 987 to 1044), section 16, "That whenever any of the lands acquired by either of the \* \* \* foregoing agreements respecting lands in the Indian or Oklahoma Territory shall by operation of law or proclamation of the President of the United States be open to settlement, they shall be disposed of to actual settlers only, under the provisions of the homestead and town-site laws (except section twenty-three hundred and one of the Revised States [Statutes] of the United States, which shall not apply): *Provided, however*, That each settler on said lands shall, before making a final proof and receiving a certificate of entry, pay to the United States for the land so taken by him, in addition to the fees provided by law, and within five years from the date of the first original entry, the sum of *one dollar and fifty cents* per acre, one-half of which shall be paid within two years; but the rights of honorably discharged Union soldiers and sailors, as defined and described in section twenty-three hundred and four and twenty-three hundred and five of the Revised Statutes of the United States, shall not be abridged except as to the sum to be paid as aforesaid; and all the lands in Oklahoma are hereby declared to be agricultural lands, and proof of their non-mineral character shall not be required as a condition precedent to final entry;" and

Whereas allotments of land in severalty to said Sac and Fox Nation, said Iowa tribe, said Citizen Band of Pottawatomies, and said Absentee Shawnee Indians have been made and approved, and provisional patents issued therefor, in accordance with law and the provisions of the before-mentioned agreements with them respectively, and an additional ten acres of land has been selected for the use of said Iowa tribe to be held by said tribe in common, in accordance with the provisions of supplemental Article XII of the agreement with them; and

Whereas the lands acquired by the four several agreements hereinbefore mentioned have been divided into counties by the Secretary of the Interior, as required by said last-mentioned act of Congress, before the same shall be open to settlement, and lands have been reserved for county-seat purposes, as therein required; and

Whereas it is provided by act of Congress for temporary government of Oklahoma, approved May 2, 1890, that there shall be reserved public highways four rods wide between each section of land in said Territory, the section lines being the centers of

said highways, but no deduction shall be made from cash payments from each quarter section by reason thereof; and

Whereas all the terms, conditions, and considerations required by said several agreements made respectively with said tribes of Indians hereinbefore mentioned, and of the laws relating thereto, precedent to opening said several tracts of land to settlement have been, as I hereby declare, provided for, paid, and complied with:

Now, therefore, I, Benjamin Harrison, President of the United States, by virtue of the power in me vested by the statutes hereinbefore mentioned, also an act of Congress entitled "An act making appropriations for the current and contingent expenses of the Indian Department, and fulfilling treaty stipulations with various Indian tribes for the year ending June thirtieth, eighteen hundred and ninety, and for other purposes," approved March second, eighteen hundred and eighty-nine, and by other the laws of the United States, and by said several agreements, do hereby declare and make known that all of the lands acquired from the Sac and Fox Nation of Indians, the Iowa tribe of Indians, the Citizen Band of Pottawatomie Indians, and the Absentee Shawnee Indians, by the four several agreements aforesaid, saving and excepting the lands allotted to the Indians as in said agreements provided, or otherwise reserved in pursuance of the provisions of said agreements and the said acts of Congress ratifying the same, and other the laws relating thereto, will, at and after the hour of twelve o'clock noon (central standard time), Tuesday, the twenty-second day of this, the present month of September, and not before, be opened to settlement, under the terms of and subject to all the conditions, limitations, reservations, and restrictions contained in said agreements, the statutes above specified, and the laws of the United States applicable thereto.

The lands to be so opened to settlement are for greater convenience particularly described in the accompanying schedule, entitled "Schedule of lands within the Sac and Fox, Iowa, Pottawatomie (and Absentee Shawnee) reservations, in Oklahoma Territory, opened to settlement by proclamation of the President dated September 18, 1891," and which schedule is made a part hereof.

Each entry shall be in square form as nearly as practicable, and no other lands in the Territory of Oklahoma are opened to settlement under this proclamation or the agreements ratifying the same.

Notice, moreover, is hereby given that it is by law enacted that until said lands are opened to settlement by proclamation no person shall be permitted to enter upon and occupy the same, and no person violating this provision shall be permitted to enter any of said lands, or acquire any rights thereto. The officers of the United States will be required to enforce this provision.

And further notice is hereby given that it has been duly ordered that the lands in the Territory of Oklahoma mentioned and included in this proclamation be, and the same are, attached to the eastern and Oklahoma land districts in said Territory, severally, as follows:

1. All that portion of the Territory of Oklahoma, commencing at the southwest corner of township 14 north, of range 1 east; thence east on town line between townships 13 and 14 to the west boundary of the Creek country; thence north on said boundary line to the middle of main channel of the Cimarron River; thence up the Cimarron River, following the main channel thereof, to the Indian meridian; thence south on said meridian line to the place of beginning, is attached to the eastern land district in Oklahoma Territory, the office of which is now located at Guthrie.

2. All that portion of said Territory commencing at the northwest corner of township 13 north, range 1 east; thence south on Indian meridian to the North Fork of the Canadian River; thence west up said river to the west boundary of the Pottawatomie Indian Reservation, according to Morrill's survey; thence south, following the line as run by O. T. Morrill under his contract of September 3, 1872, to the middle of the main channel of the Canadian River; thence east down the main channel of said river to the west boundary of the Seminole Indian Reservation; thence north with said west boundary to the North Fork of the Canadian River; thence east down said North Fork to the west boundary of the Creek Nation; thence north with said west boundary to its intersection with the line between townships 13 and 14 north of the Indian base; thence west on town line between townships 13 and 14 north to the place of beginning, is attached to the Oklahoma land district in said Territory, the office of which is now located at Oklahoma City.

In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the city of Washington this eighteenth day of September, in the year of our Lord one thousand eight hundred and ninety-one, and of the Independence of the United States the one hundred and sixteenth.

[SEAL.]

BENJ. HARRISON.

By the President:

WILLIAM F. WHARTON,

*Acting Secretary of State.*

*Schedule of lands within the Sac and Fox, Iowa, and Pottawatomie (and Absentee Shawnee) reservations, in Oklahoma Territory, opened to settlement by proclamation of the President, dated September 18th, 1891.*

SAC AND FOX RESERVATION.

*In township 10 north, range 4 east, I. M.*

Lots 1, 2, 3, 4, 5, 7, and 8 in section 1; the NW. fractional  $\frac{1}{4}$  of section 2; the W.  $\frac{1}{2}$  of section 4; section 5; section 6; section 7; section 8; the W.  $\frac{1}{2}$  and the SE.  $\frac{1}{4}$  of section 9; the NW.  $\frac{1}{4}$  and the S. fractional  $\frac{1}{2}$  of section 10; the NE. fractional  $\frac{1}{4}$ , lots 3 and 8, and the SW. fractional  $\frac{1}{4}$  of section 12; lots numbered 2, 3, and 4, and the NE.  $\frac{1}{4}$  of NW.  $\frac{1}{4}$  of section 13; the SW. fractional  $\frac{1}{4}$  of section 15; section 17; section 18; section 19; the N.  $\frac{1}{2}$  and the N.  $\frac{1}{2}$  of S.  $\frac{1}{2}$  of section 20; lot 2; the NW.  $\frac{1}{4}$  and the fractional S.  $\frac{1}{2}$  of section 21; fractional section 22; fractional section 28; lots 3, 4, 5, 6, 7, 8, 9, and 10, and the SE.  $\frac{1}{4}$  of NW.  $\frac{1}{4}$  of section 29; fractional section 30.

*In township 11 north, range 4 east, I. M.*

Lots 1, 2, 3, and 4, in section 1; lots 3 and 4 in section 2; lots 3 and 4 in section 3; section 5; section 6; the N.  $\frac{1}{2}$  of section 7; the N.  $\frac{1}{2}$  of section 8; the W.  $\frac{1}{2}$  of section 9; the NW.  $\frac{1}{4}$  of section 17; section 18; section 19; lots 3 and 4 in section 22; lots 3 and 4 in section 27; section 31; the W.  $\frac{1}{2}$  of section 32; the SE.  $\frac{1}{4}$  of section 33; the NE. fractional  $\frac{1}{4}$  and the S.  $\frac{1}{2}$  of section 34; lots 1 and 2 in section 35.

*In township 12 north, range 4 east, I. M.*

Section 1; the NW.  $\frac{1}{4}$  of section 2; section 3; section 4; section 5; fractional section 6; the N.  $\frac{1}{2}$ , the W.  $\frac{1}{2}$  of SE.  $\frac{1}{4}$ , and the SW.  $\frac{1}{4}$  of section 7; the N.  $\frac{1}{2}$ , the SE.  $\frac{1}{4}$ , and the E.  $\frac{1}{2}$  of SW.  $\frac{1}{4}$  of section 8; section 9; the N.  $\frac{1}{2}$ , the N.  $\frac{1}{2}$  of SE.  $\frac{1}{4}$ , the SW.  $\frac{1}{4}$  of SE.  $\frac{1}{4}$ , and the SW.  $\frac{1}{4}$  of section 10; the N.  $\frac{1}{2}$  of SW.  $\frac{1}{4}$  and the SE.  $\frac{1}{4}$  of SW.  $\frac{1}{4}$  of section 11; section 13; the E.  $\frac{1}{2}$ , the E.  $\frac{1}{2}$  of NW.  $\frac{1}{4}$ , the SW.  $\frac{1}{4}$  of NW.  $\frac{1}{4}$ , and the SW.  $\frac{1}{4}$  of section 14; the W.  $\frac{1}{2}$  of NE.  $\frac{1}{4}$ , the SE.  $\frac{1}{4}$  of NE.  $\frac{1}{4}$ , the W.  $\frac{1}{2}$ , and the SE.  $\frac{1}{4}$  of section 15; section 17; section 18; section 19; section 20; section 21; section 22; section 23; section 24; the NE.  $\frac{1}{4}$  of section 25; section 26; section 27; section 28; section 29; section 30; section 31; section 32; section 33; section 34; section 35.

*In township 13 north, range 4 east, I. M.*

Section 1; section 2; section 3; section 4; section 5; section 8; section 9; section 10; section 11; section 12; section 13; section 14; section 15; section 17; section 19; section 20; section 21; section 22; section 23; the NE.  $\frac{1}{4}$ , the S.  $\frac{1}{2}$  of section 24; the N.  $\frac{1}{2}$  and the SW.  $\frac{1}{4}$  of section 26; section 27; section 28; section 29; section 30; section 31; section 32; section 33; section 34; the W.  $\frac{1}{2}$  of section 35.

*In township 14 north, range 4 east, I. M.*

All of said township lying within the limits of the Sac and Fox Reservation except sections 16 and 36 of the E.  $\frac{1}{2}$  of section 9.

*In township 15 north, range 4 east, I. M.*

All of said township lying within the limits of the Sac and Fox Reservation except sections 16 and 36.

*In township 16 north, range 4 east, I. M.*

All of said township lying within the limits of the Sac and Fox Reservation except sections 16 and 36.

*In township 17 north, range 4 east, I. M.*

All of said township lying within the limits of the Sac and Fox Reservation except sections 16 and 36.

*In township 18 north, range 4 east, T. M.*

Fractional section 1; fractional section 2; fractional section 11; fractional section 12; fractional section 17; fractional section 20; lots 1 and 2, the SW.  $\frac{1}{4}$  of NE.  $\frac{1}{4}$ , the NW.  $\frac{1}{4}$ , the W.  $\frac{1}{2}$  of SE.  $\frac{1}{4}$ , and the SW.  $\frac{1}{4}$  of section 21; fractional NE.  $\frac{1}{4}$ , lots 3 and 4, the SE.  $\frac{1}{4}$  of NW.  $\frac{1}{4}$ , the SE.  $\frac{1}{4}$ , and the E.  $\frac{1}{2}$  of SW.  $\frac{1}{4}$  of section 22; fractional section 23; fractional section 24; fractional section 25; section 26; the E.  $\frac{1}{2}$ , the E.  $\frac{1}{2}$  of NW.  $\frac{1}{4}$ , the SW.  $\frac{1}{4}$  of NW.  $\frac{1}{4}$ , and the SW.  $\frac{1}{4}$  of section 27; the W.  $\frac{1}{2}$  of NE.  $\frac{1}{4}$ , the SE.  $\frac{1}{4}$  of NE.  $\frac{1}{4}$ , the W.  $\frac{1}{2}$ , and the SE.  $\frac{1}{4}$  of section 28; the E.  $\frac{1}{2}$  of NE.  $\frac{1}{4}$ , the W.  $\frac{1}{2}$  of NW.  $\frac{1}{4}$ , the E.  $\frac{1}{2}$  of SE.  $\frac{1}{4}$ , and the W.  $\frac{1}{2}$  of SW.  $\frac{1}{4}$  of section 29; the W.  $\frac{1}{2}$  of NW.  $\frac{1}{4}$  and the S.  $\frac{1}{2}$  of section 32; the E.  $\frac{1}{2}$ , the E.  $\frac{1}{2}$  of NW.  $\frac{1}{4}$ , and the SW.  $\frac{1}{4}$  of section 33; section 34; section 35.

*In township 11 north, range 5 east, T. M.*

Section 1; lots 1, 2, 3, and 4, the S.  $\frac{1}{2}$  of NE.  $\frac{1}{4}$  of section 2; the N.  $\frac{1}{2}$ , the N.  $\frac{1}{2}$  of SE.  $\frac{1}{4}$ , and the SW.  $\frac{1}{4}$  of section 3; the NE.  $\frac{1}{4}$  and the SW.  $\frac{1}{4}$  of section 4; the N.  $\frac{1}{2}$  of NW.  $\frac{1}{4}$  of section 10; the N.  $\frac{1}{2}$  of NE.  $\frac{1}{4}$  of section 12; the SE.  $\frac{1}{4}$  of NW.  $\frac{1}{4}$  of section 14; the SW.  $\frac{1}{4}$  of NW.  $\frac{1}{4}$  and the W.  $\frac{1}{2}$  of SW.  $\frac{1}{4}$  of section 15; the E.  $\frac{1}{2}$  of NE.  $\frac{1}{4}$  and lots 3, 4, and 5 of section 19; lot 1 in section 21; the W.  $\frac{1}{2}$  of NW.  $\frac{1}{4}$  of section 22; lot 1 in section 23.

*In township 12 north, range 5 east, T. M.*

Section 1; section 2; section 3; section 4; section 5; section 6; section 7; section 8; section 9; section 10; section 11; the NW.  $\frac{1}{4}$  of section 12; section 13; section 14; section 15; section 17; section 18; section 19; section 20; section 21; section 22; section 23; section 24; the N.  $\frac{1}{2}$  and the SW.  $\frac{1}{4}$  of section 25; section 26; section 27; section 28; section 29; section 30; the N.  $\frac{1}{2}$ , the SE.  $\frac{1}{4}$ , and the N.  $\frac{1}{2}$  of SW.  $\frac{1}{4}$  of section 31; section 32; section 33; section 34; section 35.

*In township 13 north, range 5 east, T. M.*

All of said township except sections 16 and 36.

*In township 14 north, range 5 east, T. M.*

Section 1; the E.  $\frac{1}{2}$ , the S.  $\frac{1}{2}$  of NW.  $\frac{1}{4}$ , and SW.  $\frac{1}{4}$  of section 2; section 3; section 4; section 5; section 6; section 7; section 8; section 9; section 10; section 11; section 12; section 13; section 14; section 15; section 17; section 18; section 19; section 20; section 21; section 22; section 23; section 24; section 25; section 26; section 27; section 28; section 29; section 30; section 31; section 32; section 33; section 34; section 35.

*In township 15 north, range 5 east, T. M.*

*Circular of instructions relative to the opening on April 15, 1892, to homestead entry of lands ceded by the Sisseton and Wahpeton tribes in North Dakota and South Dakota, together with the President's proclamation and schedule, or descriptive lists of said lands.*

DEPARTMENT OF THE INTERIOR, GENERAL LAND OFFICE,  
Washington, D. C., March 22, 1892.

REGISTERS AND RECEIVERS,  
Fargo, N. Dak., and Watertown, S. Dak.:

GENTLEMEN: In view of a proclamation to be hereafter issued by the President, opening to settlement and entry the unallotted lands embraced within the limits of the Sisseton and Wahpeton (Lake Traverse) Indian Reservation in the States of North Dakota and South Dakota, you will consider sections 28 and 30 of the act of Congress approved March 3, 1891 (26 United States Stats., 1039), which read as follows:

"SEC. 28. That any religious society or other organization now occupying under proper authority any of the lands by said agreement ceded, sold, relinquished, and conveyed, shall have the right for a period of two years from the date hereof within which to purchase the lands so occupied, not exceeding one hundred and sixty acres in any one tract, at the price paid therefor by the United States under said agreement.

"SEC. 30. That the lands by said agreement ceded, sold, relinquished, and conveyed to the United States shall immediately, upon the payment to the parties entitled thereto of their share of the funds made immediately available by this act, and upon the completion of the allotments as provided for in said agreement, to be subject only to entry and settlement under the homestead and town site laws of the United States, excepting the sixteenth and thirty-sixth sections of said lands, which shall be reserved for common-school purposes and be subject to the laws of the State wherein located:

"*Provided*, That patents shall not issue until the settler or entryman shall have paid to the United States the sum of two dollars and fifty cents per acre for the land taken up by such homesteader, and the title to the lands so entered shall remain in the United States until said money is duly paid by such entryman, or his legal representatives, or his widow, who shall have the right to pay the money and complete the entry of her deceased husband in her own name, and shall receive patent for the same."

Any religious society or other organization wishing to purchase any of these lands for religious uses must make proof, after six weeks' advertisement, of its proper occupancy of such lands on March 3, 1891, and pay for the same, at the rate of two dollars and fifty cents per acre, within two years from the date aforesaid, such being the price, time, and terms of payment therefor fixed by the Honorable Secretary of the Interior under section 35 of said act.

No other applicant will be allowed to make an entry of these lands who does not possess the qualifications required in the case of an ordinary homestead entry under existing law, except in cases of town sites. The homestead applicant must reside upon and cultivate and improve the tract embraced in his entry for the full term of five years, except in case of commutation under section 2301, Rev. U. S. Stats., as amended, but the rights of honorably discharged soldiers and sailors in the late war, as defined in section 2304 to 2309 of the Revised Statutes of the United States, are not abridged by the section 30 of the act recited, except as to the payment required therein.

The sum of \$2.50 per acre must be paid by each settler, at the time of making final proof, for the land taken in addition to the fee and commissions on double minimum land provided by law.

The lands in North Dakota will be attached to the land office at Fargo, North Dakota, and those in South Dakota will be attached to the land office at Watertown, South Dakota.

The new survey of the seventh standard parallel or boundary line between the States of North and South Dakota across the Lake Traverse Reservation, makes it necessary to have certain supplemental surveys made showing the connections of the previous township and subdivisional surveys with the new boundary in order that amended plats may be prepared showing the areas of the fractional lots adjoining the boundary, and *north and south* thereof.

Until such supplemental surveys shall have been made, and amended plats prepared, it will not be possible to state definitely the areas of or to properly describe the tracts along the boundary which fall respectively within the Fargo and Watertown districts. The N.  $\frac{1}{2}$  of the N.  $\frac{1}{2}$  of sections 28, 29, and 30, township 129, range 49, and sections 25 to 30, inclusive, in township 129, ranges 50 to 54, inclusive, should, therefore, be withheld from entry until such time as the supplemental surveys above referred to shall have been made, and the amended plats thereof filed in your offices.

The town-site laws referred to in the thirtieth section of said act and generally made applicable to these lands are embraced in section 2380 to 2394 of the Revised Statutes, inclusive, which, together with the necessary instructions, were published in circular form by this office, under date of July 9, 1886 (5 L. D., 265).

Of the three separate and distinct methods thus provided for the acquisition of title to public land for town-site purposes, the first (sections 2380 and 2381) is exercised only in rare and exceptional instances. And the second method (sections 2382 to 2386, inclusive) has fallen into disuse because of the fact that the third method (sections 2387, 2388, and 2389) is more speedily, unlimitedly, and economically advantageous to the town-lot claimants in the matter of acquiring titles. Concerning the requirements to be complied with in making an entry under said third method, which you will recommend to be employed in all cases, nothing remains to be said in addition to what is set forth in the above-cited circular, except that the minimum price of these lands, for town-site as well as for homestead purposes, is two dollars and fifty cents per acre. The ordinary homestead and cash blanks will be used for original and final homestead and town-site entries under the foregoing act, reference being made thereon to the act of March 3, 1891, Lake Traverse lands.

In addition to the usual affidavits required of homestead applicants, must be one stating that the applicant did not enter and occupy any portion of the lands described and declared open to entry in the President's proclamation dated April 11, 1892, prior to 12 o'clock noon, of April 15, 1892. You will not open a new series of numbers for these entries.

A schedule of lands within the Sisseton and Wahpeton (Lake Traverse) Indian Reservation, in the States of North and South Dakota, having been published by this Department on February 8, 1892 (additional copies of which may be had upon your application), it is deemed unnecessary to reprint said schedule in connection herewith.

These instructions, it must be understood, are not to be acted upon by you for the allowing of entries, nor will settlement be admissible, until after the time which shall be fixed therefor in the President's proclamation, to be hereafter issued as first above stated.

Very respectfully,

THOS. H. CARTER,  
*Commissioner.*

Approved:

JOHN W. NOBLE,  
*Secretary.*

---

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA.

A PROCLAMATION.

Whereas, by the third article of the treaty between the United States of America and the Sisseton and Wahpeton bands of Dakota or Sioux Indians, concluded February 19, 1867, proclaimed May 2, 1867 (15 U. S. Stat., p. 505), the United States set apart and reserved for certain of said Indians certain lands, particularly described, being situated partly in North Dakota and partly in South Dakota, and known as the Lake Traverse Reservation; and

Whereas, by agreement made with said Indians residing on said reservation, dated December 12, 1889, they conveyed, as set forth in article 1 thereof, to the United States, all their title and interest in and to all the unallotted lands within the limits of the reservation set apart as aforesaid remaining after the allotments shall have been made, which are provided for in article 4 of the agreement, as follows: "That there shall be allotted to each individual member of the bands of Indians, parties hereto, a sufficient quantity, which, with the lands heretofore allotted, shall make in each case one hundred and sixty acres, and in case no allotment has been made to any individual member of said bands, then an allotment of one hundred and sixty acres shall be made to such individual"; and

Whereas, it is provided in article 2 of said agreement, "That the cession, sale, relinquishment, and conveyance of the lands described in article one of this agreement shall not take effect and be in force until the sum of \$342,778.37, together with the sum of \$18,400, shall have been paid to said bands of Indians, as set forth and stipulated in article third of this agreement;" and

Whereas, it is provided in the act of Congress approved March 3, 1891 (26 U. S. Stat., pp. 1036-1038, sec. 30), accepting and ratifying the agreement with said Indians:

"That the lands by said agreement ceded, sold, relinquished, and conveyed to the United States shall immediately, upon the payment to the parties entitled thereto of their share of the funds made immediately available by this act, and upon the

completion of the allotments as provided for in said agreement, be subject only to entry and settlement under the homestead and townsite laws of the United States, excepting the sixteenth and thirty-sixth sections of said lands, which shall be reserved for common school purposes, and be subject to the laws of the State wherein located: Provided, That patents shall not issue until the settler or entryman shall have paid to the United States the sum of \$2.50 per acre for the land taken up by such homesteader, and the title to the lands so entered shall remain in the United States until said money is duly paid by such entryman or his legal representatives, or his widow, who shall have the right to pay the money and complete the entry of her deceased husband in her own name, and shall receive a patent for the same;" and

Whereas, payment as required by said act has been made by the United States; and

Whereas, allotments as provided for in said agreement, as now appears by the records of the Department of the Interior will have been made, approved, and completed, and all other terms and considerations required will have been complied with on the day and hour hereinafter fixed for opening said lands to settlement.:

Now, therefore, I, Benjamin Harrison, President of the United States, do hereby declare and make known that all of the lands embraced in said reservation, saving and excepting the lands reserved for and allotted to said Indians, and the lands reserved for other purposes in pursuance of the provisions of said agreement and the said act of Congress ratifying the same and other, the laws relating thereto will, at and after the hour of 12 o'clock noon (central standard time) on the 15th day of April, A. D. 1892, and not before, be opened to settlement under the terms of and subject to all the terms and conditions, limitations, reservations, and restrictions contained in said agreements, the statutes above specified, and the laws of the United States applicable thereto.

The lands to be opened for settlement are for greater convenience particularly described in the accompanying schedule, entitled "Schedule of lands within the Lake Traverse Reservation opened to settlement by proclamation of the President dated April 11, 1892," and which schedule is made a part hereof.

Warning, moreover, is hereby given that until said lands are opened to settlement as herein provided, all persons, save said Indians, are forbidden to enter upon and occupy the same or any part thereof.

And further notice is hereby given that it has been duly ordered that the lands mentioned and included in this proclamation shall be, and the same are, attached to the Fargo and Watertown land districts, in said States, as follows:

1. All that portion of the Lake Traverse Reservation, commencing at the north-west corner of said reservation; thence south  $12^{\circ} 2'$  west, following the west boundary of the reservation to the new seventh standard parallel, or boundary line between the States of North and South Dakota; thence east, following the new seventh standard parallel to its intersection with the north boundary of said Indian reservation; thence northwesterly with said boundary to the place of beginning, is attached to the Fargo land district, the office of which is now located at Fargo, N. Dak.

2. All that portion of the Lake Traverse Reservation, commencing at a point where the new seventh standard parallel intersects the west boundary of said reservation; thence southerly along the west boundary of said reservation to its extreme southern limit; thence northerly along the east boundary of said reservation to Lake Traverse; thence north with said lake to the northeast corner of the Lake Traverse Indian Reservation; thence westerly with the north boundary of said reservation to its intersection with the new seventh standard parallel, or boundary line between the States of North and South Dakota; thence with the new seventh standard parallel to the place of beginning, is attached to the Watertown land district, the office of which is now located at Watertown, S. Dak.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the city of Washington this 11th day of April, in the year of our Lord 1892, and of the Independence of the United States the one hundred and sixteenth.

BENJ. HARRISON.

By the President:  
[SEAL.]

JAMES G. BLAINE,  
*Secretary of State.*

*Schedule of lands within the Sisseton and Wahpeton (Lake Traverse) Indian Reservation, in the States of South Dakota and North Dakota, opened for settlement on April 15, 1892, at noon (standard time), under proclamation of the President dated April 11, 1892.*

The allotments to Indians in pursuance of the provisions of the treaty were approved by the Department April 15, 1892, the same day and hour of the opening of these lands to homestead entry, and tracts reserved by said allotments are not included in the schedule.

Warning is hereby given that until said lands are opened to settlement by the proclamation aforesaid, all persons, save the said Indians, are forbidden to enter upon and occupy the same or any part thereof, and that no person violating this provision shall be permitted to enter any of said lands, or acquire any right thereto, and the officers of the United States will be required to enforce this provision.

The lands in South Dakota will be attached to the land office at Watertown, South Dakota, and those in North Dakota will be attached to the land office at Fargo, North Dakota.

*Circular of instructions relative to the opening to homestead entry on April 19, 1892, of nearly three and a half millions of acres of lands ceded by the Cheyenne and Arapahoe Indians, together with the President's proclamation and schedule or descriptive list of the lands.*

DEPARTMENT OF THE INTERIOR,  
GENERAL LAND OFFICE,  
WASHINGTON, D. C., April 13, 1892.

*Registers and Receivers, Kingfisher and Oklahoma City, Okla. :*

GENTLEMEN: I have to call your attention to the proclamation of the President of the 12th instant, together with the schedule of lands, copies of which are hereto attached, by which the lands described in that schedule are laid open to settlement under the statutory provisions therein recited, at and after the hour of 12 o'clock noon, central standard time, of Tuesday the 19th day of this, the present month of April, being certain tracts embraced in the cession of the Cheyenne and Arapahoe Indians, by agreement ratified and confirmed by the act of Congress of March 3, 1891 (26 Stat., 989).

You will consider said proclamation, the statutes therein referred to of March 2, 1889, May 2, 1890, and March 3, 1891, and the Departmental circular of July 21, 1890 (11 L. D., 79), in reference to the disposal of lands in Oklahoma.

With regard to the lands described in the schedule, you will observe that the act of March 3, 1891 (26 Stat., pp. 989 to 1044), sec. 16, provides for the disposal thereof,

“To actual settlers only, under the provisions of the homestead and townsite laws (except section 2301 of the Revised Statutes of the United States, which shall not apply): *Provided, however,* That each settler on said lands shall, before making a final proof and receiving a certificate of entry, pay to the United States for the land so taken by him, in addition to the fees provided by law, and within five years from the date of the first original entry the sum of \$1.50 per acre, one-half of which shall be paid within two years. But the rights of honorably discharged Union soldiers and sailors as defined and described in sections 2304 and 2305 of the Revised Statutes of the United States, shall not be abridged except as to the sum to be paid as aforesaid, and all the lands in Oklahoma are hereby declared to be agricultural lands, and proof of their nonmineral character shall not be required as a condition precedent to final entry.”

In regard to homestead entries, you will proceed under general instructions of said circular of July 21, 1890 (11 L. D., 79), and instructions therein referred to.

Townsite entries may be made under the general townsite laws as modified by the first proviso to section 22, act of May 2, 1890 (26 Stats., 92), in regard to which, you are referred to circular of July 9, 1886 (5 L. D., 265), or they may be made under the special provisions of the second proviso to said section 22. In regard to cases of the latter class, instructions may be found in circular of July 18, 1890 (11 L. D. 68), as modified by the Secretary's decision of December 16, 1891, Orlando townsite (13 L. D., 700).

The western boundary of the lands occupied by the Wichita Indians under the unratified agreement of October 19, 1872, is not laid down on the township plats, and, therefore, it is impossible to determine what lands in townships 8 to 15 north, range 14 west, fall without the said western boundary, but it is believed that the boundary falls within the eastern half of said townships. No entry should be allowed for lands in the east half of said townships until a survey of said western boundary has been made, and supplemental plats of said townships have been filed in your respective offices.

Applicants to enter these lands as homesteads must have the qualifications required in the case of ordinary homestead entries under existing law, except that no person who shall at the time be seized in fee simple of a hundred and sixty acres of land in any State or Territory will be entitled to enter land in Oklahoma Territory. You will, therefore, require the homestead affidavit (form 4-063) to be amended in each case by striking out the words "more than" from the clause "I am not the proprietor of more than 160 acres of land in any State or Territory."

Any person applying to enter or file for a homestead will be required first to make affidavit in addition to other requirements that he did not violate the law by entering upon and occupying any portion of the lands described in the President's proclamation dated April 12, 1892, prior to 12 o'clock, noon, central standard time, April 19, 1892, the affidavit to accompany your returns for the entry allowed. Affidavit (form 4-102) modified to meet the circumstances may be used for this purpose.

Information has reached this office from various sources that speculators are preparing for the use of powers of attorney from soldiers to file declaratory statements under section 2304, R. S., on lands opened to settlement by the said proclamation, without any *bona fide* intention on the part of the soldiers to become settlers. Any such proceedings would be fraudulent; you will endeavor to defeat them if attempted, by any means properly within your power. You will advise *bona fide* settlers not to purchase relinquishments of such filings. It is contrary to the letter and spirit of the law to countenance or encourage speculation in any form in connection with the entry and disposal of public land.

There is reason to believe that there will be a multitudinous rush of applicants eager to make entries and settlements on these lands as soon as the period arrives for so doing, and that many devices will be resorted to by the unscrupulous to obtain unfair advantages over others in the competition therefor. The duty will devolve on you to make and enforce such rules and regulations as may be necessary and proper to secure a fair and orderly course of proceedings on the part of all concerned. In so doing, you may provide a method by which you may receive in proper order and act upon in turn the applications to be presented. It is alleged that arrangements have been made by which certain parties will be prepared to take their places in the line of applicants as soon as the lands are opened for making entries, or even before, provided with numerous applications for filing homestead declaratory statements under sections 2304 and 2309, R. S., as agents for parties entitled under the latter section—some are said to have arranged for as many as one thousand each—which they propose to have received and acted upon by you when their turn is reached, before others in line behind them are permitted to make their individual entries. The prospect of this contemplated unfairness has given rise to much indignation and complaint and may lead to disturbances of the peace. I have, therefore, to advise you that it is in your power, in the exercise of the authority and duty of regulation arising out of the necessities of the situation, to impose a limit on the time and attention which you may accord to any one person who may approach you in his turn under such circumstances. You will accordingly allow any such person to make one entry in his individual character, if he so desires, and to file one declaratory statement in his representative character as agent, if such he shall be, and thereupon require him to step out of the line, giving place to the next person in order, and if desiring to make any other filings, to take his place at the end of the line and await his proper turn before doing so, and thus to proceed in order until all the filings desired by him shall be made, with due regard to the rights of other competitors.

It is also represented that persons have it in contemplation to avail themselves of the mails to present filings in any number at once to the exclusion of persons proposing to present their applications in person. You are advised in reference to this point that filings of homestead declaratory statements under sections 2304 and 2309, R. S., can only be made by the parties entitled, or by their agents in person, and

should not be received by mail. This is a ruling of long standing and should be enforced by you in all cases. (See C. L. O., 1, p. 20.)

No difficulty is anticipated from this cause in other classes of claims during the period of anticipated rush of applicants, for the reason that affidavits and applications can not be made and transmitted by mail for homestead entries under the act of May 26, 1890 (26 Stats., 121), without the applicants being personally present in the county in which the lands lie to take the prescribed oaths, which will not be practicable, under the prohibition of entrance upon the lands before the legal opening thereof to settlement.

You are expected to act promptly under the law and instructions before you as cases arise, allowing any parties feeling aggrieved by your action the right of appeal, under the rules of practice, without seeking special instructions from this office in the particular cases, before acting thereon. But should instructions be found deficient in any particular, they will be properly supplemented on application by you.

Very respectfully,

THOS. H. CARTER,  
*Commissioner.*

Approved:

JOHN W. NOBLE,  
*Secretary.*

---

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA.

A PROCLAMATION.

Whereas, by a written agreement made on the 18th day of October, eighteen hundred and ninety, the Cheyenne and Arapahoe tribes of Indians ceded, conveyed, transferred, relinquished and surrendered all their claim, title and interest in and to the lands described in article two of said agreement, as follows, to wit:

"Commencing at a point where the Washita River crosses the ninety-eighth degree of west longitude, as surveyed in the years 1858 and 1871; thence north on a line with said ninety-eighth degree to the point where it is crossed by the Red Fork of the Arkansas (sometimes called the Cimarron River); thence up said river, in the middle of the main channel thereof, to the north boundary of the country ceded to the United States by the treaty of June 14, 1866, with the Creek Nation of Indians; thence west on said north boundary and the north boundary of the country ceded to the United States by the treaty of March 21, 1866, with the Seminole Indians, to the one hundredth degree of west longitude; thence south on the line of said one hundredth degree to the point where it strikes the North Fork of the Red River; thence down said North Fork of the Red River to a point where it strikes the north line of the Kiowa and Comanche Reservation; thence east along said boundary to a point where it strikes the Washita River; thence down said Washita River, in the middle of the main channel thereof, to the place of beginning; and all other lands or tracts of country in the Indian Territory to which they have or may set up or allege any right, title, interest or claim whatsoever." *Provided*, That every member of said tribes shall have an allotment of 160 acres of land, as in said agreement provided, to be selected within the tract of country so ceded, except land in any part of said reservation now used or occupied for military, agency, school, school farm, religious, or other public uses, or in sections 16 or 36 in each congressional township; except in cases where any Cheyenne or Arapahoe Indian has heretofore made improvements upon and now uses and occupies a part of said sections 16 and 36, such Indian may make his or her selection within the boundaries so prescribed as to include his or her improvements; and except in that part of the lands by said agreement ceded, now occupied and claimed by the Wichita and affiliated bands of Indians described as follows, to wit:

"Commencing at a point in the middle of the main channel of the Washita River where the ninety-eighth meridian of west longitude crosses the same, thence up the middle of the main channel of the said river to the line of ninety-eight degrees forty minutes west longitude, thence up said line of ninety-eight degrees forty minutes due north to the middle of the main channel of the main Canadian River, thence down the middle of the main Canadian River to where it crosses the ninety-eighth meridian; thence due south to the place of beginning:" and *Provided*, That said sections 16 and 36 in each congressional township in said reservation shall not become subject to homestead entry, but shall be held by the United States and finally sold for public school purposes; and that when the allotments of land shall have been selected and taken by the members of the Cheyenne and Arapahoe tribes as aforesaid and approved by the Secretary of the Interior the title thereto shall be held in trust for the allottees respectively for the period of 25 years in the manner and to the ex-

tent provided for in the act of Congress approved February 18, 1887 (24 Stats., 388) and

Whereas, It is provided in the act of Congress accepting, ratifying, and confirming the said agreement with the Cheyenne and Arapahoe Indians, approved March 3, 1891 (26 Stats., pp. 989 to 1044), section 16:

“That whenever any of the lands acquired by either of the \* \* \* foregoing agreements respecting lands in the Indian or Oklahoma Territory shall by operation of law or proclamation of the President of the United States be opened to settlement they shall be disposed of to actual settlers only, under the provisions of the homestead and townsite laws (except section 2301 of the Revised States [Statutes] of the United States, which shall not apply): *Provided, however,* That each settler on said lands shall, before making a final proof and receiving a certificate of entry, pay to the United States for the land so taken by him, in addition to the fees provided by law, and within five years from the date of the first original entry, the sum of \$1.50 per acre, one-half of which shall be paid within two years; but the rights of honorably discharged Union soldiers and sailors as defined and described in sections 2304 and 2305 of the Revised Statutes of the United States shall not be abridged except as to the sum to be paid as aforesaid, and all the lands in Oklahoma are hereby declared to be agricultural lands, and proof of their non-mineral characters shall not be required as a condition precedent to their final entry”; and

Whereas, allotments of land in severalty to said Cheyenne and Arapahoe Indians have been made and approved in accordance with law and the provisions of the before-mentioned agreement with them; and

Whereas the lands acquired by the said agreement hereinbefore mentioned have been divided into counties by the Secretary of the Interior, as required by said last-mentioned act of Congress, before the same shall be opened to settlement, and lands have been reserved for county-seat purposes as therein required, as follows, to wit:

For county C, the S.  $\frac{1}{2}$  of sec. 19, T. 16 N., R. 11 W. For county D, the N.  $\frac{1}{2}$  of sec. 13, T. 18 N., R. 17 W. For county E, the S.  $\frac{1}{2}$  of sec. 15, T. 17 N., R. 22 W. For county F, the S.  $\frac{1}{2}$  of sec. 8, T. 13 N., R. 23 W. For county G, the N.  $\frac{1}{2}$  of sec. 25, T. 13 N., R. 17 W. For county H, the S.  $\frac{1}{2}$  of sec. 13, T. 9 N., R. 16 W.; and

Whereas, it is provided by act of Congress for temporary government of Oklahoma, approved May 2, 1890, section 23 (26 Stats., p. 92), that there shall be reserved public highways four rods wide between each section of land in said Territory, the section lines being the center of said highways; but no deduction shall be made where cash payments are provided for in the amount to be paid for each quarter section of land by reason of such reservation; and

Whereas, all the terms, conditions, and considerations required by said agreement made with said tribes of Indians and by the laws relating thereto, precedent to opening said lands to settlement, have been, as I hereby declare, complied with:

Now, therefore, I, Benjamin Harrison, President of the United States, by virtue of the power in me vested by the Statutes hereinbefore mentioned, also an act of Congress entitled “An act making appropriations for the current and contingent expenses of the Indian Department, and for fulfilling treaty stipulations with various Indian tribes, for the year ending June 30, 1892, and for other purposes,” approved March 3, 1891, and by other the laws of the United States, and by said agreement, do hereby declare and make known that all of said lands hereinbefore described acquired from the Cheyenne and Arapahoe Indians by the agreement aforesaid, saving and excepting the lands allotted to the Indians as in said agreement provided; excepting also the lands hereinbefore described as occupied and claimed by the Wichita and affiliated bands of Indians, or otherwise reserved in pursuance of the provisions of said agreement and the said act of Congress ratifying the same, and other the laws relating thereto, will at the hour of 12 o'clock noon (central standard time), Tuesday, the 19th day of the present month of April, and not before, be opened to settlement under the terms of and subject to all the conditions, limitations, reservations, and restrictions contained in said agreement, the Statutes above specified, and the laws of the United States applicable thereto.

The lands to be so opened to settlement are for greater convenience particularly described in the accompanying schedule, entitled “Schedule of lands within the Cheyenne and Arapahoe Indian Reservation, Oklahoma Territory, opened to settlement by proclamation of the President.”

Each entry shall be in square form as nearly as applicable, and no other lands in the Territory of Oklahoma are opened to settlement under this proclamation, the agreement with the said Cheyenne and Arapahoe Indians, or the act ratifying the same.

Notice, moreover, is hereby given that it is by law enacted that until said lands are opened to settlement by proclamation, no person shall be permitted to enter upon and occupy the same, and no person violating this provision shall be permitted to enter any of said lands or acquire any right thereto, and that the officers of the United States will be required to enforce this provision.

And further notice is hereby given that it has been duly ordered that the lands mentioned and included in this proclamation shall be, and the same are, attached to the Western land district, office at Kingfisher, and the Oklahoma land district, office at Oklahoma City, in said Territory of Oklahoma, as follows:

1. All of said lands lying north of the township line between townships 13 and 14 north are attached to the Western land district, the office of which is at Kingfisher, in said Territory.

2. All of said lands lying south of the township line between townships 13 and 14 north are attached to the Oklahoma land district, the office of which is at Oklahoma City, in the said Territory.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the city of Washington this 12th day of April, in the year of our Lord, 1892, and of the Independence of the United States the one hundred and sixteenth.

BENJ. HARRISON.

By the President:  
[SEAL.]

JAMES G. BLAINE,  
Secretary of State.

## COLVILLE INDIAN RESERVATION IN WASHINGTON.

[PUBLIC No. 98.]

An act to provide for the opening of a part of the Colville Reservation, in the State of Washington, and for other purposes.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That subject to the reservations and allotment of lands in severalty to the individual members of the Indians of the Colville Reservation in the State of Washington herein provided for, all the following described tract or portion of said Colville Reservation, namely: Beginning at a point on the eastern boundary line of the Colville Indian Reservation where the township line between townships thirty-four and thirty-five north, of range thirty-seven east, of the Wil-

lamette meridian, if extended west, would intersect the same, said point being in the middle of the channel of the Columbia River, and running thence west parallel with the forty-ninth parallel of latitude to the western boundary line of the said Colville Indian Reservation in the Okanagon River, thence north following the said western boundary line to the said forty-ninth parallel of latitude, thence east along the said forty-ninth parallel of latitude to the northeast corner of the said Colville Indian Reservation, thence south following the eastern boundary of said reservation to the place of beginning, containing by estimation one million five hundred thousand acres, the same being a portion of the Colville Indian Reservation created by executive order dated July second, eighteen hundred and seventy-two, be, and is hereby, vacated and restored to the public domain, notwithstanding any executive order or other proceeding whereby the same was set apart as a reservation for any Indians or bands of Indians, and the same shall be open to settlement and entry by the proclamation of the President of the United States and shall be disposed of under the general laws applicable to the disposition of public lands in the State of Washington.

SEC. 2. That the net proceeds arising from the sale and disposition of the lands to be so opened to entry and settlement shall be set apart in the Treasury of the United States for the time being, but subject to such future appropriation for public use as Congress may make, and that until so otherwise appropriated may be subject to expenditure by the Secretary of the Interior from time to time, in such amounts as he shall deem best, in the building of schoolhouses, the maintenance of schools for such Indians, for the payment of such part of the local taxation as may be properly applied to the lands allotted to such Indians, as he shall think fit, so long as such allotted lands shall be held in trust and exempt from taxation, and in such other ways as he may deem proper for the promotion of education, civilization, and self-support among said Indians.

SEC. 3. That each entryman under the homestead laws shall, within five years from the date of his original entry and before receiving a final certificate for the land covered by his entry, pay to the United States for the land so taken by him, in addition to fees provided by law, the sum of one dollar and fifty cents per acre, one third of which shall be paid within two years after the date of the original entry; but the rights of honorably discharged Union soldiers and sailors, as defined and described in sections twenty-three hundred and four and twenty-three hundred and five of the Revised Statutes of the United States, shall not be abridged, except as to the sum to be paid as aforesaid.

SEC. 4. That each and every Indian now residing upon the portion of the Colville Indian Reservation hereby vacated and restored to the public domain, and who is so entitled to reside thereon, shall be entitled to select from said vacated portion eighty acres of land, which shall be allotted to each Indian in severalty. No restrictions as to locality shall be placed upon such selections other than that they shall be so located as to conform to the Congressional survey or subdivisions of said tract or country, and any Indian having improvements may have the preference over any other person in and to the tract of land containing such improvements, so far as they are within a legal subdivision not exceeding in area the quantity of land that he or she may be entitled to select and locate. All such allotments shall be made at the cost of the United States, under such rules and regulations as the Secretary of the Interior may from time to time prescribe. Such selections shall be made within six months after the date of the President's proclamation opening the lands hereby vacated to settlement and entry, and after the same have been surveyed, and when such allotments have been selected as aforesaid and approved by the Secretary of the Interior, the titles thereto shall be held in trust for the benefit of the allottees, respectively, and afterwards conveyed in fee simple to the allottees or their heirs, as provided in the act of Congress entitled "An act to provide for the allotment of land in severalty to Indians on the various reservations, and to extend the protection of the laws of the United States and Territories over the Indians, and for other purposes," approved February eighth, eighteen hundred and eighty-seven, and an act in amendment and extension thereof, approved February twenty-eighth, eighteen hundred and ninety-one, entitled "An act to amend and further extend the benefits of the act approved February eighth, eighteen hundred and eighty-seven, entitled 'An act to provide for the allotment of land in severalty to Indians on the various reservations, and to extend the protection of the laws of the United States over the Indians, and for other purposes:'" *Provided*, That such allotted lands shall be subject to the laws of eminent domain of the State of Washington, and shall, when conveyed in fee simple to the allottees or their heirs, be subject to taxation as other property in said State.

SEC. 5. That all Indians residing in the lands hereby vacated and restored, shall have the right, if they so prefer, under the direction of the Indian agent, to occupy and reside upon such portions of the Colville Indian Reservation not hereby vacated as are not occupied by or in the possession of any other Indian or Indians.

SEC. 6. That the land used and occupied for school purposes at what is known as Tonasket school, on Bonaparte Creek, and the site of the sawmill, gristmill, and other mill property on said reservation, is hereby reserved from the operation of this act, unless other lands are selected in lieu thereof: *Provided*, That such reserved lands shall not exceed in the aggregate two sections, and must be selected in legal subdivisions conformably to the public surveys, such selection to be made by the Indian agent of the Colville Agency, under the direction of the Secretary of the Interior and subject to his approval: *Provided, however*, That said Indians, may, in lieu of said sites or either of them, select other lands of equal quantity, for such purposes, either on the vacated or unvacated portions of said reservation, the same to be designated in legal subdivisions by said Indian agent, under the direction of and subject to the approval of the Secretary of the Interior, in which case said first-designated tracts shall not be exempt from the operation of this act; such selection to be made and approved within six months after the survey of said lands and the proclamation of the President.

SEC. 7. That for the purpose of making the allotments and selections in this act provided, including surveys of the lands provided to be vacated and restored to the public domain, thirty-five thousand dollars, or so much thereof as may be necessary, is hereby appropriated out of any money in the Treasury of the United States not otherwise appropriated, which said sum shall be reimbursable from the proceeds of the lands when sold as hereinbefore provided.

SEC. 8. That nothing herein contained shall be construed as recognizing title or ownership of said Indians to any part of the said Colville Reservation, whether that hereby restored to the public domain or that still reserved by the Government for their use and occupancy.

Received by the President June 20, 1892.

[NOTE BY THE DEPARTMENT OF STATE.—The foregoing act having been presented to the President of the United States for his approval, and not having been returned by him to the house of Congress in which it originated within the time prescribed by the Constitution of the United States, has become a law without his approval.]

#### KLAMATH RIVER INDIAN RESERVATION IN CALIFORNIA.

[PUBLIC—No. 84.]

An act to provide for the disposition and sale of lands known as the Klamath River Indian Reservation.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled*, That all of the lands embraced in what was Klamath River Reservation in the State of California, as set apart and reserved under authority of law by an Executive order dated November sixteenth, eighteen hundred and fifty-five, are hereby declared to be subject to settlement, entry, and purchase under the laws of the United States granting homestead rights and authorizing the sale of mineral, stone, and timber lands: *Provided*, That any Indian now located upon said reservation may, at any time within one year from the passage of this act, apply to the Secretary of the Interior for an allotment of land for himself and, if the head of a family, for the members of his family, under the provisions of the act of February eighth, eighteen hundred and eighty-seven, entitled. "An act to provide for the allotment of lands in severalty to Indians on the various reservations, and to extend the protection of the laws of the United States and the Territories over the Indians, and for other purposes," and, if found entitled thereto, shall have the same allotted as provided in said act or any act amendatory thereof: *Provided*, That lands settled upon, improved, and now occupied by settlers in good faith by qualified persons under the land laws shall be exempt from such allotment unless one or more of said Indians have resided upon said tract in good faith for four months prior to the passage of this act. And the Secretary of the Interior may reserve from settlement, entry, or purchase any tract or tracts of land upon which any village or settlement of Indians is now located, and may set apart the same for the permanent use and occupation of said village or settlement of Indians. And any person entitled to the benefits of the homestead laws of the United States who has in good faith prior to the passage of this act, made actual settlement upon any lands within said reservation not allotted under the foregoing proviso and not reserved for the permanent use and occupation of any village or settlement of Indians, with the intent to enter the same under the homestead laws shall have the preferred right, at the expiration of said period of one year to enter and acquire title to the land so settled upon, not exceeding one hundred and sixty acres, upon the payment therefor of one dollar and twenty-five cents an

acre, and such settler shall have three months after public notice given that such lands are subject to entry within which to file in the proper land office his application therefor; and in case of conflicting claims between settlers the land shall be awarded to the settler first in order of time: *Provided*, That any portion of said land more valuable for its mineral deposits than for agricultural purposes, or for its timber, shall be entered only under the law authorizing the entry and sale of timber or mineral lands: *And provided further*, That the heirs of any deceased settler shall succeed to the rights of such settler under this act: *Provided further*, That the proceeds arising from the sale of said lands shall constitute a fund to be used under the direction of the Secretary of the Interior for the maintenance and education of the Indians now residing on said lands and their children.

Approved, June 17, 1892.

#### INDIAN LANDS OPENED TO PUBLIC ENTRY.

The vast area of reserved lands ceded by various tribes of Indians, and opened up by the Government to entry within the past two or three years, has greatly augmented the work of this division, and has given an impetus to settlement and the upbuilding of towns and villages in the far West that can scarcely be overestimated. Towns and cities have sprung up as by magic, thousands of homes have been established and lands are cultivated by the pioneer settler preparatory to his receiving from the United States the title deed of his homestead as a well-earned reward of labor.

A closer bond of union is cemented between the Government and its peoples, while by the example of industrious settlers on the public domain in his near proximity the Indian acquires habits of industry and self-dependence.

An approximate showing indicative of the areas of Indian lands ceded, their present status, the number of acres sold for the benefit of Indians, and number of allotments made to Indians, together with statements of cash sales and homestead entries made thereon, form an interesting chapter in the history of events, and in the work of the public lands division, and, indeed, of the entire Bureau.

#### SISSETON AND WAHPETON TRIBES IN NORTH DAKOTA AND SOUTH DAKOTA.

Under the act of December 12, 1889, relative to the Sisseton and Wahpeton tribes in North and South Dakota, 1,338 allotments additional to the number theretofore taken have been made to these Indians, the total amount of land allotted being 310,711 acres. There were reserved for churches and schools 1,347 acres. The total quantity of land reverting to the Government after allotment and payment of moneys was 607,097 acres. These lands were opened to homestead entry April 11, 1892, and in a few weeks that have since elapsed 269,773 acres have been entered under the homestead laws at Fargo, N. Dak., and Watertown, S. Dak.

The text of the President's proclamation opening said lands, together with descriptive list and instructions to the local officers, will be found on other pages of this report.

#### GREAT SIOUX RESERVATION—CEDED PORTION, DAKOTA.

By the proclamation of the President, dated February 10, 1890, under the provisions of the act of March 2, 1889, the ceded portion of the Great Sioux Reservation was declared subject to disposal and homestead entry. The total area ceded, exclusive of all deductions for religious and educational purposes, was 9,053,935 acres. Of these lands

there have been disposed of by cash sales 5,010 acres, amounting to \$10,173.76, by allotments to these Indians 150,280 acres, and by homestead entries 164,619 acres, making a total of more than 320,000 acres disposed of.

THE BERTHOLD INDIAN RESERVATION, NORTH DAKOTA.

Under act of March 3, 1891 (26 Stats., 1035), by the President's proclamation, dated May 20, 1891, a large portion of the Fort Berthold Indian lands in North Dakota was opened to settlement and other disposal, as provided for in the act. None of the ceded portion is to be allotted. The amount of land ceded comprises 1,632,000 acres, on which no entries have yet been made.

CHEYENNE AND ARAPAHOE CEDED LANDS, OKLAHOMA.

On April 13, 1892, under agreement of October 18, 1890, and act of March 3, 1891 (26 Stats., 989 to 1044), the ceded lands of the Cheyenne and Arapahoe Indians were thrown open to homestead entry, the law requiring, in addition to fee and commissions on homestead entries, the payment of \$1.50 per acre. There have been made 3,335 allotments to these Indians, aggregating about 210,000 acres, and there were restored to the public domain about 3,500,562 acres. Copy of the President's proclamation, official instructions to local officers, and schedule of lands are presented elsewhere in this report.

LANDS CEDED BY THE SAC AND FOX NATION, OKLAHOMA.

Under treaty of June 12, 1890, and act of February 13, 1891 (26 Stats., pp. 758, 759), providing for the disposal of same, 391,185 acres of land were ceded by the Sac and Fox Nation and the lands were opened to homestead entry on September 22, 1891. President's proclamation, instructions to local officers, and schedule of lands are given in other pages. Allotments were provided for these Indians numbering 548 and comprising 87,648 acres.

LANDS CEDED BY IOWA TRIBE, OKLAHOMA.

Under agreement with the Iowa tribe, dated May 26, 1889, allotments were provided for said Indians to the number of 109, amounting to 8,684 acres. and the amount of land ceded was 219,446 acres.

The act of February 13, 1891, provides for the disposal of the same. The lands were opened to homestead entry September 22, 1891. (See President's proclamation, instructions, and schedule of lands elsewhere in this report.)

LANDS CEDED BY THE CITIZEN BAND OF POTTAWATOMIE AND ABSENTEE SHAWNEE INDIANS, OKLAHOMA.

Under agreement of June 26, 1889, for disposal under act of March 3, 1891 (26 Stats., pp. 989-1044), the lands ceded by Pottawatomie and Absentee Shawnee Indians of Oklahoma were opened to settlement on September 22, 1891. The amount ceded was 309,135 acres, and allotments are provided for to more than 2,000 Indians, amounting in the aggregate to 286,000 acres for allotments. (See President's proclamation, instructions to registers and receivers, and schedule of lands elsewhere in this report.

## SEMINOLE AND MUSKOGEE, OR CREEK LANDS, CEDED IN INDIAN TERRITORY (NOW A PART OF OKLAHOMA).

By the proclamation of the President, dated March 23, 1889, under act of March 2, 1889, there were, on April 22, 1889, in Oklahoma 1,887,796 acres of land, ceded by the Seminole and Creek Nations, opened to settlement under the homestead laws. The amount of land on which entries have been made is included in the following general statement relative to Indian lands entered in Oklahoma and elsewhere:

## AREA OF INDIAN LANDS CEDED AND DISPOSED OF UNDER HOMESTEAD LAWS.

The total amount of lands ceded and amount disposed of under homestead laws in North Dakota, South Dakota, and Oklahoma is shown as follows:

Since February 10, 1890, the date of the opening of the great Sioux Reservation, there have been entered on the ceded portion thereof, and on the Sisseton and Wahpeton lands in North and South Dakota, and disposed of under the homestead laws, 589,773 acres; and since April 22, 1889, the date of opening to settlement under homestead laws the lands ceded by the Seminole and Muscogee or Creek Nations, there have been entries made on ceded Indian lands in Oklahoma Territory and lands disposed of under the homestead laws as follows: Homestead entries to the number of 24,411 have been made, which cover 3,905,760 acres, allowing 160 acres to each entry, on which fees and commissions were paid, amounting to \$341,754. In addition to this amount 833 cash entries (principally in the form of excesses on homestead entries) were made on 2,195 acres, for \$62,531; and of the 24,411 homestead entries final proof, under sections 2304 and 2305, has been made in 287 cases, on about 43,000 acres, and about the same amount of land entered as homesteads has been commuted to cash.

The foregoing statement shows the area of ceded Indian lands disposed of under homestead laws in North and South Dakota and Oklahoma Territory during the present administration to be, in the aggregate, 4,497,728 acres.

## LANDS CEDED BY THE CŒUR D'ALENE INDIANS, IDAHO.

Under agreement of September 9, 1889, and act of March 3, 1891, the lands ceded by these Indians were thrown open to settlement. The area as estimated comprises 184,960 acres, of which no allotments will be made.

## CHIPPEWAS OF MINNESOTA.

The lands ceded in Minnesota by various tribes of Chippewa Indians under act of January 14, 1889 (25 Stats., 642) comprise 4,000,000 acres, which are in process of surveying for disposal under the homestead laws and otherwise under the provisions of said act. The records show but 720 acres selected as allotments by six of these Indians.

## COLVILLE INDIAN RESERVATION, WASHINGTON.

Under agreement of May 9, 1891, by act of Congress dated June 20, 1892, about 1,500,000 acres embraced in the Colville Indian Reservation became a part of the public domain. A copy of the said act to provide for the opening of said lands will be found on other pages of this report. The act provides for the opening of the lands to settlement by proclamation of the President.

## CROW INDIAN RESERVATION, MONTANA.

This reservation was ceded December 8, 1890, and comprises, exclusive of allotments, something over 1,800,000 acres, which will be thrown open to entry upon completion of the adjustment of certain allotments and claims.

## WITCHITA, KICKAPOO, AND TONKAWA LANDS IN OKLAHOMA AND INDIAN TERRITORY.

On June 14, 1891, September 9, 1891, and October 21, 1891, agreements were made for the cession of the Wichita, Kickapoo, and Tonkawa reservations, the area of which, in the aggregate, amounts to 833,466 acres.

## ONEIDA INDIANS OF WISCONSIN.

The Oneida Indian Reservation in Wisconsin has been subdivided and allotted in severalty to the 1,501 Indians entitled thereto, and descriptions of allotments have been posted in the tract books of this office during the fiscal year.

## MISCELLANEOUS ALLOTMENTS.

In California 512 allotments to Indians were made during the fiscal year, amounting to 62,264 acres, and allotments in other States to individual Indians of various tribes aggregate 6,000 acres more.

## LANDS SOLD FOR THE BENEFIT OF INDIANS.

Under the provisions of the act of Congress of March 2, 1889 (25 Stats., 871), authorizing the sale of certain lands patented to certain members of the Flathead tribe of Indians in the Bitter Root Valley, Montana, the consent of the Indians having been secured in accordance with the law, the appraisal of said lands and improvements thereon has been approved (the several unpatented allotments and location claims remaining to be adjudicated hereafter). In accordance with the directions of the Department this office, on August 20, 1891, and October 2, 1891, issued instructions to the register and receiver at Missoula for the sale of said patented allotments, under which sales have been made of 1,666 acres, amounting to \$14,434, which amount is to be expended for the benefit of these Indians.

In April, 1891, certain Umatilla Indian lands in La Grande district, Oregon, by instructions of this office, were offered for sale under acts of March 3, 1885 (23 Stats., 340; also 25 Stats., 239 and 559). The total amount appraised was 126,335 acres, and there were sold for the benefit of said Indians 33,253 acres for \$78,391, leaving as yet unsold 93,083 acres.

Under act of October 1, 1890, there were sold at Topeka, Kans., in April, 1891, 440 acres Absentee Shawnee Indian lands, said lands having been improperly allotted to said Indians. Since that date 80 acres have been sold for \$200.

There were sold at Topeka, Kans., for the benefit of certain New York Indians, under act of September 30, 1890, and prior to September 30, 1891, 9,375 acres of land, amounting to about \$23,500. Since that date 2,831 acres have been sold for \$7,077, making a total for these Indians of 12,206 acres, amounting to \$30,577.

Of the Osage Indian lands, sales were made at Larned, Kans., during the fiscal year, of 4,640 acres, amounting to \$28,813.

Of the Ute Indian lands, Colorado, 81,893 acres were sold during the fiscal year for the benefit of these Indians for \$84,714.

Of the Omaha Indian lands Nebraska, 680 acres were sold for the Omaha Indians, for \$28,450, and of the Ponca Indian lands, Nebraska, 306 acres were sold for the benefit of the tribe for \$383.

The foregoing statement shows 1,122,307 acres allotted to Indians since January, 1890, exclusive of allotments in the Crow Indian Reservation, now pending, which will aggregate 112,000 acres, and exclusive of the Oneida Indian Reservation allotted in severalty, amounting to about 120,000 acres. The record shows also, exclusive of Cherokee school lands, of which 361 acres were sold for \$451, that 135,161 acres of Indian lands have been sold during the last fiscal year for the benefit of Indians of various tribes.

The acreage and location of the principal areas of land restored or made a part of the public domain and thrown open to entry under homestead laws since June 30, 1889, are herewith presented as pertinent to and an interesting feature of this report.

Grand total lands restored .....	63, 887, 416

## VACANT PUBLIC LANDS IN THE UNITED STATES.

The following table, based on information furnished by the officials of each local land office, is so arranged as to show the area of vacant surveyed and unsurveyed lands separately in each land district, to show the acreage remaining vacant in each county, as well as the amount vacant in each State and Territory, and is arranged to show, through recapitulation by States, approximately the number of acres of public lands now vacant and unappropriated.

The preparation of this tabulated statement has involved a vast amount of labor and necessitated a great deal of correspondence for the purpose of securing accuracy in the detail work on which the same is based, and it is believed to be as close an approximate showing as possible, in view of the facts that a large part of the unsurveyed public domain lies within the limits of grants to railroads and that in some instances county lines are not definitely established thereon.

The records of this office are kept in accordance with the rectangular system of survey, by section, township, and range, without regard to county lines, and for this reason the location of the land by counties has been a laborious undertaking. The result, however, by which an estimate as to the amount of vacant public land in any particular county in this vast country can be furnished at a moment's notice in answer to the numerous inquiries that reach this office relating thereto fully compensates for the time and trouble necessary to obtain the facts.

Quite a considerable portion of the vacant lands are in the heavily timbered regions of the Southern States, in the ceded Indian lands of the great Northwest, in the lake regions, and in the mountainous and arid regions of the Far West.

It is reasonable, however, to presume that vast bodies of arid lands will in time be reclaimed and made fertile by irrigation as a result of the efforts of the Government to construct storage basins, reservoirs, and ditches for the purpose of conveying water over the arid lands.

In connection with the reports relative to the area of vacant lands the local officers at various districts transmit items of information, some of which are deemed worthy of mention as of interest and supplementary to the tabulated statement furnished.

The register at Los Angeles, Cal., reports that the major portion of the land remaining in the public domain within the limits of that district would be classed as arid lands and will undoubtedly be greatly benefited in consequence of the establishment of the San Gabriel Reservation. This class of land, in large part, only needs water and cultivation to make it productive. About one-third of the area would be classed as mountain land, rising all the way from the foothills to an altitude of from 12,000 to 14,000 feet.

The San Gabriel Reservation was created by an order from the honorable Commissioner of the General Land Office, dated at Washington, D. C., November 14, 1891, with a view of the conservation of the snows in the mountains and the consequent preservation of the water supply in the streams emanating from them. This reservation is, in round numbers, 50 miles in length by 20 in width, taking in the whole Sierra Madre Range from the Cajon Pass to a point near Acton.

Final action has not yet been had regarding this reservation, and for the present it is only temporarily reserved for the purpose of having it carefully examined by a special agent and reported upon, when the permanent reservation will be determined.

The natural resources of the lands in this district are gold, silver, copper, iron, tin, asphaltum, petroleum, extensive deposits of marble, kaolin, cement, fire clay, granite, red and gray sandstone, and timber of several varieties. The celebrated Temescal tin mine is located in that district. The production of petroleum is a large and growing industry, but the principal productions are fruits (citrus and deciduous), wine, and grain. Another industry has recently been started in the district in the production of beet sugar, which is likely to grow into large proportions in the near future.

The register at Eureka, Nev., calls attention to the great quantity of unsurveyed land in that district, embracing some of the most fertile agricultural valleys and most productive cattle and sheep ranges in the State.

Most of these valleys and ranges, he states, are held under mere shadow of possessory title, and in many instances are fenced in violation of law, to the exclusion of those who in good faith would enter, purchase, and improve the lands were they permitted to do so. He therefore urges a liberal appropriation for the extension of the public surveys that this land may be properly disposed of.

The register at Clayton, N. Mex., reports the unsurveyed lands in that district as consisting of a strip on the east boundary line of that Territory about 190 miles long and 4 miles wide, over which the lines of survey should be extended.

The register at Spokane Falls, Wash., reports that the great need of the people in that district is surveys. The surveyed land has been culled over until the tracts that remain vacant are rough and mountainous or barren wastes unfit for settlement, and a large area of the unsurveyed portions has been claimed by actual settlers for years, who are constantly beseeching the local office to assist in the endeavor to have the lands surveyed, of which there are in that district 1,655,200 acres.

The register at Ashland, Wis., reports that the larger amount of vacant land in that district as compared with that of last year is caused by the restoration of the surplus indemnity lands not needed by the Chicago, St. Paul, Minneapolis and Omaha Railroad.

The register at New Orleans states that in making the estimate of lands in Ascension Parish allowance is made for the uncertainty of the line of the McDonogh and Fontenot claims.

In naming the land districts in the tabulated statement the names of

the present local offices are adopted as the names of the districts, for the reason that the districts are thus known by the settlers and because it would be inconvenient and unnecessary to give the statutory names of the different districts created by Congress, in addition to the names of the offices to which correspondence relative to public lands therein should be addressed.

*Statement by States, Territories, and land districts, and also by counties where practicable, of lands not granted nor reserved that were subject to settlement or entry on July 1, 1892.*

\* No vacant land.

This aggregate is exclusive of Ohio, Indiana, and Illinois, in which, if any public land remains, it consists of a few small, isolated tracts. It is exclusive of Alaska, containing 577,390 square miles or 369,529,600 acres. It is also exclusive of military and Indian reservations and lands subject to sale for the benefit of certain Indian tribes, and exclusive of reservoir-site and timber reservations and tracts covered by selections, filings, railroad grants, and claims as yet unadjudicated, a part of which may in the future be added to the public domain.

## D—PRIVATE LAND CLAIMS DIVISION.

This division has charge of all claims which had their origin in some form of concession from a foreign government before the acquisition by the United States of the territory in which they are located, and are embraced within the purchases of Louisiana and Florida, the former by the treaty of April 30, 1803, with France, and the latter by the treaty of February 22, 1819, with Spain, and the cession made by Mexico by the treaty of Guadalupe-Hidalgo and the subsequent Gadsden purchase.

The rights of claimants to property acquired from the former governments when they exercised sovereignty over the regions of country in which their respective claims are situated are recognized and protected by the treaties of acquisition referred to. After the confirmation of this class of claims under the various laws passed by Congress for ascertaining their validity, their proper location by a United States survey and patenting come within the supervision of this division.

It also has charge of the examination, location, and patenting of donation claims in the States of Oregon and Washington and the Territories of New Mexico and Arizona; and of Indian lands, both reservations for individual Indians and allotments, and the issuing of scrip in satisfaction of confirmed claims where the title to such claims has been adjudicated by the Supreme Court of the United States under the act of Congress of June 22, 1860, and certificates of location, or scrip, have been decreed by said court. Also of the examination and authentication of other scrip issued for like purposes under the act of June 2, 1858, and the examination and patenting of New Madrid locations, act of February 17, 1815, and other matters in the service similar to the foregoing.

The allotment of lands to Indians, in severalty, under the provisions of the act of Congress approved February 8, 1887, and supplemental legislation, has largely increased the labors devolving upon this division. The correspondence has necessarily increased; and more patents have been issued here, and delivered, during the fiscal year, than in any previous year since the reorganization of the General Land Office by the act of July 4, 1836.

### WORK PERFORMED.

During the fiscal year ending June 30, 1892, the principal work performed in the division was as follows:

Oregon and Washington donation patents .....	40
Alabama, California, Florida, and Louisiana private land claims patented.....	12
Indian claims patented.....	8,297
Entries with certificates of location finally approved.....	326
Claims in Louisiana satisfied with scrip, act of June 2, 1858.....	18

The indemnity scrip issued in lieu of the above 18 Louisiana private land claims amounted to 8,788.99 acres,

The total number of letters received in this division of the office during the fiscal year was 1,677, and the total number written was 1,549.

Of cases examined some have been passed for patenting, while others have been suspended and are now subjects of correspondence.

Of the cases decided some are now on appeal, or awaiting the expiration of the time within which appeal may be taken or motion for review made.

The following statement will show the condition of the work in this division, generally, at the close of the fiscal year ending June 30, 1892:

California cases docketed, and not finally adjudicated.....	13
Confirmed New Mexico and Arizona private land claims not finally adjudicated	27
Oregon, Washington, New Mexico, and Arizona donations, reported and not finally adjudicated .....	103
Scrip cases, act of June 2, 1858, reported and awaiting action.....	63
Imperfect claims reported under act of June 22, 1860, and supplemental legislation to be reported to Congress by this office .....	2
Florida, Louisiana, Illinois, Michigan, etc., cases awaiting action.....	3,003
Claims within limits of Las Animas grant in Colorado, in which awards were made by the register and receiver at Pueblo under act of February 25, 1869, not adjudicated.....	1
Claims within limits of Las Animas grant in Colorado rejected by the register and receiver under act of February 25, 1869, on file, exclusive of one disposed of in 1874 and one withdrawn.....	24
Scrip locations pending .....	856
Indian allotments not patented.....	1,777
Docketed Indian allotment contests .....	156

There is also a considerable amount of correspondence and unclassified cases referred from other divisions of the office for examination, etc., awaiting appropriate action.

#### ARIZONA.

From the surveyor-general's annual report I make the following extract:

##### *Spanish archives, etc.*

I should have an appropriation for a clerk to take care of the Spanish archives on file in this office, and which demand a great deal of time since the establishing of the private land grant court. The run on the office by claimants and settlers to see these papers and to ascertain facts is quite heavy, and I have no clerk in connection with this work, and have an abundance of work for the few clerks I have.

I should have \$1,200 for the purpose, and it ought to be appropriated at once.

##### *The Algodones land grant.*

This land grant was located near Yuma, in this Territory, and was suspended from entry by Surveyor-General Wasson before he made his report as to its being a forgery, after special correspondence with the Land Office. Where plats of surveys had already been filed the suspension was made in the Land Office, and where the plats were still within the jurisdiction of this office they were withheld from filing in the local land office. The court of private land grants has pronounced the grant as forged, and as soon as possible the suspension should be relieved inasmuch as great injustice to the people has already occurred and the land is very desirable, and would be taken up very fast.

#### CALIFORNIA.

I quote the following from the Surveyor-General's annual report:

##### *Spanish archives.*

The condition of this important department could not be better. Everything is arranged with the greatest regularity and order. Each class of archives or documents are kept in separate divisions, and the new glass cases that have been pro-

vided furnish ample room for distribution, rendering thereby the finding of any particular book or paper simple and easy.

The compilation of the historical archives continues, and already 14 subjects have been arranged in alphabetical order under 75 subheads exclusive of the biographical sketches, with facsimile of handwriting and autographs, of all the leading men of the country since the year 1767, including the signatures and paraphs of all the kings, viceroys, governors, and commandant-generals of the Northern Provinces of New Spain and Mexico; also the diaries of all exploring expeditions that were made in early times for the selection of mission or presidio sites in the Province of the Californias.

My special report in the matter of the collection of the Spanish and Mexican archives of Los Angeles and San Diego has already been presented, but no action has been taken as yet concerning the flat refusal of the Los Angeles County officials to deliver up the books which they retain in their possession without authority.

The San Diego archives that were obtained are already collated and divided into the different subjects to which they refer.

There are in this office twelve ranch patents that have not as yet been delivered to the patentees, and I am of the opinion that measures should be adopted to compel claimants to take out their patents, and pay into this office the fees owing on the same. A number of patents have been awaiting the claimants in this office fourteen years, on one of which \$1,000 fees are owing.

In the matter of land titles, scarcely anything has been done during the present year, and nearly all of the private land claims are at present finally settled, except, perhaps, a few that up to this time are still in doubt only as to their true and exact location. The litigation that seemed so probable two years ago has apparently been discontinued.

Material aid has been given to Hon. Frank D. Lewis, of Los Angeles, who is attorney for the Mission Indians, in his attempts to establish the rights of his clients to the lands upon which their ancestors as Neophytes lived, and where they themselves have been all their lives, and in establishing the true location of the Indian villages of Aqua Caliente, Valle de San Jose, Santa Ysable, and Valle de Pamo Ranchos, as the present owners of the land are ejecting the unfortunates from their ancient dwelling places.

The frequent applications that are made for information upon questions that never have been clearly defined, either by the board of land commissioners or by the courts of the country, have caused considerable research, only with the view of giving unequivocal answers to the questions propounded. The following are some of the questions: What was the office of prefect? What were the powers of a prefect? What is the validity of a prefect grant? What is the meaning of the word *alcalde*? What were the powers of *alcaldes*? What is the validity of an *alcalde* grant?

#### *Prefects.*

A prefect is a magistrate who exercises both judicial and executive powers. The office of prefect, as defined in the Spanish Dictionary of Legislation and Jurisprudence, seems to have been in existence as early as the reign of Constantine, when the Roman Empire was divided into provinces or departments, and during the early government of Spain, the powers of prefects are clearly set forth in Law 8, Title 18, partida fourth, of the celebrated code of "Alfonzo the Wise." After the date of the Mexican independence, the sixth constitutional law of Mexico points out the nature of said office and the duties of prefects in general. The revolution of 1836 resulted in the destruction of the State government and the federal system, and the adoption of a new constitution which went into effect on the 1st of January, 1837, by which the territory of the republic was divided into departments, districts, and partidos, the head of each of which was constituted a chief executive officer. The organic law of the 20th March, 1837, designated the officers that should preside respectively over the said political divisions, and in said decree are defined their powers and duties.

The powers of prefects to grant the common land of the towns seems to have been derived from Article 77 of the above-mentioned organic law under the head "Of the Prefect," which reads thus:

"They (the prefects) shall regulate executively in conformity with the laws the distribution of the common lands of the towns of their districts whenever there is no litigation pending relative thereto."

It has been contended by able American judges and lawyers that the above article gives to the prefect no power to dispose of the public lands by grant, but simply a right to regulate and to prescribe rules by which the distribution should be governed. They claim the first to be a high prerogative, and the second the subordinate executive power with which the prefect was invested and with no greater authority.

If the Spanish word "Arreglar" meant simply to regulate, and it stood alone in the article and without qualification, the construction given would be clearly a correct one, but a reference to the dictionary will show that its technical meaning, as it is used here, is to adjust the administration of provinces and to enact laws thereunder.

Taking this meaning in connection with the word "Gubernativamente," translated "executively," which immediately follows, it would appear plainly to imply that the prefect was not only intrusted with the power to adopt general regulations for the distribution (repartimiento), or granting of the common lands of the Pueblos (towns), but also with the authority to execute or carry them into effect by granting the lands with a right of appeal to the governor and departmental juntas, to whom the general administration of the public lands of the department was entrusted.

After the date of the occupation of California by the Americans, Governor Bennett Riley, in his proclamation dated November 20, 1849, declares: "The law of the 20th of March, 1837, being still in force, its provisions must be carried out until it is repealed," etc.

The board of land commissioners created by the act of Congress approved March 3, 1851, upheld the above doctrine, and approved whatever prefect grants were proven to be genuine by the presenting claimants.

The greater portion of the former grants within municipal districts were issued by the respective prefects, and to such an extent was their power recognized by the Mexican governors that applications to the governors for land within the commons of a town were invariably sent back to the prefect for his action.

Prefect grants made in conformity with the provisions of the laws of September 26, 1836, and March 20, 1837, have been invariably held to be valid as any other grant declared legal by the American courts.

#### *Alcaldes.*

Alcalde is an Arabic word that signifies "the judge," and was a term used especially to denote the person in charge of the municipal government of a town or district.

According to the provisions of the royal ordinance of December 4, 1786, the offices of chief alcaldes were abolished, and assessors, subdelegates, and ordinary alcaldes were created. Article 309 of the Spanish constitution, May 18, 1812, treats of the government of Pueblos, and requires the alcalde to be president of town councils. The law of the Cortes of January, 1813, gives soldiers the right to claim lands within the towns, and vests power in the council to designate such lands, and in the alcalde, in the name of the corporate body, to issue titles therefor. There never was any law, either in Spain or in Mexico, that permitted an alcalde to execute deeds for Pueblo lands where an Ayuntamiento existed without the consent of that body. In California, where there were only three pueblos, San Jose, Los Angeles, and Branciforte, it became necessary to authorize alcaldes to execute land titles for lots to settlers without the consent, as above stated. After California became a part of the United States alcaldes were allowed or permitted, so to speak, by the Government to exercise their presumed prerogatives of making grants for town lots in Monterey, Yerba Buena (San Francisco), San Jose, Los Angeles, and in other towns.

Governor Riley, on May 15, 1849, declared "The alcalde being the executive officer of the town, may, it is believed, with the consent of the Ayuntamiento make sales and sign deeds in the name of the town, and without such consent it is thought he can make no sales of this kind."

In conclusion, I would say that Mexican as well as American alcaldes derived their powers as above set forth from the same laws, and any alcalde grant that was made in strict conformity with the requirements of said laws, either before or after July 7, 1846, was a valid grant, and all such have been so pronounced by the United States courts.

This resume of answers given so frequently in response to inquiries from widely scattered sources, is embodied as fully as permissible in this report, in the belief that in this way many interested in the titles of our private grants may obtain the information desired.

#### NEW MEXICO.

I quote from the Surveyor-General's last annual report as follows:

New Mexico contains over 90 per cent of the Spanish and Mexican grants in regard to which the law of March 3, 1891, was enacted. A multitude of small holders, with whom this office has to do, particularly under the provisions of sections 16, 17, and 18 (of the aforesaid act) seemed likely, through ignorance, to lose their right, at the expiration of two years from the date of that law.

To give them a chance, 3,000 circulars in Spanish, giving a correct translation of the law and calling attention to it, as many in English, and a great number of letters in Spanish were sent out, early in the year, throughout the territory.

A great many letters in Spanish and as many in English have been received in return, to which I have replied, explaining the application of the law to particular cases.

Forty filings under section 18 have been received, which have been recorded in a book prepared for that purpose, and they are coming in daily. A blank which I have sent out facilitates their preparation.

Spanish title papers in my charge are being constantly called for for examination by attorneys and others. Attending the land court to testify to the genuineness of documents on file in my office has taken much of my time, and holding hearings in grant boundary cases promises to absorb more; but this labor on the grant business is cheerfully undertaken in view of the fair prospect that New Mexico will soon be in a great measure freed from that which has been the greatest obstacle to her progress, the uncertainty of her land titles.

Among the benefits in this regard that have been secured by the rulings of the present Secretary of the Department, I may mention that the owners of the "Scolly grant" will soon report to me their selection of five leagues of land out of the twenty-five leagues that have been held for thirty-two years for them to select from, thus releasing to the public domain 87,000 acres of land. \* \* \*

As to the estimate for the survey of private land claims the decrees of the land court the past year could not be carried out by surveying out to claimants the lands adjudged to them for the lack of appropriation.

A large number of cases will be brought before the court the coming year, and a great number of small holdings that will be presented render the amount asked for necessary.

#### LOUISIANA.

##### *Satisfaction of confirmed claims under section 3, act of June 2, 1858.*

Under this heading the Surveyor-General reports that—

During the year just closed we have adjusted twenty-eight claims, numbered 551 to 578, inclusive, and aggregating 21,824.05 acres.

This I regard as doing well when the small clerical force allowed and the intricate and difficult comprehension and intelligent determination of the claims are considered.

There is a great amount of labor required to thoroughly investigate and decide these claims, owing to the peculiarity of the law of this State and the imperfect surveys of the past.

## E.—SURVEYING DIVISION.

The work performed in this division during the fiscal year ending June 30, 1892, was as follows:

### Letters:

Letters on hand unanswered July 1, 1891 .....	146
Letters received during the year .....	4, 628
Letters written during the year .....	4, 184
Letters disposed of during the year .....	4, 590
Letters remaining on hand July 1, 1892 .....	184
Pages of press copy, nearly all type-written .....	6, 763
Pages of record copied .....	824

### Copies of field notes:

Pages of field notes for official and individual use .....	1, 790
------------------------------------------------------------	--------

### Surveying returns:

Number of returns of surveys received during the year .....	194
Number of plats with transcripts of field notes pending July 1, 1891 .....	4
Number of same received during the year .....	907
Number disposed of during the year .....	700
Number on hand June 30, 1892 .....	211

### Reports of examinations of surveys:

Number pending July 1, 1891 .....	4
Number received during the year .....	106
Number acted upon and disposed of during the year .....	104
Number on hand June 30, 1892 .....	6

### Surveying contracts:

Contracts pending July 1, 1891 .....	0
Contracts received during the year .....	162
Special instructions (in lieu of contracts) received during the year .....	22
Contracts acted upon during the year .....	155
Special instructions acted upon during the year .....	22
Contracts awaiting action June 30 1892 .....	7

*Tabular statement showing the number of acres of public lands surveyed in the following land States and Territories up to June 30, 1891, during the past fiscal year, and the total of the public lands surveyed up to June 30, 1892; also the total area of the public domain remaining unsurveyed within the same.*

Land States and Territories.	Areas of public lands in States and Territories.		Number of acres of public lands surveyed.				Total area of public and Indian lands remaining unsurveyed, including the area of private land claims surveyed up to June 30, 1892.
	In acres.	In square miles.	Up to June 30, 1891.	Number of contracts made prior to June 30, 1891, and not heretofore reported because accepted since June 30, 1891.	Under contracts made for the fiscal year ending June 30, 1892.	Total up to June 30, 1892.

Total .....	1,815,424,388	2,836,757	991,186,658	11,234,740	1,482,753	1,003,904,151	811,520,237

<sup>a</sup> This area includes 572,775 acres of land surveyed under contracts made with the United States Surveyor-General of South Dakota, and reported by him prior to the establishment of the district and office of United States Surveyor-General of North Dakota.

<sup>b</sup> The figures given for Indian Territory include the area of the Cherokee Outlet, which is 9,790 square miles, or 6,265,600 acres.

<sup>c</sup> The figures given for Oklahoma Territory include the area of the former public land strip, 5,738 square miles, or 3,672,320 acres.

<sup>d</sup> This estimate is of a very general nature, and affords no index to the disposable volume of land remaining nor the amount available for agricultural purposes. It includes Indian and other public reservations, unsurveyed private land claims as well as surveyed private land claims in the districts of Arizona, California, Colorado, and New Mexico; the sixteenth and thirty-sixth sections reserved for common schools; unsurveyed lands embraced in railroad, swamp land, and other grants; the great mountain areas; the areas of unsurveyed rivers and lakes, and large areas wholly unproductive and unavailable for ordinary purposes. The area of land in the unsurveyed portion of the public domain suitable for homes and subject to settlement under the laws of the United States is of comparatively small proportions.

## MILITARY RESERVATIONS.

*Names and locations of existing military reservations in the public-land States and Territories, and the area as far as known or estimated with reference to executive orders or authority other than the Executive by which the reservations were established, enlarged, or reduced.*

[For reservations relinquished under act of July 5, 1884, see page 74.]

Name and location of reservation.	Area in acres.	Date of executive order or other authority and remarks.
<b>ALABAMA.</b>		
At entrance to Mobile Bay, the small islands between the north point of Dauphin Island and Cedar Point, Grant, Heron, Tower, and other islands, (a) and so much of Cedar Point as lies in fractional sections 25 and 26, T. 8 S., R. 2 W.: Cedar Point.....	296. 50	Executive order, February 9, 1842.
Fort Gaines, on eastern end of Dauphin Island.	(b)	Lands conveyed to the United States by decree of chancery in January, 1853.
Fort Morgan, in T. 9 S., R. 1 E.....	(b)	Secretary of War, September 10, 1842.
<b>ALABAMA AND MISSISSIPPI.</b>		
All that part of Cat Island owned by the Government; all of Ship Island, Round, Hurricane, and Dog islands; the west and east ends of Horn and Petit Bois Blanc islands. Area (including Dog and Hurricane islands) estimated at 100 acres.	6, 716. 55	Executive order, August 30, 1847. This does not include Round Island, which was previously reserved for naval purposes.
Total in Alabama and Mississippi as far as known.	7, 013. 05	
<b>ARIZONA TERRITORY.</b>		
Camp Apache, within the limits of the White Mountain Indian Reservation.	7, 421. 14	Executive order, February 1, 1877.
Camp Bowie, near Chiricahua Mountains.....	23, 040. 00	Executive orders, March 30, 1870, and November 27, 1877.
Camp Grant (new), in Ts. 8, 9, and 10 S., Rs. 23 and 24 E.	42, 341. 00	Executive order, April 17, 1876.
Camp Mojave, on Colorado River:		
Post .....	5, 582. 00	Executive order, March 30, 1870.
Hay and wood .....	9, 114. 81	
Fort Huachuca, in southern Arizona, adjacent to Babacomari private land claims.	49, 920. 00	Executive orders, October 29, 1881, and May 14, 1883.
Fort Thomas, mostly in T. 4 S., R. 23 E.....	10, 487. 00	Executive order, May 18, 1877.
Fort Whipple, in T. 14 N., R. 2 W.....	1, 730. 00	Executive orders, August 31, 1869, and October 19, 1875. Act of Congress approved June 22, 1874 (Stats., 18, p. 201).
Total in Arizona as far as known.....	149, 635. 95	
<b>ARKANSAS.</b>		
Quarry reservation for stone for public buildings at Little Rock Arsenal, viz: S. $\frac{1}{2}$ of sec. 25 and N. $\frac{1}{2}$ of N. $\frac{1}{2}$ of sec. 36, all on right bank of Arkansas River.	260. 96	Commissioner of General Land Office, April 11, 1839.
Fort Smith National Cemetery, in sec. 17, T. 8 N., R. 32 W.	14. 81	Executive orders, May 22, 1871, and December 3, 1876.
Total in Arkansas.....	275. 77	
<b>CALIFORNIA.</b>		
Angel Island, in San Francisco Bay .....	(a)	Executive orders, November 6, 1850, and April 20, 1860.
Alcatraz Island, in San Francisco Bay .....	(c)	Executive order, November 6, 1850.
Drum Barracks, at Wilmington, Cal.....	55. 00	Deeded to the United States by private parties.
Benicia Barracks and Arsenal, in Ts. 2 and 3 N., Rs. 2 and 3 W.	344. 90	Executive order, October 10, 1862.
Fort Bidwell, in T. 46 N., Rs. 15 and 16 E., Mount Wood reserve, in secs. 1 and 12, T. 46 N., R. 15 E.	640. 00	Deed by private persons in 1849.
Deadman Island, being lot 1, sec. 19, T. 5 S., R. 13 W., San Bernardino meridian.	2. 00	Executive order, February 7, 1871.
		Executive order, March 15, 1872.
a Area of island not known.	b Area not known.	c Unsurveyed.

*Schedule of military reservations, with area, date, etc.—Continued.*

Name and location of reservation.	Area in acres.	Date of executive order or other authority and remarks.
CALIFORNIA—continued.		
Camp Gaston, in T. 8 N., R. 5 E., of Humboldt meridian within Hoopa Valley Indian Reservation.	451. 50	Executive order, April 2, 1869.
Fort Hill or Monterey, at Monterey.....	(a)	Executive order, November 23, 1886, Secretary of Interior, March 2, 1858; executive order, October 21, 1882.
Island called Red Rock, Golden Rock, or Molate, in sec. 17, T. 1 N., R. 5 W., Mount Diablo meridian.	7. 52	
Presidio military reserve, Fort Point, on San Francisco Bay.	1, 479. 94	Executive orders, November 6, 1850, and December 31, 1851; act of Congress, May 9, 1876 (Stats. 19, p. 52).
Point San José (originally included within the Presidio reserve No. 1).	7. 89	Executive orders, November 6, 1850 and December 31, 1851; act of Congress, July 1, 1870 (Stats. 16, p. 186).
Point Loma (San Diego), at San Diego Harbor: "To include that portion of the peninsula lying on west side of entrance to the harbor which shall be included between the southernmost point of the peninsula (Punto de Loma) and a line drawn across said peninsula from the harbor to the ocean, at a distance of 1½ miles above Punta de Guisanas."	(a)	Executive order, February 26, 1852.
San Pedro Bay, in T. 5 S., Rs. 13 and 14 W., S. B. M. This tract of land was originally a public reservation by cession from Mexico under treaty of Guadalupe Hidalgo, concluded February 2, 1848.	(a)	Executive order, September 14, 1888.
San Solito Bay Point: From southern boundary of San Solito Bay, a line parallel to the channel of entrance to the Pacific.	(b)	Executive order, November 6, 1850.
Three Brothers, Three Sisters, and Marine Islands, in entrance to the San Pablo Bay.	(c)	Executive order, October 25, 1867.
Yerba Buena Island (Camp Reynolds), in San Francisco Bay.	(a)	Executive orders, November 6, 1850, and October 12, 1866. President's order, September 20, 1883.
Mount Whitney: All of T. 15 S., R. 34 E.; T. 16 S., R. 34 E.; T. 16 S., R. 35 E.; secs. 19 to 36, inclusive, of T. 15 S., R. 35 E.; secs. 19, 20, 29, 30, 31, and 32, T. 15 S., R. 36 E., Mount Diablo meridian.	d 84, 468. 00	
Total in California.....	87, 468. 75	
COLORADO.		
Fort Lewis, in Ts. 34 and 35 N., Rs. 10, 11, and 12 W. of New Mexico principal meridian.	30, 720. 00	Executive order, January 27, 1882.
Total in Colorado.....	30, 720. 00	
FLORIDA.		
North end of Amelia Island (Fort Clinch), fractional sec. 8, T. 3 N., R. 29 E.; fractional sec. 11 and lots 1 and 2 of sec. 14, T. 3 N., R. 28 E.	419. 44	Declared by executive order, February 9, 1842. Lot 2 of sec. 14, patented to D. L. Yulee, September 5, 1853.
Fort McRee, near Pensacola, in T. 3 S., R. 31 W.: "All the public land within 1 mile of the fort on Foster's Bank."	(a)	Executive order, February 9, 1842.
North Key, in Ts. 15 and 16 S., R. 12 E.....	159. 48	Executive order, March 2, 1840. Order of Secretary of War, March 23, 1849. Originally reserved as a part of Cedar Keys, although Mullet Key is not one of the Cedar Keys, but is at the entrance of Tampa Bay. Secretary of War, March 23, 1849; executive order, November 17, 1882.
Snake Key, in T. 16 S., R. 13 E.....	52. 17	
Mullet Key, in T. 33 S., R. 16 E.....	842. 29	
At Charlotte Harbor: "The south end of Gasparilla Island for a distance of 2 miles from its southern extremity, in T. 43 S., R. 20 E., and the north end of Boca Grande or Cayo Costa Island for a length of 2 miles from its northern extremity," in T. 43 S., R. 20 E., and T. 44 S., Rs. 20 and 21 E.	2, 143. 38	
Dry Tortugas (including Fort Jefferson).....	(a)	Executive order, September 17, 1845. Secretary of War, March 23, 1849; executive order, November 17, 1882.
Egmont Island, at entrance to Tampa Bay, in T. 33 S., R. 15 E.	e 392. 77	
a Area not known.	b Area not stated.	c Unsurveyed; area not known.
d About.	e Present area not known.

1. South end of Vashous Island.....	633.60	Executive order, July 2, 1875. Executive orders dated March 2 and May 20, 1889, amended Executive order of July 2, 1875, confining the military reservation on San Juan Island to certain lots and subdivisions in secs. 7 and 8, in T. 34 N., Rs. 2 and 3 W.; making an aggregate of 640 acres.
2. On north side of Gig Harbor.....	639.00	
All in Ts. 21 and 22 N., R. 2 E.		
San Juan Island:		
Southeast point of island, including Goose Island and Rocky Peninsula, in T. 34 N., R. 2 W.	640.00	Executive order, July 2, 1875. Executive orders dated March 2 and May 20, 1889, amended Executive order of July 2, 1875, confining the military reservation on San Juan Island to certain lots and subdivisions in secs. 7 and 8, in T. 34 N., Rs. 2 and 3 W.; making an aggregate of 640 acres.
Northeast point of island, including Reed Rock (in secs. 1, 2, 11, 12, and 13, T. 35 N., R. 3 W.).	508.33	
Shaw Island:		
West end of island, mostly in T. 36 N., R. 2 W.	515.30	Executive order, July 2, 1875.
• Eastern reserve on island, mostly in T. 36 N., R. 2 W.	594.90	
Fort Three Tree Point, in T. 9 N., R. 7 W .....	640.00	Executive order, July 31, 1865.
Fort Townsend, in secs. 21, 22, 27, 28-33 of T. 30 N., R. 1 W.	621.97	Executive order, January 29, 1859.
Fort Vancouver, in T. 2 N., R. 1 E.....	639.54	Order of Secretary of War, October 29, 1853. Executive order, January 5, 1878 ( $\frac{4}{100}$ of an acre was granted to Catholic mission).
Fort Walla Walla, part of the post reserve remaining unsold.	619.57	Executive order, May 13, 1839. Hay and timber reserve granted away or sold.
Fort Spokane, on Spokane River.....	640.00	Order of Secretary of Interior, June 24, 1881; executive order, January 12, 1882; executive order, November 17, 1887.
Reservations as follows at twenty-five different points where the title should be found to be in the United States, viz:		
1. On north side of New Dungeness Harbor, embracing all the peninsula to its junction with the mainland, in T. 31 N., R. 4 W.	458.63	Executive order, September 22, 1866.
2. South side of New Dungeness Harbor, in T. 31 N., Rs. 3 and 4 W.	628.00	
3. On west side of entrance to Washington Harbor, in T. 30 N., R. 3 W.	614.00	
4. East side of entrance to Washington Harbor, T. 30 N., R. 3 W.	588.00	
5. Challam Point, T. 30 N., R. 2 W.....	614.00	
6. Opposite Challam Point, in T. 30 N., Rs. 1 and 2 W.	637.00	

a Area not known.

b About.

*Schedule of military reservations, with area, date, etc.—Continued.*

Name and location of reservation.	Areas in acres.	Date of executive order or other authority and remarks.
WASHINGTON— continued.		
7. Protection Island, in Ts. 30 and 31 N., R. 2 W.	.....	All disposed of before order issued.
8. Opposite Protection Island, in T. 30 N., R. 1 W.	624.25	Executive order, September 22, 1866.
9. Vancouver Point, in Ts. 29 and 30 N., R. 2 W.	603.00	
10. Point Wilson, in T. 31 N., R. 1 W.	464.00	
11. Point Hudson, in T. 30 N., R. 1 W.	.....	All disposed of before order issued.
12. Admiralty Head, in T. 31 N., R. 1 E.	450.00	Executive order, September 22, 1866. This order declared reservations of 640 acres each where the title to the lands should be found in the United States, but upon final designation of the reservation by the War Department the areas were reduced below 640 acres, as per this table. Quite a number of legal subdivisions within the limits designated were found to have been disposed of prior to date of order, which reduces the area reserved below the figures here stated. Exact reserved area not calculated.
13. Marrowstone Point, in T. 30 N., R. 1 E. and 1 W.	590.00	
14. North of entrance to Deception Pass, including two islands in the pass, in T. 34 N., R. 1 E.	550.00	
15. South of entrance to the pass, in T. 34 N., R. 2 E.	630.00	
16. Two islands east of Deception Pass, in T. 34 N., R. 2 E.	140.00	
17. Tala Point, in T. 28 N., R. 1 E.	615.25	
18. Hoods Head, in T. 28 N., R. 1 E.	614.25	
19. Foulweather Point, in T. 28 N., Rs. 1 and 2 E.	602.20	
20. Double bluffs, fractional secs. 26, 27, 28, and lots 4 and 5, sec. 22 of T. 29 N., R. 2 E.	626.25	
21. Point Defiance, in T. 21 N., R. 2 E.	631.00	
22, 23, and 24. Three tracts on west side of Puget Sound, in T. 21 N., R. 2 E.	576.00 637.00 635.00	See preceding remarks.
25. Whidbeys Island, most northerly point, in T. 34 N., Rs. 1 and 2 E.	606.00	
Goose Island, situate in the strait of San Juan de Fuca, off the southeastern point of San Juan Island, in the SE. $\frac{1}{4}$ of the NE. $\frac{1}{4}$ of sec. 8, T. 24 N., R. 2 W.	.....	Executive order, January 9, 1889.
Total in Washington .....	19,824.69	
WISCONSIN.		
Stone quarry, fractional secs. 25, 26, and 36, T. 28 N., R. 25 E.	1,046.10	Request of Secretary of War and order of Secretary of the Treasury, September 1, 1837.
WYOMING.		
Fort D. A. Russell, adjoining city of Cheyenne, in T. 14 N., R. 67 W.	4,512.00	Executive order, June 28, 1869.
Wood reserves for Forts Sanders, D. A. Russell, and Cheyenne depot, secs. 20, 28, 30, 32, T. 15 N., R. 71 W.	$\alpha$ 2,540.64	Executive orders, November 4, 1879, and February 25, 1880.
Fort Fred. Steele National Cemetery .....	.....	Secretary of War, November 19, 1886. Area not known.
Fort Washakie, within the Shoshone Indian Reservation.	$\alpha$ 1,405.00	Executive order, May 21, 1887.
Fort McKinney, post reserve and wood and timber reserve, in Ts. 50 and 51 N., Rs. 82 and 83 W.	25,600.00	Executive orders, July 2, 1879, and February 2, 1880.
Depot McKinney, in T. 44 N., R. 78 W.	640.00	Executive order, July 2, 1879. Executive order dated January 10, 1890, withdrawing the eastern boundary of the reservation one-fourth of a mile westward, as per terms of the order.
Fort Laramie, wood reserve, in Ts. 24 and 25 N., Rs. 70 and 71 W., 6 P. M.	39,680.00	Executive order, February 9, 1881.
Total to Wyoming .....	74,377.64	
Total area of military reservations in the public-land States and Territories, as far as known or estimated.	1,679,580.07

## F.—RAILROAD DIVISION.

*Tabulated statement of office work performed during the year:*

Applications for lands pending July 1, 1891 .....	2, 975
Applications received during year .....	1, 011
	3, 986
Decisions in favor of applicants .....	252
Decisions against applicants .....	729
Applications referred to other divisions .....	205
	1, 186
Applications pending July 1, 1892 .....	2, 800
Entries pending July 1, 1891 .....	3, 635
Entries received during year .....	1, 093
	4, 728
Entries canceled during year .....	141
Entries closed as to railroads .....	1, 260
	1, 401
Entries pending July 1, 1892 .....	3, 327
Letters pending July 1, 1891 .....	136
Letters received during year .....	6, 038
	6, 174
Letters answered during year .....	3, 478
Letters requiring no answer .....	2, 034
Letters referred to other divisions .....	514
	6, 026
Letters remaining unanswered July 1, 1892 .....	148

Railroad selections in acres canceled during year, 308,893.86.

Letters written during year, 9,083, covering 17,895 pages of press copy.

Certified copies furnished during year, 259, costing \$1,159.42.

A comparison with reports for previous years will show that the work performed is somewhat less than that performed during the year last passed, but is largely in excess of any previous year's work, while the force of the corps of examiners of contest cases and corresponding clerks, by reason of death, transfer, and detail, has been decreased at least 30 per cent.

Taking into consideration the force employed, the work performed is greater than that of the year last preceding.

During the fiscal year ending June 30, 1892, lands have been certified and patented on account of railroad grants as follows:

Railroad.	Number of acres.	Where located.
Union Pacific Rwy. Co .....	53, 017. 82	Colorado.
	543, 346. 21	Kansas.
Atlantic and Pacific R. R. Co .....	596, 364. 03	Arizona Territory.
Southern Pacific .....	373, 099. 38	California.
Northern Pacific .....	804, 401. 16	North Dakota.
Hastings and Dakota R. R. Co .....	214, 626. 12	Minnesota.
Southern Minnesota Rwy. Co .....	28, 252. 09	Do.
	1, 810. 86	
Total .....	2, 018, 553. 64	

## LEGISLATION.

There has been no new legislation during the year affecting land-grant railroads.

Numerous bills have been introduced in Congress containing provisions relating to railroad grants, most of them providing for the forfeiture of grants for roads not constructed within the time prescribed by law, some of which have passed the House of Representatives, but none have become laws.

On September 29, 1890, the general land grant forfeiture bill was passed, and pursuant to the provisions thereof the forfeited lands were restored to entry during the fiscal year last past, with a few exceptions, wherein questions were pending affecting the quantity of land to be restored.

The questions involved in the case of the Southern Pacific grant have been determined, and the forfeited lands restored to entry. A suit has been introduced in the courts for the recovery of title to lands certified under the grant to the Tennessee and Coosa Railroad Company, and is still pending.

Prior to the decision of the Supreme Court in the case of the St. Paul, Minneapolis and Manitoba Railroad Company *vs.* Phelps (137 U. S., 528), it was held by this office and Department that the grant to the company did not extend beyond the boundaries of the State of Minnesota, but said decision declared that the grant was not confined to said State, but extended into the Dakotas; and, upon the extension of the limits thereof, it was found that large quantities of lands falling therein, both upon the main line and St. Vincent Extension, had been disposed of to settlers, and in numerous cases patents had been issued.

Under a resolution of the Senate dated February 28, 1891, a negotiation with the company, with a view to secure the release of the lands settled upon within the limits as extended, has been conducted, and has resulted in bill now before Congress, which has been favorably reported on by this office, wherein provisions for a conveyance of the lands to the United States, and the selection of other lands in lieu thereof by the company, are made; and it is understood that the company is cognizant of the provisions of the bill and is willing to accept them.

By the seventh section of the forfeiture act of September 29, 1890, the portion of the grant for the Gulf and Ship Island Railroad lying south of Hattiesburg, which had not been constructed, was saved from the forfeiture for one year from the date thereof, but no additional road was built by the company during the year allowed, and a report has been submitted to the Department in the matter, with a recommendation that the lands opposite to and coterminous with such unconstructed portion of the road be restored to entry.

An investigation has been made of the records of certain counties in Florida, within the limits of the grant to the company known as the Florida Central and Peninsular Railroad Company, with a view to determine what lands are claimed under the acts known as the "armed occupation acts," and numerous claims were discovered. The parties have been notified of the adverse claim of the railroad company, and called upon to advise this office of the facts connected with their claims. A number of responses have been made, but the cases have not yet been considered, because of the pressure of other and more urgent business. The investigation has enabled the office to prepare clear lists of the company's lands, and such lists, aggregating some 280,000 acres of land, have been prepared and submitted to the Department for approval.

The restoration in the Ashland land district, Wisconsin, of the excess lands reserved under the grant to the Chicago, St. Paul, Minneapolis, and Omaha Railway Company, which, pursuant to the adjustment of said grant, was ordered for April 17, 1891, but suspended for reason stated on page 38 of the last annual report, was carried into effect on November 2, 1891.

During the past year lands have been patented and certified under the several railroad grants aggregating 2,018,553.64 acres, and clear lists have been prepared for the approval of the Secretary of the Interior, and are awaiting his action, containing 1,117,591.88 acres.

Certain persons having been erroneously permitted between August 15, 1887, and January 1, 1889, to make entry for lands within the second indemnity limits of the grant to the Northern Pacific Railroad Company, in Minnesota, etc., Congress, on October 1, 1890, passed an act allowing them to transfer their claims to other public lands subject to settlement and entry. Proper notice thereof was given, and it is believed that all, or nearly all, of those who had made entries, about 200, and some who had made filings, have availed themselves of the privilege.

In making the restoration of the lands of the Northern Pacific Railroad Company in Oregon, declared forfeited by the act of September 29, 1890, this office held, and the Department concurred in the action, that the lands lying within the overlapping limits of the Northern Pacific and Oregon and California grants were included within the forfeiture, for the reason that the Northern Pacific being the earlier grant, said lands were not affected by that to the Oregon and California Company.

The Oregon and California Company, however, having definitely located its road opposite the lands, and the Northern Pacific Company not having done so, the Department had ruled that the former, by reason of its prior location, acquired a superior right, and under that decision 102,944.20 acres of said lands were patented to it.

A demand was made for the reconveyance of these lands to the United States, and the company having declined to do so, the matter was reported to the Department, and the Attorney-General has been requested to institute suit for the recovery of the title and furnished with all necessary data from the files and records of this office to enable him to prepare his case.

#### DEPARTMENTAL ACTION.

Prior to April 2, 1892, the Department held that title to lands embraced within a present grant to aid in the construction of a railroad passed by certification, and that although a declaration of forfeiture by Congress of the grant for breach of conditions subsequent, may have been declared, the title was still outstanding and the forfeited lands were not subject to disposal by the Government until the certification should be annulled by proper judicial proceedings. (Horace B. Rogers *et al.*, 10 L. D., 29.)

On that date, in the case of the New Orleans Pacific Railway Company (14 L. D., 321) the Department overruled its former action, and held that the title vested in the grantee by the granting act, and that the certification could neither add to nor detract therefrom. Also, that an act declaring a forfeiture of a railroad grant, vacated and annulled a certification made under it, and revested the title to the land in the United States.

Pursuant to this decision, lands certified under certain grants declared forfeited by the act of September 29, 1890; can be restored to

entry as soon as the questions affecting such grants shall be determined.

On October 3, 1891, in the case of the Santa Cruz Water Storage Company (13 L. D., 660), the Secretary of the Interior decided that the act of March 3, 1891, granting a right of way through the public lands for the construction of canals, ditches, and reservoirs did not authorize the approval of maps showing locations through unsurveyed lands. On March 21, 1892 (14 L. D., 336), the Secretary declared that the same rule applied to railroads claiming the right of way under the act of March 3, 1875, and directed that maps of locations over unsurveyed lands should not be accepted.

Since said rulings, numerous maps of locations over unsurveyed lands have been received, and in every instance the parties filing them have been advised that they could not be accepted, but that the refusal to accept them would not interfere with the work of construction.

These decisions changed the previous practice of the Department, which permitted the filing of maps of location without waiting for the survey of the land, although no right could be acquired thereby.

#### COURT DECISIONS.

During the past year the Supreme Court has rendered several decisions affecting the rights of railroads under land grants by Congress, to which it is thought proper to briefly refer.

In the case of *Mary Bardon vs. Northern Pacific Railroad Company*, decided May 16, 1892, the court declared that a claim existing at the date of the approval of an act of Congress making a present grant for railroad purposes, on land within the primary limits, excepted such land from the operation of the grant.

Prior to May 29, 1879, the Department held that if land within the primary limits of a railroad grant was free from adverse claim at the date of the definite location of the road, it passed under said grant, regardless of what its previous condition may have been. On that day the Department rendered a decision wherein it was held that a homestead entry, existing at date of a present railroad grant, excepted the land covered by it therefrom, notwithstanding the entry was canceled prior to definite location. *White vs. Hastings and Dakota Railroad Company* (6 C. L. O., 54). This case was overruled by the Department in *Rees vs. Central Pacific Railroad Company*, August 14, 1886, and the former rulings held to be correct.

The decision in the Bardon case changed a ruling of the Department relative to railroad grants, which had continuously been in force, excepting for the period between the White and Rees decisions above mentioned, since the earliest construction given such grants.

In *United States vs. Des Moines Navigation and Railway Company* (142 U. S., 510), the court in an exhaustive opinion reaffirmed its decisions in the cases therein cited, that the title of the Des Moines Navigation and Railway Company to the lands granted to Iowa to aid in the improvement of the Des Moines River by the act of August 8, 1846, joint resolution of March 2, 1861, and act of July 12, 1862, is good against the United States.

As bills have been introduced in every Congress for the past twelve or fifteen years for the relief of settlers on these lands, two of which were passed but were vetoed by President Cleveland, this suit, at the instance of the Iowa delegation in Congress, was brought to finally determine the question of title to these lands, and all cases in conflict with the claim of the Des Moines Navigation and Railway Company can now be disposed of.

ADJUSTMENTS.

The adjustments of the grants for the following railroad companies have been submitted to the Secretary of the Interior, viz:

Name of railroad.	When sub- mitted.	Name of railroad.	When sub- mitted.
St. Louis, Iron Mountain and South- ern .....	Aug. 8, 1888	Vicksburg, Shreveport and Pacific	Feb. 26, 1890
Cedar Rapids and Missouri River ..	Nov. 13, 1888	St. Paul and Duluth .....	do .....
Dubuque and Pacific .....	Sept. 23, 1889	Southern Minnesota extension .....	do .....
Little Rock and Fort Smith .....	Nov. 12, 1889	Chicago and Northwestern (Wis.) ..	do .....
Atchison, Topeka and Santa Fe.....	Dec. 20, 1889	Wills Valley Railroad, and North- east and Southwest, known as	
Main line St. Paul and Pacific, and St. Vincent extension, known as		Alabama and Chattanooga .....	Feb. 27, 1890
St. Paul, Minneapolis and Mani- toba .....	Jan. 25, 1890	Chicago, Milwaukee and St. Paul (Iowa) .....	May 19, 1890
Alabama and Florida .....	Feb. 26, 1890	Hastings and Dakota .....	July 22, 1890
Florida and Alabama .....	do .....	Gulf and Ship Island .....	Feb. 11, 1892

An adjustment of the grant to the Coos Bay Military Wagon Road Company was submitted January 13, 1888. On February 1, 1892, the Secretary of the Interior returned the papers in the case, and directed that a demand be made upon the company for the reconveyance to the United States of 10,359.20 acres of land which appeared, from the adjustment, to have been erroneously patented to it. The demand was duly made, and no response has been received, but the time allowed for answer did not expire until July 2, 1892. The case will be reported to the Department for such action as may be deemed proper by the Secretary.

The adjustment of the grant to the Mobile and Girard Railroad Company, of Alabama, was completed prior to July 1, 1892, but was not submitted until subsequent to that date, and was not, therefore, included in the above list.

The submission of the adjustment of the grant to the St. Paul, Minneapolis and Manitoba Railway Company has been delayed by the failure of the beneficiaries to respond to a call for a designation of losses for indemnity lands heretofore conveyed thereunder and for a statement of lands sold.

All railroad companies which have received indemnity lands for which no loss as a basis therefor has been designated have been called upon to designate the losses, tract by tract, for all indemnity heretofore received, with the understanding that no further indemnity lands will be approved or patented until the requirement shall have been complied with.

The adjustments of the following grants have been approved, viz:

Name of railroad.	Approved.
Sioux City and St. Paul .....	June 22, 1887.
Chicago, St. Paul Minneapolis, and Omaha .....	Feb. 12, 1890.
Hannibal and St. Joseph .....	May 29, 1890.
Grand Rapids and Indiana .....	July 20, 1890.
Missouri, Kansas and Texas .....	Aug. 2, 1890.
Coos Bay Military Wagon Road .....	Feb. 1, 1892.

In a number of cases, particularly the Pacific roads, the grants can not be adjusted, for the reason that large quantities of the lands within their limits have not been surveyed, and the acreage can not be

determined. A bill has, however, been introduced in Congress, and has been favorably reported on by this Office, to appropriate \$500,000 for the survey of these lands. If this bill should become a law, the adjustments of the grants will be greatly facilitated.

On September 29, 1890, Congress declared forfeited to the United States all lands, therefore granted to aid in the construction of any railroad, which were opposite to and coterminous with the portion of such road not then constructed and in operation, but made an exception of that portion of the Gulf and Ship Island Road south of Hattiesburg for one year. The Gulf and Ship Island Company did not build any road during the year allowed; and as no other road could have been built under the grants to aid in their construction, the same having been declared forfeited, the number of miles of railroad actually constructed under the land grants remains as given in the last annual report, 18,070.71.

The number of acres of land embraced in lists of selections under railroad grants awaiting examination at the close of the year is 28,846,961.60; the pending selection for wagon roads aggregate 313,406.37 acres, making 29,160,367.97 acres embraced in pending selections under railroad and wagon road grants.

A circular was issued as approved by the Department March 21, 1892, containing right of way regulations under the act of March 3, 1875, and sections 18, 19, 20, and 21 of the act of March 3, 1891, which is here given, viz:

#### RIGHT OF WAY REGULATIONS—RAILROADS, CANALS.

##### RAILROADS.

The following is a copy of an act of Congress approved March 3, 1875, granting to railroads the right of way through the public lands of the United States:

*"Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That the right of way through the public lands of the United States is hereby granted to any railroad company duly organized under the laws of any State or Territory, except the District of Columbia, or by the Congress of the United States, which shall have filed with the Secretary of the Interior a copy of its articles of incorporation and due proofs of its organization under the same, to the extent of one hundred feet on each side of the central line of said road; also the right to take, from the public lands adjacent to the line of said road, material, earth, stone, and timber necessary for the construction of said railroad; also, ground adjacent to such right of way for station buildings, depots, machine shops, side tracks, turn-outs, and water stations, not to exceed in amount twenty acres for each station, to the extent of one station for each ten miles of its road.

"SEC. 2. That any railroad company whose right of way, or whose track or road-bed upon such right of way, passes through any canyon, pass, or defile, shall not prevent any other railroad company from the use and occupancy of said canyon, pass, or defile, for the purposes of its road, in common with the road first located, or the crossing of other railroads at grade. And the location of such right of way through any canyon, pass, or defile shall not cause the disuse of any wagon or other public highway now located therein, nor prevent the location through the same of any such wagon road or highway where such road or highway may be necessary for the public accommodation; and where any change in the location of such wagon road is necessary to permit the passage of such railroad through any canyon, pass, or defile, said railroad company shall, before entering upon the ground occupied by such wagon road, cause the same to be reconstructed at its own expense in the most favorable location, and in as perfect a manner as the original road: *Provided,* That such expenses shall be equitably divided between any number of railroad companies occupying and using the same canyon, pass, or defile.

"SEC. 3. That the legislature of the proper Territory may provide for the manner in which private lands and possessory claims on the public lands of the United States may be condemned; and where such provision shall not have been made, such condemnation may be made in accordance with section three of the act entitled "An act [to amend an act entitled an act] to aid in the construction of a railroad and tele-

graph line from the Missouri River to the Pacific Ocean, and to secure to the Government the use of the same for postal, military, and other purposes, approved July first, eighteen hundred and sixty-two," approved July second, eighteen hundred and sixty-four.

SEC. 4. That any railroad company desiring to secure the benefits of this act shall, within twelve months after the location of any section of twenty miles of its road, if the same be upon surveyed lands and, if upon unsurveyed lands, within twelve months after the survey thereof by the United States, file with the register of the land office for the district where such land is located a profile of its road; and upon approval thereof by the Secretary of the Interior the same shall be noted upon the plats in said office; and thereafter all such lands over which such right of way shall pass shall be disposed of subject to such right of way: *Provided*, That if any section of said road shall not be completed within five years after the location of said section, the rights herein granted shall be forfeited as to any such uncompleted section of said road.

"SEC. 5. That this act shall not apply to any lands within the limits of any military, park, or Indian reservation, or other lands specially reserved from sale, unless such right of way shall be provided for by treaty stipulation or by act of Congress heretofore passed.

"SEC. 6. That Congress hereby reserves the right at any time to alter, amend, or repeal this act, or any part thereof.

"Approved March 3, 1875 (18 Stat., p. 482)."

The regulations under the law are as follows:

I. Any railroad company desiring to obtain the benefits of the law is required to file, through this office, or they may be filed with the register of the land district in which the principal terminus of the road is to be located, who will forward them to this office—

*First*. A copy of its articles of incorporation, duly certified to by the proper officer of the company, under its corporate seal.

*Second*. A copy of the State or Territorial law under which the company was organized (when organized under State or Territorial law), with certificate of the governor or secretary of the State or Territory that the same is the existing law.

*Third*. When said law directs that the articles of association, or other papers connected with the organization, be filed with any State or Territorial officer, the certificate of such officer that the same have been filed according to law, with the date of the filing thereof.

No forms are prescribed for the above portion of the "due proofs" required, as each case must be governed, to some extent, by the laws of the State or Territory.

*Fourth*. The official statement, under seal of the proper officer, that the organization has been completed; that the company is fully authorized to proceed with the construction of the road according to the existing law of the State or Territory; and that the copy of the articles filed is true and correct. (See Form I.)

*Fifth*. A true list, signed by the president, under the seal of the company, showing the names and designation of its respective officers at the date of the filing of the proofs. (See Form II.)

II. Upon the location of any section of the line of route of its road, not exceeding 20 miles in length, the company must file with the register of the land district in which such section of the road, or the greater portion thereof, is located, a map, for the approval of the Secretary of the Interior, showing the termini of such portion of the road, its length, and its route over the public lands according to the public surveys.

The map must be filed within twelve months after the location of such portion of the road, if located upon surveyed lands, and if upon unsurveyed lands within twelve months of the survey thereof. It must bear—

*First*. Affidavit of the chief engineer of the company (or person employed to make the survey, if the company has no chief engineer), setting forth that the survey of route of the company's road from ——— to ———, a distance of ——— miles (giving termini and distance), was made by him (or under his direction) as chief engineer of the company (or as surveyor employed for the purpose, if such be the case), under authority of the company, on or between certain dates (giving the same), and that such survey is accurately represented on the map. If the affidavit is made by the chief engineer of the company, it must be signed by him officially. (See Form III.)

*Second*. Official certificate of the president of the company, attested by its secretary under its corporate seal, regarding the person signing the affidavit, either as to his being the chief engineer of the company or as to his employment by the company for the purpose of making such survey; that the survey was made under authority of the company; that the line of route so surveyed and represented by the map was adopted by the company, by resolution of its board of directors of a certain date (giving the date), as the definite location of the line of route of the company's road

from ——— to ———, a distance of ——— miles (giving termini and distance), and that the map has been prepared to be filed for the approval of the Secretary of the Interior, in order that the company may obtain the benefits of the act of Congress approved March 3, 1875, entitled "An act granting to railroads the right of way through the public lands of the United States." (See Form IV.)

III. It will be observed that the requirements of the law regarding the filing of the proper papers are conditions precedent to the obtainment of the right to construct a railroad over the public lands or to take therefrom material, earth, stone, and timber for its construction, or to occupy them for station or other purposes. It is therefore imperative that proper steps, as pointed out in this circular, should be taken by a company, and the approval of the Secretary of the Interior obtained, prior to the construction of any part of its road or its occupancy of the public lands in any manner.

IV. Upon construction of any section of the line of its road the company must file with the register of the proper land district, for transmission to this office, a map of such constructed portion of road, bearing—

*First.* Affidavit of the chief engineer or person under whose supervision the portion of the road was constructed that its construction was commenced on ——— and finished on ——— (giving dates); that the line of constructed road is accurately represented upon the map, and that it conforms to the line of located route which received the approval of the Secretary of the Interior on ——— (giving date). (See Form V.)

*Second.* Certificate of the president of the company, attested by the secretary under the corporate seal, that the portion of the road indicated by the map was actually constructed at the time as sworn to by the chief engineer of the company (or person making the affidavit), and on the exact route shown on the map; that in its construction the road does not deviate from the line of route approved by the Secretary of the Interior, and that the company has in all respects complied with the requirements of the act of March 3, 1875, granting right of way through the public lands. (See Form VI.)

Any variation within the limits of 100 feet from the central line of the road as located will not be considered a deviation from such line, but where, upon construction, it is found necessary to transgress the limits within which the company has right of way, the company must at once file proper map of amended route for approval.

V. If the company desires to avail itself of the provisions of the law which grant the use of "ground adjacent to the right of way for station buildings, depots, machine shops, side tracks, turn-outs, and water stations, not to exceed in amount 20 acres for each station, to the extent of one station for each 10 miles of its road," it must file for approval, in each separate instance, a plat showing, in connection with the public surveys, the surveyed limits and area of the grounds desired. Such plat must bear—

*First.* Affidavit of the chief engineer or surveyor by whom or under whose supervision the survey was made, to the effect that the plat accurately represents the surveyed limits and area of the grounds required by the company for station or other purposes, under the law (stating the purposes), in ——— (giving section, township, range, and State or Territory); that the company has occupied no other grounds for station or other similar purposes upon public lands within the section of 10 miles for which this selection is made, and that, in his belief, the grounds so represented are actually and to their entire extent required by the company for the necessary uses contemplated by law. (See Form VII.)

*Second.* Certificate of the president of the company, attested by the secretary under the corporate seal, that the survey of the tract represented on the plat was made under authority and by direction of the company by or under supervision of its chief engineer (or person making the survey), whose affidavit is attached; that such survey accurately represents the grounds actually and to their entire extent required by the company for station (or other) purposes in ——— (giving section, township, range, State, or Territory), allowed by the provisions of the act of Congress approved March 3, 1875, granting to railroads the right of way through the public lands; that the company has no station or other grounds upon public lands within the section of 10 miles for which this selection is made; and that the company, by resolution of its board of directors of a certain date (giving the date), directed the proper officers to present the plat for the approval of the Secretary of the Interior, in order that the company may obtain the use of the grounds under the law above referred to. (See Form VIII.)

When maps of a line of any road have been approved by the Secretary of the Interior, a copy of so much thereof as relates to the lands within the boundaries of a given district will be transmitted to the register and receiver.

Immediately upon receipt of such copy, if the same represents surveyed lands, the local officers will mark upon the township plats the line of route of the road as laid

down on the map. They will also note, in pencil, on the tract books opposite each tract of public land cut by said line that the same is to be disposed of subject to the right of way for the road, giving its name. Thereafter, in disposing of any tract cut by the line of route, the claim to which shall have been initiated subsequent to the receipt of the copy of the approved map, the register and receiver will note, in red ink, across the face of the certificate issued upon any entry made, that the same is allowed subject to the right of way of the road, giving its name, and refer to the letter from this office, transmitting the map, by its initial and date.

When there is received from this office a copy of an approved plat of grounds selected by a company under the act in question, for station purposes, etc., they will mark the proper township plat accordingly, make the necessary notes on the tract books, and in disposing of the tracts which may include the grounds so selected the officers will note on the certificate of entry, in addition to the note concerning the right of way, the entry is permitted subject to the use and occupation of the company (naming it) for station purposes, etc.

When copies of approved maps or plats are sent, showing lines of route through unsurveyed lands, they will be placed on file, awaiting further compliance with the law and instructions by the companies after survey of the lands.

The act of March 3, 1875, is not in the nature of a grant of lands; it does not convey an estate in fee, either in the "right of way" or the grounds selected for depot purposes. It is a right of use only, the title still remaining in the United States.

Each tract selected for station purposes under the act must represent its particular section of 10 miles and can not be selected in any other section of 10 miles. That is, within the first 10 miles a tract may be selected at any point within said section, and for the next 10 miles another tract may be selected within the limits of that section in the same manner as the first; and other tracts may in like manner be selected for each additional section of 10 miles to represent said section in its particular locality. All selections for station purposes are now adjusted in conformity to the above ruling, as shown by Forms VII and VIII.

All persons settling on public lands to which a railroad right of way has attached take the same subject to such right of way and must pay for the full area of the subdivision entered, there being no authority to make deductions in such cases.

If a settler has a valid claim to land existing at the date of the approval of the map of definite location of a railroad company, his right is superior, and he is entitled to such reasonable measure of damages for "right of way," etc., as may be determined upon by agreement or in the courts, the question being one that does not fall within the jurisdiction of this office.

All maps must be filed with the register of the proper land office, who will note upon the same the fact that they are filed in duplicate and transmit both map and duplicate to this office.

Registers are instructed, in any case where information is received by them of the construction of railroads within their districts, of the rights of which they have no official knowledge, to promptly advise this office of the facts, in order that proper information or directions in the matter may be given them.

All maps of location presented for approval should be drawn on tracing linen, the scale not less than 2,000 feet to the inch, and should be filed in duplicate. Station plats should be upon a scale of 400 feet to the inch and should also be filed in duplicate.

The attention of companies seeking the benefits of this act should be specially directed to these suggestions, as serious delays and embarrassments are often incurred through the inability of this office, owing to its limited clerical force, to prepare the necessary copies for transmission to the district offices.

#### RIGHT OF WAY FOR CANALS, DITCHES, AND RESERVOIR SITES.

Sections 18, 19, 20, and 21 of the act of Congress approved March 3, 1891 (26 Stat., 1095), entitled "An act to repeal timber-culture laws, and for other purposes," grants the right of way through the public lands and reservations of the United States for the use of canals, ditches, and reservoirs heretofore or hereafter constructed by corporations, individuals, or associations of individuals, upon the filing and approval of the certificates and maps therein provided for, but the word "reservations" as here used does not include Indian reservations.

The following instructions, under said act, are added for the information of those who may desire to secure the benefits granted thereby:

#### THE EIGHTEENTH SECTION

provides that the right of way through the public lands and reservations of the United States is hereby granted to any canal or ditch company, formed for the purpose of irrigation and duly organized under the laws of any State or Territory, which has filed or may hereafter file a copy of its articles of incorporation and due

proofs of its organization under the same, to the extent of the ground occupied by the water of the reservoir, and of the canal and its laterals, and 50 feet on each side of the marginal limits thereof; also the right to take from the public lands adjacent to the line of the canal or ditch material, earth, and stone necessary for the construction of such canal or ditch. The right of way must not interfere with the proper occupation by the Government of any reservation, and all maps of location must be subject to the approval of this Department and of the Department having charge of any reservation in which the right of way is proposed to be located.

#### THE NINETEENTH SECTION

is drawn in the same general terms of section 4 of the right-of-way act for railroads approved March 3, 1875 (18 Stat., p. 482), and directs that any canal or ditch company desiring to secure the benefits of this act shall, within twelve months after the location of 10 miles of its canal if the same be upon surveyed lands, and if upon unsurveyed lands within twelve months after the survey thereof by the United States, file with the register of the land office for the district where such land is located a map of its canal or ditch and reservoir, and, upon the approval thereof by the Secretary of the Interior, the same shall be noted upon the plats in said office, and thereafter all such lands over which such right of way shall pass shall be disposed of subject to such right of way. The section further provides that whenever any person or corporation, in the construction of any canal, ditch, or reservoir, injures or damages the possession of any settler on the public domain, the party committing such injury or damage shall be liable to the party injured for such injury or damage.

Under this section all maps or plats showing the location of canals, ditches, or reservoirs must first be filed in the proper local land offices. The register will note in red ink on the map or plat over his official signature the date of such filing in his office, and the fact that it is "filed in duplicate," and then promptly transmit the same to this office for appropriate action. It is imperatively necessary that all maps or plats submitted under this section should be filed in duplicate.

#### THE TWENTIETH SECTION

directs that the provisions of this act shall apply to all canals, ditches, or reservoirs heretofore or hereafter constructed, whether constructed by corporations, individuals, or associations of individuals, on the filing of the certificates and maps herein provided for. If such ditch, canal, or reservoir has been or shall be constructed by an individual or association of individuals, it shall be sufficient for such individual or association of individuals to file with the register of the land office where said land is located a map of the line of such canal, ditch, or reservoir, as in case of a corporation, with the name of the individual owner or owners thereof, together with the articles of association, if any there be. Plats heretofore filed shall have the benefits of this act from the date of their filing, as though filed under it. Forfeiture is declared if any section of said canal or ditch shall not be completed within five years after the location of said section, to the extent that the same is not completed at the date of the forfeiture.

By the provisions of this section it is obligatory upon all corporations, individuals, or associations of individuals, owning, controlling, or operating canals, ditches, or reservoirs, whether the same have been constructed or are to be hereafter constructed, in order to be admitted to enjoy the benefits provided for in this statute, to file the necessary papers and maps entitling them to recognition under this act; and the registers and receivers are directed to give notice to all such corporations that may be found within their districts that the conditions precedent to obtaining rights of way over the public lands, as enumerated by the statute, must be fully complied with before any easement can be secured.

#### THE TWENTY-FIRST SECTION

declares that nothing in this act shall authorize such canal or ditch company to occupy such right of way except for the purpose of said canal or ditch, and then only so far as may be necessary for the construction, maintenance, and care of said canal or ditch.

All maps of location, either of canals or ditches, presented for approval, should be in duplicate and drawn upon the scale not less than 2,000 feet to the inch, as required in the case of locations under the act granting the right of way to railroads, but the survey of a reservoir may be mapped to the scale of 1,000 feet to the inch, and must also be in duplicate. The smallest legal subdivision of the public survey should be shown.

The termini of a canal or ditch and laterals should be fixed by reference to established corners of the public survey and described in the field notes and in the certifi-

cate of engineer. The course and distance of the line of route and also the width of the canal or ditch should be noted upon the maps, and wherever the location crosses a line of the public survey the distance to the nearest established corner should be ascertained and noted.

Where the boundary lines of a reservoir cross the lines of the public survey the point of intersection should be marked with a stake or stone, and the distance from such point to the nearest established corner, outside of the reservoir, should be noted on the map.

In surveying a reservoir the initial point should be fixed by reference to an established corner of the public survey, outside of the reservoir, and the outer or shore line should be so marked that adjoining proprietors may know the boundary and that surveyors may retrace the line in after years regardless of the water line.

In all cases maps filed under this act should be accompanied by the field notes of the survey, which, like the maps, must be in duplicate, and in these notes the variation of the magnetic from the true meridian should be noted.

This act does not contemplate the appropriation for reservoir purposes of natural lakes that are already the source of a water supply, nor the damming of a river so that the adjacent country is overflowed. Its intention seems to be to encourage the much-needed work of constructing ditches, canals, and reservoirs in the arid portion of the country, and not as granting an easement in a natural source of water supply.

The duties of registers and receivers under this law are identical with those prescribed in the first part of this circular containing the rules and regulations for railroads claiming right of way over the public lands under act of March 3, 1875.

No separate forms are prescribed to be used under the said sections, but the attached forms prescribed for use by railroads claiming right of way under the act of March 3, 1875, may be used in such proceedings *mutatis mutandis*.

THOS. H. CARTER,  
Commissioner.

Approved March 21, 1892.

JOHN W. NOBLE,  
Secretary.

## FORMS FOR "DUE PROOFS" AND VERIFICATION OF MAPS OF RIGHT-OF-WAY RAILROADS.

### (I.)

I, \_\_\_\_\_, secretary [or president] of the \_\_\_\_\_ railroad company, do hereby certify that the organization of said company has been completed; that the company is fully authorized to proceed with the construction of the road according to the existing laws of the State [or Territory]; and that the copy of the articles of association [or incorporation] of the company filed in the Department of the Interior is a true and correct copy of the same.

In witness whereof I have hereunto set my name and the corporate seal of the company.

[SEAL.]

\_\_\_\_\_ of the \_\_\_\_\_ Railroad Company.

### (II.)

\_\_\_\_\_, being duly sworn, says that he is the president of the \_\_\_\_\_ railroad company, and that the following is a true list of the officers of the said company, with the full name and official designation of each, to wit: [Here insert the full name and official designation of each officer.]

[SEAL OF COMPANY.]

\_\_\_\_\_  
President of the Company.

### (III.)

\_\_\_\_\_, being duly sworn, says he is the chief engineer of [or is the person employed to survey the line of route of the road of] the \_\_\_\_\_ railroad company; that the survey of the line of route of said road from \_\_\_\_\_ to \_\_\_\_\_, a distance of \_\_\_\_\_ miles, was made by him [or under his direction] as chief engineer of the company [or as a surveyor employed by the company] and under his authority, commencing on the \_\_\_\_\_ day of \_\_\_\_\_, 18—, and ending on the \_\_\_\_\_ day of \_\_\_\_\_, 18—; and that such survey is accurately represented on the accompanying map.

Sworn and subscribed to before me this \_\_\_\_\_ day of \_\_\_\_\_, 18—.

[SEAL.]

\_\_\_\_\_  
Notary Public.

## (IV.)

I, \_\_\_\_\_, do hereby certify that I am the president of the \_\_\_\_\_ railroad company; that \_\_\_\_\_, who subscribed the foregoing affidavit, is the chief engineer of [or was employed to make the survey by] the said company; that the survey of line of route of the company's road, as accurately represented on the accompanying map, was made under authority of the company; that the said line of route so surveyed and as represented on the said map was adopted by the company by resolution of its board of directors on the \_\_\_\_\_ day of \_\_\_\_\_, 18—, as the definite location of the road from \_\_\_\_\_ to \_\_\_\_\_, a distance of \_\_\_\_\_ miles; and that the map has been prepared to be filed for the approval of the Secretary of the Interior, in order that the company may obtain the benefits of the act of Congress

approved March 3, 1875, entitled "An act granting to railroads the right of way through the public lands of the United States."

\_\_\_\_\_,  
President of the \_\_\_\_\_ Railroad Company.

Attest: \_\_\_\_\_,  
Secretary.

[SEAL OF COMPANY.]

## (V.)

\_\_\_\_\_, being duly sworn, says that he is the chief engineer of [or was employed to construct the road of] the \_\_\_\_\_ railroad company; that said road had been constructed, under his supervision, from \_\_\_\_\_ to \_\_\_\_\_, a distance of \_\_\_\_\_ miles; that its construction was commenced on the \_\_\_\_\_ day of \_\_\_\_\_, 18—, and finished on the \_\_\_\_\_ day of \_\_\_\_\_, 18—; that the line of constructed road as afore-said is accurately represented on the accompanying map, and that it conforms to the line of located route which received the approval of the Secretary of the Interior on the \_\_\_\_\_ day of \_\_\_\_\_, 18—.

Sworn and subscribed to before me this \_\_\_\_\_ day of \_\_\_\_\_, 18—.  
[SEAL.]

\_\_\_\_\_,  
Notary Public.

## (VI.)

I, \_\_\_\_\_, do hereby certify that I am the president of the \_\_\_\_\_ railroad company; that the portion of the road from \_\_\_\_\_ to \_\_\_\_\_, a distance of \_\_\_\_\_ miles, was actually constructed as set forth in the foregoing affidavit of \_\_\_\_\_, chief engineer [or the person employed by the company in the premises], and on the exact route as represented on the accompanying map; that in its construction the road does not deviate from the line of route approved by the Secretary of the Interior on the \_\_\_\_\_ day of \_\_\_\_\_, 18—; and that the company has in all things complied with the requirements of the act of Congress approved March 3, 1875, granting to railroads the right of way through the public lands of the United States.

\_\_\_\_\_,  
President of the \_\_\_\_\_ Railroad Company.

Attest: \_\_\_\_\_,  
Secretary.

[SEAL OF COMPANY.]

## (VII.)

\_\_\_\_\_, being duly sworn, says he is the chief engineer of [or the person employed by] the \_\_\_\_\_ railroad company, under whose supervision the survey was made of the grounds selected by the company for [station, buildings, depots, etc., as the case may be], under the act of Congress approved March 3, 1875, granting to the railroads the right of way through the public lands of the United States; said grounds being situated in the \_\_\_\_\_ quarter of section \_\_\_\_\_ of township \_\_\_\_\_, of range \_\_\_\_\_, in the State [or Territory] of \_\_\_\_\_; that the accompanying plat accurately represents the surveyed limits and area of the grounds so selected, and that the area of the ground so selected and surveyed is \_\_\_\_\_ acres and no more; that the company has occupied no other grounds for similar purposes upon public lands within the section of 10 miles for which this selection is made; and that, in his belief, the grounds so selected and surveyed, and represented, are actually and to their entire extent required by the company for the necessary uses contemplated by said act of Congress approved March 3, 1875.

Sworn and subscribed to before me this \_\_\_\_\_ day of \_\_\_\_\_, 18—.  
[SEAL.]

\_\_\_\_\_,  
Notary Public.

## (VIII.)

I, \_\_\_\_\_, do hereby certify that I am the president of the \_\_\_\_\_ railroad company; that the survey of the tract represented on the accompanying plat was made under authority and by direction of the company, and under the supervision of \_\_\_\_\_, its chief engineer [or the person employed in the premises], whose affidavit precedes this certificate; that the survey as represented on the accompanying plat actually represents the grounds required in the \_\_\_\_\_ quarter of section \_\_\_\_\_ of township \_\_\_\_\_, of range \_\_\_\_\_, for the purposes indicated, and to their entire extent, under the act of Congress approved March 3, 1875, granting to railroads the right of way through the public lands of the United States; that the company has selected no other grounds upon public lands, for similar purposes, within the section of 10 miles for which this selection is made; and that the company, by resolution of its board of directors, passed on the \_\_\_\_\_ day of \_\_\_\_\_, 18\_\_\_\_, directed the proper officers to present the said plat for the approval of the Secretary of the Interior, in order that the company may obtain the use of the grounds described, under said act approved March 3, 1875.

\_\_\_\_\_  
President of the \_\_\_\_\_ Railroad Company.

Attest:

\_\_\_\_\_  
Secretary.  
[SEAL OF COMPANY.]

### RIGHT OF WAY TO RAILROADS, CANALS, DITCHES, AND RESERVOIRS.

There are 392 railroad companies claiming the right of way over the public lands, under the general right of way act of March 3, 1875, or special acts, the articles of incorporation of 18 of which were approved during the past year.

Under the act of March 3, 1891 (sections 18 to 21), which granted the right of way over the public lands for the construction of canals, ditches, and reservoirs, 133 applications have been received, 60 of which were made by individuals and firms, and 73 by corporations. They cover 152 reservoir sites, and 1,555.10 miles of canals.

Twelve of these applications have been approved during the past year.

#### *Tabulated statement of work performed.*

Maps pending July 1, 1891 .....	43
Maps received during year .....	709
	752
Maps approved during year .....	386
Maps returned for correction .....	345
	731
Maps pending July 1, 1892 .....	21

While the above shows a considerable increase in this branch of the work of this division and of the work performed, the actual increase of business and work is not shown, for the reason that a large number of maps showing the location of railroads, canals, etc., over unsurveyed lands, have not been accepted and have not been reported in the above statement, although their examination and the correspondence made necessary consumed considerable time and involved considerable work.

The refusal to accept these maps was in pursuance of the ruling of the Department in the case of the Santa Cruz Water Storage Company (13 L. D., 660), wherein the previous ruling, which allowed the filing of such maps, was changed.

*Right of way granted for reservoirs and canals in certain States and Territories.*

Do.....	Mar. 2, 1865	13	528	Act extending the time for completion of road 2 years.			

<sup>a</sup> In the adjustment of this grant the road was treated as an entirety, and without reference to the State line; hence Alabama has had approved to her more and Missis. sippi less than they would appear to be entitled to in proportion to the length of the road in the respective States.

<sup>b</sup> No evidence of the construction of this road, as required by the act, having been filed in the General Land Office, the grant is presumed to have lapsed, but the lands have not been restored to the public domain.

<sup>c</sup> Certified lands footing 719,193.79 acres were reconveyed to the United States by the governor of Louisiana, February 24, 1888,

<sup>d</sup> Includes 35,685.49 acres of the Chicago, Rock Island and Pacific Railroad, 109,756.85 acres of the Cedar Rapids and Missouri River Railroad, and 77,535.22 acres of the Dubuque and Sioux City Railroad, situated in the old Des Moines River grant of August 8, 1846, which should be deducted from the foregoing amount. (Wolcott v. Des Moines, 5 Wall., 631.)

Land concessions by acts of Congress to States and corporations for railroad and military wagon-road purposes, etc.—Continued.

## G.—PREÈMPTION, DESERT-LAND AND TIMBER-CULTURE ENTRIES, TOWN SITES, AND CONTESTS INVOLVING PREÈMPTION RIGHTS.

The work performed in this division up to November 28, 1891, was the examination of claims arising under the various acts of Congress granting preëemption rights, and also townsite matters.

The rapid dispatch of the work, accelerated by the act of March 3, 1891, which, by its special provisions confirmed many cases which had hitherto been long held in the "suspended files," enabled this division to get up with the current preëemption work, a point which had not before been reached since 1873, a period of nineteen years.

An order was issued November 28, 1891, transferring the adjudication of all timber-culture and desert-land entries from the public lands division (C) and all contest cases involving preëemption claims from the contest division (H) to this division, since which time it has also had jurisdiction of those branches of the work.

The following is a summary of the work performed in this division during the fiscal year ending June 30, 1892:

### Preëemption entries:

Pending July 1, 1891 .....	19, 529	
Received during the fiscal year .....	11, 472	
Total .....		31, 001
Approved for patenting .....	27, 727	
Canceled .....	24	
Total .....		27, 751
Pending July 1, 1892 .....		3, 250
Examined and suspended .....	1, 256	
Not examined .....	1, 994	
Total .....		3, 250
Osage partial-payment receipts filed during the year and now in files ..	1, 061	

### Final desert entries:

Pending July 1, 1891 .....	1, 007	
Received during fiscal year ending June 30, 1892 .....	941	
Total .....		1, 948
Approved for patenting by Division C .....	947	
Approved for patenting by Division G .....	481	
Total .....		1, 428
Pending July 1, 1892 .....		520

### Commuted timber-culture entries:

Pending July 1, 1891 .....	21	
Received during the fiscal year ending June 30, 1892 .....	2, 260	
Total .....		2, 281

## Commuted timber-culture lands—Continued.

Approved for patenting by Division C.....	194
Approved for patenting by Division G.....	869
Total.....	1, 063

Pending July 1, 1892 ..... 1, 218

## Final timber-culture entries:

Pending July 1, 1891.....	3, 466
Received during the fiscal year.....	2, 579
Total.....	6, 045

Approved for patenting by Division C..... 2, 684

Approved for patenting by Division G..... 1, 842

Total ..... 4, 526

Pending July 1, 1892 ..... 1, 519

## Number of entries approved for patenting by Division G during the fiscal year ending June 30, 1892:

Preëmption.....	27, 727
Commuted timber-culture.....	869
Final timber-culture.....	1, 842
Final desert.....	481

Total ..... 30, 919

## Original entries pending July 1, 1892:

Timber-culture.....	107, 850
Desert-land.....	7, 290

Total ..... 115, 140

This division was organized June 1, 1887, and is the outgrowth of the board of contests, formed April 1, 1887, for the purpose of disposing of all contest cases pending at that date in this office, together with those cases thereafter to be instituted before the several local offices, except in railroad, mineral, surveying, and private-land cases, which are governed by special rules and regulations and disposed of in the several divisions having charge of matters of that kind. Thus it will be seen that this division was organized expressly to take charge of all cases relating to contests involving claims set up between individuals to portions of the public domain under the various laws in force in reference to agricultural lands.

This state of affairs existed until November 28, 1891, when a slight change was made in the work of the division by the removal of all cases which were affected in any manner by a preëmption claim to Division G (preëmption division), and, all told, this division was relieved by such transfer of 325 undecided docket appeal cases.

The work performed in this division ever since its organization has been of the highest character, involving the settlement of the titles to millions of acres of the public domain and dealing in many instances with the entire accumulations of the settler's lifetime, and in other cases with money values reaching far into the thousands. As a result of these contests the attention of this division is chiefly occupied in taking appropriate action in the following classes of cases: First, cases on appeal from the decision of the local officers (docket cases); second, cases involving miscellaneous appeals from the decision of the local officers in other than docket cases; third, cases without appeal from the decision of the local officers, besides passing on motions to review, etc., applications for hearings, answering numerous correspondence relative to pending cases, calling for reports, etc., keeping the necessary records and files, and performing other material labor incident to the care and preservation of the same, forwarding appeals from the decisions of this office affecting cases in the division to the Department, and promulgating departmental decisions.

Of this class of work the most intricate, as well as the most important, are the docket appeal cases, otherwise known in this office as docket cases. In the trial of these cases before the local officers the practice adopted is similar to that which obtains in the trial of litigated cases before courts of justice without juries, and, as a rule, when the record reaches this division it is voluminous and contains much conflicting testimony, demanding a decision both as to the law and facts, and therefore requires, on the part of the examiner, a clear and certain knowledge, not only of the rules and regulations of the Department, but also of law and evidence. That these requirements are possessed by the examiners is shown by the fact that 95 per cent of the cases decided in this division are affirmed by the honorable Secretary on appeal.

Next in importance to the docket cases come the miscellaneous appeals. This work likewise requires clerks of legal training, as the questions involved are purely questions of law and practice and arise in many instances upon contests which have been regularly initiated, but generally for some good reason have either been dismissed prior to the trial or rejected by the local officers immediately upon filing the same.

The third class of cases, namely, those wherein a trial has been had and no appeal taken from the decision of the local officers, contain but a small record, and, being more or less stereotyped in character and involving generally no intricate questions, can very readily and without much effort be disposed of on blank forms printed for that purpose, inasmuch as the decisions of the local officers in these cases are considered final as to the facts and will be disturbed, under rule 48 of practice, by the Commissioner only as follows:

1. Where fraud or gross irregularity is suggested on the face of the papers.
2. Where the decision is contrary to existing laws or regulations.
3. In event of disagreeing decisions by local officers.
4. Where it is not shown that the party against whom the decision was rendered was duly notified of the decision and of his right of appeal.

There is considerable other important business transacted in this division besides that already mentioned, being of a routine nature, however, and in some respects similar to that performed in the office of the clerk of an appellate court.

For the purpose of showing the volume of work performed in this division since its organization in disposing of the docket appeal cases, and for comparison, the following carefully prepared statement, made from the several annual reports of this office, is herewith submitted:

*Number of docket cases received and decided since the organization of the division, June 1, 1887, which includes all cases received and disposed of since the formation of the board of contests, April 1, 1887.*

Cases transferred from other divisions to board of contests, April 1, 1887 .....	813
Cases received between April 1 and June 30, 1887.....	1, 104
<hr/>	
Cases received during last three months of year ending June 30, 1887 .....	1, 917
Cases received during fiscal year ending June 30—	
1888 .....	1, 668
1889 .....	1, 197
1890 .....	1, 032
1891 .....	1, 083
1892 .....	959
<hr/>	
Total number of cases received .....	7, 856
Cases examined and decided—	
Between April 1 and June 30, 1887.....	0
During fiscal year ending June 30, 1888 .....	754
During fiscal year ending June 30, 1889 .....	1, 531
During fiscal year ending June 30, 1890 .....	1, 375
During fiscal year ending June 30, 1891 .....	1, 199
During fiscal year ending June 30, 1892 .....	2, 302
<hr/>	
Total number of cases decided .....	7, 161
Cases pending at end of fiscal year ending—	
June 30, 1887 .....	1, 917
June 30, 1888 .....	2, 745
June 30, 1889 .....	3, 224
June 30, 1890 .....	3, 160
June 30, 1891 .....	2, 839
June 30, 1892 .....	184

## RECAPITULATION.

Cases received since April 1, 1887, to June 30, 1892.....	7, 856
Cases decided since April 1, 1887, to June 30, 1892.....	7, 161
<hr/>	
	695
Referred to other divisions .....	511
<hr/>	
Total number on hand undecided on June 30, 1892.....	184

From the foregoing table it will be seen that the number of docket cases decided since the formation of the "Board of contests," which was merged into this division, to the end of the fiscal year June 30, 1889 (two years and three months), was 2,285, or 17 less than were decided during the present year, and for the two years following, ending June 30, 1891, the total number of docket cases examined and decided was 2,574, or only 272 more than were decided during the present fiscal year.

The number of examiners and clerks employed in the division since its organization has been as follows:

For the fiscal year ending—	
June 30, 1887 (three months) .....	22
June 30, 1888 .....	24
June 30, 1889 .....	30
June 30, 1890 .....	35
June 30, 1891 .....	38
June 30, 1892 .....	37

By a further comparison it will be seen that the docket cases decided during the fiscal year ending June 30, 1892, by the clerks available for that purpose, out of a total number of 37, were 17 more than the combined number of docket cases decided by the 22 clerks employed in the

three months ending June 30, 1887, the 24 clerks employed in the year ending June 30, 1888, and the 30 clerks employed in the year ending June 30, 1889; and, on the other hand, were only 272 less than those decided by the combined efforts of 35 clerks employed in the year ending June 30, 1890, and the 38 clerks employed in the year ending June 30, 1891.

On February 1, 1892, the division was reorganized with a view of expediting and systematizing the work for the purpose of bringing the same up to date.

That this purpose was accomplished will be seen from the following supplemental report, which covers the period from February 1 to and including June 30, 1892, the end of the fiscal year:

*Summary of docket work for the period (five months) beginning February 1, 1892, and ending June 30, 1892.*

Docket cases—

On hand February 1, 1892 .....	2, 292	
Received from February 1 to June 30, 1892, inclusive.....	379	
	<hr/>	2, 671
Closed from February 1 to June 30, 1892, inclusive .....	1, 250	
Referred to other divisions after decisions rendered from February 1 to June 30, inclusive .....	82	
Decided but not finally closed from February 1, 1892, to June 30, 1892, inclusive .....	1, 155	
	<hr/>	2, 487
Balance on hand of undecided docket cases on June 30, 1892.....		184

By actual count the whole number of docket cases examined and decided between February 1 and June 30, 1892, was 1,319.

From this supplemental report it is plain to be seen that the principal part of the work done during the present fiscal year in bringing the docket cases up to date was performed since the reorganization of the division, February 1, 1892, for on that date there had been only 983 docket cases examined and decided for the seven preceding months.

Again, referring to the number of docket cases decided during the several years since the organization of the division, it will be observed that the total number examined and decided between February 1 and June 30, 1892, to wit, 1,319, was 120 cases more than were decided during the entire year ending June 30, 1891, and only 56 cases less than the whole number decided the year ending June 30, 1890, and 212 less than the number decided the year ending June 30, 1889; and, on the other hand, there were 565 more than were examined and decided during the entire period from the organization of the board of contests to the end of the year, June 30, 1888, being a period of one year and three months.

It might be well to further state in this connection that on February 1, 1892, the division was about eighteen months in arrears in considering said docket cases, and it is a well known fact that these delays very frequently afforded an opportunity to unscrupulous persons for bringing contests against the honest settler's claim, sometimes through malice, but more frequently for speculation, and thereby very often forcing him to abandon his land or part with a money consideration in order to avoid a tedious and expensive litigation, because it was quite certain that it would be several years in the ordinary course of business before a decision could be reached by the Department. The honest settler is now to be congratulated, for this state of affairs no longer exists, inasmuch as there are only 184 cases, all told, of the class heretofore men-

tioned on hand at the present time, and they are being considered as current work, and hereafter all cases of this character will be examined and passed upon by competent lawyers within sixty days from the date they are received in this division.

Likewise the same rapid stride has been made since February 1 to June 30, 1892, in all the other work of the division, so that at the end of the present fiscal year the entire work of this division is absolutely up to date; and from the accompanying report it will be found, on comparison with the report showing the entire work of the division for the present fiscal year, that the greater part thereof performed in this behalf was done between February 1 and June 30, 1892:

## K.—DIVISION OF STATE AND TERRITORIAL GRANTS.

This division, which is composed of two sections, (1) the section of swamp lands, and (2) the section of school lands, has charge of all cases arising under the swamp-land grants and the swamp-land indemnity laws, and of all cases arising under the following separate grants, as named, in addition to certain grants of a special or local character; school lands in place and school-land indemnity; saline lands in place and contiguous lands; and for internal improvements, agricultural colleges, seminaries or universities, penitentiaries, public buildings, insane asylums, educational, penal, and reformatory institutions, deaf and dumb asylums, schools of mines, reform schools, normal schools, scientific schools, industrial schools, and educational and missionary purposes.

There were employed in this division during the past fiscal year twelve clerks and copyists, and there were attached thereto three special agents during the entire year, and nine others during a part of the year. The agents examined swamp lands in Florida, Illinois, Iowa, Minnesota, and Oregon.

The number of 111 exemplifications of documents on file and of record in this division were prepared and furnished to applicants, for which the sum of \$479.85 was received as legal fees.

The following is a summary of the most important work performed in this division:

Letters and reports pending July 1, 1891 .....	478
Letters and reports received during the year .....	5, 372
Total .....	5, 850
Letters and reports answered, filed, and referred .....	5, 331
Number of letters and reports not acted upon .....	519
Other letters written .....	1, 427
Lists of swamp and school lands prepared for approval .....	48
Certified copies of lists prepared and transmitted to governors of the several States and to local officers .....	69
Certified copies prepared for which fees were charged .....	111
Amount of legal fees received for such certified copies .....	\$479. 85
Patents executed .....	38
Patents recorded, pages .....	115
Number of contested cases decided .....	158
Tracts upon which claims for swamp-land indemnity have been adjusted upon testimony submitted .....	18
Tracts examined with plats and field notes of survey to determine their character .....	4, 950
Entries and locations canceled by reason of conflict with claims under the swamp-land grant .....	51
Swamp land selections rejected, acres .....	280, 799. 37
Contests pending July 1, 1891 .....	28
Contest cases received during the year .....	208
Contest cases disposed of during the year .....	158
Number of contest cases pending .....	78

## I.—SECTION OF SWAMP LANDS.

## SWAMP LANDS IN PLACE.

The following tables will show the work done in the adjustment of the selections for swamp lands in place:

*Lands selected by the several swamp-land States under the acts of Congress approved March 2, 1849 (9 U. S. Stat., 352), September 28, 1850 (9 U. S. Stat., 519; sec. 2479, Rev. Stat.), and March 12, 1860 (12 U. S. Stat., 3; sec. 2490, Rev. Stat.), from the dates of the said acts up to June 30, 1892.*

States.	1891.		1892.		Year ending June 30, 1892.	Total since dates of grants.
	Third quarter.	Fourth quarter.	First quarter.	Second quarter.		
	<i>Acres.</i>	<i>Acres.</i>	<i>Acres.</i>	<i>Acres.</i>	<i>Acres.</i>	<i>Acres.</i>

*a* This table does not include indemnity lands patented under the swamp-land indemnity acts. For a statement of these see table on subject, following.

*b* Under the act of March 2, 1849, which applies to Louisiana only, certified lists, having the force and effect of patents, are furnished the State.

It is impossible to determine the exact acreage of the unadjusted claims for swamp land in place pending in the office. The difference between the quantity selected and the quantity approved, it might be presumed, should express it; but such is not the fact, since no reliable data on the quantity rejected, amounting to millions of acres, has been tabulated, nor can this be done at this time with the present clerical help in the division having charge of the work. With the exception of the claims of the States of Arkansas, California, Florida, and Minnesota, it may be said that the claims of this character are adjusted, or nearly so. The claims of Arkansas and Minnesota are being settled on the authority of the field notes of survey, those of California on the reports of the surveyor-general for the State, and those of Florida (and Minnesota in part) by examinations and proofs taken in the field by special agents.

#### SWAMP-LAND INDEMNITY.

Six special agents were employed in the field examining lands on which cash and land indemnity claims are based, in twenty-three counties of Illinois and in one county of Iowa.

The following tables exhibit the claims for cash and land indemnity filed and the claims for cash and land indemnity adjusted during the year; also the total amount allowed under the cash and land indemnity acts and the amount of the claims remaining unadjusted on June 30, 1892.

## 284 REPORT OF COMMISSIONER OF GENERAL LAND OFFICE.

## SECRETARY'S DECISIONS RELATIVE TO THE ADJUSTMENT OF SWAMP-LAND CLAIMS DURING THE FISCAL YEAR.

## STATE OF MISSISSIPPI.

*Field notes of survey.*—Where the field notes of survey are relied upon to determine the character of the land claimed by the State, and the survey is made prior to the date of the swamp-land grant, it must satisfactorily appear from the field notes that the land claimed is swamp or overflowed land within the meaning of the grant.

The State may be permitted to adduce evidence outside of the field notes to show that the land is of the character granted. (13 L. D., 117, August 3, 1891.)

## DAVIS V. STATE OF CALIFORNIA.

*Swamp land contest.*—Land to which no claim has attached prior to survey, and which is represented as swamp and overflowed upon the approved township plat, inures to the State of California, irrespective of the actual character of the land. (13 L. D., 129, August 5, 1891.)

## STATE OF OREGON.

(Revoked approved list No. 5.)

*Swamp-land contest—Practice.*—The authority of the Commissioner of the General Land Office to order a hearing may be properly reviewed on application for certiorari.

A question that involves the jurisdiction of the Commissioner in the disposition of public land is properly the subject of appeal.

During the pendency of an investigation instituted by the Government to determine the character of lands covered by swamp selections, contests against such selections should not be accepted nor hearings ordered thereon.

A contest against a swamp selection of land reported as of the character granted should not be allowed except upon a prima facie showing that would warrant cancellation of the selection if the allegation was proven. (13 L. D., 259, September 10, 1891.)

## CIRCULAR.

Rules and regulations adopted by the Commissioner of the General Land Office, with the approval of the Secretary of the Interior, relative to the presentation and adjustment of claims under the swamp-land laws. (13 L. D., 301, September 19, 1891.)

## TONNINGSEN V. THE STATE OF OREGON.

*Swamp land—Res judicata.*—A decision of the local office adverse to the claim of the State under the swamp grant is not final, though not appealed from, as it is the duty of the Commissioner of the General Land Office to examine the evidence taken at the hearing and render decision thereon.

In asserting a claim under the swamp grant the burden of proof is upon the State where the field notes do not show the land to be of the character granted.

Valley land that is subject to annual overflow to such an extent that the native grass growing thereon can not be harvested without diverting the water therefrom is of the character contemplated by the swamp grant. (13 L. D., 341, September 29, 1891.)

## RAKE V. THE STATE OF IOWA.

*Returns of the surveyor-general.*—A certificate of the surveyor-general that lands embraced within a specified list are of the character granted by the swamp act is prima facie evidence as to the character of such lands when said grant became effective.

The swamp land act intended to grant not solely such lands as were swamp, but such as were "so wet as to be rendered thereby unfit for cultivation." (13 L. D., 344, September 30, 1891.)

## STATE OF MINNESOTA.

*Field notes of survey.*—The election of the State to be governed in the selection of swamp lands by the field notes of survey will not preclude the allowance of a hearing as to the character of tracts claimed under the grant, but not shown to be swamp by the field notes. But a hearing will not be ordered in such case in the absence of a prima facie showing that said lands are in fact of the character granted. (13 L. D., 736, December 31, 1891.)

## STATE OF FLORIDA.

*Report of special agent.*—The claim of the State for swamp land should not be rejected on the report of a special agent alone, but such report may be properly made the basis of a further investigation as to the character of the land. (14 L. D., 175, February 12, 1892.)

## STATE OF ILLINOIS.

*Railroad grant—Certification.*—The alternate sections within the primary limits of the grant of September 20, 1850, were reserved for the purpose of reimbursing the Government for said railroad grant, and did not pass under the swamp grant.

The inadvertent certification of lands excepted from the swamp grant does not deprive the Department of jurisdiction to correct the error. (14 L. D., 229, March 7, 1892.)

## ORLANDO ALEXANDER.

*Surveyor-general's return.*—The burden of proof is upon the State where it sets up a claim under the swamp grant to land that is returned as not swamp and overflowed. The character of land at the date of the swamp grant determines whether it inures to the State thereunder; and proof that land is at present swamp and overflowed is not sufficient to overcome the adverse return of the surveyor-general. (14 L. D., 247, March 15, 1892.)

## STATE OF CALIFORNIA.

*Tulare Lake.*—Land covered by an apparently permanent body of water at the date of the swamp grant is not of the character contemplated by said grant.

The approval by the surveyor-general of a segregation survey of swamp land under the act of July 23, 1866 (sec. 2488, Rev. Stat.), is of no legal force where the lands covered thereby were not in existence at the date of the swamp grant.

The Commissioner of the General Land Office may properly require the submission of evidence as to the character of land at the date of the swamp grant before approving a contract for the survey of a township and segregation of the swamp lands therein. (14 L. D., 253, March 17, 1892.)

## L. B. APPLGATE.

[Revoked, approved list No. 5, Oregon.]

*Transferee—Notice.*—A transferee, claiming under the swamp grant, who has given due notice to the Land Department of his interest, is entitled to receive notice of subsequent proceedings affecting the validity of his title. (14 L. D., 511, May 13, 1892.)

## CEDAR COUNTY, MO.

*Waiver.*—Before final action is taken on a swamp-land claim the waiver required by the regulations of September 19, 1891, must be furnished. (14 L. D., 533, May 18, 1892.)

## MALLET V. JOHNSTON ET AL.

*Contest—Application to enter.*—A preference right of entry may be properly accorded the successful contestants of a swamp-land selection.

A pending application to make homestead entry protects the rights of the applicant as against the subsequent claims of others. (14 L. D., 658, June 18, 1892.)

## II.—SECTION OF SCHOOL LANDS.

## GRANTS IN AID OF EDUCATION AND INTERNAL IMPROVEMENTS.

The pending selections at the end of the fiscal year ending June 30, 1891, aggregated, it is estimated, 902,857.73 acres. The selections pending at the end of the last fiscal year aggregate 1,093,168.52 acres. This indicates an increase of 190,310.79 acres in the volume of work to be disposed of. It does not, however, indicate that the work is farther in arrears than it was a year previous. On the contrary, much progress has been made in the disposal of old selections by examination, and by either approval or cancellation. The increase in the volume of work is attributable to the recent admission of six new States having grants of land to adjust, and the consequent increase of new selections.

The following table will show the approvals of selections in aid of education and internal improvements:

*State and Territorial selections under various grants, approved during the year ended June 30, 1892.*

State.	School indemnity.	University.	State reform school.	State normal school.	School of mines.	Militia camp ground.	Public buildings.	Deaf and dumb asylum.	Internal improvements.	Total.
	<i>Acres.</i>	<i>Acres.</i>	<i>Acres.</i>	<i>Acres.</i>	<i>Acres.</i>	<i>Acres.</i>	<i>Acres.</i>	<i>Acres.</i>	<i>Acres.</i>	<i>Acres.</i>
Alabama.....		122.23								122.23
California.....	18,043.13								40.00	18,083.13
Colorado.....	289,084.72									289,084.72
Florida.....	692.49									692.49
Louisiana.....	4,229.00									4,229.00
Montana.....			642.32	2,564.84	1,277.26	640.00	4,486.92	640.00		10,251.34
Nevada.....	276,037.42									276,037.42
Washington.....		160.00								160.00
Total....	588,086.76	282.23	642.32	2,564.84	1,277.26	640.00	4,486.92	640.00	40.00	598,660.33

The following notes relative to adjustments of grants in certain of the States and the school lands in Oklahoma are made as of especial interest and for ready reference:

*Alabama.*—A selection of 122.23 acres under the act of April 23, 1884, granting 46,080 acres for university purposes, was approved, making the total quantity approved 46,070.68 acres, which quantity approximates closely the quantity granted. All the approved selections were patented last January, as said act requires.

*California.*—In the report of this office for 1890, page 234, it was stated that the deficit in approvals under the internal improvement grant of 500,000 acres was 1,734.40 acres. This deficit was reduced during the past year, by the approval of a selection of 40 acres, to 1,694.40 acres.

*Colorado.*—The approval of selections of 289,084.72 acres of school indemnity during the year was a big stride in the adjustment of the school grant. The conditions are favorable to passing title to the State to a large quantity of school-land indemnity during the present year.

*Louisiana.*—Selections of school-land indemnity, aggregating 4,229 acres, were approved. The adjustment of the grant of school indemnity is fast approaching completion.

*Montana.*—The work of making selections under the various grants of land made to the State has only fairly commenced. Under the grants made by the act of February 22, 1889, and the provisions of the

act of February 13, 1891, selections were made in the former Fort Ellis military reservation for a State reform school, State normal schools, a school of mines, a militia camp ground, public buildings, and a deaf and dumb asylum, of 10,251.34 acres, which selections have been approved. All of these selections have been patented as provided in the act of 1891, except the selection of a section of land for a militia camp ground, which the law does not require to be patented. The act of 1891 limited selections by the State in said reservation to one year, which expired with the 13th day of February, 1892. Within that time an additional application by the State to select 1,920 acres of land in said reservation was filed, but it is held in abeyance on account of the conflicting claims of settlers, some of whom have taken an appeal from the decision of this office against them.

*Nevada.*—In the adjustment of the grant to Nevada of 2,000,000 acres in lieu of the sixteenth and thirty-sixth sections made by the act of June 16, 1880, selections aggregating 276,037.42 acres were approved, leaving a remainder of 556,804.12 acres to be obtained by the State.

*Washington.*—The remainder which the State was entitled to obtain by approval of selections under the university grant of 46,080 acres, was stated in the annual report of 1890, page 236, to be 1,238.79 acres. During the past year a selection of 160 acres was approved, leaving a remainder to be obtained by the State of 1,078.79 acres.

*Oklahoma.*—Leasing of the school lands in Oklahoma was authorized by the thirty-sixth section of the act of March 3, 1891 (26 U.S. Stat., 1043), by the governor, under regulations to be prescribed by the Secretary of the Interior. Under this law, and the instructions adopted thereunder, nearly all the school sections in that part of Oklahoma opened to entry in 1889, known as "Old Oklahoma," and a few tracts in the school sections in the Public Land Strip (Beaver County) were leased. The school lands in Oklahoma, in the new country to the east and northeast of Old Oklahoma, within the Sac and Fox, Iowa, Pottawatomie, and Absentee Shawnee reservations opened to entry in September, 1891, were subject to leasing in April of this year, and a considerable portion of them have been leased; and it is proposed to proceed with the leasing of such sections in the Arapahoe and Cheyenne country recently opened to entry at an early date.

The total amount of money realized by the leasing to the present time can not be stated, because full reports of gross receipts, expenses, and deposits have not been received; but after paying certain necessary expenses of the leasing, there had been deposited with the treasurer of the Territory up to January 24, 1892, \$11,093.90, and a balance of \$738.66 remained on hand with the acting governor.

Undoubtedly the leasing will contribute largely to the school fund of the Territory.

#### SECRETARY'S DECISIONS RELATIVE TO EDUCATIONAL AND INTERNAL IMPROVEMENT GRANTS.

##### STATE OF CALIFORNIA.

*School-land indemnity.*—A school indemnity selection made and approved before the final survey of a private grant excluding the basis therefrom, is confirmed by section 2, act of March 1, 1877, and the basis therefor is subject to disposal as other public land. (Martin A. Baker, 14 L. D., 252.)

A school indemnity selection of land subject thereto, according to the official surveys, approved and duly certified, precludes the allowance of another selection in lieu thereof until such certification shall be set aside by proper authority. (Tonner v. O'Neill, 14 L. D., 317.)

An intervening school indemnity selection does not defeat the right of a homesteader, who settles prior to survey, but fails to make entry within the statutory period. (*Fountain v. State of California*, 14 L. D., 417.)

*University selection—Act of March 3, 1871—State agent.*—An application for survey filed on behalf of the State under the act of March 3, 1871, wherein the land is described by township and range, is not materially defective because the county in which the land is situate is erroneously named therein.

An application of the State for a survey, as provided in said act, initiates a right to the land included therein that is protected as against subsequent settlement claims.

The authority of one acting for the State under said act sufficiently appears where his acts are recognized by the Land Department and accepted and ratified by the State. (*Robinson et al. v. University of California*, 13 L. D., 570.)

## STATE OF COLORADO.

*School-land indemnity.*—A fee of \$1 each to the register and receiver is properly chargeable to the State for each school indemnity selection of 160 acres. (*State of Colorado*, 13 L. D., 728.)

The selection of school indemnity is a waiver of all claim to the land in place, and to protect a settlement claim on such land the State may take indemnity therefor if it so elects. (*Henry C. King*, 14 L. D., 232.)

## STATE OF MINNESOTA.

*School land in place—Indemnity.*—The exclusion of a tract included within a preemption filing for an excessive acreage based on a settlement on school lands prior to survey relieves the excluded tract from the settler's claim, and leaves it subject to the school grant, and the relinquishment of said tract by the State would give it no claim for indemnity. (*Andrew Tostenson*, 13 L. D., 456.)

In case of a preemption settlement on a school section prior to survey, the State may either select indemnity therefor, or await the action of the settler, and if his claim is abandoned, assert its right to the land in place. (*Cichy v. Palitzer*, 14 L. D., 384.)

## STATE OF MONTANA.

*University lands.—Evidence of title.*—University selections located and approved under the act of February 18, 1881, prior to the admission of the Territory as a State of the Union, required no further act to complete title thereto except the admission in the Territory, and the certification of such lands to the governor of the Territory is sufficient evidence of title. (*State of Montana*, 14 L. D., 142.)

## STATE OF NORTH DAKOTA.

*Railroad right of way through school sections.*—No provision is made by law for indemnifying the State in cases where school sections are crossed by railroads claiming the right of way either under the act of March 3, 1875, or by special act of Congress. If such roads are not entitled to the right of way over said sections recourse must be had by the State, or its purchasers against the companies in the courts. (*The Acting Secretary to the Attorney-General of North Dakota*, Oct. 26, 1891, 13 L. D., 454.)

## OKLAHOMA TERRITORY.

*School land indemnity.*—Indemnity selections, in lieu of sections reserved for school purposes in Oklahoma, may be made from any unappropriated, surveyed, nonmineral public lands within said Territory, for losses occasioned by Indian allotments, settlements prior to survey, fractional surveys, or from any natural cause whatever. (*Oklahoma Territory*, 14 L. D., 226.)

## UTAH TERRITORY.

*School land.—Survey.—Settlement.*—A survey of land embraced within a reservation does not exclude subsequent settlement on a school section covered thereby, where such survey does not conform to the system of public surveys, and for that reason a resurvey is found necessary. (*Frands C. Grundvig*, 14 L. D., 291.)

## STATE OF WASHINGTON.

*School land indemnity.*—The authority conferred upon county commissioners in Washington Territory to locate school indemnity selections may be properly exercised through a duly authorized agent of said commissioners.

The act of February 26, 1859, is a general provision applicable alike to all States and Territories, and authorized the Territory of Washington to select indemnity to cover deficiencies caused by the reserved sections being covered in part by permanent bodies of water; and land thus selected is not released from reservation by the act providing for the admission of said Territory into the Union. (*Sharpstein v. State of Washington*, 13 L. D., 378.)

Where a misdescription of lands taken as school indemnity occurs through mistake of the selecting agent, and the error is corrected by the local office so as to properly describe the lands intended to be selected, and the States ratifies such action prior to the intervention of an adverse claim, the selection will not be disturbed. (*Bush v. State of Washington*, 14 L. D., 24.)

School indemnity selections made by the territorial authorities are not released from reservation by the act providing for the admission of the Territory into the Union.

Double minimum lands may be selected as school indemnity in lieu of double minimum loss. (*Holmes C. Patrick et al.*, 14 L. D., 271.)

A school indemnity selection, made by the Territory in lieu of land patented as mineral, and of record at the date of the passage of the act of February 22, 1889, authorizing such selections, operates to reserve the land as against a subsequent homestead application. (*McKenzie v. State of Washington*, 14 L. D., 282.)

*School land in place.*—Under the provisions of the act of March 2, 1853, the occupancy of school lands prior to survey by actual settlers operates to exclude from the reservation for school purposes only such parts of sections sixteen and thirty-six as are included within said occupancy. (*Elder v. State of Washington*, 13 L. D., 382.)

A purchaser, after survey, of a prior settler's possessory right and improvements does not acquire any right as against the school grant. (*Revenaugh v. State of Washington*, 13 L. D., 434.)

## STATE OF WYOMING.

*Sections 16 and 36 in military reservations.*—Sections 16 and 36 within an abandoned military reservation are not subject to a subsequent school grant, but must be disposed of under the special provisions of the act of July 5, 1884.

A preferred right to purchase the land on which improvements are situated is conferred by said act of 1884 upon purchasers of such improvements prior to the passage of said act. (*James Vine*, May 17, 1892, 14 L. D., 527.) But see ruling of June 10, 1892 (14 L. D., 622), which, in view of the acts of May 28, 1888, and July 10, 1890, declares that said provision of the act of 1884 was repealed by the act of 1890, that the State has the preference right, under the act of 1888, to select the land for a fish hatchery, and that Vine may enter under the homestead law only subject to such preference right, and therefore recalls so much of the decision of May 17, 1892, as held that Vine could purchase the land, and adheres to so much of it as held that the land was not school land.

## COMMISSIONER'S DECISIONS RELATIVE TO EDUCATIONAL GRANTS.

*Granted school sections in forest reserves.*—*Act of October 1, 1890.*—*Waiver of the State.*—*Indemnity.*—The grant of the surveyed school sections in the forest reservations in California declared under the act of October 1, 1890, is reconveyed to the United States, and all right to the lands waived by the act of the legislature of the State approved March 14, 1891, and by selection by the State of indemnity. (To register and receiver, Stockton, Cal., August 15, 1891.)

*Reservation of school lands.*—*Settlement before survey.*—*Knowledge by settlers of loci of lands.*—The reservation of the 16th and 36th sections for schools does not take effect until survey by the United States. Knowledge by persons that unsurveyed lands settled upon will fall within such sections upon survey constitutes no bar to settlement. Case of *Bullock v. Rouse* (81 Cal. Reports, 590) cited. (To register and receiver, Salt Lake City, Utah, September 3, 1891.)

*State selections.*—*Fees.*—The fees allowable on State selections must be collected by district officers at the time of acceptance of the lists. Such payment may not be delayed until approval of the selections. (To the State board of land commissioners, Helena, Mont., September 21, 1891.)

*State selection.*—*Relinquishment.*—Section 18 of the act of the Nevada legislature, approved March 12, 1885, forbids the relinquishment of lands selected for the State

in any case where the same were subject to selection. Relinquishments of such selections will not be accepted. (To register and receiver, Carson City, Nev., November 6, 1891.)

*Kansas Half Breed Reserve in Nebraska.—School land indemnity.*—Although under the law as it existed prior to the date of the act of February 28, 1891, amendatory of sections 2275 and 2276, Revised Statutes, and the departmental decision of December 20, 1873, land indemnity for sections 16 and 36 in the Kansas Half Breed Reservation in Nebraska was not admissible, it is held that it is now admissible under the provisions of the said act. (To the commissioner of public lands and buildings, Lincoln, Nebr., March 17, 1892.)

#### INCLOSURES OF SCHOOL SECTIONS IN THE TERRITORIES.

The following report, made to the Secretary of the Interior on September 29, 1891, respecting the decision of the supreme court of Utah, in a case of fencing a school section (that of the United States, respondent, *v. Lewis A. Scott Elliott*, appellant), was concurred in by the Secretary on October 11, 1891, and communicated to the Attorney-General, who, on October 17, 1891, communicated it to the United States district attorney for his guidance:

I have the honor to inclose herewith a copy of the decision of the supreme court of Utah Territory, July 1, 1891, in the case of the United States, respondent, *v. Lewis A. Scott Elliott*, appellant, received with letter from Special Agent C. L. Robertson, dated July 7, 1891, to the effect that inclosures of the school sections in Utah may not be removed through judicial process under the act of February 25, 1885 (23 U. S. Stat., 321), because the lands, being reserved for schools, are not public lands within the meaning of said act; and I also inclose a copy of a letter to me from Mr. H. L. Driver, Salt Lake City, dated September 9, 1891, in which he states that the matter of the inclosure of a school section by Messrs E. E. Rich and S. F. Walker has been brought to the attention of the United States district attorney, and that said officer had stated that he could do nothing in view of said decision.

I think the situation to be of such grave importance as to require from me a full presentation of the subject of the protection of the school sections in the Territories for your consideration.

The said decision is based on the language used by the supreme court of the United States in various decisions, in cases of an entirely different character, not regarded by me as applicable to the case on trial.

For instance, on page 4, reference is made to the decision in *Wileox v. Jackson*, in which it is said that a tract once legally "appropriated" to any purpose is severed from the mass of "public lands," and no subsequent law or proclamation or sale would be construed to embrace it. Then would a grant of sections 16 and 36 to Utah upon its admission embrace them? Or could Congress relieve private parties claiming them, as that body has often done, and appropriate indemnity? The word "appropriate," as used by the court, certainly means such a disposition as would operate as a bar to any other disposition by Congress or the executive, and not a mere reservation or withholding from disposal, with a view to a prospective grant which may or may not be made.

Undoubtedly, upon the submission of propositions by Congress to a Territory looking to its admission as a State, it will have a right to insist upon a grant of the sections, generally, reserved for schools, both because of the reservation and of the uniform policy and practice of the Government; but that Congress can not dispose of a school section in the Territories otherwise than for schools, would be to question the power expressly delegated to it by the constitution, and the constitutionality of its many acts of private nature for the relief of private parties laying equitable claims to the reserved school sections.

Again, on page 4, reference is made to the case of *Gaines v. Nicholson*, the decision stating that—

"A reservation of lands for school purposes for the use of the people of a Territory or State is in effect a grant, and the title passes as soon as the lands are surveyed, and patents for school sections are not necessary and are not issued."

The sentence quoted does not appear to be borne out by the text of the decision of the United States Supreme Court. The decision was that the case was one for a court of law and not a court of equity. Title had been obtained under the claim of an Indian in Mississippi, which claim was a float, not necessarily locatable on a school section. This was done after the acts passed appropriating the sections numbered 16 in Mississippi for schools. These several acts, the court held, constituted a virtual grant, and

the condition of the school sections was not, therefore, at all analogous to that of such sections in Utah.

This office has uniformly held that mere reservations for schools are not, in fact, reservations for public uses, such as are Indian and military reserves, but that they simply withheld from disposition under the general land laws, awaiting the pleasure of Congress. They must certainly, therefore, be held to be a part of the public domain of the Government and subject to the proceedings for their protection from waste, domination, and control, authorized by the act of February 25, 1885.

But the legal provisions for the protection of the public domain from unlawful occupation are not restricted to those of the act of 1885, for as early as March 3, 1807, Congress, by act of that date (2 L., Stat., 445), authorized the President to direct the marshal of the proper district to remove unlawful boundaries placed on the public lands, and to remove persons unlawfully in possession thereof, and further, authorized the employment of military force when necessary for this purpose. This act comprehended the "lands ceded or secured to the United States, by any treaty made with a foreign nation, or by a cession from any State to the United States." The school sections in Utah were ceded by Mexico, the fee is in the United States, and the language of the act of 1807 comprehends them. No portion of this act has been carried into the Revised Statutes, and it has not, therefore, been repealed. True, it has, as to the first section, which contains the provision referred to above, become in great part obsolete, because of subsequent statutes authorizing settlement of the public lands, but it still must be regarded operative as to unlawful inclosures of the public domain to the extent, at least, that it and the act of 1885 should be construed together to show what class of lands was meant by Congress in the later legislation.

It follows, from the above, that the legal provisions standing on the statute books are adequate for the protection of the reserved school sections in the Territories, constituting nearly one-eighteenth of the public domain therein, through judicial procedure. Indeed, prior to the act of 1885, a judicial decision in a case of fencing was reached favorable to the Government, which is referred to in the annual report of this office for 1883, on page 31, as follows:

"A recent decision by the district court of Wyoming Territory affirming the right of the Government to cause the removal of fences from the public lands by proper judicial proceeding has strengthened the Executive Department in its efforts to abate the evils complained of. Proceedings in equity, however, involve much time and delay, and I regard it expedient that some remedy at law should also be provided."

If, through judicial proceedings in equity, instituted before the passage of the act of 1885, fences erected without legal right could be removed in Wyoming, the Government is not without means for the protection of the school sections in Utah, should all proceedings exclusively under the language of the act of 1885 fail, for it has more than an equitable interest in them; it has the fee.

On page 14 of the annual report for 1882, after reference to the power residing in the Executive under the act of 1807 to employ the military forces of the United States to remove the inclosures of the public lands, erected by cattlemen and others to the exclusion of settlers, it is said:

"I have hesitated to recommend the summary exercise of the power vested in the Executive by this act, although it may yet become necessary to invoke that authority."

From year to year, prior to 1885, recommendations were made that (as stated on page 31 of the report of 1883) "an act be passed imposing penalties for the unlawful inclosures of public lands and preventing by force and intimidation legal settlement and entry." As a result of these recommendations the act of 1885 was passed, providing for judicial proceedings, both civil and criminal, for the abatement of the evil, according to the character of the offense, and authorizing the President to employ civil or military force, "as may be necessary," to remove unlawful inclosures. This law was thought to be adequate in itself for the removal of every unlawful inclosure on all lands owned by and under the control of the Government in the public-land States and Territories.

As stated in the decision of the Utah court, the supreme courts of Montana and Washington have decided that school lands in the Territories are "public lands" within the meaning of the act of 1885. In the Washington decision (*Barkley v. United States*, 3 Washington Reports, 522; 19 Pacific Reports, 37) the following language is used:

"The mere survey of these lands would not cause them to lose their character as public lands; such change could only occur when they have lost their public character by reason of a bona fide right of entry or ownership under the laws of the United States. Now, because of the mere reservation or appropriation by the United States of these sections for the purpose of being applied to the common schools of the future, do they lose their character of public lands? It is true that they are not 'public lands' in that they are open to entry, etc., but that fact alone does not prevent them being in a certain sense public lands. The Government has, for a wise

purpose, set apart and reserved these lands from the general domain, and announced the purpose to which they will be devoted; it retains control and dominion over these until the happening of a certain event; it is somewhat as a trustee of an express trust. It also retains the right, up to a certain time, to annul the act by which such sections were severed, and might, within that limit, annul the former act, and throw these lands open as 'public lands.' This reserved right in the Government must give it control over these lands as absolute as that of any owner could be. As it is well said, since the organization of the Territory these school sections have been recognized as 'public lands,' and the courts have sustained all the rights of the Government, whenever their aid has been invoked, in preventing trespass upon them. Any other doctrine would lead to a practical annulment of the act of Congress and render nugatory the effort to provide for and establish a common-school system. Anyone entering upon these lands becomes a trespasser; he can not have or acquire any rights. The power of the United States to prevent such wrong must be conceded or the wrong will go unpunished."

It must be evident, in view of the foregoing, that the decision of the supreme court of Utah should not be considered a final determination of the question, or operate to stay further proceeding on the part of this Department and the United States district attorney for the preservation of the reserved school sections in Utah for the purpose to which they have been dedicated.

As the decision of the supreme court of Utah makes special mention of the said decisions of the courts of Montana and Washington, and seems to have been very carefully considered, it is scarcely to be hoped that a reversal of its decision on review or in judgment on a new case could be obtained, but an appeal lies to the Supreme Court of the United States in the said case of the *United States v. Elliott*, involving 400 acres, if the value of the property exceeds \$1,000. There is ample time therefor (see sections 702 and 1008, Revised Statutes), and it should be taken if practicable.

An appeal to the Supreme Court of the United States will lie if the property be worth more than \$1,000. (Act of September 9, 1850, sec. 9, 9 Stat. L., 455; sec. 702, Rev. Stat.) The act of February 22, 1889, admitting North and South Dakota, Montana, and Washington (25 Stat. L., 676), provides that the school lands shall not be sold for less than \$10 per acre, and the same provision is made in the acts admitting Idaho and Wyoming; and if this valuation be placed on the school sections upon admission of Utah (and that appears to be the policy of Congress), it would seem to be a reasonable proposition that the 400 acres fenced by Elliott should be valued at more than \$1,000, for, at \$10 per acre, the tract would be held at the price of not less than \$4,000 in case of a grant on the same terms as that made to the aforesaid States. Besides, the actual value of the tract at the present time may be more than \$1,000.

Believing that the doctrine so ably announced by the supreme court of Washington would be upheld by the Supreme Court of the United States on appeal, I would recommend that the district attorney be not only instructed by the Attorney-General to take one in this case, if that may be done, but to commence proceedings in every case of inclosure of the school sections by persons not entitled to them upon application as by law provided.

## L.—DRAFTING DIVISION.

In this division is performed all the drafting required by the General Land Office and the platting of surveys and calculations of areas of public lands when required. It has the custody of all official field-notes of surveys of the public domain and plats and maps (including photolithograph copies) relating thereto.

Maps of the United States and of States and Territories are compiled in this division from official surveys. Maps, diagrams, copies of plats, and tracings are prepared and constructed for individuals and for departmental and other official purposes.

The following is a statement in detail of the work performed in this division during the fiscal year ending June 30, 1892, viz:

Letters pending June 30, 1891 .....	10	
Letters received during the year .....	788	
	<hr/>	
Total .....		798
Letters disposed of:		
By answer .....	584	
By filing (no answer required) .....	116	
By reference to other divisions .....	97	
	<hr/>	
		797
Balance pending June 30, 1892 .....		1

The original drawing of the map of the United States was revised and corrected up to date and an edition of 13,149 copies printed for publication by Messrs. J. Bien & Co., of New York, of which the following disposition was made:

Four thousand one hundred copies, United States Senate.

Eight thousand two hundred copies, House of Representatives.

Eight hundred and forty-nine copies retained in the General Land Office.

Editions of the maps of Oklahoma and Indian Territories, Kansas, Missouri, California, Washington, Iowa, Colorado, Montana, and Arizona were published from the compilations and tracings prepared the year previous. Maps of North and South Dakota, Wyoming, Utah, and Minnesota have been compiled, or revised for reproduction, and tracings for publication forwarded to Forbes Lithograph Manufacturing Company, of Boston. The map of Florida is in process of compilation.

In the preparation and publication of the land State and Territorial maps during the year a great departure was taken from former methods, resulting in the production of finer and better maps. One feature, the most noticeable, consists in the representation of the mountain ranges, peaks, and spurs in a distinctive color, printed from a stone on which the topography had been delineated with crayon, producing an agreeable and desirable effect and at the same time a more accurate representation of this feature of the map. We are pleased to state that other bureaus of the Government are copying us in this regard.

Under a contract for photolithographing worn, defaced, and needed plats, 771 tracings were examined and sent to the contractor. Of these the whole number, 15 copies of each, making 11,565 photolithographs, have been returned and the same properly filed. There were made—

Two hundred and forty-four copies of maps and diagrams for official use.

Twenty-five copies of maps and diagrams for which fees were collected to the amount of \$181.75.

One hundred and eighty two tracings of maps, diagrams, and plats for official use.

Two hundred and three tracings of maps, diagrams, and plats for which fees were collected to the amount of \$883.50.

Eighty-six copies of maps and diagrams for local land offices.

Four tracings, maps, and diagrams for local land offices.

Four hundred and ninety-seven photolithographs of plats of surveys furnished for official use to various bureaus.

One hundred and sixteen photolithographs of plats of surveys furnished for official use to local and surveyor-generals' offices.

Three thousand eight hundred and sixty-eight photolithographs of plats of surveys furnished to applicants, and fees collected to the amount of \$1,022.90.

Sixty-one blue prints of maps and diagram for official use.

Twenty-four blue prints of maps and diagrams to applicants, and fees collected to the amount of \$61.

Eight hundred and fifty-six railroad maps have been examined and reported upon.

One hundred and forty-six railroad maps have been prepared with land-district designation.

One thousand and forty-six subdivisional plats, exteriors, and other surveys have been examined, entered upon working diagrams, and filed for reference.

Sixty volumes of field notes of the plats of surveys have been properly indexed and bound and placed on the files.

Thirty-seven volumes of plats of surveys have been arranged, indexed, and bound.

The new index diagrams of the field notes of Louisiana, Florida, and Oregon have been prepared, which occupied the time of one draftsman four months.

The miscellaneous work of this division, such as computation of areas, explanations referable to lines of surveys, reading of plats, etc., not classified in this report, has constituted a very considerable part of the labor of this division.

## M.—DIVISION OF ACCOUNTS.

The following is a summary of the work performed in the division during the fiscal year ending June 30, 1892:

Letters received .....	21,447
Letters written .....	10,278
Accounts adjusted and audited.....	5,595
Duplicate certificates of deposit received and recorded.....	1,869

The accounts, covering \$7,182,085.79, show receipts and disbursements as follows:

### RECEIPTS.

608 quarterly accounts of receivers of public moneys .....	\$5,229,941.60
51 accounts of moneys collected on account of depredations on public timber.....	15,757.58
49 accounts of moneys deposited on account of office work in connection with the survey of mining claims.....	83,667.55
<hr/> 708 Total receipts.....	<hr/> 5,329,366.73

### DISBURSEMENTS.

1,768 quarterly accounts of receivers as special disbursing agents....	787,929.44
274 quarterly accounts of surveyor-generals as disbursing agents ..	252,853.57
13 State fund accounts.....	93,261.80
757 repayment accounts for lands erroneously sold .....	45,982.15
5 State swamp-land indemnity accounts.....	26,416.01
5 reimbursement accounts, act March 3, 1887 .....	650.00
164 accounts of deputy surveyors .....	264,036.69
1 Indian account .....	42,322.52
4 return of deposit accounts .....	530.00
1,896 miscellaneous accounts, including those of inspectors and special agents, and contingent, transportation, and other accounts....	338,736.88
<hr/> 4,887 Total disbursements .....	<hr/> 1,852,719.06
To which may be added salaries of General Land Office .....	539,316.80
	<hr/> 2,392,035.86

The work of the division has been brought up to date. Official calls for statistical data regarding the public-land service have been more numerous during the year than heretofore, and have required increased labor in their preparation. Such statements and tables have been furnished with accuracy and promptness, without delaying the other work of the division. The accounts of the one hundred and twenty-three local land offices, of the seventeen surveyor-generals' offices, of the numerous deputy surveyors and examiners, special agents, and inspectors, of repayment claims for lands erroneously sold, etc., have all been promptly adjusted.

The following tables are submitted, showing a recapitulation of the public-land transactions in the several States and Territories during the year:

*Amount deposited by mining claimants in the following districts on account of the platting of their claims and other office work in the surveyor-general's office during the fiscal year ending June 30, 1892.*

## District:

Alaska .....	\$90. 00
Arizona .....	2, 580. 00
California .....	4, 065. 00
Colorado .....	40, 225. 50
Idaho .....	3, 365. 00
Montana .....	14, 980. 00
Nevada .....	1, 090. 00
New Mexico .....	1, 185. 00
Oregon .....	780. 00
South Dakota .....	2, 460. 00
Utah .....	7, 834. 50
Washington .....	4, 900. 00
Wyoming .....	1, 413. 00

Total..... 84, 968. 00

The amount deposited by individuals under section 2401, Revised Statutes, on account of field and office work for the survey of public lands during the fiscal year ending June 30, 1892, is \$218.

*Amount deposited by railroads on account of field and office work for the survey of public lands during the fiscal year ending June 30, 1892.*

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1894,  
by the General Land Office.*

Detailed objects of expenditure and explanations.	Estimated amount which will be required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the current fiscal year ending June 30, 1893.
COLLECTING THE REVENUE FROM PUBLIC LANDS.			
<i>Salaries and commissions of registers and receivers.</i> —For compensation of registers and receivers of local land offices, at not exceeding \$3,000 each (R. S. 392, secs. 2237, 2240) .....	\$575, 000	\$575, 000	\$550, 000
NOTE.—The estimate submitted is based upon the actual earnings of registers and receivers of fees and commissions collected and turned into the Treasury by them during the fiscal year ending June 30, 1892. (See detailed statement herewith, marked Exhibit A). During the year ending June 30, 1892, the fees and commissions earned by registers and receivers amounted to \$752,961.01, while the entire appropriation for their salaries and commissions was \$600,000, which, if all expended, will leave a net revenue to the United States of \$152,961.01.			
<i>Contingent expenses of land offices.</i> —For clerk hire, rent, and other incidental expenses of the several land offices (vol. 27) .....	225, 000	225, 000	175, 000
NOTE.—The amount appropriated for the current fiscal year ending June 30, 1893, namely, \$175,000, is entirely inadequate for the needs of the service. Owing to the insufficient appropriation this office is now compelled to refuse many applications from the local offices for allowances of clerk hire, office rent, and other necessary expenses for the running of their offices, in very many cases where the public business absolutely requires such allowance, and in no instance have fuel or lights been paid for by the United States. During the fiscal year just ended the registers and receivers were called upon for a statement of the amount necessary to meet the incidental expenses of their offices for the fiscal year 1893, a copy of which will be found in Appendix, marked Exhibit B.			
<i>Expenses of depositing public moneys.</i> —Expenses of depositing money received from the disposal of the public lands (R. S., 713, sec. 3617) .....	10, 000	10, 000	6, 000. 00
<i>Depredations on public timber, protecting public lands, and settlement of claims for swamp lands, and swamp-land indemnity.</i> —To meet expenses of protecting timber on public lands and for the more efficient execution of the law and rules relating to the cutting thereof, of protecting public lands from illegal and fraudulent entry or appropriation, and of adjusting claims for swamp lands and indemnity for swamp lands (vol. 27) .....	250, 000	250, 000	120, 000
Provided, That agents and others employed under this appropriation shall be allowed per diem in lieu of subsistence at a rate not exceeding \$3 per day and actual necessary expenses for transportation.			
NOTE.—The amount appropriated for the current fiscal year ending June 30, 1893, namely, \$120,000, is insufficient for the proper protection of the public lands and timber and for adjusting claims for swamp lands and swamp-land indemnity. The amount appropriated for the above purposes for the fiscal year just ended was \$240,000, and in order to keep within the limit of that amount and to prevent a deficiency it was found necessary to dispense with the services of about 85 per cent of the agents employed thereunder on June 11, 1892, twenty days previous to the expiration of the fiscal year. This action necessarily retarded the progress of the work being performed by this branch of the service.			
The amount asked for is necessary for the proper needs of the service, and I request that the same may be appropriated.			
<i>Expenses of hearings in land entries.</i> —Expenses of hearings held by order of the Commissioner of the General Land Office to determine whether alleged fraudulent entries are of that character or have been made in compliance with law (vol. 27) .....	20, 000	20, 000	20, 000

*Estimates of appropriations required for the service of the fiscal year, etc.—Continued.*

Detailed objects of expenditure and explanations.	Estimated amount which will be required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the current fiscal year ending June 30, 1893.
COLLECTING THE REVENUE FROM PUBLIC LANDS—cont'd.			
<i>Reproducing plats of surveys, General Land Office.</i> —To enable the Commissioner of the General Land Office to continue to reproduce worn and defaced official plats of surveys on file, and other plats constituting a part of the records of said office, and to furnish local land offices with the same (vol. 27) .....	\$25, 000	\$25, 000	\$3, 000
NOTE.—To reproduce the 29,000 old plats in this office and to preserve them from actual destruction, the amount asked for is necessary. During the fiscal year just ended about 3,868 copies of plats were sold and about 613 used in the local land offices, geological surveys, and other bureaus of the Government. For those sold the Government received \$1,022.90.			
<i>Transcribers of records and plats.</i> —Furnishing transcripts of records and plats, to be expended under the direction of the Secretary of the Interior (vol. 27) .....	12, 500	12, 500	12, 500
Total .....	1, 117, 500	1, 117, 500	886, 500
SALARIES, GENERAL LAND OFFICE.

Principal clerk, public lands (July 16, 1892; R. S., 76, sec. 448) .....	2, 000	2, 000	2, 000
Principal clerk surveys (July 16, 1892; R. S., 76, sec. 449) .....	2, 000	2, 000	2, 000
Eight chiefs of divisions at \$2,000 each (July 16, 1892; vol. 27) .....	16, 000	16, 000	16, 000
Two law examiners, at \$2,000 each (July 16, 1892; vol. 27) .....	4, 000	4, 000	4, 000
Ten principal examiners of land claims and contests, at \$2,000 each (July 16, 1892; vol. 27) .....	20, 000	20, 000	20, 000
Thirty-two clerks, class four (July 16, 1892; vol. 27) .....	57, 600	57, 600	57, 600
Sixty-two clerks, class three (July 16, 1892; vol. 27) .....	99, 200	99, 200	99, 200
Seventy-two clerks, class two (July 16, 1892; vol. 27) .....	100, 800	100, 800	100, 800
Seventy-eight clerks, class one (July 16, 1892; vol. 27) .....	93, 600	93, 600	93, 600
Fifty-six clerks, at \$1,000 each (July 16, 1892; vol. 27) .....	56, 000	56, 000	56, 000
Fifty-five copyists, at \$900 each (July 16, 1892; vol. 27) .....	49, 500	49, 500	49, 500
Two messengers, at \$840 each (July 16, 1892; vol. 27) .....	1, 680	1, 680	1, 680
Nine assistant messengers, at \$720 each (July 16, 1892; vol. 27) .....	6, 480	6, 480	6, 480
Six packers, at \$720 each (July 16, 1892; vol. 27) .....	4, 320	4, 320	4, 320
Twelve laborers, at \$660 each (July 16, 1892; vol. 27) .....	7, 920	7, 920	7, 920
EXPENSES OF INSPECTORS.			
Per diem in lieu of subsistence of inspectors and of clerks detailed to investigate fraudulent land entries, trespasses on the public lands, and cases of official misconduct; also of clerks detailed to examine the books of and assist in opening new land offices while traveling on duty, at a rate to be fixed by the Secretary of the Interior, not exceeding \$3 per day, and for actual necessary expenses of transportation and for other necessary incidental expenses (July 16, 1892; vol. 27) .....	7, 000	7, 000	7, 000
LIBRARY.			
Law books for the law library of the General Land Office (July 16, 1892; vol. 27) .....	500	500	500

*Estimates of appropriations required for the service of the fiscal year, etc.—Continued.*

Detailed objects of expenditure and explanations.	Estimated amount which will be required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the current fiscal year ending June 30, 1893.
<b>MAPS OF THE UNITED STATES.</b>			
For connected and separate United States and other maps prepared in the General Land Office: <i>Provided</i> , That one-half of said United States maps shall be delivered to the House of Representatives and one-fourth to the United States Senate for distribution (July 16, 1892; vol. 27) ....	\$25, 000	\$25, 000	\$14, 840
Total.....	579, 000	579, 000	568, 840
<b>SURVEYING PUBLIC LANDS.</b>			
For surveys and resurveys of public lands, \$400,000, at rates not exceeding \$9 per linear mile for standard and meander lines, \$7 for township, and \$5 for section lines, except that the Commissioner of the General Land Office may allow for the survey of lands heavily timbered, mountainous, or covered with dense undergrowth rates not exceeding \$13 per linear mile for standard and meander lines, \$11 for township, and \$7 for section lines, and in cases of exceptional difficulties in the surveys, when the work cannot be contracted for at these rates, compensation for surveys and resurveys may be made by the said Commissioner at rates not exceeding \$18 per linear mile for standard and meander lines, \$15 for township, and \$12 for section lines: <i>Provided</i> , That in the States of Idaho, Montana, Oregon, and Washington there may be allowed for the survey of lands heavily timbered, mountainous, or covered with dense undergrowth rates not exceeding \$25 per linear mile for standard and meander lines, \$23 for township, and \$20 for section lines. (Appropriated Aug. 5, 1892; R. S., 390, sec. 2223) .....	400, 000	400, 000	375, 000
And of the sum hereby estimated not exceeding \$75,000 may be expended for examination of public surveys in the several surveying districts, in order to test the accuracy of the work in the field and to prevent payment for fraudulent and imperfect surveys, and for examinations of surveys heretofore made and reported to be defective or fraudulent, and inspecting mineral deposits, coal fields, and timber districts, and for making such other surveys or examinations as may be required for identification of lands for purposes of evidence in any suit or proceeding in behalf of the United States.			
<b>SURVEY OF PRIVATE LAND CLAIMS.</b>			
<i>California</i> .—For the survey of confirmed private land claims in California at the rates prescribed by law. (Appropriated Aug. 30, 1890; R. S., 390, sec. 2223; vol. 26, p. 390)	1, 000	1, 000	.....
<i>Louisiana</i> .—For original surveys, resurveys, and corrective surveys of confirmed private land claims and donations. (Appropriated Aug. 4, 1886; R. S., 390, sec. 2223; vol. 24, p. 240) .....	8, 000	8, 000	.....
<i>Colorado, Nevada, Wyoming, Arizona, New Mexico, and Utah</i> .—For the survey of private land claims in the States of Colorado, Nevada, and Wyoming, and in the Territories of Arizona, New Mexico, and Utah, confirmed under the provisions of the act of Congress entitled "An act to establish a court of private land claims and to provide for the settlement of private land claims, and for the resurvey of such private land claims heretofore confirmed as may be deemed necessary." (Submitted) .....	40, 000	40, 000	.....
<b>FOR CONNECTING MINERAL MONUMENTS.</b>			
<i>Arizona</i> .—For connecting in the field the mineral monuments in the several mining districts in Arizona, to enable the surveyor-general to construct connected maps of such districts for official use. (Submitted) .....	10, 000	10, 000	.....
<i>Nevada</i> .—For connecting the mineral monuments in the several mining districts in Nevada. (Submitted) .....	5, 000	5, 000	.....
<b>ABANDONED MILITARY RESERVATIONS.</b>			
For necessary expenses of survey, appraisal, and sale of abandoned military reservations transferred to the control of the Secretary of the Interior, under the provisions of an act of Congress approved July 5, 1884 (23 Stats, p. 103, sec. 2). (Appropriated Aug. 5, 1892) .....	8, 000	8, 000	6, 000

*Estimates of appropriations required for the service of the fiscal year, etc.—Continued.*

Detailed objects of expenditure and explanations.	Estimated amount which will be required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the current fiscal year ending June 30, 1893.
ABANDONED MILITARY RESERVATIONS—continued.			
To pay salaries of custodians of abandoned military reservations, at not exceeding \$720 each per annum. (Appropriated Aug. 5, 1892)* .....	\$18, 000	\$18, 000	(*)
To pay salary of custodian of ruin Casa Grande, near Florence, Ariz. (Appropriated Aug. 5, 1892)* .....	720	720	(*)
Total.....	490, 720	490, 720	\$381, 000
CONTINGENT EXPENSES, OFFICES OF SURVEYORS-GENERAL.			
<i>Alaska</i> .—For books, stationery, office furniture, and other incidental expenses. (Submitted; R. S., 391, sec. 2227) ..	1, 000	1, 000	.....
NOTE.—Under the provisions of section 8 of the act of May 17, 1884, entitled "An act providing a civil government for Alaska" the United States marshal for said Territory is made the <i>ex-officio</i> surveyor-general. Sections 11, 12, 13, 14, and 15 of the act of March 3, 1891, entitled "An act to repeal timber-culture laws, and for other purposes," provide for the disposal of public land in Alaska for town-site purposes and for the use and necessities of trade and manufactures. Under the last-named act regulations have been prescribed and surveying operations have commenced. The estimate of \$1,000 is submitted to cover the contingent expenses connected with the surveying service and to provide the necessary record books and office furniture.			
<i>Arizona</i> .—Rent of office for the surveyor-general, pay of messenger, fuel, books, stationery, and other incidental expenses. (Appropriated July 16, 1892; R. S., 391, sec. 2227) .....	1, 500	1, 500	1, 500
<i>California</i> .—For books, stationery, pay of messenger, and other incidental expenses. (Appropriated July 16, 1892; R. S., 391, sec. 2227) .....	2, 000	2, 000	2, 000
<i>Colorado</i> .—Rent of office for surveyor-general, fuel, books, stationery, pay of messenger, and other incidental expenses. (Appropriated July 16, 1892; R. S., 391, sec. 2227) .....	3, 500	3, 500	2, 000
<i>Florida</i> .—Rent of office for the surveyor-general, fuel, books, stationery, and other incidental expenses. (Appropriated July 16, 1892; R. S., 391, sec. 2227) .....	1, 000	1, 000	850
<i>Idaho</i> .—Rent of office for surveyor-general, fuel, books, stationery, pay of messenger, and other incidental expenses. (Appropriated July 16, 1892; R. S., 391, sec. 2227) ..	2, 000	2, 000	1, 500
<i>Louisiana</i> .—For fuel, books, stationery, pay of messenger, and other incidental expenses. (Appropriated July 16, 1892; R. S., 391, sec. 2227) .....	1, 200	1, 200	1, 200
<i>Minnesota</i> .—For fuel, books, stationery, pay of messenger, printing, binding, etc. (Appropriated July 16, 1892; R. S., 391, sec. 2227) .....	1, 000	1, 000	1, 000
<i>Montana</i> .—Rent of office for surveyor-general, fuel, books, stationery, pay of messenger, and other incidental expenses. (Appropriated July 16, 1892; R. S., 391, sec. 2227) ..	3, 500	3, 500	2, 000
<i>Nevada</i> .—Rent of office for surveyor-general, pay of messenger, fuel, books, stationery, and other incidental expenses. (Appropriated July 16, 1892; R. S., 391, sec. 2227) ..	1, 500	1, 500	800
<i>New Mexico</i> .—Rent of office for surveyor-general, pay of messenger, fuel, books, stationery, and other incidental expenses. (Appropriated July 16, 1892; R. S., 391, sec. 2227) .....	1, 500	1, 500	1, 500
<i>North Dakota</i> .—Rent of office for surveyor-general, pay of messenger, fuel, books, stationery, and other incidental expenses. (Appropriated July 16, 1892; R. S., 391, sec. 2227) .....	2, 000	2, 000	1, 500
<i>Oregon</i> .—For pay of messenger, fuel, books, stationery, and other incidental expenses. (Appropriated July 16, 1892; R. S., 391, Sec. 2227) .....	1, 500	1, 500	1, 000
<i>South Dakota</i> .—Rent of office for surveyor-general, pay of messenger, fuel, books, stationery, binding records, furniture, and other incidental expenses. (Appropriated July 16, 1892; R. S., 391, sec. 2227) .....	2, 500	2, 500	1, 500
<i>Utah</i> .—Rent of office for surveyor-general, pay of messenger, fuel, books, stationery, and other incidental expenses. (Appropriated July 16, 1892; R. S., 391, sec. 2227) ..	2, 000	2, 000	1, 400

\* Included in the \$6,000 appropriated August 5, 1892, for survey, etc., abandoned military reservations.

*Estimates of appropriations required for the service of the fiscal year, etc.—Continued.*

Detailed objects of expenditure and explanations.	Estimated amount which will be required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the current fiscal year ending June 30, 1893.
CONTINGENT EXPENSES, OFFICES OF SURVEYORS-GENERAL—continued.			
<i>Washington.</i> —Rent of office for surveyor-general, pay of messenger, fuel, books, stationery, and other incidental expenses. (Appropriated July 16, 1892; R. S. 391, sec. 2227):.....	\$2,000	\$2,000	\$1,500
<i>Wyoming.</i> —Rent of office for surveyor-general, pay of messenger, fuel, books, stationery, and other incidental expenses. (Appropriated July 16, 1892; R. S., 391, sec. 2227).....	2,000	2,000	1,500
Total.....	31,700	31,700	22,750
PUBLIC LANDS.			
SALARIES, OFFICES OF SURVEYORS-GENERAL.			
<i>Arizona:</i>			
Surveyor-general (R. S., 389, sec. 2210) .....	3,000		
Clerks in his office (R. S., 391, sec. 2226).....	5,000		
		8,000	5,500
NOTE.—The estimate of \$5,000 for clerk-hire is submitted as necessary for the prompt and proper transaction of official business pertaining to the surveys of public lands and of the work devolving upon the office by reason of the passage of the act (March 3, 1891) providing for the establishment of a court of private land claims.			
<i>California:</i>			
Surveyor-general (R. S., 389, sec. 2210).....	3,000		
Clerks in his office (R. S., 391, sec. 2226).....	25,000		
		28,000	17,250
NOTE.—The estimate of \$25,000 for clerk-hire is deemed as low as is compatible with the public interests, dependent on a proper and vigorous prosecution of the work required. The estimate includes \$1,800 for a keeper of Spanish archives. It is important and necessary that a competent translator of these archives should be continually in their immediate charge for the purpose of continuing the compilation and indexing of the valuable papers and documents and for the purpose of attendance upon and explaining the same to parties desiring official knowledge of papers of record in the archives department. The large sums of accumulated special deposits, heretofore found sufficient to tide over any deficiency in the appropriation for clerk-hire, are now virtually exhausted; hence the necessity for increased appropriation.			
<i>Colorado:</i>			
Surveyor-general (R. S., 389, sec. 2210).....	3,000		
Clerks in his office (R. S., 391, sec. 2226).....	11,900		
		14,900	10,000
NOTE.—The estimate of \$11,900 for clerk-hire is submitted as necessary for the employment of a force of clerks sufficient for the examination and platting of surveys, copying township plats, and transcribing field notes.			
<i>Florida:</i>			
Surveyor-general (R. S., 388, sec. 2208) .....	2,000		
Clerks in his office (R. S., 391, sec. 2226) .....	2,000		
		4,000	3,600
NOTE.—The estimate of \$2,000 for clerk-hire is submitted as necessary for the current work of the office and for the reproduction of worn and mutilated plats, a portion of those now in use having become defaced.			
<i>Idaho:</i>			
Surveyor-general (R. S., 389, sec. 2210).....	3,000		
Clerks in his office (R. S., 391, sec. 2226).....	8,500		
		11,500	7,500
NOTE.—The estimate of \$8,500 for clerk-hire is submitted as actually necessary for the service. There are now contracts outstanding and being executed in this district amounting to some \$70,000. All of these contracts will be completed before the commencement of the fiscal year and the returns filed in the surveyor-general's office. A very large portion of the office work on the surveys embraced in the said contracts must of necessity be performed during the year for which this estimate is submitted, and			

*Estimates of appropriations required for the service of the fiscal year, etc.—Continued.*

Detailed objects of expenditure and explanations.	Estimated amount which will be required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the current fiscal year ending June 30, 1893.
<b>SALARIES, OFFICES OF SURVEYORS-GENERAL—continued.</b>			
without the appropriation asked for great injustice will be done the United States deputy surveyors executing said contracts, most of them having to borrow money at a large rate of interest to carry on their work, none of which they can repay until the returns of surveys are worked up in the surveyor-general's office and approved. An inadequate appropriation for clerk-hire will likewise result in great delay in filing the plats in the United States local land offices, and consequent inconvenience to settlers, many of whom have been living for years upon unsurveyed lands, and no relief can be given them unless the means are provided for promptly disposing of the returns of the surveys embracing their claims.			
Louisiana:			
Surveyor-general (R. S., 388, sec. 2208) .....	\$2, 000		
Clerks in his office (R. S., 391, sec. 2226) .....	10, 000		
		\$12, 000	\$7, 800
NOTE.—The estimate of \$10,000 for clerk-hire is submitted as necessary for the transaction of current business, continuing and completing the exhibit of private land claims, preparation of patent plats in duplicate for 5,880 private land claims, reproduction of worn and defaced township plats, examinations and researches to prepare confirmed private land claims for survey and location, recording field notes for preservation, and indexing records.			
Minnesota:			
Surveyor-general (R. S., 388, sec. 2208) .....	2, 000		
Clerks in his office (R. S., 391, sec. 2226) .....	4, 400		
		6, 400	4, 800
NOTE.—The estimate of \$4,400 for clerk-hire is submitted as necessary for the prompt transaction of the current business of the office. Until the past year the greater portion of the drafting has been done by the chief clerk, but the great amount of additional work to be done in connection with the letting of contracts for surveys of ceded Indian lands makes it impossible for the chief clerk to do any drafting, and the increased appropriation asked for is absolutely necessary.			
Montana:			
Surveyor-general (R. S., 389, sec. 2210) .....	3, 000		
Clerks in his office (R. S., 391, sec. 2226) .....	14, 000		
		17, 000	12, 500
NOTE.—The estimate of \$14,000 for clerk-hire is submitted as necessary for the proper transaction of the business of the office. The surveyor-general estimates (assuming that the present office force is neither increased nor diminished in the meantime) that there will be, at the beginning of the fiscal year ending June 30, 1894, field notes representing surveys to the extent of \$65,000 awaiting examination and platting. The amount estimated is therefore absolutely necessary in order that the returns of said surveys may be properly disposed of, the deputy surveyors compensated for their work, and the plats filed in the United States local land offices for the accommodation of settlers and to enable the State to make selections of lands granted by the act of February 22, 1889.			
Nevada:			
Surveyor-general (R. S., 389, sec. 2210) .....	3, 000		
Clerks in his office (R. S., 391, sec. 2226) .....	4, 000		
		7, 000	4, 300
NOTE.—The estimate of \$4,000 is submitted as necessary for the prompt and proper performance of the current official work.			
New Mexico:			
Surveyor-general (R. S., 389, sec. 2210) .....	3, 000		
Clerks in his office (R. S., 391, sec. 2226) .....	10, 000		
		13, 000	8, 500
NOTE.—The estimate of \$10,000 for clerk-hire is submitted as necessary for the proper transaction of current official work pertaining to the survey of public lands and to insure prompt attention to the demands of the court of			

*Estimates of appropriations required for the service of the fiscal year, etc.—Continued.*

Detailed objects of expenditure and explanations.	Estimated amount which will be required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the current fiscal year ending June 30, 1893.
<b>SALARIES, OFFICERS OF SURVEYORS-GENERAL—continued.</b>			
private land claims established by the act of March 3, 1891, and the inquiries of claimants and other interested parties. The surveyor-general reports that the past allowances for clerk-hire were entirely inadequate and that it has been impossible to keep the work up with the force that could be employed, thus working great injustice to settlers as well as to deputy surveyors, who have to wait from one to two years before getting their pay, and in the meantime they are paying 1 per cent a month on money they have expended in doing Government work.			
North Dakota:			
Surveyor-general (vol. 26, p. 53, sec. 2) .....	\$2, 000		
Clerks in his office (R. S., 391, sec. 2226) .....	10, 000		
		\$12, 000	\$8, 000
NOTE.—The estimate of \$10,000 for clerk-hire is submitted as necessary for the current work of the office during the year and to bring up arrears of work. The surveyor-general reports arrears of office work upon surveys under the appropriation for the fiscal year 1891 amounting to \$12,844, and that under the apportionment of \$25,000 for the fiscal year 1892 but six townships have been returned, which leaves all of the office work in connection with the surveys executed during the last named year to be done during the fiscal year 1893. A portion of the surveys under the appropriation for the fiscal year 1893 will be returned during the year, and the result will be a large increase in the arrears of work, rendering the appropriation of the sum estimated herein absolutely necessary; otherwise there will be great delay in the examination of returns and approval of the surveys and consequent injustice to the deputy surveyors, who having executed their surveys in good faith, are entitled to a prompt adjustment of their accounts.			
Oregon:			
Surveyor-general (R. S., 388, sec. 2209) .....	2, 500		
Clerks in his office (R. S., 391, sec. 2226) .....	6, 300		
		8, 800	5, 000
NOTE.—The sum of \$6,300 for clerk-hire is submitted as necessary for the completion of the office work in connection with a portion of the surveys now under contract, and which will not be returned in time to have such work performed during the current fiscal year, and for office work upon such surveys as may be returned during the fiscal year for which this estimate is made.			
The increased apportionments to Oregon under the large appropriations for surveys render an increase in the clerical force in the surveyor-general's office absolutely necessary. In submitting his estimates for the surveying service for the fiscal year ending June 30, 1894, the surveyor-general of Oregon states: "The appropriation for office work in this office has been greatly insufficient to make plats and transcripts of the surveys made during the past year, without allowing anything for the regular business routine work of the office. I do therefore most earnestly and respectfully urge Congress to grant this office the full amount of my estimate [\$6,300] for clerical aid."			
South Dakota:			
Surveyor-general (vol. 26, p. 53, sec. 2) .....	2, 000		
Clerks in his office (R. S., 391, sec. 2226) .....	15, 000		
		17, 000	11, 000
NOTE.—The estimate of \$15,000 for clerk-hire is submitted as necessary for the proper performance of the current official business and to bring up arrears of work. The surveyor-general, in submitting his annual estimates, states as follows: "Owing to appropriations heretofore made being inadequate for necessary clerical service, the work of the office is at present in arrears, as follows, namely: Proper filing and indexing of circulars, papers relating to Indian and military reservations, and miscellaneous papers; proper filing and indexing of letters to this office which have accumulated from the date of its			

Estimates of appropriations required for the service of the fiscal year, etc.—Continued.

Detailed objects of expenditure and explanations.	Estimated amount which will be required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the current fiscal year ending June 30, 1893.
SALARIES, OFFICES OF SURVEYORS-GENERAL—continued.			
establishment to the present time, present indexing being incomplete and inconvenient; proper indexing for convenient reference of the record of letters from this office; proper annotation of archives, formerly of this office, recently surrendered to the surveyor-general of North Dakota and to the State of Nebraska; proper indexing of field notes of surveys executed during the last three seasons, amounting to over 31,000 miles; also of field notes of a large mass of mineral surveys; preparation of a new contract and index diagram, the one prepared over twelve years ago having become unserviceable; platting and transcribing field notes of surveys under appropriations of former years to the amount of \$37,000. As all the efforts of the clerical service have been expended solely in expediting the preparation and transmission of returns to the General Land Office, it has been impossible to accord to records the attention proper for their conservation and ready reference. The possibility of loss of records in their present detached and unindexed condition is a source of constant anxiety, and the arrearages mentioned have operated and still operate to seriously retard the proper functions of the office."			
Utah:			
Surveyor-general (R. S., 389, sec. 2210) .....	\$3, 000		
Clerks in his office (R. S., 391, sec. 2226) .....	9, 000		
		\$12, 000	\$5, 500
NOTE.—Of the sum of \$9,000 estimated for clerk-hire the sum of \$4,000 is for the regular office work and \$5,000 to enable the surveyor-general to prepare connected maps of the several mining districts.			
Washington:			
Surveyor-general (R. S., 388, sec. 2209) .....	2, 500		
Clerks in his office (R. S., 391, sec. 2226) .....	9, 500		
		12, 000	10, 000
NOTE.—The estimate of \$9,500 for clerk-hire is submitted as actually necessary for the proper transaction of office work in connection with the public surveys, for the current work of the office, which is constantly increasing, and for bringing up arrears of office work.			
Wyoming:			
Surveyor-general (R. S., 389, sec. 2210) .....	3, 000		
Clerks in his office (R. S., 391, sec. 2226) .....	10, 000		
		13, 000	8, 000
NOTE.—The estimate of \$10,000 for clerk-hire is submitted as necessary for the proper transaction of office work in connection with the surveys returned during the fiscal year ending June 30, 1894, and upon surveys contracted for during the current fiscal year, but which will not be returned in time to have the office work performed prior to the close of the fiscal year. The surveyor-general, referring to the inadequate appropriations for clerk-hire during the past three years, states (June 24, 1892) that, "Deputies of this office are now in the field engaged upon surveys aggregating \$23,700, the field notes of which will not reach this office until after the close of the fiscal year, and these notes, taken in connection with the unfinished work upon notes already filed, will start this office into the next fiscal year with a deficiency of clerk-hire funds of not less than \$7,000."			
GENERAL NOTE.—In the foregoing estimates I have deemed proper to submit the amounts required for salaries of surveyors-general at the rates of compensation named in sections 2208, 2209, and 2210, Revised Statutes of the United States. The office of surveyor-general is one of great responsibility, the duties are often onerous and perplexing, and I think they should receive the full compensation allowed by law. I earnestly recommend that the appropriations be made in accordance with the estimates.			
Total.....		196, 600	129, 250

## N.—MINERAL DIVISION.

This division has charge of the following business:

- (1) Mineral and coal entries.
- (2) Contests between mineral claimants.
- (3) All other contests coming before the office where the mineral character of the land is involved.
- (4) Quasi contests.
- (5) Agricultural entries involving the mineral character of the land.
- (6) Railroad lists referred to this division for examination, involving the mineral character of the land.
- (7) Petitions for suit by the United States to set aside patents on mining and coal claims, and on all mineral and coal lands which may have been erroneously or fraudulently patented as agricultural land.
- (8) Preparing certified copies of papers, plats, and records.
- (9) Correspondence.
- (10) Miscellaneous matters, *e. g.*, relinquishments, and requests by registers and receivers and surveyors-general for instructions in all matters relating to the disposal of mineral and coal lands.

(11) The preparation and recording of all mineral and coal patents.

The average number of clerks in the division for the year has been 34+. The average for year ending June 30, 1891, was 26+.

Three thousand three hundred and twenty-two mineral and coal patents have been issued; an increase of 64+ per cent from the previous year.

Four thousand six hundred and seventy lode, mill-site and placer claims were patented during the year, as against 2,260 for the previous year.

Sixty-nine contest cases were finally disposed of, as against 82 for the previous year.

One hundred and nineteen contest cases were considered, as against 137 for the previous year.

Three thousand four hundred and twenty-eight current mineral and coal entries were examined; an increase of over 42 per cent.

Of railroad selections, examinations were made as to the mineral character of 1,172,767.19 acres.

Five thousand two hundred and sixty-six coal declaratory statements were canceled, as against 1,433 during the previous year.

The work on *ex parte* mineral and coal entries is up to date; a gain of about nine months since last report, July 1, 1891.

The work on contest cases and quasi contests is in arrears about two months.

The work on connected diagrams is up to date.

Lists of railroad selections, involving 4,502,638.13 acres, remain suspended.

The following statement shows the quantity of lands sold, and the

number of entries, filing, etc., made under the mining and coal land laws during the fiscal year ending June 30, 1892:

Mineral lands and mill sites sold.....	acres..	36, 770. 74
Coal lands sold .....	do...	6, 326. 66
Total.....	do...	43, 097. 40
Mineral entries made.....		1, 330
Mineral applications filed .....		1, 378
Adverse claims filed.....		218
Coal entries made .....		50
Coal filings made.....		1, 040
Mineral contests received.....		88
Quasi contests received.....		119

The work done during the fiscal year is shown as follows:

Mineral patents issued .....	3, 242
Lode, mill-site, and placer claims included in the above patents.....	4, 670
Coal patents issued.....	80
Mineral and coal patents recorded .....	3, 322
Pages of patent record made .....	12, 442
Current, mineral, and coal entries examined.....	3, 428
Coal declaratory statements canceled.....	5, 266
Agricultural cases and quasi-contest cases, involving mineral ques- tions, examined.....	381
Contest cases considered and decisions rendered subject to appeal.....	50
Contest cases considered and finally disposed of.....	69
Total number of contests considered .....	119

Railroad selections disposed of .....	acres..	1, 172, 767. 19
Letters received and docketed.....		9, 188
Letters written .....		7, 687
Pages of official copy written.....		2, 503
Pages of certified copy written.....		2, 722

The 3,242 mineral and 80 coal land patents issued during the year, the latter covering coal fields aggregating 10,976.74 acres, are for lands within the States and Territories given in the table below.

States and Territories.	Coal land.	Area.	Mineral and mill-site.	Mineral and mill-site claims patented.
Alaska .....			10	19
Arkansas.....			4	4
Arizona .....			70	70
California .....	1	40. 00	314	369
Colorado.....	25	3, 948. 6775	1, 341	2, 350
Idaho.....	1	80	126	153
Montana.....	9	1, 240	611	766
Nevada.....			107	121
New Mexico.....	2	160	103	110
Oregon .....			24	27
South Dakota .....			158	160
Utah .....	11	1, 478. 18	309	445

## GENERAL STATEMENT.

Mineral, mill-site, and coal entries examined during the year.....	3, 428
Mineral and mill-site applications (final proof not made) examined during the year, estimated.....	60
Mineral and mill-site patents issued during the year.....	3, 242
Coal patents issued during the year.....	80
Contests considered during the year.....	119
Quasi contests and agricultural cases considered during the year.....	381

It is gratifying to be able to report all work in the division up to date. The contest cases which are reported as being two months in arrears are in fact taken up for examination as soon as is practicable, owing to the time required by resident attorneys for examination and the filing of briefs after the record is received.

In bringing up the work no preference has been given any locality or any claim or class of claims.

The cases, both *ex parte* and contest, were taken up for examination in the order in which they were received.

More has been accomplished by the division during the past year than in any other year since the division was organized. More mineral patents were issued than ever before in any one year. The number of mining claims patented during the year, 4,670, is about one-fourth of the total number patented since the first mining act in 1866.

During the year a revision of circular, "United States Mining Laws and Regulations Thereunder," was prepared in the division, approved by you and by the honorable Secretary, and issued under date of December 10, 1891. While no radical changes were made in the revision some modifications were made in the regulations, tending to simplify the requirements made by the Department, and all in the interest of the claimant. Under these new regulations and a proper liberal construction of the former existing rules, there has been an impartial examination in every case, but divested of the technical rulings which have heretofore filled the suspended files. The result has been that the great increase in the number of current cases examined has been without the usual corresponding increase of suspended cases.

The work in the division is steadily increasing, both in the number of entries received and in contests docketed.

The force of this division consists of 34 employés, as follows:

Chief of division.....	\$2, 000
One principal examiner.....	2, 000
One clerk, class 4.....	1, 800
Three clerks, class 3.....	1, 600
Seven clerks, class 2.....	1, 400
Seven clerks, class 1.....	1, 200
Five clerks.....	1, 000
Three copyists.....	900
Six transcribers of plats and records.....	600

## DECISIONS AND RULINGS UNDER THE MINERAL AND COAL LAND LAWS.

### MINERAL LAND LAWS.

(1) *Character of land*.—In any case, either *ex parte*, or otherwise, where the character of land embraced within a mineral application is placed in issue, it must appear as a fact that mineral can be secured from such land in paying quantities. (Acting Secretary Chandler of the Interior to Commissioner of the General Land Office, July 24, 1891, 13 L. D., 86.)

(2) *Preëmption entry—Mineral land*.—In order to defeat a *preëmption entry*, on the ground of the mineral character of the land, it must be shown that the mineral was known to exist at date of entry. (First Assistant Secretary Chandler to the Commissioner of the General Land Office, July 30, 1891, 13 L. D., 108.)

(3) *Lode claim—Intersecting millsite—Expenditures*.—The provisions of section 2336, R. S., relative to the priority of title upon the intersection of veins, have no application to patented millsites that intersect and divide lode claims: A lode claim that is divided in two parts by an intersecting patented millsite must be confined to that part which contains the discovery shaft and improvements.

The proof of expenditure should show that the improvements have been made for the purpose of developing the particular claim for which application is made. (Acting Secretary Chandler to the Commissioner of the General Land Office, August 11, 1891, 13 L. D., 146.)

(4) *Placer patent—Townsite patent—Conflicting lode claim*.—Where a patented placer or townsite is found to be in conflict with a lode claim known to exist prior to the placer or townsite application, the Department, to obviate judicial proceedings, may accept a reconveyance of the land erroneously patented, and thus acquire jurisdiction to pass upon the validity of the mineral claim. (Secretary Noble to the Commissioner of the General Land Office, December 24, 1891, 13 L. D., 715.) (First Assistant Secretary Chandler to the Commissioner of the General Land Office, February 16, 1892, 14 L. D., 186.)

(5) *Millsite*.—Section 2337, *Revised Statutes*.—The building of a tramroad, or the grading of the roadbed therefor, is not such a use or improvement of the land as warrants the allowance of a millsite.

An application for a millsite can not be allowed where it appears that the improvements are located on the line between two millsites, without either location possessing the requisite improvements independently of the other. (Secretary Noble to the Commissioner of the General Land Office, January 2, 1892, 14 L. D., 11.)

(6) *Misdescription—Publication*.—An application for a mineral patent can not be allowed where the description of the claim in the published notice of application is not in accordance with the official field notes of survey. (Secretary Noble to the Commissioner of the General Land Office, January 12, 1892, 14 L. D., 45.)

(7) *Protest—Appeal—Hearing*.—The right to be heard on appeal from the Commissioner's decision may be properly accorded a protestant against a mining claim who alleges an adverse interest, and noncompliance with law, and whose application for a hearing on said charge has been denied. (Secretary Noble to the Commissioner of the General Land Office, January 16, 1892, 14 L. D., 68.)

(8) *Salt lands—Salines*.—The settled policy of the Government in the disposition of salt lands and salines has been, and is now, to reserve the same from general disposal. Deposits of rock salt are "salines," and not subject to entry under the statutes authorizing the acquisition of title to mineral lands. (Secretary Noble to the Commissioner of the General Land Office, June 4, 1892, 14 L. D., 597.)

(9) *Relinquishment of small tracts*.—The practice which prevails to a considerable extent, of relinquishments by claimants after application of small tracts for the sole purpose of enabling other claims otherwise invalid to be made, is wrong, involves this office in much unnecessary labor and will not be encouraged. In other words, if no adverse claims shall have been filed with the register during the period of publication, or if so filed, judgment is rendered as in this case, in favor of

defendant, it shall be assumed that the applicant for patent is entitled to a patent for the entire area of the claim (sec. 2325, Rev. Stats., U. S. ), and he shall proceed to patent for the whole of the claim as he is entitled so to do. (Commissioner Carter. to register and receiver Glenwood Springs, Colo., November 17, 1891, 18 C. L. O., 208.)

## COAL LAND LAWS.

(1) *Coal land—Homestead entry.*—A discovery of coal (mineral) on land embraced within an original homestead entry precludes the completion of such entry. (Secretary Noble to the Commissioner of the General Land Office, April 22, 1892, 14 L. D., 426.)

(2) *Discovery—Declaratory statement—Transferee.*—A coal declaratory statement under section 2348, Revised Statutes, is void, if prior thereto no discovery of coal has been made on the land covered thereby. An application to purchase coal land can not be allowed where it appears to be made in the interest of another who has already exhausted his rights under the law authorizing the sale of such land. (Secretary Noble to the Commissioner of the General Land Office, June 14, 1892, 14 L. D., 633.)

## P.—SPECIAL SERVICE DIVISION.

The work performed in this division during the fiscal year ending June 30, 1892, is summarized as follows:

Letters and reports received and registered .....	18,591
Letters and reports disposed of.....	17,226
Letters written .....	9,593
Pages of press copy-books.....	16,257

During the year 95 agents were employed in the investigation of fraudulent land entries and otherwise protecting public lands from illegal appropriation, unlawful inclosures, timber trespass, applications for permits to cut timber on public lands under the act of Congress approved March 3, 1891 (26 Stat. 1093), and forest reserves under the act of March 3, 1891 (26 Stat., 1095-1103), the aggregate length of service being eight hundred and fifty-four months and twenty-five days, equivalent to the employment of 71 agents for the entire year and one agent for two months and twenty-five days.

### PROTECTION OF PUBLIC LANDS.

The number of reports received from special agents and acted upon during the year is as follows:

Agents' reports pending June 30, 1891.....	455
Agents' reports received during the year.....	2,188
Total.....	2,643
Agents' reports acted upon during the year.....	2,191
Agents' reports pending June 30, 1892.....	452

Two thousand two hundred and nineteen cases were referred to the special agents for investigation, hearings were ordered in 207 cases, 611 cases were held for cancellation, 687 canceled, and 2,571 examined and passed.

Final action was taken in 4,429 cases, and there are now pending in the division (June 30, 1892), 4,015 cases.

There are 195 records of hearings pending action and 286 registers' and receivers' reports and miscellaneous letters awaiting answer.

No reports of unlawful inclosures of public land were received during the year, the practice of this office now being to advise parties to make their complaints direct to the United States attorneys, whose duty it is, under the act of February 25, 1885, to take proper steps, upon such complaints, tending to the removal of unlawful fences.

*Statement showing location and status of cases acted upon during the year and pending June 30, 1892.*

States and Territories.	Investigations ordered.	Hearings ordered.	Cases held for cancellation.	Cases canceled.	Cases examined and passed.	Cases to Secretary recommending suit. TIMBER ON PUBLIC LANDS.

Permits to cut public timber.

Four hundred and twenty-five applications to cut timber on public lands, under the act of March 3, 1891 (26 Stats., 1093), have been received. Twenty-five of these applications have since been withdrawn, and one hundred and forty-three have been rejected.

Thirty-four permits to cut timber have been issued, embracing an estimated area covering 77,024 acres. In issuing the same the condition is attached that no permit shall exist longer than a year, and that not to exceed 50 per cent of the merchantable timber on the area embraced therein shall be cut within the year.

The following table shows in detail the number of applications received respectively, from the several States, Territory, and district covered by the said act of March 3, 1891, and the condition of same June 30, 1892:

Applications for permission to cut timber on nonmineral public lands under the act of March 3, 1891 (26 Stats., 1093), received prior to close of fiscal year ending June 30, 1892.

States, Territory, and district.	Applications received.	Applications pending consideration.	Applications withdrawn.	Applications rejected.	Permits before the Department awaiting approval.	Permits issued.	Estimated area in acres of permits granted.
Alaska .....	4	4	.....	.....	.....	.....	.....
Colorado .....	34	12	12	8	.....	2	4, 500
Idaho .....	94	66	1	20	3	4	11, 680
Montana .....	132	63	2	48	1	18	41, 204
Nevada .....	18	1	.....	17	.....	.....	.....
North Dakota .....	.....	.....	.....	.....	.....	.....	.....
South Dakota .....	25	6	.....	19	.....	.....	.....
Utah .....	94	57	10	21	.....	6	15, 800
Wyoming .....	24	9	.....	10	1	4	3, 840
Total .....	425	218	25	a 143	5	34	b 77, 024

a Many of these applications have been rejected as not coming within the purview of said act of March 3, 1891, in consequence of the lands embraced therein being reported to be mineral in character, which fact would bring them within the scope of the act of June 3, 1878 (20 Stats., 38).

b Permits are not permitted to exist longer than a year, and not to exceed 50 per cent of the merchantable timber on the area of land embraced in a permit is allowed to be cut within the year.

## FOREST RESERVATIONS.

Six forest reservations have been created by Presidential proclamation, under section 24 of the act of March 3, 1891 (26 Stats., 1095), embracing an estimated area of 3,252,260 acres.

The following table shows the several States in which the same are situated, the locality of each reservation, extent of the area embraced therein, etc.:

*Forest reservations created by Presidential proclamation, under section 24 of the act of March 3, 1891 (26 Stats., 1095), during the fiscal year ending June 30, 1892.*

States and Territories.	Name of reservation.	Locality.	Date of proclamation creating reservation.	Estimated area in acres. <i>a</i>
Colorado .....	White River Plateau timber land reserve.	Lying in Routt, Rio Blanco, Garfield, and Eagle counties.	Oct. 16, 1891.	1, 198, 080
	Pike's Peak timber land reserve.	Lying in El Paso County.....	{Feb. 11, 1892 Mar. 18, 1892}	184, 320

New Mexico ...	Pecos River forest reserve.	Lying in Santa Fe, San Miguel, Rio Arriba, and Taos counties.	Jan. 11, 1892	311, 040
Oregon .....	Bull Run timber land reserve.	Lying in Multnomah, Wasco, and Clackamas counties.	June 17, 1892	142, 080
Wyoming.....	Yellowstone National Park timber land reserve.	Lying on the south and east of the Yellowstone National Park.	{Mar. 30, 1891 Sept. 10, 1891}	1, 239, 040

*a* The areas given are the estimated aggregate areas lying within the exterior boundaries of the reservations, and the lands actually reserved are only the vacant unappropriated public lands lying within said boundaries.

## TIMBER TRESPASS.

Three hundred and twenty-nine timber trespass cases have been reported by special agents during the year, involving public timber and the products therefrom, to the value of \$471,610.24 recoverable to the Government.

The amount accepted under propositions of settlement is \$49,539.48; the amount paid in during the year on propositions of settlement accepted during previous years is \$22,585.18; and the amount recovered through legal proceedings so far of record (the United States attorneys' reports for the majority of the districts not having been received up to the date of preparing this report) is \$35,010.93, making a total amount recovered during the year on account of depredations upon the public timber of \$107,135.59, being \$7,135.59 in excess of the appropriation for this branch of the public service.

On the 1st of July, 1892, so far as reported by the United States attorneys, there were pending in the United States courts 132 civil suits for the recovery of a total amount of \$1,401,578.74 for the value of timber alleged to have been unlawfully cut from public lands, and 282 criminal prosecutions for the act of cutting or removing timber in violation of law.

The fact that the majority of the reports from the several United States attorneys have not, as yet, been received, renders it impracticable at this time to submit a statement which will in any case correctly present the condition of cases involving legal proceedings.

The following tables show in detail the amount of work performed in connection with the suppression of depredations upon public timber, and the condition of same on the 30th of June, 1892:

*Statement showing the assignment of special agents for the protection of public timber, number of cases investigated or acted upon, amount and value of timber involved therein, suits instituted, amounts recoverable, and amounts accepted in compromise during the fiscal year ending June 30, 1892.*

b The criminal prosecutions in Alabama were mainly instituted upon information filed by private parties.

c The amounts of fines imposed and judgments recovered are taken from the several United States attorneys' reports to this office. No reports for the last half of the fiscal year have been received from the United States attorneys for Northern Alabama, Alaska, Arizona, eastern Arkansas, western Arkansas, northern California, southern California, Colorado, northern Florida, southern Florida, Idaho, Kansas, western Louisiana, eastern Michigan, Minnesota, northern Mississippi, southern Mississippi, eastern Missouri, western Missouri, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, eastern Texas, Washington, eastern Wisconsin, western Wisconsin, and Wyoming.

d Represents the number of suits specifically recommended by this office and the amounts sued for.

e Thirty-seven thousand two hundred and fifty-nine dollars and forty-five cents of this amount was for compromises under section 3469 United States Revised Statutes. Reports have not as yet been received of all sums paid to receivers of public moneys.

f Includes all reports and communications of every description on hand July 1, 1891, upon which no action whatever had been taken.

NOTE.—Reports for the last half of the fiscal year have not been received from the United States attorneys for northern Alabama, Alaska, Arizona, eastern Arkansas, western Arkansas, northern California, southern California, Colorado, northern Florida, southern Florida, Idaho, Kansas, western Louisiana, eastern Michigan, Minnesota, northern Mississippi, southern Mississippi, eastern Missouri, western Missouri, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, eastern Texas, Washington, eastern Wisconsin, western Wisconsin, and Wyoming.

#### RULINGS, INSTRUCTIONS, ETC.

The following rulings, instructions, etc., in regard to permits to cut timber on public lands, under the act of March 3, 1891 (26 Stat., 1093), are referred to as being of especial interest:

- (1) Rejecting application for permit to cut timber on unsurveyed lands within the 40-mile granted limits of the Northern Pacific Railroad.

(To Mr. Kenneth Ross, Missoula, Mont., February 16, 1892.)

Referring to your application for a permit to cut timber from certain described unsurveyed nonmineral public lands in Missoula County, Mont., lying within the limits of the grant to the Northern Pacific Railroad Company, you are advised that said company having protested against the issuance of permits to cut timber from any unsurveyed lands within said limits, claiming that the Government has no right to dispose of the lands or the timber thereon until the lands shall have been surveyed and the odd sections set apart to the railroad, and citing certain court decisions in support of their claim, the question raised was referred to the honorable Secretary of the Interior for his consideration and decision thereon.

February 3, 1892, the Secretary of the Interior rendered a decision in the matter, sustaining the protest of the Northern Pacific Railroad Company, and holding that no permits should issue to cut timber from unsurveyed nonmineral public lands within the limits of the grant to the said railroad.

Under this decision, since the tracts embraced in your application are described as unsurveyed nonmineral lands within the prescribed limits, it becomes my duty, in accordance with the instructions of the honorable Secretary, to reject your application, and the same is therefore rejected.

## (2) Permits not transferable.

(To Mr. F. H. Russell, Neihart, Mont., February 17, 1892.)

I have received your letter of November 28, 1891, transmitting application of Wm. Brady for a permit to cut timber from certain public land described therein, and asking that the permit applied for be issued in your name, for the reason that you purchased Mr. Brady's sawmill with the understanding that the permit went with it, and both he and his brother told you it would be transferable.

The application of Mr. Brady seems to be in proper form and to meet the requirements of circular of May 5, 1891, and it appears that you have acted in entire good faith in the premises, but to grant your request would establish a precedent which would in many instances be detrimental to the public interests.

The object of the act approved March 3, 1891 (26 Stat., 1093), authorizing the issuance of permits to cut timber from public lands, was to provide means whereby bona fide settlers and residents in the Western States may lawfully procure such timber from the public lands as may be absolutely required to supply their actual necessities, as an encouragement to settlement and means of developing the natural resources of the several States and Territory named in the act. In other words, the intent of the act referred to is to benefit communities and the public at large, and not individuals or mill men; the users of the timber or its product, and not the procurers or producers.

To authorize the transfer of permits would make them simply articles of speculation or sale for the pecuniary benefit or aggrandizement of the individuals or companies to whom they are granted, and would be detrimental to the interests of the communities for whose benefit the permits are issued.

Mr. Brady having sold out his sawmill and lumber business, his application will be filed without action. This, however, will not debar you from making application to cut timber from the public lands embraced in said application in compliance with circular of May 5, 1891. (Copy herewith.)

## (3) Relative to issuing permits to cut timber on public lands reported to be mineral in character.

(To Mr. John Gillie, Butte, Mont., February 26, 1892.)

Referring to your letter of August 6, 1891, transmitting application of the Basin Creek Flume Company for a permit to cut timber from certain described public lands in Silver Bow County, Mont., under the act of March 3, 1891 (26 Stat. 1093), you are advised that as the special agent of this office, who made a personal investigation of the facts connected with the application of said company, reports that the lands embraced in said application are mineral, no action on said application can be taken, the honorable Secretary of the Interior having held that the act of March 3, 1891, applies exclusively to such public lands as are nonmineral.

For your information I will state that the cutting and removing of timber from public mineral lands in the State of Montana for certain specified purposes is provided for in the act of June 3, 1878 (20 Stat., 88), and the rules and regulations prescribed thereunder by this Department August 5, 1886 (copy herewith). You are further advised, however, that the opinion of the special agent of this office does not positively establish that the lands are mineral as contemplated by the act of June 3, 1878, nor does the action of this office in abstaining from granting a permit to cut timber thereon under the act of March 3, 1891, relieve any person or persons from responsibility for cutting or removing timber therefrom should it subsequently be established that there is no authority of law therefor.

Parties who take timber from the public lands under assumed authority of the act of June 3, 1878, do so at their own risk, and must stand prepared to show that their acts are within the prescribed terms of the act granting such privilege; in other words, the burden is on such parties of proving by a preponderance of evidence that the land from which the timber is taken is "mineral" within the meaning of said act should the question at any time be raised as to the character of the land.

## (4) Relative to granting permits to cut timber on public lands within the indemnity limits of the Northern Pacific Railroad.

(To Mr. Barclay Jones, Virginia City, Mont., March 29, 1892.)

I have received your letter of the 4th instant, in which you ask whether the decision of the honorable Secretary of the Interior of February 3, 1892, that permits to cut public timber can not be granted for unsurveyed nonmineral public lands

within the limits of the grant to the Northern Pacific Railroad, applies both to the 40-mile and indemnity limits of said road; and if to the indemnity limits, whether it applies to surveyed lands within such limits which have not been selected by the company.

In reply you are advised that while the particular limits are not specifically set forth in the decision referred to, there seems to be no question but that it applies solely to lands within the boundaries of the absolute grant, or 40-mile limits, as the right of the company to any lands within indemnity limits does not attach until there is a deficiency discovered in the 40-mile limits, and the company has specifically selected other lands in indemnity therefor.

\* \* \* \* \*

- (5) Rights of settlers on public lands within the exterior bounds of a tract covered by permit to cut timber.

(To Mr. A. R. Ziegeler, Darby, Mont., April 2, 1892.)

I have received your letter of the 16th ultimo, in which you ask for information on the following subject: When a person takes up a claim on unsurveyed public land, after a permit has been given to a firm to cut timber from a tract of land within the limits of which said claim is located, will said firm be compelled to respect his (the settler's— "squatter's right"), and pay him for the timber taken from his claim?

In reply you are advised that permits to cut public timber under the act of March 3, 1891 (26 Stat., 1093), and the rules and regulations prescribed thereunder by this Department May 5, 1891, are issued subject to certain conditions, restrictions, and limitations, which must be strictly and literally complied with, or the permit will be subject to revocation without notice. Among the conditions, restrictions, and limitations prescribed in each permit issued is the following, which apply to the subject-matter of your inquiry:

In paragraph 9 it is prescribed: \* \* \* "nor shall the granting of this permit in anyway be held to withdraw the lands embraced therein from settlement or occupation and entry by any qualified bona fide claimant." Paragraph 6 provides: "That, in acting under this permit, no timber is to be cut or removed from any tract or tracts covered by the settlement or occupation of any bona fide settler intending to perfect title to such tract or tracts under any of the laws of the United States."

By section 8 of the permit, the person or firm to whom the same is granted is prohibited from purchasing timber cut on public land from any person or persons not having a permit from this Department to cut timber from said lands; and is further required "to ascertain affirmatively that persons offering timber for sale have the necessary permit to cut the same if taken from the public lands."

You will see by the above that this Department has taken every precaution to protect the rights of bona fide settlers on the public lands, and the interests of the public at large.

Public lands embraced in a permit to cut timber therefrom are as free and open to settlement and occupation by qualified bona fide claimants as though no permit had been issued; the public timber upon the bona fide claims of settlers who are residing upon, cultivating, and improving their claims in good faith and in compliance with the settlement laws, is positively and absolutely reserved to them for the uses contemplated by law; the holder of a permit to cut public timber from a tract of public land within the exterior boundaries of which such a claim is located, is prohibited from cutting or removing any timber from said settler's claim, or even from purchasing timber cut by the settler himself from his claim, unless said settler has first secured a permit from this Department authorizing him to cut such timber, or the cutting of the timber is absolutely necessary in clearing the land for immediate cultivation and in strict accordance with circular of December 15, 1885 (reissued February 15, 1890, copy herewith).

- (6) Relative to modifying application in respect to the extent of area embraced therein.

(To Mr. Nathan H. Coffin, Oneida, Bingham County, Idaho, June 21, 1892.)

In the matter of your application filed June 20, 1891, for a permit to cut timber on certain described public lands, you are advised that the honorable Secretary of the Interior has decided not to grant any permits to exist for a longer period of time than for one year from the date thereof; that not to exceed 50 per cent of the merchantable timber on the area of land embraced in a permit shall be cut within the year; and that no permit shall cover a larger area of public lands containing timber than is absolutely required to furnish during the lifetime of the permit a sufficient quantity of timber for the capacity of a mill in supplying the absolute requirements and necessities of the people dependent thereon in that vicinity.

Your application covers about ten sections or 6,400 acres, an area which doubtless,

at even a very low estimate, must contain an amount of timber largely in excess of what is required for the purposes named, and, consequently, the application requires to be modified by you to correspond with the instructions of the Secretary, as above set forth.

It is accordingly necessary that you should advise this office as to which of the particular tracts of land covered by your advertisement and application you desire to have embraced in a permit.

In submitting the information called for and reducing the area of land within the limits prescribed by the Secretary of the Interior, the tracts should be selected from within the exterior bounds of the lands covered by your original advertisement and application; otherwise readvertisement and reapplication will be necessary.

In all applications for timber permits if the lands are surveyed, it is essential that the description should be given by subdivisions of sections, sections, townships, and ranges. If, however, the lands are unsurveyed, they should be described in such manner that they may be readily located upon the official map of Idaho in this office, the locality being defined by such streams and other natural objects as are designated upon the official map, and by the distance and direction from the nearest surveyed lands. The subdivisions of sections, sections, townships, and ranges the lands will probably be in when the official surveys are extended to embrace the same, should also be stated. I inclose a township plat upon which a diagram of the area as reduced may be traced, to be returned to this office as an exhibit in connection with modifying your application. It is also desired that you will state your residence and post-office address.

You are advised that should the information called for herein not be furnished within sixty days from date hereof, it will be considered that you have abandoned your application and the papers in relation thereto will be filed without action.

#### JUDICIAL DECISIONS.

The following judicial decisions in cases involving depredations upon public timber are referred to as being of especial interest:

##### UNITED STATES *vs.* CHRISTOPHER STEENERSON ET AL.

[No. 57. October term, A. D. 1891. In error to the Circuit Court of the United States for the District of Minnesota.]

1. Standing timber is a part of the realty. When severed therefrom it becomes personalty; but the title thereto is not affected by such severance; and it may be retaken by the owner of the land wherever found.
2. In an action for replevin the court must determine which party has the better title to the land, in order to determine the ownership of the timber.
3. The issuance to the entryman of certificate of final payment, regardless of the question of fraud in such entry, establishes no title, legal or equitable, to the land as against the United States.
4. Evidence that entry was made not for settlement and improvement by entryman for his own benefit, but for benefit of and under agreement of conveyance to the question logging company, should be considered by the court in determining the ownership of the logs.

SHIRAS, District judge: The facts necessary for a proper understanding of the questions presented by the record in this case are as follows: In September, 1883, one Hans Hanson made a pre-emption entry of the SW.  $\frac{1}{4}$  of sec. 33, T. 147, R. 38 W., situated in Beltrami County, Minnesota. On June 24, 1884, he filed a declaratory statement of pre-emption, and on November 1, 1884, made final proof of entry, including the necessary payments, and received a certificate from the receiver of the Land Office at Crookston, Minnesota, showing payment in full for the land named. On the same day the certificate was issued to him, Hanson executed a deed of the land to Andrew Steenerson, who was a partner in the defendant firm, known as the Clear Water Land and Logging Company. That company, during the winter of 1885-'86, cut from the land named about 754,000 feet of logs, and placed them in the waters of the Clear Water River.

On the 29th of April, 1886, the United States brought the present action in the United States circuit court for the district of Minnesota to recover possession of said logs. a writ of replevin being issued and levied, the defendant company giving bond under the provisions of the State statute, and thereby regaining possession of the logs levied on. The case was tried by the court, a jury being waived. On behalf of the United States it was proved that the land named had formed part of the public domain, and that no patent had ever been issued therefor, and that the logs in question had been cut from the trees growing thereon. On behalf of the defendants it was

proved that Hans Hanson had entered the land as above stated and had obtained the receiver's certificate showing final payment in November, 1884, and that the defendant company had cut the logs after that date under right and title derived from Hanson. Thereupon, on behalf of the United States, evidence was offered tending to show that Hanson did not enter the land for the purpose of actual settlement and residence, as required by the provisions of the statute authorizing preëmption entries, but for the sole purpose of enabling the defendant firm to strip the land of the timber growing thereon; that said firm employed him to make the entry in their interest and for the purpose named, paying him the sum of \$500 for so doing; that the amount of timber cut was far more than was needed for the actual cultivation or improvement of the land, and that in pursuance of such illegal bargain, as soon as Hanson obtained the certificate showing final payment upon the land he executed a conveyance thereof to one of the defendant firm, and that in the year 1890 the Commissioner of the General Land Office canceled the entry made by Hanson and the final certificate issued to him, on the ground that the entry was not made in good faith, but merely for the purpose of enabling the defendant firm to strip the land of the timber growing thereon. The evidence thus offered was, upon objection made, ruled out, to which ruling exceptions were duly taken, and thereupon judgment was rendered in favor of the defendants, the court holding that "until the invalidity of the certificate had been judicially ascertained and declared by some tribunal having authority to investigate the case and so adjudicate, the United States had no such title or right of possession to the logs in controversy as would enable it to maintain replevin."

It is well settled that the United States can maintain an action of replevin to retake logs wrongfully cut from land belonging to the Government, and where the ownership of the logs is dependent upon the question of the title of the lands from which the logs were cut, that issue may be investigated and determined in the action of replevin. Thus in *United States v. Cook*, 19 Wall., 591, an action in replevin brought to recover possession of logs cut upon an Indian reservation in Wisconsin by the Indians occupying the same and by them sold to the defendant, Cook, the Supreme Court decided that the fee title of the lands was in the United States; that the Indians had the right of occupancy but not the right to cut the timber for purposes of sale merely; that such cutting was waste; that "under such circumstances, when cut, it became the property of the United States absolutely, discharged of any rights of the Indians therein. The cutting was waste, and in accordance with well-settled principles the owner of the fee may seize the timber cut, arrest it by replevin, or proceed in trover for its conversion," and that the United States was entitled to the same remedies for the recovery of the property as an individual citizen. In *Schulenberg v. Harriman*, 21 Wall., 44, there was involved the title to certain pine logs cut from lands granted to the State of Wisconsin to aid in the construction of railroads in that State. The defendant was the agent of the State, and the controversy was, in fact, between the plaintiff and the State, it being admitted that the plaintiff had the actual possession of the logs when the same were seized by the agent of the State, from whom the plaintiff replevined them. The Supreme Court held that the rights of the parties were dependent upon the ownership of the land from which the logs were cut, and, investigating that question, the court found that the title remained in the State, and so finding, held that "the title to the land remaining in the State, the lumber cut upon the land belonged to the State. Whilst the timber was standing it constituted a part of the realty; being severed from the soil its character was changed; it became personalty, but its title was not affected; it continued as previously the property of the owner of the land and could be pursued wherever it was carried. All the remedies were open to the owner which the law affords in other cases of the wrongful removal or conversion of personal property."

In *Beecher v. Wetherby*, 95 U. S., 517, an action in replevin for logs cut from a section of land situated in Wisconsin, the plaintiff claimed title to the land under patents issued by the United States in 1872, and the defendant under patents from the State issued in 1865 and 1870. The land had at one time been occupied by the Menomonee Indians, but it was claimed that the fee passed to the State upon its admission to the Union, and when the Indians ceased to occupy it the right of occupancy followed the fee, and hence the land and the right to the timber thereon became wholly vested in the State, and hence passed to the defendants under the patents issued by the State. Thus the right to the logs was shown to be dependent upon the ownership of the land from which they had been cut, and that issue required the determination of the question whether the fee of the land passed to the State by force of the grant contained in the act of Congress under which Wisconsin became a State in the Union, or whether the fee passed by the patents subsequently issued by the United States. The court after a full examination of the facts presented on the record held that the title of the land had passed to the State, and therefore the plaintiff acquired nothing under the patents issued to him at a subsequent date, and hence had no property in or right to the timber in dispute.

These decisions of the court of last resort settle beyond cavil the propositions that standing timber is a part of the realty upon which it grows; that when severed therefrom its character changes to personalty, but the title thereto is not affected by such severance; that if cut and carried away by a wrongdoer, the owner of the land may retake the timber wherever found; that when thus retaken by means of a writ of replevin it is open to both parties in the replevin action to assert title to the realty from which the timber was cut, as proof of the ownership of the timber; that when conflicting claims to the title of the realty are thus asserted, it becomes the duty of the court to determine, in the replevin action, which party has the better title to the realty, in order to determine the ownership of the timber.

From the facts disclosed on the record now before us, it appears that the title to the realty from which the timber was cut was squarely at issue between the parties. The ownership of the logs was clearly dependent upon the question of the ownership of the land, to which both parties asserted title, and hence it became the duty of the court to investigate and adjudicate that issue. On behalf of the United States it was proven that the land was originally part of the public domain, and that no patent or other grant of title had been made. To meet the *prima facie* case thus made, the defendants proved that Hanson had made a preëmption entry of the land; had completed the requisite payments and obtained the receipt or certificate of the receiver of the local land office showing such payment in full. Thereupon it was proposed, on behalf of the United States, to introduce evidence tending to show that the entry made by Hanson was not in good faith, and was, in fact, fraudulent and made solely for the purpose of enabling the defendant firm to strip the land of the timber, and that the Commissioner of the Land Office had canceled the entry on the ground of fraud. The trial court held that, until the validity of the certificate of final payment had been judicially ascertained and declared by some tribunal having authority to investigate the case, the United States had no such title or right of possession to the logs in controversy as would enable it to maintain replevin.

As we gather it from the record the court held that the entry made by Hanson, and the issuance to him of a certificate of final payment by the receiver of the local land office, regardless of the question of fraud in such entry, conveyed as against the United States the title and subsequent right of possession of such realty to the preëmptor in such sense that the United States, in order to revest the title in itself, must institute judicial proceedings to set aside the apparent or defeasible title vested in the preëmptor and his grantees. In support of this view many decisions of the Supreme Court are cited by counsel, in which it is held that when the right to a patent for lands has once become vested in a purchaser or preëmptor, the same are segregated from the public domain, are no longer subject to entry, and the vested right to the patent thereto is equivalent to a patent actually issued. See *Carroll v. Safford*, 3 How., 441; *Witherspoon v. Duncan*, 4 Wall., 210; *Stark v. Starrs*, 6 Wall., 417; *Myers v. Croft*, 13 Wall., 291; *Wirth v. Branson*, 98 U. S., 118; *Simmons v. Wagner*, 101 U. S., 260; *Deffebach v. Hawke*, 115 U. S., 405; *Cornelius v. Kessel*, 128, U. S., 456.

The principle on which these decisions are based is that when a homesteader or preëmptor has, in good faith, performed all the acts which, under the provisions of the statutes of the United States, are necessary to complete his right to the land, then he becomes, equitably, the owner of the same, and the United States holds the naked legal title as a trustee for his benefit. For the protection of his rights, thus acquired, it is held that in a contest involving the title of the land an established right to a patent will be deemed to be the equivalent of a patent. This rule, however, has been adopted solely as a means for the protection of those who have, in good faith, established a right to a patent by performance of the requisite conditions. The final certificate or receipt acknowledging payment in full and signed by the officers of the local land office is not in terms nor in legal effect a conveyance of the land. It is merely evidence on behalf of the party to whom it is issued. In a contest involving the title to land, wherein a person claims adversely to the United States, it is open to such claimant, notwithstanding the legal title remains in the United States, to prove that by performance on his part of the requisite act he has become the equitable owner of the land, and that the United States holds the legal title in trust for him, but as the claimant in such case has not received a patent or formal conveyance and has not become possessed of the legal title, he is required to show performance, on his part, of the acts which, when done, entitle him under the law to demand a patent of the land. When evidence of this kind is offered on behalf of the claimant, it is open to the United States to meet it by proof of any fact or facts which, if established, will show that the claimant has not become the real owner of the realty. If it be true, in a given case, that the entry of the land was not made in good faith, but in fraud of the law, certainly it can not be said that the claimant has become the equitable owner of the land, and that the United States is merely a trustee holding the legal title for his benefit. Fraud vitiates any transaction based thereon and will destroy any as-

serted title to property, no matter in what form the evidence of such title may exist. *The Amistad*, 15 Peters, 518; *League v. DeYoung*, 11 How., 185.

It is well settled in Minnesota that in an action of replevin wherein title to property is claimed under a deed of assignment or other formal conveyance, the validity thereof may be attacked on the ground of fraud, and such issue may be determined in the replevin proceedings. *Blackman v. Wheaton*, 13 Minn., 326; *Tupper v. Thompson*, 26 Minn., 385; *Furman v. Tenny*, 28 Minn., 77. When it is desired to obtain the cancellation of a deed or patent conveying the legal title of realty on the ground of fraud, it is necessary to invoke the aid of a court of equity, but where the relief sought is not equitable in its nature a court of law is certainly competent to adjudicate the issue of fraud.

In the case at bar it is not claimed that a patent to the land had been issued, and therefore the legal title remained in the United States. The circuit court, in effect, held that proof of entry and the execution of the receipt showing final payment, deprived the United States of the title to the land, regardless of the question whether such entry and payment were made in good faith or fraudulently, and that before the United States could maintain its right to the logs in controversy it must, by the adjudication of some proper tribunal, set aside and cancel the title to the realty held by Hanson under his preëmption entry.

It can not be questioned that the Land Department is primarily charged with the duty of supervising the disposition of the public domain and in cases within its jurisdiction, and wherein final action has been had authorizing the disposition of land, such action can not be collaterally assailed. *Steel v. Smelting Co.*, 106 U. S., 447; *Smelting Co. v. Kemp*, 104 U. S., 636; *Davis v. Weibbold*, 139 U. S., 507. Thus, if it appears that under the direction of the Land Office a patent has been issued to a preëmptor, or that the right of the preëmptor to a patent has been finally adjudged in his favor by the Department, and nothing remains to be done but the ministerial act of issuing and delivering the patent in accordance with the judgment of the Department, then the right of the preëmptor is evidenced by a final judgment of the Land Department in his favor, which can not be collaterally assailed; but if it appears in a given case that when, in the proper course of business, the Commissioner of the Land Office was called upon to determine whether the preëmptor was entitled to a patent, he adjudged that the entry was fraudulent and therefore void, then the claimant is without a final adjudication in his favor, and he must resort to other evidence to sustain his claim.

It is broadly affirmed on behalf of defendants that the Land Department had no power to cancel the final receipt for any reason and that the act of the Commissioner in doing so was a nullity. This is the equivalent of the proposition that the issuance of a final receipt or certificate of payment by the receiver of a local land office ends the control of the Department over the land and deprives the United States of the title thereto, which is certainly not the law. Thus it is said in *Bell v. Hearne*, 19 How., 262, that "the Commissioner of the General Land Office exercises a general superintendence over the subordinate officers of his department, and is clothed with liberal powers of control to be exercised for the purpose of justice, and to prevent the consequences of inadvertence, irregularity, mistake, and fraud in the important and extensive operations of that office for the disposal of the public domain." And in *Cornelius v. Kessle*, 128 U. S., 456, it is declared that "the power of supervision possessed by the Commissioner of the General Land Office over the acts of the register and receiver of the local land offices in the disposition of the public lands undoubtedly authorizes him to correct and annul entries of land allowed by them, where the lands are not subject to entry, or the parties do not possess the qualifications required or have previously entered all that the law permits. The exercise of this power is necessary to the due administration of the Land Department. If an investigation of the validity of such entries were required in the courts of law before they could be canceled, the necessary delays attending the examination would greatly impair if not destroy the efficiency of the Department.

But the power of supervision and correction is not an unlimited or arbitrary power. It can only be exerted when the entry was made upon false testimony, or without authority of law. It can not be exercised so as to deprive any person of land lawfully entered and paid for. By such entry and payment the purchaser secures a vested interest in the property and a right to patent therefor, and can no more be deprived of it by order of the Commissioner than he can be deprived by such order of any other lawfully acquired property." In the light of these decisions of the Supreme Court it can not be successfully maintained that the Commissioner of the General Land Office had not the power to supervise the action of the officers of the local land office and to annul the entry made Hanson on the ground that the same was fraudulent and sustained by false testimony, but it is equally true that such action of the Commissioner, being practically *ex parte*, is not conclusive, and that it is still open to Hanson and his grantees to establish a right to the land by proving a valid entry on his part and performance by him of the acts required to complete a preëmption entry. On the trial below the

defendants undertook to assert title to the land, as evidence of the ownership of the logs in dispute, by proving entry, the filing of the declaratory statement required by section 2262 of the Revised Statutes, and payment to the receiver. To overcome this evidence the United States offered to show that the entry so made was fraudulent, and the declaratory statement was false, and therefore no title or right to the land vested in Hanson or in his grantees, they being active participants in such fraud, such being the express declaration of section 2262 of the Revised Statutes, which reads as follows: "Before any person claiming the benefit of this chapter is allowed to enter lands, he shall make oath before the receiver or register of the land district in which the land is situated that he has never had the benefit of right of pre-emption under section 2259; that he is not the owner of 320 acres of land in any State or Territory, that he has not settled upon and improved such land to sell the same on speculation, but in good faith to appropriate it to his own exclusive use; and that he has not, directly or indirectly, made any agreement or contract, in any way or manner, with any person whatsoever, by which the title which he might acquire from the Government of the United State should inure in whole or in part to the benefit of any person except himself; and if any person taking such oath swears falsely in the premises, he shall forfeit the money which he may have paid for such land, and all right and title to the same; and any grant or conveyance which he may have made, except in the hands of bona fide purchasers, for a valuable consideration, shall be null and void, except as provided in section 2288. \* \* \* "

The evidence which the United States sought to introduce tended to prove that Hanson entered the land, not for settlement and improvement by him for his own benefit, but for the express benefit of the logging company and under an agreement with them to convey the land as soon as it could be done in order that the company, under guise of right, might strip the land of the timber growing thereon. Such facts, if proven, would certainly show that Hanson never acquired a valid title, legal or equitable, to the land as against the United States, and as the defendants, in support of their right to the logs cut from the land, put in evidence the entry and declaratory statement made by Hanson, it was open to the United States to prove that such entry was in violation of the statute, and the statement was false and therefore no rights were acquired thereunder by Hanson or by his grantees, who aided in the perpetration of the fraud thus established. We hold, therefore, that it was error to rule out the evidence offered by the United States. The same should have been admitted with such other competent testimony as either of the parties might have offered upon the question of the validity of the entry made by Hanson, that question being one involved in the issues in the case, and one which it was the duty of the court to determine in order to adjudicate the ownership of the logs.

The judgment of the court below is therefore reversed, and the cause is remanded with instructions to grant a new trial.

#### UNITED STATES *v.* HENRY HAZLET.

[In the circuit court of the United States for the district of Idaho, January, 1891.]

1. The burden is upon the defendant to establish his right to cut timber upon the public lands, it being established by the Government that the cutting was done upon lands of that character.
2. A homestead settler upon unsurveyed public land charged with unlawful cutting or disposition of timber must produce the facts showing his good faith. Something more than intentions to clear and enter must appear and the motive of his residence and occupation must be shown.
3. A contractor gets no title to timber obtained under contract with or purchase from the homestead settler who attempts to dispose of timber from his claim contrary to law.
4. The homestead settler may contract with others to clear or improve his land; but he must not leave the contract open to well-grounded suspicion that it is to avoid the law and to dispose of the timber for profit instead of improving the land.
5. The right-of-way act of March 3, 1875, does not include the building of fences as a part of railroad construction.

The right under that act continues only during the time of original construction, and does not apply to lands far distant from the road.

BEATTY, *Judge*: This action is for the replevin of a lot of cedar posts, and is submitted to the court for hearing upon an agreed statement of facts, from which it appears that such posts were cut by defendant from a tract of 10 acres of the public lands of the United States; that said 10 acres were a part of a tract of 160 acres upon which one Brennan had resided for two years with the intention of entering it as a homestead when surveyed; that defendant had a contract with the Union Pacific Railway Company to deliver it posts at Pocatello to fence its railroad track, which

had been completed and in operation for over eight years prior; that such place of delivery was 700 miles from the place of cutting such posts; that said Brennan intended to clear said 10 acres for agricultural purposes and that the defendant, for the purpose of fulfilling his said contract with the railway company, entered into a contract with said Brennan for the timber on said 10 acres, and thereafter cut and removed the same from the land and had possession thereof when it was seized by plaintiff.

The first question is, whether the contract between the defendant and the homesteader for the timber is a valid one as against the plaintiff. The rule is well settled by numerous decisions that in actions by the United States, and especially in civil actions for the cutting of timber on the public lands, it devolves upon the Government, only to show the character of the lands and the cutting of the timber thereon, whereupon the *onus probandi* rests with the defendant to show such cutting was lawful.

It is also well settled that the homesteader can not cut or remove timber from his homestead for the sole purpose of selling it, but he can, from time to time, cut only so much as is actually necessary for his use upon the premises in making the necessary improvements thereon, and in clearing the land in good faith for agriculture or some other useful purpose; that if after so cutting timber in the actual process of clearing the land and making use thereof in his necessary improvements there is a surplus he may sell it.

In an action brought against a homesteader for an unlawful cutting or disposition of timber it devolves upon him to produce the facts showing his good faith. He should show the improvements he has made upon the land, the buildings and fences erected, the land cleared and how far cleared, the character of his residence upon the land, and any other facts going to show that his occupation of and acts concerning the land were those of an actual homesteader.

It is also the law that if the homesteader attempts to dispose of timber from his claim contrary to law the person contracting with or purchasing of him gets no title. If, therefore, the facts in this case do not show that the homesteader had a right to sell the timber under the circumstances he did it follows that the defendant procured no title thereto.

What now are the facts and to what conclusion do they lead? It appears that defendant, to carry out his contract with the railway company, contracted with the homesteader for the timber upon 10 acres of the homestead tract and proceeded to cut and remove it. It does not appear that the land was cleared or that any improvements of any kind were made upon the land or that the land was in any way benefited by the acts of either party; and so far as the facts go it only appears that the defendant cut and removed this timber to be disposed of to the railway company. It is alleged that the homesteader had resided on the land for two years and intended to clear and enter it; but something more than mere intentions must appear, and if he had resided there the motive of his residence and occupation must be shown. The facts as stated, instead of leading to the conclusion that the land was actually occupied as a homestead and the timber was removed therefrom in good faith in the process of clearing and improving the land; rather point to the conclusion that defendant's contracts were made to avoid the law and cut the timber simply for the purpose of fulfilling his railway contract, and that Brennan's sole object was to receive money for the timber and not to clear the land or improve it. If such contracts and such facts will justify the cutting and removal of timber from the Government lands, then there is nothing in the law to prevent the destruction of all timber on all lands subject to occupation and entry. I can not so construe the law, and must conclude the defendant did not, by the acts stated, procure title to the posts involved in this action.

I do not mean to be understood as holding that a homesteader may not employ others to clear or improve his land; but when he does, it must appear that such employment is made in good faith to have the land actually cleared and not leave the contract open to a well-grounded suspicion that it is to avoid the law and to dispose of the timber for profit instead of improving the land.

The question was raised whether the law gives the railway company the right to procure from the public domain timber supplies for its use, and if it does, whether it does not follow that defendant's contract with Brennan, being for the purpose of furnishing such supplies, is lawful. The first Congressional act granting railroads rights to timber and other material from the public lands is that of 1875 (1 Sup., Rev. Stat., 1890), by which it is provided that they may take "from the public lands adjacent to the line of said road material, earth, stone, and timber necessary for the construction of said road."

The evident construction of this act, as has been held, is that it applies only to those lands lying along the line of the road and does not include those situated a long distance from it; also that the right continues only during the time of the original construction of the road and not to subsequent repairs, changes, or improvements. (*Denver Railroad v. United States*, 34 Feb., 1888.)

It does not appear by the facts whether these posts were for the first building or the repair of fences, but this is probably immaterial, for it is doubtful whether the act was intended to include the building of fences as a part of the construction of the road, and especially fences constructed over eight years after the completion and operation of the road. Moreover, the timber was not cut from lands adjacent to the line of the road, but on those far distant from it. The subsequent acts modifying or granting additional timber rights expressly exclude railroads from their benefits. (1 Sup., Rev. Stat., 166, 939.) It must follow that the railway company had no such right to the timber on the public lands for the purposes named in this case as will justify or sustain the contract of defendant with Brennan. Certainly the railway company has the right to purchase any timber of any one having the right to sell.

The defendant, having no title to the posts in controversy, judgment for such posts, or their value of \$125, and costs of action against him is now ordered.

ANNUAL REPORTS  
OF THE  
UNITED STATES SURVEYORS-GENERAL  
FOR THE  
FISCAL YEAR ENDING JUNE 30, 1892.

---

## REPORT OF THE SURVEYOR-GENERAL OF ARIZONA.

---

OFFICE OF THE UNITED STATES SURVEYOR-GENERAL,  
*Tucson, Ariz., June 30, 1892.*

**SIR:** Acting under instructions contained in departmental circular dated February 20, 1892, I have the honor to hand you my annual report for the fiscal year ending June 30, 1892.

My estimates for the surveying service in this Territory for the fiscal year ending June 30, 1892, were \$15,000; for public surveys and the work to be done required that amount of money to accomplish it. When the apportionment was made by the Department Arizona received but \$5,000, an amount wholly inadequate to the service. For the fiscal year ending June 30, 1886, there was apportioned to the Territory of Arizona the sum of \$22,500, which was used in the surveying service, and was not found too great for the work to be done. When the amount of unsurveyed land in Arizona is taken into consideration, in connection with the apportionments to States and Territories with less land to survey than we have here, \$20,000 would seem little enough for Arizona; and I have asked that \$20,000 be apportioned to this district for surveys, in the estimates made this year, for the fiscal year ending June 30, 1894, and I have asked for an appropriation of \$5,000 to pay clerk hire, in order that the work under the apportionment may be promptly done. The apportionment for clerk hire has always been too small, and has resulted in the clerks of this office being overworked, in order to keep the office from getting in arrears in matters of clerical work. I earnestly trust that my recommendations may receive due weight this year, and that the result may be that the surveying service may not be too limited for the wants of the people.

I want to vigorously protest against the insertion of the word "agricultural" in the act appropriating money for surveys in Arizona. In my report last year I gave several reasons why the surveys in Arizona should be made where settlers have homes and desire titles to them irrespective of whether they are agricultural in the Eastern sense of the word, where constant rainfalls are counted on to raise agricultural crops. It is difficult to define agricultural land under the conditions of water and soil in this Territory. What may be termed desert land to-day, or grazing land, becomes agricultural land the moment water is brought upon it for the purposes of cultivation, as the soil is preëminently "agricultural," and as well adapted to crops as the soil of New York, Ohio, or Illinois. Still, as long as it is desert, it is not agricultural, and no efforts will be made to redeem it by damming canons or diverting water from streams, if the parties willing to invest their money are told right in the outset that the land can not be surveyed, so that settlers can go in under the land laws and be protected in their titles before the land becomes "agricultural" and productive. By pursuing such a policy, all the school lands in the neighborhood of canals in course of construction will be lost, as far as the intent of the law goes, by being squatted on by people willing to speculate on the outcome of the canal and the value of the adjacent lands.

Many people occupy the high mesa lands as homes, such lands as can not be reached by water in the way of artificial irrigation, and the lands can not be made "agricultural" even if the soil would permit still on this land homes are erected, the owners thereof engaging in mining in mountains adjacent or in stock-raising, and the occupants of these homes want surveys that will enable them to get patents. I think the persons occupying the last referred to places ought to have the privilege of buying the land they occupy, as it is certainly to the interest of the Government to sell this undesirable land at the same prices the best class of land brings the Government. By so doing the country will be more rapidly settled and the raids of the hostile Apaches stopped. The homes on the arid land often present a very inviting appearance through the medium of windmills and deep wells, which will furnish

enough water to beautify a small yard, but not sufficient to make any considerable part of the 80 or 160 acres "agricultural" land. In letting surveys in Arizona, I have interpreted the word agricultural as liberally as possible. There are millions of acres of land to-day in Arizona, where the soil is beyond question as fine as any soil in the world, but which would not raise a cornstalk without artificial irrigation. All this land may be redeemed soon by water from canals taken from rivers, or from dams in mountain canyons, or from wells by strong pumps, and I regard this land as "agricultural;" that is, where its locus makes irrigation reasonably certain in the near future though to-day they are as dry as the Sahara Desert. We will take as an example the land lying north, south, and west from Gila Bend Station, on the Southern Pacific Railroad. To-day a more barren, parched-up body of land can not be imagined, but by February, 1893, the immense dam and 40 miles of canal of the Gila River Reservoir and Irrigation Company will be distributing water on tens of thousands of acres of this land, which I know to be the equal of any land on this continent for semitropical fruits and cereal crops; such land, in fact, as is selling at Riverside from \$500 to \$1,000 per acre. Oranges have already been successfully grown at Gila Bend irrigated by water secured from the railroad pump; still to-day this land has to be denominated "desert." The same may be said of the land adjacent to the proposed Verde canals, the Santa Cruz Canal, and other places in the Territory where vines and cereals, and small fruits can be raised. I trust the act appropriating for surveys in Arizona may be an exception from the general rule if the word "agricultural" is to be inserted as a limitation of surveys. We have a country with peculiar features, and we should not be classified with other sections where a reasonable rainfall occurs, neither should our people who desire to get titles to their homes be compelled to take up these homes on farming lands if they don't want to. I have endeavored faithfully since 1883 to represent matters as they existed here, in order that our case might be individualized if necessary, but that we might get relief from a general classification by some means. Thus far my success has not been flattering as far as Congressional action is concerned. The present law operates very disastrously in Arizona.

Another point I want to make is that desirable lands should be surveyed whether settled or not, as the possibility of getting an early title is an incentive to settlement, and the redeeming of the lands from their present sterility. If surveys are laid over-land along water courses, or where dams are practicable, they will be settled upon, and experiments for irrigation will commence soon thereafter.

Surveys should be extended over the abandoned military reservations. Some of the most desirable land in Arizona is at present kept away from the people on account of these reservations. When the military posts were established careful steps were taken to secure the best land in the Territory, and in every instance many times the actual number of acres required were taken for these reservations, to the detriment of our people. Now that several of the reservations have been turned over to the Department of the Interior, Congressional action ought to be had to restore them to the public domain, and early surveys ordered, as they would be taken up to a very considerable extent immediately. Since they were abandoned most of the beautiful trees have died, the irrigating ditches having gone dry for want of care. Fort Lowell, particularly, has suffered, and the people of the city of Tucson would like to see the land restored to the public domain.

I earnestly urge the Government to survey an east and west line, distinctly marked with stone monuments, for the southern boundary of the San Carlos and White Mountain Indian Reservation, in the place of the present tortuous south boundary line, which meanders with the Gila River. This line should start at the north boundary of the Camp Thomas military reservation, running due west from there to intersect the west boundary of the Indian Reservation. This line will be easily recognized by the Indians, will be a straight line, and above all else, will cut off the coal fields. I don't believe that the powers that the people of Arizona have to look to, for relief in the matter of fuel, can appreciate what coal in southern Arizona means to our people. The one thing above all others that has retarded the growth and prosperity of Arizona has been the lack of coal for fuel, and still it exists right in our midst in abundance, and is not utilized in the slightest degree by the Indians. It means to Arizona factories, reduction works, the working of our great mineral camps, and the construction of railroads. Railroad men in here recently, anxious to build a railroad from Tucson north through Globe, said no railroad people could be induced to build any railroads in Southern Arizona until the coal on the San Carlos Reservation was cut off, as it would furnish both fuel and make business by making active the sleeping industries of the Territory. This matter can not be too seriously considered as far as the welfare of our people is concerned. To the Indians coal means nothing; if they were given the privilege to-morrow to work these coal fields, and receive all the monetary benefits derived therefrom, they would not work, and the white people would get no coal. It has been a dog in the manger policy on the part of the Indians, and a new line of survey should be run, cutting the coal off, and making a

plain line, either by authority of Congress or by executive order. The reservation has already been changed five or six times by executive orders, and all the beneficial acts that can be done for Arizona will not equal the cutting off of these fields.

The deposit system of survey is very valuable to this Territory in certain emergencies as long as the requirement for a number of settlers in a township to secure a survey exists, and as long as the apportionment for surveys is inadequate the system of deposits to secure surveys is very valuable, and under all circumstances it is a wise measure if honestly administered, which must be the case under the present system.

#### MINERAL MONUMENTS.

In my estimates for the fiscal year ending June 30, 1893, and also for the year ending June 30, 1894, I asked for an appropriation of \$10,000 for connecting the mineral monuments of the several mining districts in Arizona. This estimate is based on the figures given me by the deputies in the several mining districts as being required for the work. This work should be attended to at once, and connections made with the public surveys. Department letter of March 24, 1891, "E," referred to Mr. Harlan's report, wherein he stated there were no connected maps of mining districts in this office, and I was asked to include in my estimates the necessary expense for remedying this matter.

#### INSPECTION OF SURVEYS.

The system of inspection of surveys, adopted by the present administration of the Land Office, is the wisest move ever made in this direction; through the medium of its workings good work is assured, and it is possible for deputies to get the pay for the surveys executed according to their contracts, without waiting until they are bankrupt.

Under the old system it had become to be a question whether surveys could be contracted for at all in this Territory on account of the low rates per mile, and the uncertainty as to whether the money for the work when perfectly done would be forthcoming within a reasonable time, or one or two years after the work was sent to Washington.

The present system protects the Government and the surveyor.

#### THE ATLANTIC AND PACIFIC RAILROAD GRANT.

I think it of the highest importance that surveys be extended over the land granted to the Atlantic and Pacific Railroad in the northern part of the Territory, inasmuch as the survey will be of material benefit to the Government, to the people, and will protect the school lands, saving to the school lands the valuable timber that grows thereon. I earnestly hope that this work will not be delayed, as it is of the utmost importance and should have been done long ago.

I have collected all the circulars from the General Land Office, and matter of every description appertaining to mining surveys, and caused the same to be printed in book form, similar to the method adopted by the Colorado office, in order to secure as perfect work as possible from the deputies, who will be furnished with the book; the book is of a size convenient to carry in the pocket.

#### SPANISH ARCHIVES.

I should have an appropriation for a clerk to take care of the Spanish archives on file in this office, and which demand a great deal of time since the establishing of the private land grant court. The run on the office by claimants and settlers to see these papers and to ascertain facts is quite heavy, and I have no clerk in connection with this work, and have an abundance of work for the few clerks I have. I should have \$1,200 for this purpose, and it ought to be appropriated at once.

#### THE ALGODONES LAND GRANT.

This land grant was located near Yuma, in this Territory, and was suspended from entry by Surveyor-General Wasson before he made his report as to its being a forgery, after special correspondence with the land office. Where plats of surveys had already been filed the suspension was made in the land office, and where the plats were still within the jurisdiction of this office they were withheld from filing in the local land office. The court of private land grants have pronounced the grant as forged, and as soon as possible the suspension should be relieved, inasmuch as great

injustice to the people has already occurred and the land is very desirable and would be taken up very fast.

## THE DESERT ACT.

The largest amount of surveying will occur over land entered under the desert act, as the land in the neighborhood of canals is mostly taken up under this act, as titles can be easily secured where the land can be watered. For Arizona it is important that the desert act remain in force, as its repeal would actually stop the development of the Territory. Its importance can not be overestimated.

I have the honor to submit the above, with the following tables and data of work.

Very respectfully,

ROYAL A. JOHNSON,  
U. S. Surveyor-General, District of Arizona.

The COMMISSIONER OF THE GENERAL LAND OFFICE,  
Washington.

## STATEMENT OF CONTRACT WORK; SURVEY OF PUBLIC LAND DURING THE FISCAL YEAR ENDING JUNE 30, 1892.

*Work done during fiscal year on old contracts.*

No.	Deputy.	Date.	Amount.	Remarks.
16	John C. Smith .....	Nov. 1, 1890	\$9,000	Subdividing Moqui Indian Reservation into 40-acre tracts. Survey completed in July, 1891. Survey approved.
17	Francis B. Jacobs .....	May 25, 1891	1,900	Survey completed. Approval pending.
18	Daniel Drummond.....	May 29, 1891	1,350	Survey approved.
19	Daniel Drummond.....	June 13, 1891	1,750	Survey approved.

The aggregate number of miles surveyed was 2,066 miles 40 chains and 33 links, segregated as follows:

	Measurements.		
	Miles.	Chs.	Lks.
Standard lines.....	43	10	15
Auxiliary meridian lines.....	7	.....	.....
Township lines.....	245	41	24
Subdivision lines.....	1,698	25	62
Meander lines.....	36	13	60
Connecting lines.....	13	60	93
Township lines retraced.....	7	.....	20
Subdivision lines retraced.....	3	38	53
Standard lines retraced.....	12	12	6
Total.....	2,066	40	33

Total number of exterior plats made .....	7
Total number of township plats made.....	72
Total number of miscellaneous plats made .....	2
Total number of diagrams made .....	14
Total number of tracings made.....	6
Total amount apportioned to Arizona for fiscal year.....	\$5,000

Statement of contracts under same.

No.	Deputy.	Date.	Amount.	Description of survey.
20	Ridgley C. Powers....	Jan. 1, 1892	\$1,380	Agricultural land in T. 3 N., R. 4 E.; T. 4 N., R. 1 E.; T. 5 N., R. 1 E.
22	Lewis Wolfley.....	May 26, 1892	3,200	Agricultural land in T. 5 S., R. 7 W.; T. 6 S., Rs. 6, 7, 8, and 9 W.; T. 7 S., Rs. 7, 8, and 9 W.
23	Daniel Drummond....	June 18, 1892	420	Agricultural land in T. 4 S., R. 11 E.
	SPECIAL DEPOSIT SURVEYS.			
21	John T. Hogue .....	June 6, 1892	200	All lines necessary to complete survey of fractional township 12 N., R. 26 E.

Mineral division.

Special deposits:	
Total for quarter ending September 30, 1891.....	\$810. 00
Total for quarter ending December 31, 1891 .....	630. 00
Total for quarter ending March 31, 1892 .....	90. 00
Total for quarter ending June 30, 1892 .....	1,080. 00
	<hr/>
	2,610. 00
Number of surveys approved during fiscal year .....	57
Survey orders issued and pending return of field notes .....	23
Surveys returned and approval pending .....	15
Orders issued for amended surveys during fiscal year.....	3
Number of mineral plats made.....	268
Subdivided township diagrams, showing mineral surveys.....	17
Subdivided township diagrams (tracings).....	34
Miscellaneous diagrams and tracings.....	30

# REPORT OF THE SURVEYOR-GENERAL OF CALIFORNIA.

OFFICE OF THE UNITED STATES SURVEYOR-GENERAL,  
*San Francisco, June 30, 1892.*

SIR: In compliance with circular letter "E," of April 22, 1892, I have the honor to submit, in duplicate, the following annual report of the surveying operations in this district for the fiscal year ending June 30, 1892, and tabular statements as follows:

A. Statement of contracts entered into with deputy surveyors for surveys of public lands during the fiscal year ending June 30, 1892, payable from the appropriation for the surveys of public lands for that year.

B. Statement of contracts entered into with deputy surveyors for the surveys of public lands during the fiscal year ending June 30, 1892, payable from special deposits.

C. Statement of special deposits made by the Central Pacific Railroad Company, and its branches, during the fiscal year ending June 30, 1892.

D. Statement showing amount of appropriation for salaries, contingent expenses, and special deposits for the compensation of clerks and draftsmen for the fiscal year ending June 30, 1892.

The clerical force of the office has been kept busy during the entire year. There have been received as follows:

Miscellaneous letters .....	4, 033
Applications for survey of public lands .....	60
Applications for survey of island .....	1
Applications for survey of mineral claims .....	97
Applications for reports on placer claims .....	10
Applications for reports on quartz claims .....	4

The office has issued as follows:

Miscellaneous letters .....	4, 129
Contract and special instructions for the survey of public lands, aggregate liability \$9,939 .....	15
Instructions for mineral surveys .....	88
Instructions for report on placer claims .....	10
Instructions for report on quartz claims .....	4

In addition to a great number of transcripts of field notes prepared with great care for the guidance of contracting deputy surveyors engaged upon public surveys, 236 transcripts have been prepared, classified as follows:

Township surveys for the General Land Office .....	38
Township surveys for the local land offices .....	23
Mineral surveys for claimants .....	87
Location notices for claimants .....	88

Since my last report the following deputy mineral surveyors, whose bonds have been approved, have been appointed: Burr Bassell, San Bernardino County; Stonewall J. Harris, Mariposa County; Louis Webb, Siskiyou County; Luke Evans, Lake County; John A. Brown, Amador County; Clarence H. Wallace, San Francisco; Lewis A. Hicks, Arizona; Jesse N. Lentell, Humboldt County.

During the present fiscal year special deposits for mineral surveys have been received to the amount of \$4,260, a decrease of \$1,120 from those of last year; and during the same time deposits for the survey of public lands made by railroad companies and private land claimants amounted to \$25,560.38, an increase of \$14,052.98 over those of the previous year.

The disbursements for salaries from the fund of special deposits for this year are \$8,122.60 against \$14,552.65 of last year. The total disbursements for salaries this year are \$24,607.86, against \$27,283.95 of last year.

At an expense of \$101, 450 ranch maps and 1,230 township maps that were so torn by the frequent handling of the public for the past fifteen or twenty years that the making of new maps was a pressing necessity, have been thoroughly repaired and made more durable by cloth bindings, thus preserving the old originals and saving an expense of at least \$5,000 in making new maps.

The extent and nature of the surveys made are shown as follows:

Township, range, and meridian.	By whom surveyed and date of contract.	Meridian and base lines surveyed.	Township lines surveyed.	Section lines surveyed.	Grant and meander lines surveyed.

Total amount of miles surveyed.	.....	.....	621 02 94	.....	.....

The total number of maps of all descriptions made is 1,010, classified as follows:

Pertaining to the surveys of public lands, including originals, department copies, triplicate maps for the several local land offices, amendments and the necessary copies thereof.....	145
Pertaining to the surveys of private grants and United States reservations, with the accompanying township diagrams indicating the parts of private grants located therein.....	9
Number of plates of mineral-land claims, including the several copies required for the Department, local land offices, and claimants.....	640
Original diagrams to accompany special instructions for the guidance of deputy surveyors of the public lands and triplicate copies of the same .....	74
Maps and sketches of a miscellaneous character.....	142

The field notes of the surveys of 87 mineral-land claims have been examined, and the maps made and approved.

At this date there are the returns of the surveys of 12 mineral-land claims awaiting examination and platting. There are also the field books of 4 township surveys now being examined, and 9 books of the same class examined and returned to the deputy surveyor for correction.

Six draftsmen, including the principal, have been employed during the year and their time fully occupied. In the present report I can only reiterate my views as given in the annual report of this office for the fiscal year 1891. No one not having practical experience with the reports of deputy surveyors as to the conditions in which they find the lines of surveys with which they are to connect can form an idea of the numberless complications arising from the "patchwork" system of surveys, a system, it is believed, giving rise to more confusion in the surveys of the district of California than in any other territory of the United States. By this "patchwork" system I mean the letting of contracts, as heretofore practiced, of parts of base, standard, and meridian lines to different parties more or less conversant with the duties they are expected to perform, and this system followed up in sectionizing. If the rectangular system of surveys had been from the beginning strictly carried out—the township exteriors under their several classifications scientifically determined by competent, salaried men—the subdivisions could then have been encontracted for with some assurance that the work would be correctly done. As, of course, it is now too late to change the order of things, as the surveys are now being prosecuted, I allude to what might have been only as readily accounting for the existing complications arising in the execution of present surveys literally having no beginning or end; for in many instances the points of commencement or of closing surveys as described in the field notes of some former official-approved alleged surveys, do not have, and possibly, if not probably, seem not to have had an existence.

In my report for the last fiscal year, I related in detail the difficulties under which this office labored in giving directions for the adjustment of present lines of surveys to those of a comparatively remote period, as also my views regarding a preliminary examination of the country under contemplation for survey as affording a basis in the preparation of estimates. To my views as then expressed I have nothing to add or to take away.

Such examination would not only exhibit the present condition of monuments of former surveys, but would show conclusively the adaptability of the land for agricultural or other purposes, thus relieving the Government of needless expenditures in explorations amid "impassable cañons, rocky peaks, and rough mountain land, unfit for cultivation."

The problem involving resurveys and retracements seems difficult of elucidation. It is, I believe, generally thought that no engineer or surveyor of practical experience would undertake to retrace or resurvey a line, replacing former corner monuments with the expectation of deriving any pecuniary advantage at less prices than are allowed for new original surveys. The experience of this office has shown to its satisfaction that in many instances, little or no reliance can be placed upon sworn statements regarding some former official surveys to the effect that monuments were duly placed at the required points. Half the time and labor required in hunting up old lines, detecting errors in closing, etc., would suffice to run and mark properly a new line of the same length. For this single reason, as an example, I am fully of the opinion that whenever the surveyor brings forward reliable evidence that little or nothing remains of old surveys with which he is required to connect, he should be paid for such resurveys or retracements the same rates as those mentioned in his contract for new surveys. By a preliminary examination, as before suggested, the verification of the returns of the deputy holding the contract would be complete, and give this office assurance that its estimate for further work could be based upon something tangible. Certainly in the ordinary business of life one does not enter upon the completion of a half finished undertaking without a careful inspection of what has already been done.

The greater number of the surveys now being or to be prosecuted are for the completion of former partial surveys, which were extended over only the more easily surveyed portions of townships, leaving as unsurveyed the rougher more mountainous land, now proving to be of great value for horticultural purposes. The rates being paid for these small and more difficult surveys are lower than those paid for work that embraced a greater area and more easily surveyed lands. A little thought will show that the outlay for the organization and equipment of a party for a limited survey is as great as for one covering a larger area. The expense being the same, the work more difficult, and the compensation less, it is difficult indeed to secure for the Government the services of competent surveyors familiar with the official routine required.

Again, the awarding of contracts for small surveys, scattered here and there and at long intervals of time, affords surveyors only infrequent as well as poorly paid employment.

The compensation paid surveyors by owners of large ranches and mines, corporations and irrigating districts is so greatly in excess of that paid by the Government for more exacting work, that another difficulty in securing competent men is encountered.

Owing to these circumstances, now when the services of competent men are re-

quired in order to bring these patchwork surveys to as an harmonious a closing as possible, their services are difficult or impossible to secure.

I am of the opinion that unless the rates now allowed are increased considerably and contracts covering a territory sufficiently large enough to be an inducement for engineers to undertake their execution are offered, the surveying service in this district can not be made as satisfactory as is desired, either to the General Land Office or to the settlers upon the public lands.

The records of this office particularly with reference to the number of maps made within the present fiscal year, furnish but few indications as to the amount of work performed. Two draftsmen, and at times three, are constantly engaged in computations and the preparation of maps of public surveys, reservations, and whatever relates to private land claims, the remainder of the force working up the returns of mineral land surveys. By reason of the complicated character of the public land surveys, fully half the time is taken up in writing instructions and reinstructions, the last based upon the discovery of errors in former field work, unforeseen and developed only during the prosecution of new work. Much time is occupied in answering the communications of settlers and claimants at their wits' end to ascertain their several locations as indicated by old approved official surveys. All these people must be answered, and to answer them correctly involves no little time and study.

The examination of field notes and the preparation of maps of the Hoopa Valley Indian Reservation occupied the close attention of one draftsman for several months. Instructions and corrections were repeatedly made and required. The field notes as at first presented could not be accepted, and the deputy surveyor was obliged again and again to revise his work.

The compilation of diagrams and the writing of special instructions for the survey of the Round Valley Indian Reservation consumed much time and labor as likewise did that of the topographical maps of the Yosemite Park Reservation, as requested by the special Government agent.

These facts are mentioned merely to show that a great part of the work of this office is not susceptible of record, and that considering the constant unavoidable interruptions in the prosecution of a single object, routine is exceptionally impossible in an office of this character.

The present force of draftsmen in this office is no wise in excess of its official requirements, nor could it be, in view of the present amount of work on hand and in anticipation, be reduced without injury to the interests of the Government.

#### SWAMP AND OVERFLOWED LAND.

At the date of my last annual report there were fifty cases remaining upon the records of this office for hearing, since which time there have been fourteen additional suspensions made by request of the honorable State surveyor-general, making a total of sixty-four cases, of which eight cases have been heard and decided, involving 3,500 acres, one case heard, but not yet decided, involving about 4,460 acres. This case is one of great importance, having been before this office in various forms for the past eight years. The testimony is very voluminous, the taking of which has already consumed two weeks, and will require many days more before all the evidence essential to a proper decision will be in. At the request of this office nine cases were dismissed by consent of the honorable State surveyor-general for want of prosecution on the part of State claimants, involving about 41,247 acres; seven cases abandoned by the State and claimants thereunder, involving about 3,846 acres, leaving thirty-nine cases on record to be tried, covering about 18,500 acres of land. On account of long standing eleven of the remaining cases, covering about 3,600 acres, will be dismissed, if some action is not taken by the State or claimants to cause a hearing to be held within a reasonable time; official notice to this effect has been given the parties in interest.

The business of this department is such as to necessitate the writing of a great number of letters, and the keeping of an extensive record of all transactions pertaining to each separate case. I have caused all the old records in the office to be examined and the books written up to date, and by so doing a number of cases have been discovered wherein the maps on file did not show the true condition of facts. Land that had been decreed and listed to the State as swamp and overflowed was not so designated. In all cases of this kind I have had the original maps amended for the records of this office, and diagrams made for the general and local land offices, designating thereon the true character of the land.

#### PRIVATE LAND CLAIMS.

The survey of part of the Rancho Entre Napa, confirmed to J. Mount *et al.*, has been completed, plats and notes prepared, approved, and forwarded for patent.

Both upon an appeal and a rehearing the honorable Secretary of the Interior has affirmed the decision of the honorable Commissioner of the General Land Office and of this office in rejecting the survey of the Rancho Buena Vista, executed by Deputy Surveyor H. I. Willey, and has directed that a new survey be caused in conformity with the original instructions issued.

In the matter of the resurvey of the east boundary line of the Rancho Ausaymus Y. San Felipe, the honorable Secretary of the Interior has decided that said line must be established in strict accordance with the calls and distances given in the United States patent issued for the said rancho and now outstanding.

The necessary steps to cause these two surveys will be taken as soon as a proper appropriation for the same shall have been made.

#### INDIAN RESERVATIONS.

The survey of subdivisions for allotment within the boundaries of the Hoopa Valley Indian Reservation, executed by Deputy Surveyor C. A. Robinson, and examined in the field by Special Examiner A. T. Smith, has been completed; plats and notes in triplicate of the same were made, approved, and duly accepted, thus bringing to an end a survey of several years standing.

A contract has been awarded Messrs. Gibbons & Chapman for the survey of the boundaries of the Diminished Round Valley Indian Reservation, and also for the subdividing into lots of the relinquished part thereof. At present there are two surveying parties in the field carrying the work forward as rapidly as possible.

#### SPANISH ARCHIVES.

The condition of this important department could not be better. Everything is arranged with the greatest regularity and order. Each class of archives or documents are kept in separate divisions, and the new glass cases that have been provided furnish ample room for distribution, rendering thereby the finding of any particular book or paper simple and easy.

The compilation of the historical archives continues, and already 14 subjects have been arranged in alphabetical order under 75 subheads, exclusive of the biographical sketches, with facsimile of handwriting and autographs, of all the leading men of the country since the year 1767, including the signatures and paraphs of all the kings, viceroys, governors, and commandant generals of the northern provinces of New Spain and Mexico; also the diaries of all exploring expeditions that were made in early times for the selection of mission or presidio sites in the Province of the Californias.

My special report in the matter of the collection of the Spanish and Mexican archives of Los Angeles and San Diego has already been presented, but no action has been taken as yet concerning the flat refusal of the Los Angeles County officials to deliver up the books, which they retain in their possession without authority.

The San Diego archives that were obtained are already collated and divided into the different subjects to which they refer.

There are in this office twelve ranch patents that have not as yet been delivered to the patentees, and I am of the opinion that measures should be adopted to compel claimants to take out their patents and pay into this office the fees owing on the same. A number of patents have been awaiting the claimants in this office fourteen years, on one of which \$1,000 fees are owing.

In the matter of land title scarcely anything has been done during the present year, and nearly all of the private land claims are at present finally settled, except perhaps a few that up to this time are still in doubt only as to their true and exact location. The litigation that seemed so probable two years ago has apparently been discontinued.

Material aid has been given to Hon. Frank D. Lewis, of Los Angeles, who is attorney for the Mission Indians, in his attempts to establish the rights of his clients to the lands upon which their ancestors as neophytes lived, and where they themselves have been all their lives, and in establishing the true location of the Indian villages of Agua Caliente, Valle de San Jose, Santa Ysable, and Valle de Pamo ranchos, as the present owners of the land are ejecting the unfortunates from their ancient dwelling places.

The frequent applications that are made for information upon questions that never have been clearly defined, either by the board of land commissioners or by the courts of the country, have caused considerable research only with the view of giving unequivocal answers to the questions propounded. The following are some of the questions: What was the office of prefect? What were the powers of a prefect? What is the validity of a prefect grant? What is the meaning of the word alcalde? What were the powers of alcaldes? What is the validity of an alcalde grant?

## PREFECTS.

A prefect is a magistrate, who exercised both judicial and executive powers. The office of prefect, as defined in the Spanish Dictionary of Legislation and Jurisprudence, seems to have been in existence as early as the reign of Constantine, when the Roman Empire was divided into provinces or departments, and during the early government of Spain the powers of prefects are clearly set forth in law 8, title 18, partida 4, of the celebrated code of Alfonso the Wise. After the date of Mexican independence the sixth constitutional law of Mexico points out the nature of said office and the duties of prefects in general. The revolution of 1836 resulted in the destruction of the state government and the federal system, and the adoption of a new constitution, which went into effect on the first of January, 1837, by which the territory of the republic was divided into departments, districts, and partidos, the head of each of which was constituted a chief executive officer. The organic law of the 20th of March, 1837, designated the officers that should preside respectively over the said political divisions, and in said decree are defined their powers and duties.

The powers of prefects to grant the common land of the towns seems to have been derived from article 77 of the above-mentioned organic law, under the head "Of the prefects," which reads thus:

"They (the prefects) shall regulate executively in conformity with the laws the distribution of the common lands of the towns of their districts whenever there is no litigation pending relative thereto."

It has been contended by able American judges and lawyers that the above article gives to the prefect no power to dispose of the public lands by grant, but simply a right to regulate and to prescribe rules by which the distribution should be governed. They claim the first to be a high prerogative, and the second the subordinate executive power with which the prefect was invested, and with no greater authority.

If the Spanish word "arreglar" meant simply to regulate, and it stood alone in the article and without qualification, the construction given would be clearly a correct one, but a reference to the dictionary will show that its technical meaning as it is used here is to adjust the administration of provinces and to enact laws thereunder.

Taking this meaning in connection with the word "gubernativamente," translated "executively," which immediately follows, it would appear plainly to imply that the prefect was not only intrusted with the power to adopt general regulations for the distribution (repartimiento), or granting of the common lands of the pueblos (towns), but also with the authority to execute or carry them into effect by granting the lands, with a right of appeal to the governor and departmental juntas, to whom the general administration of the public lands of the department was intrusted.

After the date of the occupation of California by the Americans, Governor Bennett Riley, in his proclamation dated November 20, 1849, declares: "The law of the 20th of March, 1837, being still in force, its provisions must be carried out until it is repealed," etc.

The Board of Land Commissioners created by the act of Congress approved March 3, 1851, upheld the above doctrine, and approved whatever prefect grants were proven to be genuine by the presenting claimants.

The greater portion of the former grants within municipal districts were issued by the respective prefects, and to such an extent was their power recognized by the Mexican governors, that applications to the governors for land within the commons of a town were invariably sent back to the prefect for his action.

Prefect grants made in conformity with the provisions of the laws of September 26, 1836, and March 20, 1837, have been invariably held to be valid as any other grant declared legal by the American courts.

## ALCAIDES.

Alcalde is an Arabic word, that signifies "the judge," and was a term used especially to denote the person in charge of the municipal government of a town or district.

According to the provisions of the royal ordinance of December 4, 1786, the offices of chief alcaldes were abolished, and assessors, subdelegates, and ordinary alcaldes were created. Article 309 of the Spanish constitution, May 18, 1812, treats of the government of pueblos, and requires the alcalde to be president of town councils. The law of the Cortez of January, 1813, gives soldiers the right to claim lands within the towns and vests power in the council to designate such lands, and in the alcalde, in the name of the corporate body, to issue titles therefor. There never was any law either in Spain or in Mexico that permitted an alcalde to execute deeds for pueblo lands where an ayuntamiento existed without the consent of that body. In California, where there were only three pueblos—San Jose, Los Angeles, and Branciforte—it became necessary to authorize alcaldes to execute land titles for lots to settlers.

without the consent as above stated. After California became a part of the United States alcaldes were allowed or permitted, so to speak, by the Government to exercise their presumed prerogatives of making grants for town lots in Monterey, Yerba Buena (San Francisco), San Jose, Los Angeles, and in other towns.

Governor Riley, on May 15, 1849, declared: "The alcalde, being the executive officer of the town, may, it is believed, with the consent of the ayuntamiento, make sales and sign deeds in the name of the town, but without such consent it is thought he can make no sales of this kind."

In conclusion, I would say that Mexican as well as American alcaldes derived their powers, as above set forth, from the same laws, and any alcalde grant that was made in strict conformity with the requirements of said laws, either before or after July 7, 1846, was a valid grant, and all such have been so pronounced by the United States courts.

This résumé of answers given so frequently in response to inquiries from widely scattered sources is embodied as fully as permissible in this report; in the belief that in this way many interested in the titles of our private grants may obtain the information desired.

Very respectfully,

WM. H. PRATT,  
*United States Surveyor-General for California.*

The COMMISSIONER OF THE GENERAL LAND OFFICE,  
*Washington, D. C.*

WM. H. PRATT,

*United States Surveyor-General for California.*

REPORT OF THE SURVEYOR-GENERAL OF COLORADO.

OFFICE OF UNITED STATES SURVEYOR-GENERAL,  
Denver, July 1, 1892.

SIR: I have the honor to submit in duplicate the annual report of this office for the fiscal year ending June 30, 1892, with tabular statement showing the contracts entered into with deputy surveyors for the survey of public lands, payable from the regular appropriation for the fiscal year ending June 30, 1892, and from the appropriation for surveying abandoned military reservations, made by act of Congress of March 3, 1885, the report of the division of mineral surveys, and the accounts of this office for the fiscal year ending June 30, 1892.

No contracts were made during the year chargeable to special deposits.

Two contracts were made under the act of Congress of March 3, 1885.

Six contracts were made during the year for the survey of the public lands, five of which were not completed.

There were also four agreements made for surveys of fractional parts of the public lands under special instructions, two of which were completed.

The following contracts made the previous year were completed and approved this year, viz:

No. of contract.	Date of contract.	No. of contract.	Date of contract.	No. of contract.	Date of contract.
766 .....	Oct. 27, 1890	774 .....	Mar. 18, 1891	779 .....	Apr. 27, 1891
769 .....	Dec. 12, 1890	775 .....	Mar. 26, 1891	780 .....	do .....
770 .....	do .....	776 .....	Apr. 3, 1891	781 .....	June 16, 1891
772 .....	Feb. 28, 1891	777 .....	Apr. 8, 1891	782 .....	June 28, 1891
773 .....	Mar. 2, 1891	778 .....	Apr. 30, 1891	783 .....	June 29, 1891

During the year 2,304 miles 10 chains 29 links have been surveyed, as follows:

	Measurement.		
	Miles.	Chs.	Lks.
Exterior township lines .....	252	20	11
Subdivisional lines .....	1, 138	31	31
Metes and bounds of claims .....	794	02	57
Closing and connecting lines .....	66	71	12
Meander lines .....	52	44	68
	2, 304	10	29

Number of townships and fractional townships subdivided .....	38
Number of townships and fractional townships subdivided by metes and bounds .....	16
Total number of plats and copies made for surveys in land division .....	162
Total number of diagrams made .....	52
Descriptive lists of townships prepared and sent to local land offices .....	334
Total acreage of land surveyed .....	382, 418, 80
	423.

Statement of contracts entered into by the United States Surveyor-General for Colorado with deputy surveyors for the survey of public lands during the fiscal year ending June 30, 1892.

[Payable out of the regular appropriation for the year ending June 30, 1892.]

Date of contract.	Name of deputy.	Character and location of fieldwork.	Estimated amount.
1891. Aug. 10	C. C. E. Beddoes ....	Survey of the subdivisonal lines of T. 46 N., R. 13 W., Ts. 45 and 47 N., R. 14 W., and T. 45 N., R. 15 W., N. M. P. M. in Colorado.	\$1, 680. 00
Aug. 13	Geo. W. House.....	Survey of the north exterior and subdivisonal lines of Ts. 8 S., Rs. 93, 94, and 95 W., of the 6th P. M. in Colorado.	1, 326. 00
Nov. 27	Geo. W. House.....	Survey of the subdivisonal lines of the unsurveyed portion of T. 5 S., R. 90 W., and subdivisonal lines of T. 7 S., R. 93 W. of the 6th P. M. in Colorado.	840. 00
1892. Jan. 15	C. C. E. Beddoes ....	Survey of subdivisonal lines of fractional T. 11 S., R. 99 W.; the S. and E. boundaries and subdivisonal lines of fractional T. 12 S., R. 100 W.; the S. and W. boundaries and subdivisonal lines of fractional T. 13 S., R. 99 W.; the W. boundary and subdivisonal lines of fractional T. 14 S., R. 97 W.; the subdivisonal lines of fractional T. 14 S., R. 98 W.; the S. boundary and subdivisonal lines of T. 13 S., R. 100 W., of the 6th P. M., and E. boundary and subdivisonal lines of T. 48 N., R. 8 W., of the N. M. P. M. in Colorado.	1, 950. 00
Mar. 21	Wm. J. Pine .....	Resurvey of the exterior and subdivisonal lines of Ts. 45 46, 47, and 48 N., R. 1 W., of the N. M. P. M. in Colorado.	1, 680. 00
May 27	F. P. Monroe.....	Survey of the E. and W. boundaries of Ts. 33, 34, and 35 N., R. 2 E., and the subdivisonal lines of Ts. 34 and 35 N., R. 2 E., of the N. M. P. M. in Colorado.	1, 200. 00
June 23	Wm. J. Pine .....	For the survey of the west exterior line of T. 2 S., R. 95 W.; the subdivisonal lines of Ts. 2 S., Rs. 95 and 96 W.; Ts. 9 S., R. 100 W.; 11 S., R. 97 W.; and fractional T. 10 S., Rs. 100, 101, and 103 W., of the 6th P. M. in Colorado.	2, 300. 00

Statement of agreements made with deputy surveyors for the survey of fractional parts of the public lands during the fiscal year ending June 30, 1892.

[Payable out of the regular appropriation for the year ending June 30, 1892.]

Date of agree-ment.	Name of surveyor.	Character and location of fieldwork.	Estimated amount.
1891. Sept. 4	D. R. Crosby .....	For the completion of the survey of T. 4 S., R. 3 E. of Ute Meridian in Colorado.	\$132. 00
Dec. 19	F. P. Monroe.....	For the extension of public surveys in Sec. 34, T. 9 S., R. 88 W., of the 6th P. M. in Colorado.	36. 60
1892. Feb. 23	W. A. Guyselman ..	For the extension of the public survey in Sec. 7, T. 2 S., R. 80 W., of the 6th P. M. in Colorado.	30. 00
Mar. 19	A. E. Sprague .....	For extension of the public survey in Sec. 6, T. 4 N., R. 78 W., of the 6th P. M. in Colorado.	37. 00

THE MINERAL DIVISION.

The expense of all of which is paid out of “special deposits for office work by mining claimants.”

Deposits made and applications filed for orders for surveys of mineral claims is in excess of business done during the fiscal year ending June 30, 1891, and indicates an increased activity in the mining interests of the State.

There have been commissioned 18 deputy mineral surveyors, the commission of 10 have been revoked, and 97 are doing active duty in the field.

Mineral orders issued in fiscal year ending June 30, 1892.

I am, sir, very respectfully, your obedient servant,

E. C. HUMPHREY,  
Surveyor-General.

The COMMISSIONER OF THE GENERAL LAND OFFICE,  
Washington, D. C.

## REPORT OF THE SURVEYOR-GENERAL OF FLORIDA.

OFFICE UNITED STATES SURVEYOR-GENERAL,  
*Tallahassee, Fla., June 30, 1892.*

SIR: In accordance with instructions contained in your circular letter "A," of February 20, 1892, I have the honor to submit in duplicate the annual report of this office in relation to the surveying district for the fiscal year ending June 30, 1892.

I also submit duplicate tabular statements as follows:

- A. Number of townships surveyed and miles run.
- B. Number of plats and transcripts made.
- C. List of contracts entered into.
- D. Plats and descriptions of private land claims for patents.

There has been no extension of the public surveys in this State during the current fiscal year; no general appropriation having been set apart therefor, the survey work which was carried out was in connection with former surveys and was paid for out of the appropriation of the reserve fund.

By the report of Deputy Moorhead, which confirms the survey of the township line between Ts. 13 and 14 S., R. 20 E., as surveyed by Deputy White in 1882, the first settlers living upon lands which they have acquired by homesteading or purchase, and on which some have valuable improvements, now find themselves about to lose their lands and the labor expended thereon.

By dividing up the sections, 33 and 34, T. 13 S., R. 20 E., and sections 3 and 4 in T. 14 S., R. 20 E., according to their acreage with the new survey and issuing new patents, in which the description as to location should agree with the plats of land really in possession of the claimants, much trouble and annoyance might be avoided.

For example the case of Charles Scott holding papers patent for 63 acres in S.  $\frac{1}{2}$  of NW.  $\frac{1}{4}$  of sec. 4, and who now owns only 38 acres in sec. 4; and I. Davis, whose patent issued in accordance with Weightman's survey calls for N.  $\frac{1}{2}$  of NW.  $\frac{1}{4}$  of sec. 4, really owns no land according to the new survey.

The new settlers will, at most, lose only wild lands, as the lands they have recently taken are but little improved, and scrip issued, which would enable them to obtain lands as valuable as those they now hold, would seem adequate compensation.

Examination was made in the field by Deputy D. D. Rogers of the apparent conflict of the surveys of T. 20 S., R. 16 and 17 E., from which it would appear that T. 20 S., R. 16 E., was not surveyed in 1878 by Charles F. Smith, as represented by the field notes in this office.

The mound, marking the initial point from which the surveys of Florida were originally made, was found to have been obliterated. This initial point has been re-established and a substantial stone has been placed upon the spot. The work of re-establishing this point was considerable, as original markings of corners and lines were in many instances lost, which would have been of assistance in the work. The point has been satisfactorily settled, and the setting and marking of the stone having been carefully executed the whole work is at once creditable and advantageous.

There have been made 6<sup>d</sup> plats and descriptions of private land claims by requisition of the General Land Office and plats in triplicate of the lands surveyed, as above.

A large number of plats in the office are becoming badly worn and must soon be replaced by new ones.

There are no arrears of work in the office at the present time. There are no deficiencies, to my knowledge, remaining unliquidated arising under previous appropriations.

Two lists of swamp and overflowed lands, selected by the State of Florida and covering 86 acres, have been presented in due form by the proper officer, under the act of Congress of September 28, 1850, and have been examined and approved by this office. Duplicate copies were transmitted to the General Land Office and triplicate copies to the land office at Gainesville, Fla., and to his excellency the Governor of

Florida. Several other lists were presented, but after careful examination, one case having been referred to the General Land Office for its decision, they were rejected, not being lands such as are described in the said act as swamp and overflowed lands.

Documents have been transmitted to the several land offices, to other officials, and to individuals during the past fiscal year as follows:

General Land Office:

Letters and reports .....	130
Plats of surveys.....	2
Transcripts of field notes.....	2
Plats and descriptions of private claims .....	6
Lists of swamp lands selected.....	2
United States Land Office at Gainesville, Fla.:	
Letters .....	10
Plats and diagrams .....	4
United States Treasury Department letters .....	12
Florida State officials' letters.....	20
Individuals' letters.....	417

An effort has been made to put the Spanish archives in the best possible condition of cleanliness and to preserve the contents from the ravages of insects and dust. As the ancient Spanish volumes and documents in this office are of great interest and value, some means of preserving these documents with greater security would be very desirable.

The Spanish records of original private land grants (vols. A, B, C, D, E) have been indexed.

The original papers, in connection with claims confirmed and unconfirmed, have been arranged and docketed.

Two volumes of register of claims (A, B) have been indexed.

So far as possible all papers scattered about the office have been collected, and, whenever of value, suitably marked for reference.

The great attention attracted to the mineral lands of this State and the increasing value of lands in the southern portion for agricultural purposes, as well as for horticultural, would seem to point to the desirability of early surveys of quite a number of townships still unsurveyed.

A contract has been entered into with Deputy Surveyor Charles F. Hopkins to connect the public surveys with the new south boundary of the John M. Hanson grant in Ts. 38 and 39 S., Rs. 40 and 41 E., and T. 38 S., R. 42 E.

Another contract has also been entered into with C. E. Camp for the survey of a strip of land called "Gulf Ridge," lying between the Gulf of Mexico and Lemon Bay, in Ts. 40 and 41 S., Rs. 19 and 20 E.

These two surveys are not completed, but are chargeable to the appropriations for the fiscal year ending June 30, 1892.

Very respectfully,

JNO. C. SLOCUM,  
United States Surveyor-General of Florida.

The COMMISSIONER OF THE GENERAL LAND OFFICE,  
Washington, D. C.

## REPORT OF THE SURVEYOR-GENERAL OF IDAHO.

---

UNITED STATES SURVEYOR-GENERAL'S OFFICE,  
*Boise City, July 2, 1892.*

SIR: I have the honor to submit in duplicate the annual report of this office relative to the surveying service, both in the field and in the office, together with the following tabular statements, which show fully the extent and scope of the service in this district for the fiscal year ending June 30, 1892:

A. Statement showing contracts entered into under appropriation of March 3, 1891.

B. Statement showing contract entered into under appropriation of act of February 23, 1889 (sec. 3).

C. Statement of special deposits made by individuals for office work on mining surveys during the fiscal year ending June 30, 1892.

D. Statement showing the number of linear miles run during the fiscal year ending June 30, 1892.

E. Statement showing the amount of office work performed during the fiscal year ending June 30, 1892.

F. Statement showing the character and condition of surveying instruments belonging to the different deputies.

### AGRICULTURAL SURVEYS.

Contracts Nos. 123 and 124 were completed, duplicate plats and account sent to the Commissioner, and triplicate plats to the local land office. Contract No. 123, T. 8 N., R. 22 E., was rejected by the Commissioner for certain errors in the field. The deputies have been instructed to make the re-surveys but were delayed by deep snow. The office is informed that Deputy Rhoades is making the resurvey now.

Contract No. 126 was completed in the field and the office, duplicate plats and account sent to the General Land Office, and triplicate plats to the local land office.

It embraces the country known as "Deer Flat," lying between Snake River and the Oregon Short Line Railway west of the Boise meridian.

The surveys under contract No. 127 are about finished, but no returns of field notes made.

The lands embraced in this contract are situated between third standard parallel north and the Seven Devils country and between the existing surveys west of the meridian and Snake River.

Contract No. 128 is finished, and plats sent to the local land office. It includes the surveyable lands in the valley of the south fork of Cœur d'Alene River.

The field work of contract No. 129 is completed, and the notes have been examined. All the transcripts have been made, and also some of the plats. It embraces the surveyable portion in Salmon River Valley.

An extension of time was granted on contract No. 130, and returns may not be expected until the end of the season.

The granting of additional time was particularly due to the fact that John A. Long, one of the contracting deputies, has entirely withdrawn from the service and that Oscar Sonnenkalb has to finish the balance of the work alone.

Sonnenkalb and Long's contract No. 131 is finished and the notes are on file in this office.

Both of the last named contracts include fractions and portions of townships outside of the Nez Perce Indian Reservation; townships east and south of the Cœur d'Alene Indian Reservation; some townships along Clark's Fork of the Columbia River, and the winter pasture connected with Fort Sherman.

Contract No. 132 has been completed in the field and the office. It embraces the Boise meridian to the British boundary. This line reveals remarkable features of

the land it traverses, and is of such importance to the service that it was immediately worked up and the plat transmitted to the Commissioner for approval.

Contract No. 133, covering the ceded portion of the Cœur d'Alene Indian Reservation, also an addition to the Fort Sherman military reservation and the private claim of Frederick Post, is about finished in the field, although no returns are yet made to this office. Deputy Edson D. Briggs, acting under the instructions of Miss Alice Fletcher, Indian agent of the Nez Perce Reservation, sent to this office the notes of sixteen townships within the reservation for allotment purposes. All the plats and transcripts have been prepared and are well nigh ready for transmission.

The sum of \$39,050 was apportioned to Idaho for surveys during the fiscal year ending June 30, 1892, and contracts for surveys to that amount were let as follows:

*Appropriation of March 3, 1891.*

Special instructions to Edson D. Briggs.....	\$70
Contract No. 134, Abraham L. Rinearson .....	4, 500
Contract No. 135, Frank Ribletts .....	6, 000
Contract No. 136, John B. Hastings.....	6, 500
Contract No. 138, Amos D. Robinson.....	600
Contract No. 139, Franklin W. Hulett .....	3, 000
Contract No. 140, James M. Porter.....	4, 000
Contract No. 141, Charles S. Wilkes and Thomas A. Perkins .....	2, 600
Contract No. 142, Edmund T. Perkins, jr.....	500
Contract No. 143, Frank C. Mandell .....	188
Contract No. 144, Amos D. Robinson and James E. Dike.....	5, 000
Contract No. 145, Edson D. Briggs.....	2, 342
Contract No. 146, Charles S. Wilkes and Thomas A. Perkins .....	3, 700
Special instructions to Amos D. Robinson for survey of Eaton townsite.....	50
<b>Total .....</b>	<b>39, 050</b>

*Appropriation of February 23, 1889.*

For the survey of certain townships in the Fort Hall Indian Reservation:

Contract No. 137, W. Clayton Miller and David M. White ..... \$10, 033

For the fiscal year 1890 and 1891, contracts were let to the amount of \$29,240. Of these contracts (for year 1890-'91 and 1891-'92) there are still outstanding contracts to the amount of \$60,000; of these a large number will be completed and returns made to this office in the next sixty days.

With regard to the amount (\$3,000) appropriated for pay of the clerical force of this office for the year ending June 30, 1892, and duplicated in House bill just passed for year ending June 30, 1893, I desire to say that this amount has been and will be entirely inadequate and out of all proportion to the amount of work to be done.

The natural result of such meager appropriation for clerk hire will be that contracts for agricultural surveys can not be examined and worked up in this office, and great hardship to deputy surveyors and settlers will follow. The State also will suffer, as selection of donated lands can not be made until surveys are approved. Meanwhile all valuable lands are being rapidly taken by settlers.

It has been found impossible for this office to get enough competent and reliable surveyors to make the needed surveys in the north part of this State, even at the maximum augmented rate of eighteen, fifteen, and twelve dollars per mile. This section is a mass of mountains, timber, and underbrush, and contractors in that region, almost without an exception, lost money in the past season. The special rate of twenty-five, twenty-three, and twenty dollars per mile should be allowed for these exceptionally difficult surveys.

The sum of \$410 was assigned to this office for the inspection of contracts 126 and 129. Frederick J. Mills was appointed inspector for the latter and Edmund T. Perkins, jr., for the former. The expense account of Mills was \$235.05 and that of Perkins \$148.75, leaving a balance on hand of \$26.20.

The list of deputies remains virtually the same, as shown in my last annual report, with the following exceptions:

T. H. Latimer resigned his deputyship February 10, 1892.

James M. Page with post-office address of Twin Bridges, Mont., was reinstated February 23, 1892.

Edwin H. Kellogg was appointed deputy mineral surveyor on November 24, 1891. His post-office address is Salmon City, Idaho.

Edmund T. Perkins, jr., of Boise City, was appointed deputy surveyor March 12, 1892.

## MINING SURVEYS.

Seventy-one orders for mineral surveys were issued during the fiscal year; 51 surveys were examined, platted, and the notes transcribed, making a total of 253 mineral plats. Eight amended surveys were made, embracing 11 plats, and 14 new connected sheets were added to the inventory of the office.

The amount of deposits for this work aggregated \$3,365. Judging from present appearances and from recent discoveries reported this service must revive in the near future on a much larger scale than the past few years. Included in above amount is the sum of \$100 for office work for the survey of Eaton townsite.

Very respectfully,

WILLIS H. PETTIT.

*United States Surveyor-General for Idaho.*

Hon. T. H. CARTER,

*Commissioner General Land Office, Washington, D. C.*

F.—Character and condition of surveying instruments belonging to the different deputies.

Date of examination.	Name of owner.	Kind of instrument.	Description.
1892. Feb. 22	John B. Hastings...	Two light mountain solar transits. "Same as in last annual report."	First instrument 2' east, index error none; variation 18° 45' east. Manufactured by W. & L. E. Gurley, Troy, N. Y. Second instrument 1' east; index error 1'; variation 18° 45' east. All parts in good condition. Manufactured by W. & L. E. Gurley, Troy, N. Y.
Apr. 13	David M. White ....	Heller & Brightly transit, with Saegmuller solar attachment. "New."	Manufactured by Heller & Brightly, Philadelphia, Pa. Movable tripod head; plate, 6½ inches; vertical arc reading to 20 seconds; needle, 5½ inches long; stadia wires in both telescopes; no index error. All parts in perfect adjustment. Variation, 18° 45' east.
Apr. 13	.....do .....	C. M. Eddy & Co., steel tape.	For standard purposes, 50 feet long. Correct.
Apr. 13	.....do .....	Two steel chains .....	One two-pole chain; No. 12 steel wire; brazed links. Correct. One four-pole chain; No. 12 steel wire, brazed links. Correct.
May 3	James M. Porter....	Light mountain solar transit.	Manufactured by W. & L. E. Gurley, Troy, N. Y. Adjustable tripod and tripod head. Solar attachment with Jones's patent latitude arc and reversible level bubble. Plate, 6 inches diameter; needle, 4 inches long; all modern improvements. Correct in all details. Variation, 18° 45' east.

NOTE.—The above instruments were tested by this office on the meridian near Boise. The following correspondence shows the condition of instruments, the owners of which are stationed too remote from this place to make the shipping or bringing of the same advisable. The examinations were conducted by different persons and their statements accepted by this office.

WALLACE, IDAHO, May 7, 1891.

We, the undersigned civil engineers, hereby certify that we have examined the Gurley light mountain transit belonging to W. Clayton Miller, United States deputy surveyor, and found the same in perfect adjustment as indicated by the usual tests, including double reversion.

FRANK C. LORING,  
United States Deputy Min. Surveyor.  
F. E. LUCAS,  
Civil Engineer.

WALLACE, IDAHO, *May 14, 1891.*

I hereby certify that upon this day I have tested two 66-foot chains of 100 links, each, just received from Gurley Bros., of Troy, N. Y., and found them of the length required by the regulation of the honorable Commissioner of the Land Office, pertaining thereto, to be used in contract No. 128.

W. CLAYTON MILLER,  
*United States Deputy Surveyor.*

---

[Office of W. & L. E. Gurley, Manufacturers of Civil Engineers' and Surveyors' Instruments.]

TROY, N. Y., *July, 10 1891.*

DEAR SIR: This is to certify that the light mountain transit shipped to you this day has been carefully and critically tested and leaves our hands in perfect adjustment and ready for immediate service.

It has had the personal inspection of our Mr. W. F. Gurley.

Yours, very truly,

W. &amp; L. E. GURLEY.

F. J. MILLS, C. E.,  
*Mission, Idaho.*

---

U. S. COAST AND GEODETIC SURVEY,  
*Washington, D. C., November 25, 1891.*

SIR: The chains submitted by you for verification on November 9, have been compared with the United States Bench Standard.

One of the chains is unmarked, the other has a single file-mark on the outside of each handle.

The unmarked chain when laid straight on the standard without tension is five thirty-seconds of an inch longer than 66 feet at 62° Fahr.

The file-marked chain under similar conditions is seven sixty-fourths of an inch too short, but correct when subjected to a tension of 14 pounds.

The cost of this verification is one dollar, which please pay to the assistant in charge of office and topography.

Yours respectfully,

T. C. MENDENHALL, *Superintendent.*

MESSRS. FAUTH & Co.,  
*Second street and Maryland ave., Washington.*

---

FAUTH & Co.,  
*Washington, D. C., January 12, 1892.*

DEAR SIR: The transit we sent you with the Saegmuller solar attachment is in thorough adjustment, and has been tested on a meridian laid out with a large astronomical transit. The solar will determine the meridian with one observation within one minute of arc. We inclose the comparison of the two chains, as we received it from the Supt. of the U. S. Coast Survey Office.

Respectfully yours,

FAUTH &amp; Co.

Mr. FRANK RIBLETTS,  
*United States Deputy Surveyor, Albion, Cassia Co., Idaho.*

---

[Office of W. & L. E. Gurley, Manufacturers of Civil Engineers and Surveyors' Instruments.]

TROY, N. Y., *February 17, 1892.*

*To whom it may concern:*

This is to certify that we have carefully repaired, readjusted, and tested the solar compass belonging to F. Hulett, of Silver City, Owyhee County, Idaho, and it leaves our shop carefully packed for transportation.

This solar compass is in order for immediate and good service, as it leaves us.

Very respectfully,

W. &amp; L. E. GURLEY.

[Keuffel & Esser Co., manufacturers and importers of drawing materials, surveying and mathematical instruments.]

NEW YORK, N. Y., *March 31, 1892.*

GENTLEMEN: In reply to your favor of the 22d, we beg to say that the tape No. 6562, 50 feet, which we sent you as per your order, was compared with a copy of the Coast Survey standard in our factory and agreed with it at 62° F. and 2 pounds tension, the tape being supported over its entire length.

We return Mr. Robinson's letter herewith.

Yours, respectfully,

KEUFFEL & ESSER CO.,  
HERMAN ESSER, *Treasurer.*

Messrs. JOHN W. GRAHAM & CO.,  
*Spokane, Wash.*

---

POCATELLO, IDAHO, *June 10, 1892.*

DEAR SIR: On or about May 1, 1892, I carefully examined a light mountain transit with solar attachment, the property of Mr. A. D. Robinson, of Rathdrum, and that on that date it was in perfect adjustment and condition. It is a good, nearly new instrument. Mr. R. asks me to report on it and I made thorough examination of it for this purpose. Also two new steel band chains, 66 feet each, of standard length.

Very respectfully, yours,

F. J. MILLS.

Hon. WILLIS H. PETTIT,  
*U. S. Surveyor-General, Boise City, Idaho.*

## REPORT OF THE SURVEYOR-GENERAL OF LOUISIANA.

OFFICE OF UNITED STATES SURVEYOR-GENERAL,  
*New Orleans, La., July 1, 1892.*

SIR: In compliance with your letters of February 20 and 22, 1892, divisions A and E, respectively, I beg to submit herewith my annual report of the operations of this office for the fiscal year ending June 30, 1892, with the following tabulated statements attached, viz:

A. Estimate of funds to be appropriated for surveying service in the district of Louisiana for the fiscal year ending June 30, 1894.

B. Estimate of funds to be appropriated for the compensation of the surveyor-general and his clerks in the district of Louisiana for the fiscal year ending June 30, 1894.

C. Estimate of the funds to be appropriated for "contingent expenses" in the office of the United States surveyor-general, district of Louisiana, for the fiscal year ending June 30, 1894.

D. Statement of office work in arrears in the surveyor-general's office, district of Louisiana.

E. Statement of surveying contract entered into by the surveyor-general of Louisiana on account of appropriation for the fiscal year ending June 30, 1890. (See Commissioner's letter of March 4, 1890.)

F. Statement of surveying contract entered into by the surveyor-general of Louisiana. (See Commissioner's letter dated May 21, 1891.)

G. Statement of surveying contract entered into by the surveyor-general of Louisiana, on account of appropriation for the fiscal year ending June 30, 1892.

### OFFICE WORK.

For several years past attention has been called to the inadequate clerical force allowed this office to keep up with the work required. This office is allowed a chief clerk, a chief draftsman, a clerk and calculator, an assistant draftsman, and a messenger and porter. Each of the draftsmen and clerks have been kept busy constantly, employed in examining the returns made by Deputy Surveyor R. B. Paine, under his contract No. 1 of November 11, 1889, tabulating his notes, calculating areas, protracting and making therefrom plats in triplicate, and transcribing field notes; also examining and completing the transcribing of the field notes of the returns made by Examiner J. L. McManus, jr., of his examination of the surveys made by Deputy Paine.

Examination, tabulating notes, calculating areas, protracting and making plats therefrom in triplicate, and transcribing field notes of survey and relocation of the back line of the McDonogh and Fontenot claims, as made by Deputy Surveyor George H. Grandjean, under contract No. 3, dated February 15, 1892, and also of the surveys made by United States Deputy Surveyor J. L. McManus, jr., under special instructions from this office bearing date November 14, 1891; preparing surveying and quarterly accounts; investigating applications for certificates of location and issuing script for the same, as provided for in section 3, act of June 2, 1858, and copying the evidence submitted in support of the same; corresponding with the Department, attorneys, and claimants, in regard to the same, and other matters, and with deputy surveyors and individuals having business with the office, has entailed upon this office an extraordinary amount of work, requiring endurance and skill.

The work in arrears, as shown by Exhibit D, can only be attributed to the small clerical force that is allowed this office, as the force on hand is entirely too small to keep pace with the work required, and many citizens are therefore unable to obtain patents on fully 5,000 private claims because we can not prepare plats of survey and at the same time keep up with the other requirements of the office.

I desire here to call special attention to the very small salary allowed and pub-

lished in the Blue Book for the assistant draftsman. He is at present allowed \$600 per year, or \$50 per month, to perform a duty that requires technical knowledge and skill, and he should receive an increased allowance commensurate with the responsibilities of his position.

#### SATISFACTION OF CONFIRMED CLAIMS UNDER SECTION 3, ACT OF JUNE 2, 1858.

Under this heading I desire to report that during the year just closed we have adjusted twenty-eight claims, numbered 551 to 578, inclusive, and aggregating 21,824.05 acres.

This I regard as doing well when the small clerical force allowed and the intricate and difficult comprehension and intelligent determination of the claims are considered. There is a great amount of labor required to thoroughly investigate and decide these claims, owing to the peculiarity of the laws of this State and the imperfect surveys of the past.

In the matter of the claim of Marie Malines, born Rillieux, submitted to me for hearing and decision by your letter of June 11, 1891 (Division D), I beg to say that after a careful consideration of the evidence before me I felt satisfied that the "French grant" to Marie Malines of 1764 had been satisfied in its entirety with its established boundaries, and so reported in my letter to your office of date March 17, 1892, since which time J. Q. A. Fellows, esq., counsel for plaintiff, has taken an appeal to your office under the rules of practice. The work required in reaching a decision in this case was tedious and required considerable time in the examination of the very voluminous records filed by the attorneys in the case.

#### UNSURVEYED LANDS.

This matter failing to secure any action by the last Congress, and regarding action as necessary, I again beg to call your attention to the reference made in my last report on page 358 of the "Bureau Report of 1891."

#### FIELD WORK.

The balance of the surveying returns made by United States Deputy Surveyor Ruffin B. Paine, under his contract No. 1, dated November 11, 1889, and which were undergoing examination in this office at the time of the transmittal of my last annual report, comprising fractional townships 8 and 9 S., R. 1 E., Ts. 8, 9, and 10 S., R. 2 E., and entire T. 9 S., R. 3 E., aggregating 31 miles 53 chains 66 links of township lines; 191 miles 51 chains 43 links of subdivisional lines; 39 miles 64 chains 85 links of meander lines, and 26 miles 58 chains .03 link of connecting lines, all situated in the southeastern district, Louisiana, east of the Mississippi River, and within the former limits of the "Houmas grant," have been examined and approved by this office, the duplicate plats and transcript of the field-notes thereof, transmitted to the Department for authentication, and that part comprising T. 9 S., R. 3 E., and fractional townships 9 and 10 S., R. 2 E., T. 10 S., R. 3 E., accepted, and the triplicate plats thereof filed in the United States land office here, thus completing both the field and office work under this contract.

During the past fiscal year a survey was made by United States Deputy-Surveyor J. L. McManus, jr., under special instructions issued by this office on November 14, 1891, as authorized by departmental "E" of November 3, 1891, being a resurvey of the back preëmptions of John Minor in township 9 south, range 2 east, in the southeastern district, Louisiana, east of the Mississippi River. The said survey, aggregating 0.11 mile 2 chains 64 links of subdivisional lines, and 1 mile 17 chains 19 links of connecting lines, was approved and the plat and transcript of the filed notes thereof forwarded to the Department for authentication.

On February 15, 1892, a contract was awarded to United States Deputy-Surveyor George H. Grandjean for the survey and location of the back line of the private land claims of John McDonogh, jr., & Co., register and receiver No. 406, and Henry Fontenot, register's report No. 57, as required by the decision of the honorable Assistant Secretary of the Interior of date May 14, 1891, and the survey of the public lands situated to the north of said back line, and between it and the rejected back line of said claims in township 10 south, range 6 east, in the southeastern district, Louisiana, east of the Mississippi River, as surveyed by United States Deputy-Surveyor Ruffin B. Paine, under his contract of November 11, 1889.

Deputy Grandjean has made the returns of his surveys under his above-mentioned contract to this office, and the same, aggregating 12 miles 2 chains 50 links of subdivisional lines, 5 miles 00 chains 89 links of meander lines, and 2 miles 55 chains 41 links of connecting lines have been approved, and the plats and the transcript of the field notes forwarded to the Department for authentication.

In closing this report,\*permit me to call your attention to the explanatory notes attached to and in support of the several amounts submitted in statements A, B, and C, being respectively estimates of funds for surveys, compensation of myself and clerks, and contingent expenses of this office for the fiscal year ending June 30, 1894, which I commend to your favorable consideration, with the request that you recommend the amounts asked for in these estimates to Congress for action.

Very respectfully, your obedient servant,

CHAS. B. WILSON,  
Surveyor-General, Louisiana.

The COMMISSIONER OF THE GENERAL LAND OFFICE,  
Washington, D. C.

A.—*Estimate of funds to be appropriated for surveying service in the district of Louisiana for the fiscal year ending June 30, 1894.*

In the southeastern district, Louisiana .....	\$10,000
In the southwestern district, Louisiana.....	7,000
In the northwestern district, Louisiana.....	10,000
In the district north of Red River .....	10,000
For original surveys and corrective surveys of confirmed private land claims and donations .....	8,000
Total .....	45,000

EXPLANATORY NOTES IN SUPPORT OF THE SEVERAL AMOUNTS SUBMITTED IN THE STATEMENT MARKED "A," BEING ESTIMATES FOR SURVEYING SERVICE IN LOUISIANA.

First. In the southeastern district \$10,000 is estimated as necessary for the much-needed resurvey of a few townships above New Orleans, and as far up as Donaldsonville; the necessity for these surveys having been fully demonstrated to this office by some of the deputies of this office who had occasion to make surveys in those localities, and who found great difficulty in making their surveys on account of misclosures existing in the old surveys, and also for want of established Government lines, as in many instances the old lines can not be found, causing much loss of time in hunting up proper starting points.

Second. Seven thousand dollars is found to be necessary for the resurvey of a few detached townships in the southwestern district, in support of which several petitions of settlers are on file in this office asking that said survey be made.

Third. In the northwestern district I have estimated that \$10,000 is necessary for the survey of several detached townships. These surveys have been applied for, and the necessity for same fully demonstrated to this office, both verbally and by petitions from settlers.

Fourth. The same reasons as given for the northwestern district are applicable to the district north of Red River, where it is estimated that \$10,000 is necessary for the surveys therein.

Fifth. This estimate of \$8,000 is for original surveys, resurveys, and corrective surveys of confirmed private-land claims in all the districts of the State.

B.—*Estimate of funds to be appropriated for the compensation of the surveyor-general and his clerks in the district of Louisiana for the fiscal year ending June 30, 1894.*

	Salaries as paid under the present appropriations.	Salaries regarded as necessary.
Surveyor-general .....	\$1,800	\$2,000
Chief clerk .....	1,800	1,800
Chief draftsman .....	1,400	1,500
Clerk and calculator.....	1,200	1,400
First assistant draftsman.....	600	1,300
Second assistant draftsman.....		1,200
Clerk to continue exhibits of private land claims.....		1,400
Seven clerks to bring up arrears work.....		7,000
Total .....		17,600

EXPLANATORY NOTES IN SUPPORT OF THE SEVERAL AMOUNTS SUBMITTED IN STATEMENT MARKED "B," BEING ESTIMATES FOR COMPENSATION OF THE SURVEYOR-GENERAL AND HIS CLERKS IN THE DISTRICT OF LOUISIANA.

First. The estimate of my own salary, \$2,000, is for the amount originally fixed by law, and which I consider a very moderate compensation for the labor and responsibilities of the office.

Second. The salary of my chief clerk I have estimated at \$1,800, as he not only does the duties required of him, but in addition by his knowledge as "stenographer and typewriter," has in such capacity rendered much valuable service to the office, and I think the amount estimated as necessary for his compensation is only fair.

Third. To perform with safety and credit to the Government the duties of chief draughtsman, whose duties are also to examine all the surveying returns, I believe the amount of \$1,500 as estimated to be moderate.

Fourth. The salary of the clerk and calculator should be at least as estimated, \$1,400. His duties are very important, as when not employed as "calculator," which work by itself is very tedious, he is required to examine into all applications made for "certificates of location," under the act of June 2, 1858, and as the Department is well aware, these examinations can only be made by a person of much experience and who is also thoroughly acquainted with the land laws and regulations as well as the many different decisions regarding private land claims.

Fifth. In my humble judgment the salary of the first assistant draftsman, which has been for the past years entirely too small, should be increased to \$1,300, the amount estimated by me as necessary for his compensation. His duties are very technical, as he is not only required to make copies of maps, but has also to protract maps from the field notes and to assist the first draughtsman generally.

ADDITIONAL FORCE VERY MUCH NEEDED.

Sixth. The second assistant draftsman, whose duties will be to help the other draftsmen and also to prepare maps and notes to be furnished to deputies. etc., should receive a compensation of \$1,200, as estimated.

Seventh. I estimate that a salary of \$1,400 would only be a very ordinary compensation for the most important work of continuing the exhibit of private land claims. The work is of so peculiar and technical a nature that it will necessitate the employment of an expert to continue the work.

Eighth. I have estimated that seven clerks, at a salary of \$1,000 each, will be necessary to bring up the work in arrears. The estimate, I hope, will be found very low considering the work which will have to be done under this head, which is detailed in statement marked "D" and to which I beg to refer.

For the above reasons I earnestly recommend that the amount asked be appropriated so as to enable me to increase the much-needed clerical force of this office, as well as the salaries of my present force.

C.—*Estimate of funds to be appropriated for contingent expenses in the office of the surveyor-general, district of Louisiana, for the fiscal year ending June 30, 1894.*

Salary of messenger .....	\$720
Salary of porter .....	600
Stationary, binding, and other incidental expenses .....	500
Total .....	1, 820

EXPLANATORY NOTES IN SUPPORT OF THE SEVERAL AMOUNTS SUBMITTED IN STATEMENT MARKED "C," BEING ESTIMATES FOR "CONTINGENT EXPENSES" IN THE OFFICE OF SURVEYOR-GENERAL, DISTRICT OF LOUISIANA.

First. I have estimated a compensation of \$720 for messenger hire and \$600 for porter hire to be moderate for each the messenger and the porter, considering the general help they are expected to give in the office in addition to their regular work.

Second. The amount of \$500 estimated as necessary for stationery, binding, etc., is necessary, especially if the "appropriation for clerks" is increased.

D.—*Statement of office work in arrears in the surveyor-general's office, district of Louisiana.*

First. Continuing and completing the exhibit of private land claims for all the districts of the State, except the southeastern district. (See L. O. R. for 1886, p. 507.)

Second. Preparation of patent plats in duplicate for the located confirmed private claims for 5,880 claims. (See L. O. R. for 1889.)

Third. Two hundred township maps to be reprotracted or reproduced. (See L. O. R. for 1889.)

Fourth. Examination and researches to prepare confirmed private land claims for survey and location. (See L. O. R. for 1889.)

Fifth. One thousand and eighty private land claims, for which certificates of location are to be issued, under the act of Congress approved June 2, 1858. (See L. O. R. for 1889.)

Sixth. Indexing record of letters to individuals from January 1, 1890, to date.

Seventh. Indexing books of field notes in the different districts.

Eighth. Copying general index of Commissioner's letters to surveyor-general from July 26, 1803, to December 26, 1873, and completing said index to date.

Ninth. Labeling and wrapping anew bundles containing field notes, and also plats, certificates, and orders of survey.

Tenth. Labeling and wrapping anew the bundles containing letters from registers and receivers.

Eleventh. Labeling and wrapping anew old vouchers for disbursements.

Twelfth. Recording nearly all the field notes for preservation, a great number of which have become so torn, and partly defaced on account of constant use and age, rendering them illegible, and if not soon recorded will become useless.

E.—Statement of surveying contract entered into by the surveyor-general of Louisiana, on account of the appropriation for the fiscal year ending June 30, 1890. (See Commissioner's letter of March 4, 1890.)

No.	Date of contract.	Name of deputy surveyor.	Locality of work.	District.	Estimated liability.	Amount paid to date.	Amount due.
1	Nov. 11 1889.	Ruffin B. Paine.	Frac. townships 8 and 9 S., R. 1 E., T. 8, 9, 10, S., R. 2 E., T. 9 and 10, S., R. 3 E., T. 10 S., R. 4 E., T. 10 S., R. 6 E., and the location of the claims of John McDonogh, jr., & Co., and of Henry Fontenot. (See decision of the Hon. Secretary of the Interior, of January 6, 1888, and January 25, 1889.)	Southeast district Louisiana, east of Mississippi River.	\$7,500.00	\$5,173.43	\$719.93

Surveys completed, maps and notes approved and transmitted.

Surveys in T. 9 and 10, S., R. 2 E., T. 9 and 10 S., R. 3 E., and T. 10 S., Rs. 4 and 6 E., accepted, with the exception of the location of the back line of the McDonogh and Fontenot claims. Surveys in T. 8 and 9 S., R. 1 E., and T. 8 S., R. 2 E., approved and transmitted, but not yet accepted. The amount due, \$719.93, was reduced to \$679.88. (See Commissioner's letter June 29, 1892.)

F.—Statement of surveying contract entered into by the surveyor-general of Louisiana on account of appropriation for the fiscal year ending June 30, 1891. (See Commissioner's letter dated May 21, 1891.)

No.	Date of contract.	Name of deputy surveyor.	Locality of work.	District.	Estimated liability.
2	1891. June 5	Ruffin B. Paine...	Location of the back line of the private land claims of John McDonogh, jr., & Co., R. and R. No. 406, and Henry Fontenot, register's report No. 57, in T. 10 S., Rs. 5 and 6 E., as required by the decision of the Hon. Assistant Secretary of the Interior, dated May 14, 1891.	Southeastern district Louisiana, east of Mississippi River.	\$400.00

Application for extension of time to execute surveys disapproved. Contract canceled.

G.—Statement of surveying contract entered into by the surveyor-general of Louisiana on account of appropriation for the fiscal year ending June 30, 1892. (See Commissioner's letter dated February 23, 1892.)

No.	Date of contract.	Name of deputy surveyor.	Locality of work.	District.	Estimated liability.	Amount due.
3	1892. Feb. 15	G. H. Grandjean..	Location of the back line of the private land claims of John McDonogh, jr., & Co., R. & R. No. 406, and Henry Fontenot, register's report No. 57, in T. 10 S., Rs. 5 & 6 E, as required by the decision of the Hon. Assistant Secretary of the Interior, dated May 14, 1891.	Southeastern district of Louisiana, east of Mississippi River.	\$400.00	\$266.88

Surveys completed, maps and notes approved and transmitted.

# REPORT OF THE SURVEYOR-GENERAL OF MINNESOTA.

OFFICE OF THE UNITED STATES SURVEYOR-GENERAL,  
St. Paul, July 1, 1892.

SIR: In compliance with instructions contained in your letter "E," dated April 22, 1892, I have the honor to submit herewith in duplicate my annual report of the surveying operations in the district of Minnesota for the fiscal year ending June 30, 1892, with the following tabular statements:

A. Statement of contracts entered into by the surveyor-general of Minnesota for the survey of public lands, payable from the appropriation for the fiscal year ending June 30, 1891. (Not closed at date of last annual report.)

B. Statement of contracts entered into by the surveyor-general of Minnesota for the survey of Indian reservations, payable from the appropriations for the survey of the Chippewa Indian Reservation. (Not closed at date of last annual report.)

C. Statement of contracts entered into by the surveyor-general of Minnesota for the survey of public lands, payable from the appropriation for the fiscal year ending June 30, 1892.

D. Statement of contracts entered into by the surveyor-general of Minnesota for the survey of Indian reservations, payable from the appropriation for the survey of the Chippewa Indian Reservation during the fiscal year ending June 30, 1892.

There have been surveyed during the year forty-nine townships or fractional townships, the field notes of which have been examined, the plats made, and transcripts of field notes completed. Fourteen townships have been surveyed and the field notes returned to this office, but not fully examined. The surveys of thirty other townships are reported to have been completed, of which no returns have been received.

The number of miles run and marked in the field during the year, the field notes of which have been examined, is as follows:

	Measurements.		
	Miles.	chs.	links.
Standard and meridian lines .....	36	57	64
Standard and meridian lines resurveyed.....	21	55	68
Township lines.....	219	40	64
Township lines resurveyed .....	23	45	62
Section lines.....	1898	33	34
Section lines resurveyed.....	14	73	59
Lines for subdivisions of sections .....	633	34	56
Meander lines.....	404	14	69
Connecting lines.....	21	13	23
Total.....	3,273	48	99

The number of acres surveyed during the year is 722,431.64, which, added to the amount previously reported, viz, 43,329,087.44, gives the total number of acres surveyed in this State to date, 44,051,519.08.

The number of township plats made is 137.

The number of diagrams of exterior lines made is 27.

There have been prepared during the year 27.

Contracts with deputy surveyors, with full special instructions and diagrams of exterior lines.

These have been prepared for the use of deputy surveyors in the field plats and field notes of exterior lines of 60 townships.

It will be seen from this report that there has been a very large increase in the amount of surveying done in this district during the year over that of the previous year, and a corresponding increase in the office work required to be done.

Besides the surveys of the Indian reservations there has been a large increase in the amount of public-land surveys. There have been returned to this office the field notes of 8 townships of public lands, the plats and field notes of which have not been prepared. Contracts are now let for 17 townships, the surveys of which are now being made, and the field notes will soon be returned. Nine other townships are now authorized to be surveyed, and settlers are known to be located in at least 12 other townships, who are intending soon to make application for surveys.

There will necessarily be a large increase in the office work required to be done during the next fiscal year, and unless there is an increase in the appropriation for salaries of clerks in this office there will be a large amount of work in arrears at the close of the next fiscal year.

All of which is respectfully submitted.

JAMES COMPTON,  
Surveyor-General.

The COMMISSIONER OF THE GENERAL LAND OFFICE,  
Washington, D. C.

A.—Statement of contracts entered into by the surveyor-general of Minnesota for the survey of public lands payable from the appropriation for the fiscal year ending June 30, 1891. (Not closed at date of last annual report.)

No. of contract.	Name of deputy.	Date of contract.	Description of work.	Estimated liability.	Cost of survey.
15	John B. Hawley and John Goodnow.	1890. Sept. 15	Township line between T. 148 N., Rs. 34 and 35 W., north to reservation line. Subdivisions of fractional T. 148 N., Rs. 34 and 35 W., fifth meridian south of Red Lake Indian Reservation. <i>a</i>	\$225. 00	\$153. 88

# REPORT OF THE SURVEYOR-GENERAL OF MONTANA.

UNITED STATES SURVEYOR-GENERAL'S OFFICE,  
Helena, Mont., July 1, 1892.

SIR: In further and complete compliance with requirements of office letters "A," dated February 20, 1892, and "E," dated April 22, 1892, I have the honor to transmit herewith my annual report, in duplicate, of the surveying operations within this district for the fiscal year ending June 30, 1892.

## MINERAL DEPARTMENT.

The following is a synopsis of work done in this Department:

Orders issued for surveys.....	489
Supplemental orders issued for surveys.....	49
Orders issued for reports on placers .....	7
Supplemental orders issued for reports on placers.....	2
Surveys examined and approved .....	481
Amended surveys examined and approved .....	33
Reports on placers examined and approved .....	9
Supplemental reports on placers examined and approved.....	2
Plats made .....	1, 140
Transcripts made of surveys and reports on placers.....	358
Surveys platted on connected sheets.....	846
Surveys replatted on connected sheets.....	358
New connected sheets made .....	205
Connected sheets replatted.....	21
Additional United States deputy mineral surveyors instructed, examined, and appointed .....	8
Deposits for office work on mineral surveys .....	\$14, 970
Deposits for office work on reports on placers .....	90
Total .....	15, 060
Number of letters received .....	2, 323
Number of letters written .....	3, 209
Number of letters transcribed (Commissioner's).....	281

In addition to the foregoing a large amount of miscellaneous work has been performed, but which can not well be stated in detail.

## AGRICULTURAL DEPARTMENT.

The regular appropriation for surveys during the fiscal year was \$50,000, and in addition thereto \$4,000 has recently been transferred to this district from the reserve fund.

The following tabular statement shows the number of surveying contracts entered into thereunder, together with other pertinent details:

No.	Date.	Name of surveyor.	Description of surveys to be made.	Estimated liability.
261	1891. July 25	Frank L. Sizer.....	The west, south, and fractional east boundaries and subdivisions of fractional T. 4 N., R. 11 W.; the fractional west and north boundaries and subdivisions of fractional T. 5 N., R. 11 W., Montana.	\$300.00

No.	Date.	Name of surveyor.	Description of surveys to be made.	Estimated liability.
262	1892. July 27	Charles W. Helmick..	The fractional subdivisions of fractional T. 10 N., R. 5 W.; the sixth standard parallel north, run west 6 miles through R. 8 W.; the fractional north and the west boundary and subdivisions of T. 25 N., R. 8 W., Montana.	\$550.00
264	Nov. 2	Philip M. Gallaher ...	The musselshell guide meridian run north 24 miles more or less, through Ts. 5, 6, 7, and 8 N., between Rs. 29 and 30 E.; the south and east boundaries and subdivisions of Ts. 7 and 8 N., R. 30 E.; the south and east boundaries and subdivisions of T. 8 N., R. 31 E.; the east and west boundaries and subdivisions of T. 7 N., R. 28 E.; the south and east boundaries and subdivisions of T. 8 N., R. 28 E.; the subdivisions of T. 7 N., R. 23 E.; the subdivisions of Ts. 8 N., Rs. 23 and 24 E., Montana.	3,500.00
265	Nov. 3	James S. Keerl.....	As much of the exterior and subdivision lines of the unsurveyed portion of T. 8 N., R. 8 E., as may be necessary to include the claims of Hiram Watkins, E. V. Moore, and J. Moore (approximately situated in secs. 23, 26, and 27), and the claims of all other settlers on the unsurveyed lands of said township.	100.00
(*)	Nov. 2	George Scheetz .....	The fractional north and south boundaries and subdivisions of fractional T. 4 S., R. 38 E.; the east boundary and subdivisions of fractional T. 5 S., R. 38 E., Montana.	260.50
266	1892. Feb. 24	Daniel P. Mumbrue ..	Establish all corners necessary to survey and re-survey the exterior and subdivision lines of T. 30 N., R. 20 W., and Ts. 28 and 29 N., Rs. 21 and 22 W., exclusive of those portions of T. 30 N., R. 20 W. and T. 28 N., R. 21 W., which were subdivided by United States Deputy Surveyor Ernest Rakowicz, under contract No. 224, dated February 16, 1889.	3,300.00
267	Apr. 25	Angus McGillvray...	The fractional east and west boundaries and fractional subdivisions of T. 14 N., R. 7 E.; the fractional subdivisions of T. 16 N., R. 8 E.; the fractional subdivisions of T. 16 N., R. 7 E.; the subdivisions of T. 17 N., R. 5 E.; the subdivisions of T. 16 N., R. 3 E.; the third standard parallel north, run east 6 miles through R. 5 E.; the south and east boundaries and subdivisions of T. 12 N., R. 5 E.; the east boundary and fractional subdivisions of T. 11 N., R. 5 E.; the fractional north boundary and fractional subdivisions of T. 11 N., R. 6 E.; the fractional east and west boundaries and fractional subdivisions of T. 11 N., R. 7 E., Montana.	2,500.00
268	May 6	Austin G. Alexander .	The exterior, subdivisional, meander and connection lines necessary to survey all the agricultural land remaining unsurveyed in T. 7 S., R. 7 E., Ts. 8 and 9 S. Rs. 7 and 8 E.	400.00
269	May 9	Peter McCardell and Abram L. Jaqueth.	The Horse Plains guide meridian run north from the seventh standard parallel north through Ts. 29, 30, 31, 32, 33, 34, 35, 36, 37, and fractional 38 N. between Rs. 25 and 26 W.; the eighth standard parallel north run west through fractional R. 25 W.; the ninth standard parallel north run west through fractional R. 25 W. and through Rs. 26 and 27 W.; the south and west boundaries and subdivisions of Ts. 36 N., Rs. 26 and 27 W.; the west and north boundaries and subdivisions of T. 37 N., Rs. 26 and 27 W.; the fractional west boundaries and subdivisions of fractional Ts. 38 N., Rs. 26 and 27 W.; the retracement of the forty-ninth parallel of north latitude (the north boundary of the United States) between the first boundary monument east of the closing corner to Ts. 38 N., Rs. 25 and 26 W. and the first boundary monument west of the closing corner to Ts. 38 N., Rs. 27 and 28 W., as established by the U. S. Boundary Commission (a distance of 12 miles, more or less) and the establishment of closing corners thereon.	4,200.00
276	May 19	Willgott Klingberg...	Those parts or portions of the standard, guide meridian, exterior and subdivisional lines necessary to survey the unsurveyed agricultural land actually settled upon, or liable to be settled upon, in Ts. 2, 3, 4, 5, 6, and 7 N., R. 21 W.; Ts. 11, 12, and 13 N., Rs. 18 and 19 W., and Ts. 11 and 12 N., Rs. 20 and 21 W., Montana.	2,500.00

\* Special instructions.

No.	Date.	Name of surveyor.	Description of surveys to be made.	Estimated liability.
271	1892. May 24	George T. Lamport ...	The fractional east and south boundaries and fractional subdivisions and meanders of T. 2 S., R. 13 E.; the east, west, and south boundaries and subdivisions of T. 3 S., R. 13 E.; the east and north boundaries and subdivisions of T. 1 N., R. 11 E.; the north boundary and subdivisions of T. 1 N., R. 12 E.; the east, north, and fractional west boundaries and subdivisions of T. 2 N., R. 11 E.; the west and north boundaries and subdivisions of Ts. 2 and 3 N., R. 13 E.; the west boundary and subdivisions of T. 4 N., R. 13 E. The first standard parallel north run west through fractional R. 13 E., and through R. 12 E.; the fractional east and the west and north boundaries and subdivisions of T. 5 N., R. 12 E.; the subdivisions of T. 3 N., R. 16 E.; the subdivisions of T. 4 N., Rs. 21 and 22 E., Montana.	\$4,000.00
272	June 10	Paul S. A. Bicket and Walter G. Filer.	The base line run west through Rs. 16, 17, 18, 19, and 20 W.; the Bitter Root guide meridian run north 6 miles, more or less, through T. 1 N., between Rs. 20 and 21 W.; the east and north boundaries and subdivisions of T. 1 N., Rs. 19 and 20 W.; the east and north boundaries and subdivisions of Ts. 2 and 3 N., R. 20 W.; the first standard parallel north run east through fractional R. 20 W.; the east boundary and fractional north boundary and fractional subdivisions of T. 5 N., R. 20 W., Montana.	4,000.00
273	June 16	Charles Tappan .....	The north, south, and east boundaries and subdivisions of T. 9 S., R. 15 E.; the south boundary to be a retracement of the south boundary of Montana (as established by Rollin P. Reeves, United States surveyor), from the corner to T. 9 S., Rs. 14 and 15 E., to the nearest established corner of the boundary east of a point which is 5 miles, 79 chains, and 23 links east of the corner to T. 9 S., Rs. 14 and 15 E., and to include the establishment of closing corners thereon.	400.00
274	June 17	Henry B. Davis.....	The third standard parallel north through Rs. 13, 14, and 15 W.; and the east boundaries and subdivisions of T. 13 N., Rs. 14 and 15 W., Montana.	1,600.00
275	June 20	Rodney W. Page and Arthur Page.	The north and west boundaries and fractional subdivisions of T. 15 N., R. 21 W.; the south-east boundaries, subdivisions, and meanders of T. 14 N., R. 22 W.; the fractional south and west boundaries, fractional subdivisions, and meanders of T. 15 N., R. 22 W.; the west boundary and subdivisions of T. 16 N., R. 22 W.; the south, east, and north boundaries, subdivisions and meanders of T. 14 N., R. 23 W.; the fractional north boundary, subdivisions, and meanders of T. 15 N., R. 23 W.; the Lou Lon guide meridian through Ts. 14 and 15 N., between Rs. 23 and 24 W.; the exterior, subdivision and meander lines of Ts. 14 and 15 N., Rs. 24 and 25 W. and T. 16 N., Rs. 25 and 26 W.; the fourth standard parallel north run east through R. 22 W., and run west through fractional R. 24 W. and through Rs. 25, 26, and 27 W.; the Horse Plains guide meridian run north through Ts. 17 and 18 N., between Rs. 25 and 26 W.; the exterior, subdivision and meander lines of T. 17 N., Rs. 26 and 27 W., and T. 18 N., Rs. 25, 27, and 28 W.; the east and north boundaries, subdivisions, and meanders of T. 19 N., R. 25 W.; the fifth standard parallel north run west through fractional R. 27 W.; the east, north, and fractional west boundaries and fractional subdivisions and meanders of T. 21 N., R. 27 W.; the Thompson Falls guide meridian run north through fractional T. 22 N. and through T. 23 N., between Rs. 29 and 30 W.; the fractional south boundary, the west boundary and fractional subdivisions and meanders of T. 22 N., R. 30 W.; the exterior, subdivision, and meander lines of Ts. 23 and 24 N., Rs. 30 and 31 W.; the sixth standard parallel north through fractional R. 26 and through Rs. 27, 28, 29, 30, and 31 W.	10,000.00

No.	Date.	Name of surveyor.	Description of surveys to be made.	Estimated liability.
276	1892. June 23	James M. Page .....	East boundary, fractional south and west boundaries and subdivisions fractional T. 32 N., R. 15 E.; Yantic guide meridian through Ts. 32, 31, 30, and 29 N., between Rs. 16 and 17 E.; south boundary and subdivisions of T. 32 N., R. 16 E.; south and east boundaries and subdivisions of T. 32 N., Rs. 17 and 18 E.; south boundary and subdivisions of T. 32 N., R. 19 E.; fractional east boundary and subdivisions of fractional T. 31 N., R. 15 E.; fractional south boundaries and subdivisions of fractional Ts. 30 and 31 N., R. 16 E.; south and east boundaries and subdivisions of Ts. 30 and 31 N., Rs. 17 and 18 E.; subdivisions of fractional T. 29 N., R. 16 E.; east boundary and subdivisions of T. 29 N., R. 17 E.; seventh standard parallel north through fractional R. 16 E., and through R. 17 E.; south and east boundaries and subdivisions of T. 30 N., Rs. 32 and 33 E.; south boundary and subdivisions of T. 30 N., Rs. 34 and 35 E.; eighth auxiliary guide meridian east through T. 30 N., between Rs. 34 and 35 E.; seventh auxiliary guide meridian east through T. 29 N., between Rs. 30 and 31 E.; seventh standard parallel north through Rs. 31 and 32 E.; east and west boundaries and subdivisions of T. 29 N., R. 32 E.	\$6,000.00
277	June 27	Paul S. A. Bickel and Walter G. Filer.	The fifth standard parallel north through fractional R. 8 W.; the west boundary of T. 21 N., R. 8 W.; the south and west boundaries and subdivisions of Ts. 22, 23, and 24 N., R. 8 W.; the sixth standard parallel north through fractional R. 8 W.; the fractional west boundary the north boundary, fractional subdivisions and meanders of T. 29 N., R. 8 W.; the fractional east and west boundaries, fractional subdivisions and meanders of fractional T. 30 N., R. 8 W.; the fractional east boundary, fractional subdivisions and meanders of fractional T. 30 N., R. 7 W.; the fractional subdivisions and meanders of fractional T. 30 N., R. 6 W.; the north boundary, the fractional west boundary and subdivisions of T. 30 N., R. 1 W.; the east and north boundaries and subdivisions of T. 30 N., Rs. 1, 2, and 3 E.. Montana.	4,500.00
279	June 29	Albert A. Morris .....	Base line through fractional Rs. 14 and 15, and fractional R. 16 E.; first standard parallel south through Rs. 15, 16, 17, 18, 19, and fractional Rs. 20 and 21 E.; Stillwater guide meridian through fractional T. 1 S., Ts. 3, 4, 5, 6, and 7 S., between Rs. 16 and 17 E.; fractional east boundary T. 1 N., R. 14 E.; fractional south and east boundaries T. 1 S., R. 14 E.; south boundary of T. 1 S., R. 15 E.; east, west, and north boundaries of T. 5 S., R. 15 E.; south and west boundaries Ts. 1, 2, 3, 4, 6, and 7 S., R. 16 E.; south boundary of T. 1 S., R. 17 E.; fractional south and fractional west boundaries of T. 1 S., R. 18 E.; south and east boundaries of T. 2 S., R. 17 E.; south and fractional east boundaries of T. 2 S., Rs. 18 and 19 E.; south boundary of T. 2 S., R. 20 E.; fractional south and fractional west boundaries of T. 2 S., R. 21 E.; fractional south and fractional east boundary, T. 2 S., R. 22 E.; fractional south boundary of T. 2 S., R. 23 E.; south and east boundaries of Ts. 3 and 4 S., Rs. 17, 18, and 19 E.; north and south boundaries of T. 4 S., Rs. 20 and 21 E.; east boundary of T. 5 S., Rs. 17, 18, and 19 E.; fractional west, and south and east boundaries of T. 3 S., R. 22 E.; west boundary of T. 4 S., R. 22 E.; south and east boundaries Ts. 6 and 7 S., R. 17 E.; north and south boundaries T. 7 S., R. 18 E.; fractional east and fractional west boundaries T. 6 S., R. 19 E.; fractional south boundary of Ts. 6, 7, and 8 S., R. 21 E.; east, west, and south boundaries of Ts. 6, 7, and 8 S., R. 22 E.; south boundary of Ts. 6 and 7 S., R. 23 E.; south and east boundaries of T. 8 S., Rs. 23 and 24 E.; east and west boundaries T. 9 S., R. 24 E.; north and east boundaries T. 9 S., Rs. 25, 26, and 27 E.; the retracement of forty-fifth parallel of north lati-	6,000.00

No.	Date.	Name of surveyor.	Description of surveys to be made.	Estimated liability.
	1892.		tude (the south boundary of Montana) including the establishment of closing corners thereon from the first established boundary monument west of the closing corner to T. 9 S., Rs. 23 and 24 E., to the first established boundary monument east of closing corner to T. 9 S., Rs. 27 and 28 E., a distance of about 24 miles.	

Total appropriation, \$54,000. Total estimated liability of contracts let during fiscal year, \$54,110.50. Contracts Nos. 261, 262, and 265 have been executed and closed, making a saving between the estimated liability thereof and amount actually paid of \$475.52.

There were no contracts entered into during the year chargeable to deposits.  
There were no deposits made during the year by railroad companies.  
The following table shows the aggregate number of miles surveyed during the fiscal year, so far as they have been reported to this office by the various deputies:

	Measurements.		
	Miles.	Chs.	Lks.
Base, standard, and meridian lines.....	266	42	69
Exterior township lines.....	564	68	15
Subdivision lines.....	3,704	01	17
Closing and connection lines.....	34	63	84
Meander lines.....	493	38	88
Indian reservation boundary lines.....	43	60	37
Total.....	5,107	35	10

The following table shows the aggregate number of miles surveyed during the fiscal year ending June 30, 1891, and which were not reported in annual report for that year for the reason that returns had not then been made to this office by the respective deputies. Although forming no part of this report under existing requirements governing its preparation, the table is nevertheless herein incorporated as being necessary to a full understanding of the surveying operations of the district considered continuously from the last report:

	Measurements.		
	Miles.	Chs.	Lks.
Base, standard, and meridian lines.....	135	08	80
Exterior township lines.....	194		
Subdivision lines.....	835	22	27
Closing and connection lines.....		37	54
Meander lines.....	134	24	10
Indian reservation boundary lines.....	109	06	81
Total.....	1,408	19	52

Ninety-one townships and fractional townships have been surveyed during the year and returns made to this office. But very little work done by deputies since the opening of spring has been reported to this office.

No private claims have been surveyed during the year.  
There were made during the year, plats, transcripts of field notes, etc., as follows, viz:

Standard and exterior plats .....	17
Township plats .....	259
Transcripts of field notes.....	124
Tracings, sketch maps, meander sheetts, blue prints, and transcripts for deputies, settlers, special agents, etc.....	199
Total .....	599

The original agricultural plats on file in, and a part of the records of this office, having become much worn by constant use and in danger of serious mutilation

from that cause, they have been backed with muslin during this fiscal year to the number of 1,164.

## EXAMINATION OF SURVEYS IN THE FIELD.

During the year examinations of surveys in the field have been made by authority of the honorable Commissioner, as per the following table:

No. of contract.	Contractor.	Estimated liability.	Examiner.	Allowed cost of examination.	Actual cost of examination.
244	Rodney W. Page.....	\$900.00	George T. Lamport.....	\$250.00	\$250.00
245	J. M. and R. W. Page.....	1,800.00	do.....	550.00	550.00
246	Harry Redfield.....	2,500.00	Charles F. Pearis.....	250.00	246.35
249	George T. Lamport.....	7,000.00	J. M. Page.....	700.00	460.35
260		1,000.00			165.15
250	George Scheetz.....	1,500.00	George T. Lamport.....	700.00	219.27
251		6,000.00			400.00
252	Philip M. Gallaher.....	4,080.00	J. M. Page.....	600.00	345.13
253	Angus McGillvray.....	9,000.00	George T. Lamport.....	500.00	499.65
	Total.....			3,550.00	3,135.90

Contracts Nos. 259 and 261 have been examined by special examiners sent from this office, but the reports of same have not yet been received, and it is therefore impossible to include them herein.

All of which is respectfully submitted.

Very respectfully,

GEO. O. EATON,  
Surveyor-General for Montana.

The COMMISSIONER OF THE GENERAL LAND OFFICE,  
Washington, D. C.

## REPORT OF THE SURVEYOR-GENERAL OF NEVADA.

OFFICE OF UNITED STATES SURVEYOR-GENERAL,  
*Reno, Nev., June 30, 1892.*

SIR: I have the honor to submit, in duplicate, the annual report of this office for the fiscal year ending June 30, 1892, with tabular statements showing contracts let during the year, surveys under special instructions, and special deposits made by the Central Pacific Railroad.

No apportionment from the appropriation for surveys during the fiscal year was made to Nevada. The only work done under the appropriation for the fiscal year is a fraction of a mile surveyed under special instructions, amounting to \$1.79. A small contract, which was let last year, payable from the appropriation of August 30, 1890, for the survey of the abandoned military reservations, amounting to \$325, was executed during the year. Two contracts, embracing parts of four townships, were let, but have not yet been acted upon by the Commissioner.

The arrears of work left over from former years have been fully brought up and current business has been kept up to date. Seven surveys of mineral claims and six amended surveys, which have been ordered, are not yet returned by the deputies.

The Central Pacific Railroad deposited on selections \$88.21 for surveys and \$44.10 for office work.

There were no special deposits by individuals for the survey of public lands made during the year.

Mineral surveys ordered.....	33
Amended mineral surveys ordered .....	12
Mineral surveys returned .....	36
Amended mineral surveys returned.....	11
Mineral plats made .....	177
Mining district plats made .....	10
Township plats made .....	9
Miscellaneous plats made .....	56
Letters received .....	529
Letters sent .....	517

There is a constant call for surveys from different parts of the State, and I would respectfully ask a liberal apportionment to this State from the appropriation for surveys for the fiscal year ending June 30, 1893. There has been very little money expended for public surveys in this State for a number of years, and there is an urgent call for an extension of the surveys in all parts of the State.

Referring to my last report I would again urge that the mountainous portions of the State, which remain mostly unsurveyed, contain the best land for the small farmer on account of its capability of being irrigated at a comparatively slight expense. On this unsurveyed land are numerous settlers who have lived upon the land for a number of years and urgently ask for surveys, that they may perfect title to their land.

In many instances they have expressed a willingness to pay all the expenses of a survey of their land provided the survey could be declared official, so that they could make final entry. I know of no law, however, under which this could be done. Under the special-deposit law and the ruling that only minimum rates can be allowed in special-deposit surveys, it is impossible to get the work done, except in very rare instances. If by reason of the poverty of the Government or other cause it is contrary to the public policy to extend the public surveys at public cost to meet the wants of these settlers, a law should be passed allowing them to have the survey made at their own expense and legalizing the survey, as in the case of mining claims.

The policy of keeping the surveys behind settlement and requiring the settler to go upon unsurveyed land and make his improvements before the surveys will be made, entails upon him great inconvenience and often great loss. He must make his improvements, such as fences, ditches, etc., without knowing where the lines of pub-

lie survey will run, and when the survey is made he must enter his land by legal subdivisions. Often he finds his improvements extending into legal subdivisions which he can not enter, and the labor and money he has expended upon them is a loss to him which he can ill afford. In justice to the pioneer the surveys should be made in advance of settlement, so that the settler may know upon what land he settles, place his fences upon his own lines, and make his irrigating ditches so as to cover his own land.

The conditions of the appropriation for surveys, confining it to agricultural lands, and especially lands already settled upon, the instructions of the General Land Office narrowly defining the term agricultural and requiring a certain number of settlers in each township to join at the same time in an application for survey, and the low rates allowed for surveys, render it almost impossible to extend the surveys in this State. However well these conditions and instructions may apply to other parts of the country, they do not fit the natural conditions here. If the surveys are to be confined to fractions of townships here and there, the rates allowed for surveys ought to be largely increased. The rates allowed are so low as to leave little if any margin for profit, even in contract embracing several contiguous townships. Where the survey is confined to a portion of one township or portions of township widely scattered, the rates are simply prohibitive. If the work is done at all it is done with no expectation of even decent wages to the deputy surveyor, but simply on the urgent appeal of the settlers and to accommodate them.

Meanwhile there are numerous settlers all over the State who have been upon their land ten, fifteen, or twenty years, who want surveys and can not get them. Even when they can find a deputy surveyor who, without hope of profit, will agree to make the survey if it is authorized, and they send in their applications for survey, with affidavits of improvements, etc., as required by the instructions of the General Land Office, they are required to get affidavits from outside parties that they are not swearing falsely. The Department seems to consider that any man who has the hardihood to go out into the mountains of Nevada and try to make a home for himself and his family by cultivating the soil is a just object of suspicion, and that there must necessarily be something wrong about him.

The Government invites settlement upon the public lands, and in behalf of the settlers of this State I would urge that where there are even only one or two settlers in a township who have been living on their lands for several years they are in justice entitled to have it surveyed, so that they may perfect their titles. Contracts for surveys should be authorized embracing sufficient contiguous territory to make the survey practicable under existing rates, or the rates should be increased so as to enable the smaller and scattered tracts to be surveyed.

There are some portions of the State where the settlements are so remote from the existing surveys that the applicants for survey can not designate the township and range they wished surveyed, with any degree of accuracy. In such cases the township lines should be extended over the tracts without regard to whether the lands are mineral or agricultural. Especially is this so in regard to the tract of country extending from range 52 E. to range 63 E. and from the eighth standard north to the State line, embracing the headwaters of the Owyhee, Bruneau, and Salmon rivers, which flow northward into Snake River. In this region there are many settlers who have been upon their land for fifteen to twenty years and have long been asking for surveys. The township lines should be extended over this entire tract, so that the portions which are agricultural may be subdivided.

GEO. F. TURRITTIN,  
*United States Surveyor-General for Nevada.*

HON. THOMAS H. CARTER,  
*Commissioner General Land Office.*

REPORT OF THE SURVEYOR-GENERAL OF NEW MEXICO.

OFFICE OF UNITED STATES SURVEYOR-GENERAL,  
Santa Fe, N. Mex., June 30, 1892.

SIR: In compliance with instructions contained in your circular letter E of April 22, 1892, I have the honor to submit, in duplicate my annual report for the fiscal year ending June 30, 1892.

During the year seven contracts have been awarded for the survey of public lands in New Mexico, five of which are made payable from the appropriation for the survey of public lands, one from the appropriation for allotments in severalty, and one from the appropriation for the survey of abandoned military reservations. The annexed statement, marked "Exhibit A," fully describes each contract.

The annexed statement, marked Exhibit B, is a true statement of surveys which have been returned during the year. The number of miles of different lines established in the Territory during the year is as follows:

	Measurements.		
	Miles.	Chs.	Lks.
Standard .....	42	12	97
Township .....	232	35	83
Subdivisions .....	1,174	18	57
Closings .....	12	60	24
Total .....	1,461	47	61

During the year plats have been made as follows:

Township plats .....	60
Township plats altered and amended .....	9
Exterior diagrams .....	8
Mineral plats .....	168
Mineral plats (amended) .....	5
Mining districts .....	7
Miscellaneous plats and diagrams .....	7
Total .....	264

I have carefully examined in the field the most serious error that has ever been discovered in the early surveys—namely, the erroneous numbering of the ranges crossed by the Penasco River—and have applied the proper correction.

MINING.

From July 1, 1891, to June 30, 1892, there has been deposited on account of the survey of mining claims \$1,150. During the same time applications were made for surveys aggregating 34 mineral locations.

The White Oaks mining district has been resurveyed, the courses and distances and areas throughout have been calculated, and a map has been constructed showing the true position of each claim.

I hope that I may be permitted to do the same for several of our more important mining districts during the coming year. Especially should this be done for the Magdalena district, where work is active and claims are valuable, because some of the older surveys are evidently erroneous and no correct diagram of the district is therefore possible. Exhibit C, annexed hereunto, is a statement showing mineral surveys approved during the year.

## GRANTS.

New Mexico contains over 90 per cent of the Spanish and Mexican grants in regard to which the law of March 3, 1891, was enacted. A multitude of small holders, with whom this office has to do particularly under the provisions of sections 16, 17, and 18, seemed likely, through ignorance, to lose their rights at the expiration of two years from the date of that law. To give them a chance, 3,000 circulars in Spanish, giving a correct translation of the law and calling attention to it, as many in English, and a great number of letters in Spanish were sent out early in the year, throughout the Territory. A great many letters in Spanish and as many in English have been received in return, to which I have replied, explaining the application of the law to particular cases. Forty filings under section 18 have been received, which have been recorded in a book prepared for that purpose, and they are coming in daily. A blank which I have sent out facilitates their preparation.

Spanish title papers in my charge are being constantly called for for examination by attorneys and others. Attending the land court to testify to the genuineness of documents on file in my office has taken much of my time, and holding hearings in grant boundary cases promises to absorb more, but this labor on the grant business is cheerfully undertaken in view of the fair prospect that New Mexico will soon be in a great measure freed from that which has been the greatest obstacle to her progress—the uncertainty of her land titles. Among the benefits in this regard that have been secured by the rulings of the present Secretary of the Department I may mention that the owners of the Scolly grant will soon report to me their selection of 5 leagues of land out of the 25 leagues that have been held for thirty-two years for them to select from, thus releasing to the public domain 87,000 acres of land.

## NECESSARY APPROPRIATIONS.

In my letter to you dated June 27, 1892, I made an estimate of the amounts required for the expenses of this office for the year ending June 30, 1894, as follows:

For surveys of public lands .....	\$30, 000
For survey of private land claims .....	40, 000
Salary surveyor-general .....	3, 000
Salaries clerks surveyor-general's office .....	15, 000
For contingent expenses .....	1, 500

The throwing open of large areas heretofore included in private land claims, notably the Las Vegas grant, lying in thirty-two townships, and the Scolly grant, in nine townships, every township of which contains settlers who wish to get title, makes the appropriation asked for the survey of public lands absolutely necessary.

As to the estimate for the survey of private land claims the decrees of the land court the past year could not be carried out by surveying out to claimants the lands adjudged to them for the lack of appropriation. A large number of cases will be brought before the court the coming year, and the great number of small holdings that will be presented render the amount asked for necessary.

The appropriation for clerk-hire should not be less than the sum estimated. The unusual amount of surveys that will be required, as explained above, will, of course, necessitate a greatly increased amount of platting, transcribing, and other office work. The present allowance for clerk-hire is entirely inadequate, and it is impossible to keep the work up with the force that I can employ. This works a great injustice to settlers and also to the deputies, who have to wait from one to two years before getting their pay.

In the meantime they are paying 1 per cent a month interest on the money they have expended in doing the Government work.

The amount for contingent expenses that has been annually appropriated is used for paying a great number of small expenses that are necessary for carrying on the work of the office.

## ARREARS IN OFFICE WORK.

It is impossible with the small appropriation for clerk-hire for this office to keep up with the current work, and the plats and transcripts of the following contracts are not yet completed:

- Contract No. 259, for townships 16 S., R. 12 E.; 18 S., R. 13 E.
- Contract No. 260, for townships 6 S., R. 17 W.; 32 N., R. 25 E.
- Contract No. 263, for townships 6 S., R. 15 E.; 8 S., R. 14 E.
- Contract No. 265, for townships 6 S., R. 21 W.; 7 S., Rs. 17 and 18 W.
- All in White Oak mining district.

## EXHIBITS.

- A. Statement of contracts let during the year for public surveys.  
 B. Statement showing surveys returned during the year.  
 C. Statement showing mineral surveys approved during the year.

Very respectfully,

EDWARD F. HOBART,  
*Surveyor-General for New Mexico.*

Hon THOMAS H. CARTER,  
*Commissioner of the General Land Office.*

*A—Statement of contracts awarded under appropriations for public surveys for the fiscal year ending June 30, 1892.*

# REPORT OF THE SURVEYOR GENERAL OF NORTH DAKOTA.

UNITED STATES SURVEYOR-GENERAL'S OFFICE,  
Bismarck, N. Dak., June 30, 1892.

SIR: In compliance with your circular letter "A," dated February 20, 1892, I have the honor to submit, in duplicate, my annual report relative to the surveying operations in this district for the fiscal year ending June 30, 1892, together with tabular statements as follows:

A. Statement showing contracts entered into on account of apportionment of \$25,000 made to the State of North Dakota for the survey of public lands during the fiscal year ending June 30, 1892.

B. Statement showing contract entered into for the survey of the out-boundaries of the diminished Fort Berthold Indian Reservation, payable from the first annual installment provided for in article 2, of the agreement concluded December 14, 1886, with the Arickaree, Gros Ventre, and Mandan tribes of Indians, ratified by act of March 3, 1891.

No contracts have been entered into on account of special deposits by individuals for the survey of public lands.

During the fiscal year, letters, documents, plats, field notes, etc., have been prepared as follows:

Letters to Commissioner General Land Office .....	88
Letters to Secretary of Treasury .....	5
Letters to Secretary of the Interior .....	4
Letters to individuals and deputy surveyors .....	207
Plats of new surveys .....	276
Transcripts of field notes of new surveys .....	92
Descriptive lists .....	40
Diagrams for deputy surveyors .....	72
Special instructions prepared .....	14
Contracts prepared .....	12
Total .....	810

There has also been a large amount of miscellaneous work, such as indexing and arranging the field notes and records, of which no detailed statement can be given.

The total number of miles of surveys for which accounts have been forwarded is as follows:

	Measurements.		
	miles.	chs.	lks.
Subdivisions .....	3,744	34	29
Meanders .....	66	08	22
Connecting lines .....	17	60	67

In addition to the foregoing, there is now on hand and in process of platting and transcribing, the field notes of six fractional townships in the Devils Lake Indian Reservation, which were surveyed by Vernon B. Mathews, under direction of Josiah R. Gray, special agent of the Indian department.

In conclusion, I desire to call your attention to the growing necessity for surveys in this district.

North Dakota has at the present time more strictly agricultural land now unsurveyed than any other State, and settlement of these lands are retarded for the want of surveys. During the past season an unusually large amount of grain was raised in this State, and at the present time the prospect is that the crop this season will

equal and perhaps exceed that of last season, and this fact has so increased immigration that settlers are moving in this direction in larger numbers than for several years.

The enabling act of February 22, 1889, admitting North Dakota as a State, donates some 700,000 acres of land to the State for the benefit of its public institutions, and in order to make good selections, the State authorities are compelled to seek the western and northwestern parts of the State to find unoccupied land.

The sales of State lands the past year have averaged about \$30 per acre, and as a consequence the poorer class of settlers are compelled to locate in the western part of the State, and largely on unsurveyed land, being unable to pay the high prices asked for land in older settled portions of the State.

All of which is respectfully submitted.

ERASTUS A. WILLIAMS,  
*United States Surveyor-General.*

Hon. T. H. CARTER,  
*Commissioner General Land Office.*

*A.—Contracts entered into on account of apportionment of \$25,000 made to North Dakota for the survey of public lands during the fiscal year ending June 30, 1892.*

No.	Date.	Deputies.	Character and location of work.	Estimated cost.
10	1891. Sept. 26	George K. Dike and James B. Sinclair.	The subdivision lines of T. 158 N., R. 77; Ts. 157 and 158 N., R. 78; T. 158 N., R. 79, and Ts. 158 and 159 N., R. 80; all west of the fifth principal meridian.	\$1,850.00
	1892. Mar. 28	George K. Dike. (Special instructions.)	The meanders of the Red River of the North to complete the survey of fractional section 6, T. 155 N., R. 50 W.	4.34
11	Apr. 5	George G. Beardsley and George K. Dike.	The twelfth standard parallel from the corner to T. 149 N., of Rs. 85 and 86 to its intersection with the east boundary of the Fort Berthold Indian Reservation; the thirteenth guide meridian from the standard corner to T. 145 N., Rs. 91 and 92, to the 40-mile limit of the Northern Pacific R. R. land grant; the lines between Rs. 88 and 89, 89 and 90, 90 and 91, and 92 and 93 from the eleventh standard parallel to the northerly 40-mile limit of the Northern Pacific R. R. land grant; the line between Ts. 145 and 146 N., through Rs. 88, 89, 90, 91, and 92; also the subdivision of so much of T. 146 N., of Rs. 88, 89, 90, 91, and 92 as lies south of and adjoining the northerly 40-mile limit of the Northern Pacific R. R. land grant, and the southeasterly boundary of the Fort Berthold Indian Reservation, all west of the fifth principal meridian.	1,825.00
13	May 11	Thomas F. Marshall	The subdivision of Ts. 150, 151, and 152 N. of R. 76; Ts. 151 and 152 N. of Rs. 77, 78, and 79; T. 155 N. of R. 100; T. 156 N. of Rs. 101, 102, and 103; and so much of T. 155 N. of Rs. 101, 102, and 103 as lies north and east of the Fort Buford military reservation; all west of the fifth principal meridian.	5,000.00
	May 12	Frank W. Alvord. Special instructions.	For the survey of a tract of land bounded on the north by the line between Ts. 137 and 138, R. 80, on the east by Apple Creek, on the south by the Missouri River, and on the west by the old channel of the Missouri River.	80.00

The boundary lines of the Fort Berthold Indian Reservation, except so much thereof as are plainly marked by natural objects, commencing at the corner to Ts. 146 and 147 N. of Rs. 87 and 88; thence due north to the forty-eighth parallel of north latitude, thence west on the forty-eighth parallel to its intersection with a line running north and south and 6 miles west of the most westerly point of the big bend of the Missouri River; thence due south to the south bank of the Little Missouri River; then commencing at the corner to Ts. 146 and 147 N. of Rs. 87 and 88 and running a straight line to the corner to secs. 16, 17, 20, and 21, T. 146 N., R. 88; thence westerly and along the northerly line of the 40-mile limit of the Northern Pacific R. R. land grant to the quarter-section corner between secs. 13 and 18, on the line between Rs. 92 and 93, in T. 146 N.; thence north on the line between Rs. 92 and 93 to the south bank of the Little Missouri River.	\$2,313

REPORT OF THE SURVEYOR-GENERAL OF SOUTH DAKOTA.

OFFICE OF THE UNITED STATES SURVEYOR-GENERAL,  
Huron, S. Dak., June 30, 1892.

SIR: In compliance with your circular letter E of April 22, 1892, I have the honor to submit in duplicate my report of the surveying operations in this district for the fiscal year ending June 30, 1892, with tabular statements, as follows:

A. Showing contracts entered into on account of apportionment of \$25,000 made to South Dakota for the survey of public lands during the fiscal year ending June 30, 1892.

B. Showing contracts entered into on account of appropriation for surveying the allotted Indian reservations for the fiscal year ending June 30, 1892.

C. Showing office work on mineral surveys during the fiscal year ending June 30, 1892.

No contracts were entered into during the fiscal year on account of special deposits by individuals for the survey of public lands, and no deposits were made for such surveys.

The following table shows the number of miles of public surveys in the district upon which office work was completed and returns transmitted during the fiscal year:

	Measurements.		
	Miles.	Chs.	Lks.
Standard parallels .....	171	11	52
Guide meridians.....	107	46	4
Township and range lines .....	1,205	30	70
Section lines.....	11,365	78	3
Meander lines.....	433	72	15
Connected lines.....	49	16	56
Indian reservation boundaries .....	47	49	...
Retracement of standard lines .....	19	59	39
Retracement of township and range lines.....	96	37	98
Retracement of Indian reservation boundaries .....	2	52	24
Retracement of section lines.....	5	2	75
Total .....	13,504	56	36

Township plats prepared (218 townships platted).....	654
Diagram of Indian reservations of township exteriors .....	20
Transcripts of field notes.....	238
Descriptive lists .....	218

As stated in my report for the year ending June 30, 1891, the archives heretofore of this office relating to United States surveys in North Dakota were, in accordance with instructions of your office letter E, dated July 18, 1890, surrendered to the surveyor-general of North Dakota, excepting that portion of said archives required in the completion of the details of service in this office of service then under contract in North Dakota. All the details of the surveys on said contracts were completed in the early part of the fiscal year now closed; and the archives of these surveys and portion of the archives of prior surveys, retained as stated, were surrendered to the surveyor-general of North Dakota, under date August 31, 1891. This completed the surrender of all archives relating to United States surveys in North Dakota, excepting copies of a large mass of archives of minor importance, not required for cur-

rent work in the North Dakota office, the preparation of which will have to be postponed for lack of necessary clerical assistance.

In accordance with instructions of your office letter E, dated June 20, 1891, the archives heretofore of this office relating to surveys in fractional townships 31 and 32 north of range 6, townships 31, 32, and 33 north, of range 7, and townships 32, 33, and 34 north, of range 8, all west of the sixth principal meridian, between the Niobrara and Missouri rivers, formerly in the Territory of Dakota and now in the State of Nebraska, were surrendered to the commissioner of public lands and buildings for Nebraska, under date July 11, 1891.

The experience of the year now closed, as also of former years, reveals the propriety of inviting attention of yourself, and through yourself of Congress, to the necessity for legislative provision, where none already exists, for certain matters requisite for a sufficient and convenient administration in regard to mineral surveys. These matters are as follows:

### *1. Field examination of surveys.*

As the field notes of mineral surveys furnish descriptions for patents, their accuracy should be well assured. The competition among deputy mineral surveyors, the so-called errors of prior surveys reported, the discrepancies between recent deputies—each and all of these call for a scrutiny far more searching than a mere critical examination of field notes can accord. In addition may be mentioned the increase of office work and increased difficulty of maintaining proper official control of the conduct of deputies when inspection is omitted. In fact, whatever argument exists for inspection of agricultural surveys in which comparatively liberal limits for closing are allowed, the same argument applies with added force to inspection of mineral surveys in which “closed” surveys only are accepted. The matter is worthy of argument longer than the limit of this report permits, and it should have prompt and sufficient attention.

### *2. Connection of locating monuments with each other and with public surveys.*

As the larger portion of mineral surveys are connected to these locating monuments, it is essential that the latter be connected with each other, when practicable, to avoid overlapping surveys of mining claims and other irregularities which otherwise are liable to result. In several former years Congress saw fit to make special appropriation to this end. The custom is worthy of revival, unless provision in other ways is thought preferable.

### *3. Expense attaching to office work on mineral surveys.*

Provision for clerk hire is already made through “deposits by individuals;” but no provision for any other expense attaching to the preparation and conservation of plats of mining records appears to be recognized, except to the extent to which the annual appropriation for contingent expenses is available. It does appear that, inasmuch as Congress can not be expected to intelligently provide for contingent expenses attaching to so variable a quantity as mineral and other special surveys, it would simplify matters very much if the contingent expenses attaching to mineral surveys as well as other expenses so attaching could be made chargeable to the continuing appropriations created by “deposits by individuals,” and thereby leave the annual appropriations for contingent expenses free from this variable charge. Owing to the largely increased number of mineral surveys, it is evident that the annual appropriation has been burdened with an expense which could not in the nature of things have been considered by Congress when making the appropriation. The result of the present construction of law has been disastrous to this office, and has left a mass of records, mineral and agricultural, unprotected by proper binding, filing, and indexing, which should have been given to them.

In closing this report, I desire to mention the propriety, convenience, and admirable working of the method of examining surveys in the field prior to the approval thereof by this office. It has proved of great service in obtaining a proper official control of deputies, and in securing through them more effective field service; and I have the pleasure to express to you my appreciation of your arrangements in this respect.

Very respectfully,

B. H. SULLIVAN,  
*Surveyor-General.*

Hon. THOMAS H. CARTER,  
*Commissioner of the General Land Office, Washington, D. C.*

A.—Statement showing contracts entered into on account of apportionment of \$25,000, made to South Dakota for the survey of public lands during the fiscal year ending June 30, 1892.

No.	Date.	Deputy.	Character and location of work.	Estimated cost.
78	1891. Aug. 25	Frederick W. Pettigrew and Fred. H. Meyer.	The lines between Ts. 9 and 10, 10 and 11, 11 and 12 from the fourth guide meridian (between Rs. 16 and 17) to the established meridian of 102° west from Greenwich, and the subdivisional and meander lines of Ts. 9, 10, 11, 12, 13, 14, 15, and 16, between the west boundary of R. 16 and said meridian of 102°, the same being also the west boundary of the Sioux Indian Reservation, all north of the Black Hills base line and east of the Black Hills meridian, South Dakota.	\$5,000.00
77	Aug. 25	Miles T. Woolley and Birney C. Woolley.	The fourth standard parallel north (south boundary of T. 17 N.) from the standard corner to T. 17 north, of Rs. 12 and 13 E. to the established meridian of 102° west from Greenwich, the same being the western boundary of the Sioux Indian Reservation; the fourth guide meridian (between Rs. 16 and 17) through Ts. 13, 14, 15, 16; all township and range lines between the third and fourth standard parallels from the third guide meridian (line between Rs. 12 and 13) to the said meridian of 102°, excepting the east and north boundaries of Ts. 13 and 14 north of R. 13; and the subdivisional, connecting, and meander lines of Ts. 11 and 12 north of R. 14, and of T. 12 north of R. 15, all east of the Black Hills meridian, South Dakota.	2,500.00
79	Aug. 25	Edwin H. Van Antwerp and Dwight C. Rice.	The lines between Rs. 9 and 10, 10 and 11, 11 and 12 through T. 17; the lines between Ts. 17 and 18 through Rs. 10 and 11, and the subdivisional and meander lines of T. 15 of Rs. 9, 10, 11, and 12, and of T. 16 of Rs. 9, 10, 11, 12, and 13, all north of the Black Hills base line and east of the Black Hills meridian, South Dakota.	3,000.00
80	Aug. 25	Frank S. Peck .....	The subdivisional and meander lines of Ts. 14 and 15 of R. 13, and of Ts. 13, 14, 15, and 16 of Rs. 14 and 15, all north of the Black Hills base line and east of the Black Hills meridian, South Dakota.	3,100.00
84	1892. Apr. 9	Frederick W. Pettigrew and Fred. H. Meyer.	The third guide meridian (between Rs. 12 and 13) through Ts. 17, 18; the fourth guide meridian (between Rs. 16 and 17) through Ts. 17, 18, 19; the line between Rs. 13 and 14, 14 and 15, 15 and 16 through Ts. 17 and 18; the line between Ts. 17 and 18, 18 and 19, through Rs. 13, 14, 15, 16, 17; the line between Ts. 19 and 20 through R. 17, and the subdivisional and meander lines of Ts. 17 and 18 of Rs. 13, 14, 15, 16, 17, and of T. 19 of R. 17, all north of the Black Hills base line and east of the Black Hills meridian, South Dakota: provided, however, that no surveys shall be made within the Standing Rock or Cheyenne River Indian reservations.	4,000.00
85	Apr. 9	Edwin H. Van Antwerp and Charles H. Bates.	The second standard parallel (north boundary of T. 8) in Rs. 9 and 10; line between Ts. 6 and 7, through R. 2; lines between Ts. 5 and 6, 6 and 7, 7 and 8, 9 and 10, 10 and 11, 11 and 12 in Rs. 9 and 10; line between Rs. 9 and 10, through Ts. 5, 6, 7, 8, 9, 10, 11, 12; the subdivisional and meander lines of Ts. 8, 9, 10, 11 of R. 1, of Ts. 7 and 11 of R. 2, of T. 8 of R. 4, of Ts. 5, 6, 7, 8, 9, 10, 11, 12 of Rs. 9 and 10, all south of the Black Hills base line; also the subdivision and meander lines of T. 1 north of the said base line of R. 10, all ranges east of the Black Hills meridian, also the west linear boundary of the Pine Ridge Indian Reservation as defined in 25 U. S., 888, the same being on the meridian of 103° west from Greenwich, South Dakota, provided, however, that surveys shall not be established within the said reservation or within the State of Nebraska.	6,000.00
86	June 27	Monroe Warner .....	The west and north boundaries, and subdivisional and meander lines of T. 6 of Rs. 4 and 5; and the west boundary and subdivisional and meander lines of T. 5 of R. 6, all south of the Black Hills base line and east of the Black Hills meridian, South Dakota. NOTE.—This contract not yet submitted to the Commissioner of the General Land Office for approval.	1,400.00
Total .....				25,000.00

B.—Statement showing contracts entered into on account of appropriation of \$4,000 made for surveying and allotting Indian Reservations, for the fiscal year ending June 30, 1892.

No.	Date.	Deputy.	Character and location of work.	Estimated cost.
81	1891. Sept. 21	Carl Gunderson and Elbert D. Hawkins.	The lines between Rs. 25 and 26, 26 and 27 through Ts. 37, 38, 39, 40, 41, and 42 N.; the line between Rs. 27 and 28 through Ts. 39, 40, 41, and 42 N.; the lines between Ts. 39 and 40 N., 41 and 42 N., 42 and 43 N., through Rs. 25, 26, and 27; the subdivisional lines of Ts. 40, 41 and 42 N. of Rs. 25, 26, and 27, all west of the sixth principal meridian; also those portions of the east boundaries of said Ts. 41 and 42 N. of R. 25 not already established; also the subdivisional lines of Ts. 95 and 96 N. of R. 71; of Ts. 95, 96, and 97 N. of R. 72; and of T. 96 N. of R. 73; and of the exteriors of said townships not already established; all west of the fifth principal meridian South Dakota, provided that no surveys shall be established outside the Rosebud Indian Reservation; and provided further that no surveys shall be established of or south of the boundary line between the States of South Dakota and Nebraska.	\$7,000.00
82	1892. Mar. 26	Carl Gunderson and Elbert D. Hawkins.	The boundary line between the Pine Ridge and Rosebud Indian reservations as the same is defined in an act approved March 2, 1889, "to divide a portion of the reservation of the Sioux Nation of Indians in Dakota into separate reservations * * * and for other purposes," namely, a line extended due south to the north line of the State of Nebraska, from the mouth of Black Pipe creek on White River, South Dakota.	1,400.00
83	Apr. 9	Roscoe K. Watson.....	The lines between Rs. 37 and 38, 38 and 39, 39 and 40 from the north line of the State of Nebraska to the ninth standard parallel; between Ts. 35 and 36 through Rs. 38 and 39; between Rs. 38 and 39 through Ts. 37, 38, 39; between Rs. 39 and 40, through Ts. 38 and 39; between Rs. 41 and 42 completed through Ts. 38 and 39; between Rs. 42 and 43; 43 and 44, completed through Ts. 38, 39, 40; between Ts. 38 and 39, 39 and 40 through Rs. 39, 40, 41, and 43; also the completion of the exterior boundaries of T. 41 of R. 44; also the subdivisional and meander lines of T. 36 of Rs. 38 and 39 of T. 39 of Rs. 39, 40, 41; of Ts. 39 and 40 of R. 43, and of T. 41 of R. 44. All townships north and all ranges west of the sixth principal meridian South Dakota.	4,000.00
Total .....				12,400.00

## REPORT OF THE SURVEYOR-GENERAL OF OREGON.

UNITED STATES SURVEYOR-GENERAL'S OFFICE,  
*Portland, Oregon, July 1, 1892.*

SIR: In compliance with instructions contained in your letter (circular) E, dated February 20, 1892, I have the honor to submit, in duplicate, my annual report of the surveying operations in this district for the year ending June 30, 1892, accompanied by tabulated statements, as follows:

A. Contracts awarded by the surveyor-general of Oregon on account of the \$24,700 assigned to his district for surveys for the fiscal year ending June 30, 1892.

B. Contracts entered into by the surveyor-general of Oregon for the survey of public lands, payable from special deposits by individuals, for the fiscal year ending June 30, 1892.

C. Special deposits made by the Oregon and California Railroad Company during the fiscal year ending June 30, 1892.

In regard to the operations in the field and office, I have the honor to report that the aggregate number of miles surveyed and reported to your office since my last report are as follows, viz:

Meridian lines, 12 miles; standard lines, 7 miles, 3 chains, and 65 links; township lines, 246 miles, 5 chains, and 14 links; subdivisional lines, 1,173 miles, 70 chains, and 25 links.

These surveys embrace a total of 1,438 miles, 79 chains, and 4 links; and an aggregate of 447,879.70 acres.

Since my last annual report there have been prepared by this office 55 books of certified field notes; 4 plats of meridional line; 30 plats of exterior lines; 112 plats of subdivisional lines; 23 special plats; 33 descriptive lists; and 1,006 official letters were written, covering 1,199 pages.

The local land office at Lakeview was furnished one swamp land list, No. 79, embracing 1,046.46 acres.

There were prepared for deputy surveyors 23 special instructions, of which there were three copies of each made.

There were prepared for the use of special agents and deputy surveyors in the field 155 plats and 1,052 pages of transcript field notes.

During the fiscal year ending June 30, 1892, there has been deposited for office work in connection with survey of mining claims, \$720.

Authority issued for the survey of 21 mining claims.

Number of mining claims surveyed and reported.....	14
Number of transcripts of field notes of mining claims made.....	14
Number of mining claim maps made (original).....	14
Number of mining claim maps made (copies).....	54
Number of reports of examinations of placer mines made.....	3
Amount expended for office work in connection therewith.....	\$480

In regard to the condition of contracts entered into with United States deputy surveyors prior to July 1, 1891, I must say contracts Nos. 558, 559, 560, 561, 564, 569, 577, and 579, as well as contracts Nos. 555 and 556, reported last year as awaiting your action, have been properly reported to your office, accepted and the accounts closed. Contract No. 551, made with John C. Arnold, United States deputy surveyor, dated March 19, 1890, was duly reported to this office, but some explanations being required, and owing to an insufficiency of clerical assistance, the work is not yet forwarded to your office. Contracts Nos. 562, 567, 568, 570, 571, 572, 573, 574, 576, 578, 580, and 581 are reported as properly executed in the field and are now ready for field inspection and approval. The deputy surveyors under contracts Nos. 557, 563, and 575 have asked for an extension of time in which to finish their work. Said extension of time having been granted to them, they are now in the field prosecuting the surveys embraced in their respective contracts.

Gen. W. H. Odell was duly appointed a United States deputy surveyor May 23, 1892, in accordance to instructions from the honorable Commissioner General Land Office,

dated April 7, 1892, to survey unsurveyed lands in the Siletz Indian Reservation for allotments to Indians.

Alonzo Gesner was appointed a special inspector of surveys November 14, 1891, to examine and report upon the surveys executed by W. James Culver under his contract No. 558 and also those executed by Simon B. Cathcart under his contract No. 559. His report was received, accepted, and his account closed.

Rufus S. Moore was also appointed a special inspector of surveys April 20, 1892, to examine and report upon the surveys made by Alonzo Gesner under his contract No. 557, those made by Peter Applegate under his contract No. 571, those made by Robert O. Collier under his contract No. 572, those made by William M. Bushey under his contract No. 573, those made by Manias Buchanan under his contract No. 582, and those made by Henry Meldrum under his contract No. 583. Also those made by Andrew L. Porter under his contract No. 578. Mr. Moore's reports are all in and will be forwarded soon.

In conclusion, I will again refer to a matter which I consider of vital importance to the usefulness of this office. I am not advised of the amount provided in the pending legislative, executive, and judicial appropriation bill for clerical assistance in this office for the fiscal year ending June 30, 1893, but if the amount is no larger than for the fiscal year just ended, viz, \$3,000, the final adjustment of surveys will be greatly delayed. I therefore trust and hope that more adequate appropriations may be made for this purpose in the future. It be will readily observed that liberal appropriations for surveys avail but little for the immediate relief of settlers unless they are followed by timely and adequate appropriations for clerk hire in connection therewith.

Trusting that this report may meet with your approval,

I am, very respectfully,

W. HENRY BYARS,  
*United States Surveyor-General for Oregon.*

The COMMISSIONER OF THE GENERAL LAND OFFICE,  
*Washington, D. C.*

*A.—Contracts awarded by the surveyor-general of Oregon on account of the \$24,700 assigned to his district for the fiscal year ending June 30, 1892.*

# REPORT OF THE SURVEYOR-GENERAL OF UTAH.

UNITED STATES SURVEYOR-GENERAL'S OFFICE,  
Salt Lake City, Utah, July 1, 1892.

SIR: I have the honor to submit herewith, in duplicate, the annual report of the United States surveyor-general's office for the District of Utah for the fiscal year ending June 30, 1892, accompanied by the following tabular statements, viz:

A. Statement showing condition of resurvey of public lands under appropriation for resurvey, approved during the fiscal year ending June 30, 1892.

B. Statement showing condition of survey of public lands under regular appropriation, returned and approved during the fiscal year ending June 30, 1892.

C. Statement showing condition of survey of public lands surveyed under repayments made by the Union Pacific Railroad Company, approved during the fiscal year ending June 30, 1892.

D. Statement showing number of townships, extent of mileage, and character of soil surveyed under repayments made by the Union Pacific Railroad Company, and approved during the fiscal year ending June 30, 1892.

E. Statement showing number of townships, extent of mileage, and character of soil surveyed under regular appropriation for the survey of public lands, approved during the fiscal year ending June 30, 1892.

F. Recapitulation, showing number of miles of surveys approved and number of acres embraced therein during the fiscal year ending June 30, 1892; also total number of acres surveyed in the Territory up to June 30, 1892.

G. Statement showing contracts returned prior to June 30, 1892, that are now being examined in the office, but which have not yet been approved by the Surveyor-General.

H. Statement showing contracts let prior to the commencement of the fiscal year ending June 30, 1892, the plats and field notes of which have not yet been returned to the office.

I. Statement showing contracts let during the fiscal year ending June 30, 1892, the field work of which is not yet completed.

The above statements show that the number of miles of surveys approved was 1,142 miles, 33 chains, 61 links; the number of acres of public lands surveyed up to June 30, 1892, to be 13,037,785.66; the number of contracts returned to this office, but not yet approved, to be 6; the number of contracts let prior to the commencement of the fiscal year ending June 30, 1892, but which have not yet been returned to this office, to be 3; also that 4 contracts, amounting to \$5,000 in the aggregate, were let during the fiscal year ending June 30, 1892.

There were 57 township plats and 24 supplemental township plats made and approved during the year, also 16 township plats that are not yet approved. There has also been about the usual amount of miscellaneous drafting, tracing, etc., done in the agricultural department.

The Central Pacific Railroad Company deposited on selections \$473.43 for field-work and \$59.18 cents for office work, making a total of \$532.61 during the fiscal year ending June 30, 1892.

The Union Pacific Railroad Company deposited on selections \$3,308.63 for field-work and \$413.58 for office work, making a total of \$3,722.21 during the fiscal year ending June 30, 1892.

There were not any special deposits by individuals for the survey of public lands made during the year.

In the mineral department there were 222 orders issued during the year as follows:

151 lode claims at \$27 .....	\$4, 077. 00
33 amended surveys at \$15 .....	495. 00
4 placer claims at \$27 .....	108. 00
4 mill sites (with lode) at \$10 .....	40. 00
30 consolidated claims, embracing 100 locations, at a total cost of .....	2, 700. 00
	<hr/>
	7, 420. 00
Paid for conflicts .....	1, 071. 50
	<hr/>
Making a total of .....	8, 491. 50

paid into this department of the office during the year.

There were 693 mineral plats made, embracing 113 single lode claims, 24 consolidated claims, 46 amended claims, and 7 mill sites.

There are 26 mineral claims in process of working up.

There are 15 mineral claims in the office that have not been taken up.

There are 38 mineral claims suspended in this office awaiting corrections.

In addition to this work the mineral department has examined and approved 65 additional field notes, for which this office has made no charge to claimants.

During the past year but little time could be spared from the current work of the office for work on the connected plats of the mining surveys, and they are, therefore, practically in the same condition now as at the end of the two previous fiscal years, and I must again urgently request that an appropriation, even if it be a small one, be made for this purpose.

I would respectfully refer you in this connection to my estimates of June 19, 1889, July 9, 1890, and July 28, 1891, in which the estimated amount required for field and office work, to properly complete a set of connected plats is given at \$5,000.

I have the honor to be, most respectfully,

ELLSWORTH DAGGETT,  
*United States Surveyor-General for Utah.*

The COMMISSIONER OF THE GENERAL LAND OFFICE,  
*Washington, D. C.*

Total .....				5,000.00

\* Payable from regular appropriation for resurvey and survey of public lands, approved March 3, 1891, for fiscal year ending June 30, 1892.

# REPORT OF THE SURVEYOR-GENERAL OF WASHINGTON.

OFFICE OF THE UNITED STATES SURVEYOR-GENERAL,  
Olympia, Wash., July 6, 1892.

SIR: I have the honor to transmit inclosed herewith the annual report of this office for the fiscal year ending June 30, 1892, accompanied by the following tabular statements:

A. Statement showing condition of contracts not closed at date of last annual report.

B. Contracts let for the survey of public lands in the State of Washington under the appropriation for the fiscal year ending June 30, 1892.

The accompanying statements show the aggregate number of miles surveyed during the past fiscal year, as follows:

	Measurements.	
	Miles.	Chains.
Standard lines run .....	19	72.10
Township lines run .....	98	54.33
Section lines run .....	528	32.72
Meander lines run .....	69	25.82
Indian reservation boundary lines run .....	105	43.79
Total number of miles surveyed.....	821	68.76

Number of townships surveyed and accepted .....	11
Number of mineral plats made for mines and mill sites.....	544
Number of mineral surveys.....	131
Number of plats, tracings, etc., made .....	381
Aggregate deposits for office work, mining claims.....	\$4,865

The special deposits for public land surveys, viz: For field work, \$2,040; for office work, \$300, were made July and August, 1882.

No deposits have been made by railroad companies for cost of surveys and office work.

In addition to the foregoing statement of townships surveyed and plats made there are now in this office the returns of survey of 33 townships, for which 105 plats and the transcript of the field notes have been made. The returns of survey of 24 of these townships are now held in this office awaiting examination of the surveys in the field.

There have been received, examined, approved, and forwarded for the examination and approval of the Secretary of the Interior applications made and supported by the affidavits of 385 actual settlers for the survey of 40 townships. There are in the office—not forwarded, but awaiting the fiscal year of 1893, 144 applications for the survey of 17 townships. These applications are supported by the petitions and affidavits of 144 actual settlers.

The provision of the law which gives to the State of Washington augmented rates (\$25, \$23, \$20) for the survey of the public lands provides that the payment of these rates shall be under the direction of the Secretary of the Interior. The instructions prepared under and issued by the direction of the Secretary require that all applications for surveys made by settlers, bids for contracts, contracts, and all other acts connected therewith shall be submitted to the Secretary for his approval and direction. Proceeding under office instructions, amended October 13 and enlarged by the direction of the Secretary December 8, 1891, has put bona fide settlers on public lands to many hardships and has resulted in the delay in the survey of the public lands in this district.

The time in this district during which the surveys can be prosecuted in the field under the most favorable conditions is short. The fact that considerable time is required in the spring (after the long, rainy winter season) for the heavy timber and dense undergrowth to dry, so that a contracting deputy may proceed with his work, should be a factor in the preparation and consideration of instructions for the survey of the public lands in this district.

The general instructions for the year 1892, as amended by the special instructions of Secretary John W. Noble of December 8 and 23, 1891, while in force and unchanged, which were annulled and abrogated by telegram June 25, 1892, delayed the survey of those public lands which had been regularly and properly petitioned for, and the petitions and applications for which had been approved and the survey authorized and ordered on October 13, 1891. In justice to the State itself and to the settlers upon the public lands within the State all the public lands in the State should be surveyed as rapidly as possible. This district should be relieved from all special instructions and complications not incident to every other district. The provisions and provisos of the appropriation for the survey of the public domain in this district places the survey of the public lands upon an entirely different and dissimilar basis from that of any other district, with the possible exception of Oregon. This condition requires and should have distinct and special instructions for the direction and control of the surveyor-general and the deputies.

A statement of the situation in and necessities of this district, together with proposed amendments to the law and modifications of the annual instructions that would simplify and expedite the business of this district in the survey of the public lands have heretofore been submitted for the advice and consideration of the Secretary of the Interior. The annual and special instructions each year seem to increase rather than diminish the complications and delay.

I would respectfully suggest, for reasons that have been heretofore presented, that the survey of the public lands in this State may be greatly and advantageously expedited by authorizing the surveyor-general to forward with each approved petition and application for survey a contract made with a competent deputy for the survey of the same; that an application filed by the State for the survey of any lands from which it is proposed to make selections under the several grants be accepted without any of the conditions and circumlocution that are required in applications of settlers upon the public lands.

I would further recommend, in view of the unusual difficulties of the survey of the public lands in this State and the small compensation—measured by the character and difficulties of the work—and the very high value of money, that examiners of surveys be assigned to this district or an adequate apportionment of funds for the examination of surveys be made to this district, to the end that examinations may be made as soon as practicable after the completion of the surveys in the field. The capital used by the deputies is not secured by them for a less interest than 10 per cent, and in many instances 18 per cent is paid. The deputies have been in some instances compelled to wait one, two, and three years for the payment of moneys due them. This, it seems, must be a very great hardship to hard-working, deserving men.

I would, in closing this report, recommend that the attention of Congress be called to the advisability of excepting the State of Washington from the proviso that has been placed in the law restricting the survey of the public domain to lands agricultural in character. Confining the surveys in this manner limits the enterprise, progress, and development of the State and fosters coal and lumber monopolies.

The timber and coal lands should be surveyed under necessary restrictions as to their sale and disposal. The opening up of these lands to the enterprise of private capital would aid in the development, growth, and prosperity of the State and would not in any way injure the general public or the Government.

Respectfully,

THOS. H. CAVANAUGH,  
*United States Surveyor-General, Washington.*

THE COMMISSIONER OF THE GENERAL LAND OFFICE,  
*Washington, D. C.*

A.—Condition of contracts not closed at date of last annual report.

## REPORT OF THE UNITED STATES SURVEYOR-GENERAL OF WYOMING.

---

UNITED STATES SURVEYOR-GENERAL'S OFFICE,  
*Cheyenne, Wyo., June 30, 1892.*

SIR: In compliance with instructions contained in your circular letter A, dated February 20, 1892, I have the honor to submit herewith my annual report, in duplicate, of the surveying operations in the district of Wyoming for the fiscal year ending June 30, 1892, with tabular statements, as follows, viz:

A. Statements of contracts entered into under the regular appropriation for the fiscal year ending June 30, 1892.

B. Statement of mineral surveys platted and transcribed.

C. Statement of deposits made by individuals for office work on mineral surveys.

Under the appropriation of \$30,000 for surveys in this district five contracts were entered into, and the complete field notes of the work done under contract No. 243, with J. E. Shannon and A. L. Coleman, United States deputy surveyors, dated July 22, 1891, and contract 244, with J. E. Shannon, United States deputy surveyor, dated September 26, 1891, have been filed in this office, have been examined, platted, transcribed, and approved. The field notes under contracts Nos. 245, dated January 23, 1892; 246, dated February 19, 1892, and 247, dated March 8, 1892, have not yet been returned to this office. The deputies, however, have been in the field some weeks, and their field notes will be filed in this office prior to the expiration of the time prescribed by their contract.

Of contract No. 236, H. B. Carpenter, deputy surveyor, dated March 22, 1890, the remainder of the field notes of survey embracing the exterior lines of one township and the subdivisional lines of eight townships in the Shoshone Indian Reservation, and which were not returned before the close of the last fiscal year, have been filed in this office, the notes examined, the plats and transcripts made, and the survey and accounts approved and paid.

Of contract No. 238, dated June 25, 1890, William O. Owen, deputy surveyor, the field notes of which were not filed during the last fiscal year, the said field notes which were filed during the current fiscal year have been examined, platted, transcribed, and approved, the triplicate plats filed in the proper local land office, and the account thereunder approved and paid.

Of contract No. 240, with Shannon and Coleman, deputy surveyors, dated April 21, 1891, and contract No. 241, with Carpenter and Warner, deputy surveyors, dated April 1, 1891, the field notes pertaining to these contracts have been returned to this office during the current fiscal year, have been examined, and the plats and transcripts made, and the accounts thereunder rendered and approved.

The field notes under contract 242, William M. Gilcrest, deputy surveyor, dated June 30, 1891, for the survey of the Fort Bridger Military Reservation, have been filed in this office during the current fiscal year, and have been examined, platted, and transcribed, and the account thereunder rendered, approved, and paid.

### SPECIAL DEPOSITS.

There were no special deposits for the survey of public land during the current fiscal year.

Aggregate of miles surveyed in this district, as embraced in surveys, the field notes

of which have been received and approved by this office under contracts Nos. 236, 238, 240, 241, 242, 243, and 244 during the fiscal year:

	Measurements.		
	Miles.	Lks.	Chs.
Indian surveys:			
Township lines .....	16	59	67
Subdivisional lines .....	395	17	88
Meander lines .....	24	23	30
Total for Indian surveys .....	436	20	85
Public land, including abandoned military reservation:			
Standard lines .....	411	13	78
Township lines .....	696	28	37
Subdivisional lines .....	2,929	07	72
Meander lines .....	253	06	43
Total of public land surveys .....	4,289	56	30

Total number of miles surveyed under all contracts approved during the fiscal year, 4,725 miles and 77.15 chains.  
Total area of land surveyed by completion of contract No. 236, in the Shoshone Indian Reservation, approved during the fiscal year, 164,687.47 acres; making a total area of Indian lands surveyed under said contract 436,986.88 acres.  
Total area of land embraced in the surveys of townships under all other contracts approved during the fiscal year, 1,256,402.63 acres.  
Total area of land embraced in surveys approved during the fiscal year, 1,421,090.10 acres.

Aggregate of office work done during the fiscal year.

Number of plats and diagrams made .....	258
Number of transcripts of field notes .....	123

Contracts have been made for the full amount apportioned to this district for surveys for this fiscal year. The deputy surveyors are now in the field engaged upon surveys, the aggregate liability upon which is \$23,700. The field notes of these surveys will be returned to this office during the first quarter of the next fiscal year.  
The surveys made in this district during the last three fiscal years have been of great benefit to many settlers occupying unsurveyed land and to others seeking homes. The filing of the triplicate plats with the local land offices has been followed in every instance by a large increase in the business of the offices. There still remain many localities in which there are large numbers of people living upon unsurveyed land. A liberal appropriation for surveys will be necessary in this district for several years, and will prove mutually profitable to both the Government and the people. So many suggestions, statements, and estimates in regard to the insufficiency of appropriations for clerk hire have been made by the different surveyors-general, only to be entirely ignored by Congress, that it seems like a waste of time to allude to the subject again. This office begins the new fiscal year with a deficiency of \$7,000 of clerk-hire funds, calculated upon the field work which will be carried over from the former year. This is caused by the appropriations for clerk hire not being in proportion to those made for surveys. It has been demonstrated that deficiency appropriations do not afford the desired relief. They are made so late in the year that it is impossible to obtain sufficient skillful clerical assistance to bring up the work in arrears in the few months during which the fund is available. If proper amounts for clerk hire for the different districts were appropriated for any one fiscal year, the work could be kept up with smaller annual appropriations thereafter.

Very respectfully,

WM. A. RICHARDS,  
U. S. Surveyor-General.

The COMMISSIONER OF THE GENERAL LAND OFFICE,  
Washington, D. C.

## 496      REPORT OF COMMISSIONER OF GENERAL LAND OFFICE.

A.—*Contracts entered into under the regular appropriation for the fiscal year ending June 30, 1892.*

Contracts.		Surveyors.	Description of surveys.	Estimated liability.
No.	Date.			
243	1891. July 22	J. E. Shannon and A. L. Coleman.	The seventh standard parallel west from the standard corner to Ts. 29 N., Rs. 108 and 109 W., to the standard corner to Ts. 29 N., Rs. 112 and 113 W.; the east boundaries of Ts. 25, 26, 27, and 28 N., Rs. 111 and 112 W.; the north boundaries of Ts. 25, 26, and 27 N., Rs. 111 and 112 W.; the subdivisional lines of Ts. 23 N., Rs. 111 and 112 W.; T. 24 N., Rs. 109, 110, 111, and 112 W., and of Ts. 25, 26, 27, and 28 N., Rs. 111 and 112 W. of the sixth principal meridian. Meander lines included in special instructions.	\$6,000.00
244	Sept. 26	J. E. Shannon.....	The west boundary of T. 24 N., R. 110 W.; the west boundaries of Ts. 23 and 24 N., R. 111 W., and the north boundaries of T. 23 N., Rs. 111 and 112 W., of the sixth principal meridian. Meanders included in special instructions.	300.00
245	1892. Jan. 23	H. B. Carpenter and J. F. Warner.	The tenth standard parallel north, west from the standard corner to Ts. 41 N., Rs. 108 and 109 W., 24 miles; the fourteenth guide meridian west, north from the tenth standard parallel north, 18 miles; the thirteenth auxiliary meridian west, south from the tenth standard parallel north, 12 miles; the fourteenth guide meridian west, south from the tenth standard parallel north, 12 miles; the exterior and subdivisional lines of Ts. 39, 40, 41, 42, and 43 N., Rs. 109, 110, 111, and 112 W., and the subdivisional lines of T. 41 N., R. 108 W., and the unsurveyed subdivisional lines of T. 41 N., R. 107 W., of the sixth principal meridian.	15,000.00
246	Feb. 19	J. E. Shannon.....	The eighth standard parallel north, west from the standard corner to T. 33 N., Rs. 108 and 109 W., 24 miles; the fourteenth guide meridian west, north from the standard corner to T. 29 N., Rs. 112 and 113 W., to the eighth standard parallel north, and the exterior, subdivisional, and meander lines of Ts. 29, 30, 31, and 32 N., Rs. 109, 110, 111, and 112 W., of the sixth principal meridian.	5,000.00
247	Mar. 8	A. L. Coleman.....	The twelfth guide meridian west, north from the fourteenth standard parallel north, to the north boundary of Wyoming; the twelfth auxiliary meridian north, from the fourteenth standard parallel north, to the north boundary of Wyoming, and the exterior and subdivisional lines of Ts. 57 N., Rs. 97, 98, 99, 100, 101, and 102 W., and of fractional Ts. 58 N., Rs. 97, 98, 99, 100, 101, and 102 W., of the sixth principal meridian.	3,700.00
